Jaspers Beanstalk Nick Butterworth,Mick Inkpen.2006-03-01 On Monday Jasper finds a bean. In spite of all the attention he lavishes on it, the bean will just not grow. This deceptively simple story encompasses a wealth of material to stimulate children's learning and imagination - days of the week, the passing of time, what plants need to grow, magical beanstalks and giants! This audio version by Timothy Spall - with specially composed music - will enchant listeners, and also provides a perfect complement to the book for all adults using it with children learning to read. The second side has the reading without music and with page-turn signals.

Behind Our Eyes Sanford Rosenthal, Executive Director.2007-12 I'm always impressed by pioneering efforts. This anthology represents a noteworthy beginning for this group of writers. From the triumphs over adversity dramatized in the first section, to the heartwarming and heartbreaking stories and poems of the final grouping, they show us sensitivity and inspire strength. They show us disability as it is lived honestly. Fables, fantasies, and tips about writing add something new, making this publication a unique contribution to disability literature.-Erik Weihenmayer, author of Touch the Top of the World and The Adversity Advantage Disabled people, in most ways, are just like everyone else. So it should come as no surprise that the stories, essays, and poems in Behind Our Eyes deal with situations and emotions that confront all of us: family and marriage, love and heartbreak, discord, appreciation of nature, and the desire to engage in the world more fully. In this uplifting collection, we read about the dedication of a guide dog who protects a blind woman and her young children from a burglar until police arrive; the inner struggle for a stroke victim whose world is rearranged overnight; the challenges faced by disabled children, spouses, and seniors when their families see their limitations instead of their abilities; the difficulty faced by a blind man coping with a team of insensitive doctors and nurses who seem to keep forgetting he can't see;

and much more. A real and candid portrait of life with disability as well as an entertaining foray into the minds and hearts of a beautifully diverse group of people, *Behind Our Eyes* urges and inspires us to meet even our loftiest goals, embrace our individual vulnerabilities, and let our own imaginations soar.

The Purpose Driven Church Rick Warren.2007-09-04 Every church is driven by something. Tradition, finances, programs, personalities, events, seekers, and even buildings can each be the controlling force in a church. But Rick Warren believes that in order for a church to be healthy it must become a purpose driven church by Jesus. Now the founding pastor of Saddleback Church shares a proven five-part strategy that will enable your church to grow. . . - Warmer through fellowship - Deeper through discipleship - Stronger through worship - Broader through ministry - Larger through evangelism. Discover the same practical insights and principles for growing a healthy church that Rick has taught in seminars to over 22,000 pastors and church leaders from sixty denominations and forty-two countries. The Purpose Driven Church® shifts the focus away from church building programs to emphasizing a people-building process. Assistive Technology for People with Disabilities Denis K. Anson.2018-08-09 How would you make a phone call or send email if you couldn't hear, see, or use your hands? This book shows how assistive technology helps individuals with disabilities perform tasks that people without disabilities may take for granted. Assistive technology can be used in two ways: to help people with disabilities to do things that people without

disabilities can do without technology, and to improve access to everyday technology that is not designed for people with disabilities. In both cases, the focus is on matching individuals with the tools best suited to fill their needs. A part of Greenwood's Health and Medical Issues Today series, Assistive Technology for People with Disabilities explores what technologies are available to individuals with disabilities, what they can help them to accomplish, and potential hurdles to their use that must be overcome. It explores this exciting field broadly and in depth while still keeping the people-first mindset that is the hallmark of assistive technology. In addition, it provides guidance and resources for individuals seeking assistive technology for themselves or for a loved one.

Conspiracy of Light D. S. Martin.2013-10-23 There was a time in my youth when I would buy and read any and every book I discovered by C.S. Lewis. What I had found was that he wrote in a way that engaged my mind like no other writer. He was respected in a variety of fields, and held passionately to his faith in Christ. Years later, when I began rereading his books, I was surprised to find that many of the ideas I'd held as my own had been planted by Lewis. Each of the poems in *Conspiracy of Light* springs directly from something Lewis wrote, or from events in his life. The source for some will be obvious, even to casual readers of Lewis. The notes at the end of this book, although unnecessary for reading the poems, direct readers back to the source material. I would be pleased if my poems expand readers' appreciation of Lewis and bring them back to his work. November 22nd of this year marks the fiftieth anniversary of the death of C.S. Lewis. His is a legacy that will continue to grow as the years pass. Here I honor him, and the one for whom he wrote.

The Wings Yi Sang. 2015-01-10 Yi Sang was the most famous avant-garde writer of the colonial era. In his work he experimented with language, interiority, separation from inside one's self as well as the outer world. His poems, particularly, were influenced by Western literary concepts including Dadaism and Surrealism. *The Wings* is simple, apparently dumb and at least partly autistic. He lives in one room, kept by a wife who works as a prostitute; he understands neither sex nor money, but something of their importance is clear to him. When he begins to go out while his wife is with clients, to wander the streets at night, what order there is to his life disintegrates.

The Lost Words .2022-05 The Lost Words by composer James Burton takes its inspiration and text from the award-winning 'cultural phenomenon' and book of the same name by Robert Macfarlane and Jackie Morris: a book that was, in turn, a creative response to the removal of everyday nature words like acorn, newt and otter from a new edition of a widely used children's dictionary. Both the book and Burton's 32-minute work, which is written in 12 short movements for upper-voice choir in up to 3 voice parts (with either orchestral or piano accompaniment), celebrates each lost word with a beautiful poem or 'spell', magically brought to life in Burton's music. At its heart, the work delivers a powerful message about the need to close the gap between childhood and the natural world. Burton's piece was co-commissioned by the Hallé Concerts Society for the Hallé Children's Choir and the Boston Symphony Orchestra. The piano accompaniment version was premiered at the Tanglewood Festival in 2019 by the Boston Symphony Children's Choir, of which Burton is founder and director. The Hallé Children's Choir will premiere the orchestral version of the full work in Manchester, UK, post-pandemic. Vocal Score Co-commission by Boston Symphony and Hallé Concerts Society for their respective Children's Choirs. Two versions - with orchestral or with piano accompaniment. The vocal score is the same for both versions. James Burton is a composer but also a conductor. He is conductor of the Tanglewood Festival Chorus and choral director of the Boston Symphony. The book The Lost Words, exquisitely designed, has won multiple awards and is an international best-seller. The vocal score includes Jackie Morris's beautiful imagery in its cover design.
