The Washington Post From the author of the New York Times and USA Today bestselling novel, THE ALICE NETWORK, comes another fascinating historical novel about a battle-haunted English journalist and a Russian female bomber pilot who join forces to track the Huntress, a Nazi war criminal gone to ground in America. Chinese Stories for Language Learners Vivian Ling,Peng Wang.2021-03-23 The highly anticipated next book in Tuttle's Stories for Language Learners series is here! This book presents 22 classic Chinese proverbs and the traditional tales behind them. The stories are bilingual, with the Chinese and English versions presented on facing pages. Each includes an explanation of how the proverb is used today, cultural notes, vocabulary and discussion questions. Online audio recordings of the tales by native speakers give students a chance to improve their pronunciation and comprehension. Some of the proverbs featured in this collection include: Painting the Eyes on the Dragon Based on the story of a famous court painter in 6th century China who painted dragons, this proverb refers to the finishing touches needed to bring a work of art or literature to life. In a discussion, it refers to the final statements used to clinch the argument. Waiting for Rabbits by a Tree Stump Based on an ancient folktale about a foolish farmer who sees a rabbit kill itself in front of him by running into a tree stump, then gives up tilling his field to wait for more rabbits by the stump. This saying is applied to people who wait passively for luck to strike again. It also refers to impractical people who stick to one way of doing things only because it has worked for them once in the past. Pure Water Has No Fish; Perfect People Have No Friends Many versions of this historical tale exist. The one told here is about a 2nd century AD official sent to govern a far-flung outpost on the Silk Road who is fastidious in applying strict rules and thereby causes the local people to rebel against him. In the professional world, it is used to refer to people who do not like to work with an overly strict supervisor or colleague. Whether being used in a classroom or for self-study, Chinese Stories for Language Learners provides an educational and entertaining way for intermediate Mandarin learners to expand their vocabulary and understanding of the language.

This title has involved interviews with many of the key players in the post-war period as well as research on the vast

**Remembering the Kana** James W. Heisig.2007-04-30 Following on the phenomenal success of Remembering the Kanji, the author has prepared a companion volume for learning the Hiragana and Katakana syllabaries of modern Japanese. In six short lessons of about twenty minutes, each of the two systems of kana writing are introduced in such a way that the absolute beginner can acquire fluency in writing in a fraction of the time normally devoted to the task. Using the same basic self-taught method devised for learning the kanji, and in collaboration with Helmut Morsbach and Kazue Kurebayashi, the author breaks the shapes of the two syllabaries into their component parts and draws on what he calls imaginative memory to aid the student in reassembling them into images that fix the sound of each particular kana to its writing. Now in its third edition, Remembering the Kana has helped tens of thousands of students of Japanese master the Hiragana and Katakana in a short amount of time . . . and have fun in the process.

*Communities and Law* Gad Barzilai.2010-02-05 *Communities and Law* looks at minorities, or nonruling communities, and their identity practices under state domination in the midst of globalization. It examines six sociopolitical dimensions of community--nationality, social stratification, gender, religion, ethnicity, and legal consciousness--within the communitarian context and through their respective legal cultures. Gad Barzilai addresses such questions as: What is a communal legal culture, and what is its relevance for relations between state and society in the midst of globalization? How do nonliberal communal legal cultures interact with transnational American-led liberalism? Is current liberalism, with its emphasis on individual rights, litigation, and adjudication, sufficient to protect pluralism and multiculturalism? Why should democracies encourage the collective rights of nonruling communities and protect nonliberal communal cultures in principle and in practice? He looks at Arab-Palestinians, feminists, and ultra-Orthodox Jews in Israel as examples of the types of communities discussed. *Communities and Law* contributes to our understanding of the severe tensions between democracies, on the one hand, and the challenge of their minority communities, on the other, and suggests a path toward resolving the resulting critical issues. Gad Barzilai is Professor of Political Science and Law and Co-Director of the Law, Politics and Society Program, Department of Political Science, Tel Aviv University.
