**Topics for Group Discussion** Prof Shrikant Prasoon.2017-09 There are no specific rules to prepare for a GD. And no one knows what the topic of GD is going to be. This book includes topics that are likely to be put by the Group Testing Officer before the candidates to gauge their personality and leadership qualities. It will be a good idea to keep yourself abreast with topics from: 1. Current Affairs - Current Affairs is something that you have to be thorough with. Understand the recent crises affecting the world, latest developmental initiatives, and important national & global events. 2. Historical topics- Have a fair knowledge about the history of India and the world. Having historical information will help you cite examples and make references whenever needed. 3. Sports, Arts & Literature - In these topics, try to have a decent idea about what is popular, who are the leaders in each area, the latest that has happened in these areas. 4. Data crunching - Do familiarize yourself with important data. Throwing in some data if required in your GD will definitely create an impression among the assessors. Speak with a measure of confidence on the given topic; and secure the nod of the evaluator.

Bernard White, a widower who has isolated himself for years after a family scandal, can’t stop thinking about the murder of an old friend—and what it means for his fellow octogenarians as the death toll rises. He convinces the neighborhood’s geriatric residents to band together to protect one another. But the Originals, as they are known, can’t live together forever. As it is, Bernard is pressing his luck with the woman he’s moved in with. Maddie Lowe is a teenager trying to balance her waitressing job and keeping her family intact after the disappearance of her mother, even as their neighborhood becomes more dangerous by the second. She has information crucial to solving the crime. But she doesn’t realize it-until it’s almost too late. Their paths converge around the killer terrorizing their neighborhood and they are all faced with a life—or death—decision... A gripping page-turner that explores the strange connections between strangers, the past and the present, and the power of tragedy to spark renewal, *The Other Side of Everything* marks the exciting debut of a vibrant and riveting new voice.

**Intermediate English Discussion Topics** Nigel Mark Openshaw.2017-06-21 The lessons that follow can be adapted to run from 30 to 90 minutes.

They often start with about 5-10 minutes of free talking. This can cover how the students are, what they have been doing or plan to do, as well as contributions from the teacher. The structure of the lessons is modular, with clear and obvious steps to take. Everything starts with the teacher's preparation work. Depending on the students' ability, topics might need a quick worksheet or short classroom activity at the start of the lesson, and you will need to set aside time to devise this. The purpose of each lesson is for students to gain confidence and increase their vocabulary by talking about different topics. If they are unsure about what to do, this might mean introductory work is needed first. I have taught classes with anything up to twenty students using these materials. The lessons are easy to adapt depending on your classroom size and level. For example, with a large class you can encourage smaller groups to discuss topics together and then ask students to share their ideas with the whole class. Be aware of students' sensitivities. Some students may be a little nervous about expressing their opinions and emotions in front of the class. However, over time, they will come to realize that everyone else feels the same and their confidence will improve.

*Questions on Topics That Matter* Vicki K. Silverman.2018-11-20 Today and every other day, errands, technological challenges, demands and needs of others, and the prevalence of controversial world news lurk around every corner. At some point, we may wonder how to balance everything and go to sleep feeling a sense of satisfaction that it has been a good day. How many of us really take the time to consider the bigger picture and strategize what to do when life feels too complicated? How could we find a true sense of contentment in our everyday existence? Young parents, after all, methodically go through each day overseeing the daily needs of their children. Others balance business demands, time with family and friends, and outside interests. We get to meetings where and when we need to; we manage homes, bills, text messages, blogs, and complex daily schedules. Then, we go to bed exhausted, fall asleep (or not), and wake up the next day, wondering, hmmm, what was yesterday all about?What if we could consider the issues we face, and, at the same time, challenge ourselves from within? How could we do that and what would that look like?Imagine meeting with a small group once a month, at someone's home or through an on-line group, all bringing different life experiences and expertise to discussions. Or, if you prefer to do this by yourself, envision thinking about the topics in the privacy of your home. People try daily to balance their hectic personal, family, business, political, and social commitments. A need has surfaced in adults of all ages to set aside time to define themselves and their

values and examine what is truly important in life. This is a book for anyone who wants to consider topics of interest alone or to form a group and engage in reflective discussion about such subjects as forgiveness, authenticity, letting go, criticism, curiosity, gratitude, and many more.
