Fun-Schooling Curriculum - Homeschooling with Minecraft Sarah Janisse Brown. 2017-02-13 Fun-schooling Curriculum - Homeschooling with Minecraft: The Beginners Journal Animal and Farm Theme B1 & B2 ideal for ages 7-10 (1st-3rd grade) This Minecraft based curriculum is perfect for creative children, and for new homeschoolers. Cover all basic Elementary subjects while having fun with farming, building, design and animals in the Minecraft world. Our delight directed approach works great for all students, especially those resistant to anything school-related. Uses the Dyslexie Font to make reading easy for children with reading confusion. Perfect for students with Dyslexia, Asperger's Syndrome, ADHD and other learning challenges. Mrs Europaea's family loves this book: Fun-schooling with Thinking Tree Books has saved my family endless bouts of tantrums from my child who was always too anxious to focus in a traditional school setting and would act out. With this newest book, Homeschooling with Minecraft, the Browns have once again created a multipurpose curriculum that could be used simultaneously with various ages. It is such a blessing and stress reliever to be able to teach both my 9 year old nephew and my own children ages 5 and 3 out of the same text, only having to supplement with reference resources that are age appropriate. This book offers journal prompts, varying levels of math, drawing ideas, coloring pages, geography and much more. It doesn't matter which method you are using, Mason, Waldorf, Classical or even if you are Unschooling, Thinking Tree Books are appropriate to meet any educational goal. M. Ward loves how this journal compares Minecraft to real life: This journal incorporates everything my son loves: animals, lego, nature, books, and of course Minecraft. And the best part about it all is that he loves working in these journals, and it's fun for him and not drudgery like so many school workbooks. It allows him to express his creativity even while working on subjects like math, so much so that it doesn't even feel like school. I especially love the pages in this journal where he is to compare real life animals or farming to that which he sees on Minecraft. I see this meshing well with real hands on gardening (which we were already planning to do this spring). He's still working on his

reading fluency, so I'm happy to have something with which he can further his education on other topics without being hampered by his stage of literacy.
