**Festival Days** Jo Ann Beard.2021-03-16 A searing and exhilarating new collection from the award-winning author of *The Boys of My Youth* and *In Zanesville*, who “honors the beautiful, the sacred, and the comic in life” (Sigrid Nunez, National Book Award winner for *The Friend*). A *New York Times* Notable Book A *New York Times* Book Review Editors’ Choice A *Boston Globe* and *LitHub* Best Book of the Year When “The Fourth State of Matter,” her now famous piece about a workplace massacre at the University of Iowa was published in *The New Yorker*, Jo Ann Beard immediately became one of the most influential writers in America, forging a path for a new generation of young authors willing to combine the dexterity of fiction with the rigors of memory and reportage, and in the process extending the range of possibility for the essay form. Now, with *Festival Days*, Beard brings us the culmination of her groundbreaking work. In these nine pieces, she captures both the small, luminous moments of daily existence and those instants when life and death hang in the balance, ranging from the death of a beloved dog to a relentlessly readable account of a New York artist trapped inside a burning building, as well as two triumphant, celebrated pieces of short fiction. Here is an unforgettable collection destined to be embraced and debated by readers and writers, teachers and students. Anchored by the title piece—a searing journey through India that brings into focus questions of mortality and love—*Festival Days* presents Beard at the height of her powers, using her flawless prose to reveal all that is tender and timeless beneath the way we live now.

*The Defenestration of Bob T. Hash III* David Deans.2008-07-29 In a picture-postcard town, in the sunny suburban home of Bob T. Hash III, something altogether strange and amazing has occurred: An African gray parrot (and beloved pet) named Comenius has suddenly and unexpectedly transformed into a man. It seems this unassuming exotic bird, heretofore content to mind its own business, has miraculously metamorphosed into the spitting image of his unsuspecting master, Bob T. Hash III—right down to the smartly pressed suit, dashing necktie, and sensible horn-rims. As luck (or some darker design?) would have it, no one witnesses this astonishing feat of shapeshifting. And in a serendipitous twist of fate (luck’s fickle cousin), the genuine Bob T. Hash III—having apparently absconded to Acapulco with his charming assistant—is conveniently AWOL. Thus the coast is clear for the puzzled (but not entirely displeased) parrot to exit the wings and do what parrots do best: imitate their owners—a charade the avian impostor rises to effortlessly, slipping with nary a misstep into the shoes, the career, and even the marital bed (!) of Bob T. Hash III. But when, having taken the reins as CEO of the Acme International Institute of Languages, he stumbles upon a heinous act of corporate (and grammatical) sabotage, Comenius begins to suspect he’s being stalked—by himself—and it suddenly looks as if his best laid plans might just be heading south. Think Kafka, inverted, upended, and gleefully reverse-engineered by Monty Python. Think Borges, deconstructed by Lewis Carroll and reassembled with spare parts scavenged from *The New Yorker* and *MAD*. Analogies abound, yet nothing can truly compare to the comic broadsides, dazzling wordplay, cheeky wit, and wholly original flights of imagination working their magic in David Deans’s inventive new novel.

**Death and Salvation in Ancient Egypt** Jan Assmann.2011-11-14 Human beings, the acclaimed Egyptologist Jan Assmann writes, are the animals that have to live with the knowledge of their death, and culture is the world they create so they can live with that knowledge. In his new book, Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole. Drawing on the unfamiliar genre of the death liturgy, he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt. Assmann describes in detail nine different images of death: death as the body being torn apart, as social isolation, the notion of the court of the dead, the dead body, the mummy, the soul and ancestral spirit of the dead, death as separation and transition, as homecoming, and as secret. *Death and Salvation in Ancient Egypt* also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual.

*Realising REDD+* Arild Angelsen.2009-01-01 REDD+ must be transformational. REDD+ requires broad institutional and governance reforms, such as tenure, decentralisation, and corruption control. These reforms will enable departures from business as usual, and involve communities and forest users in making and implementing policies that affect them. Policies must go beyond forestry. REDD+ strategies must include policies outside the forestry sector narrowly defined, such as agriculture and energy, and better coordinate across sectors to deal with non-forest drivers of deforestation and degradation. Performance-based payments are key, yet limited. Payments based on performance directly incentivise and compensate forest owners and users. But schemes such as payments for environmental services (PES) depend on conditions, such as secure tenure, solid carbon data and transparent governance, that are often lacking and take time to change. This constraint reinforces the need for broad institutional and policy reforms. We must learn from the past. Many approaches to REDD+ now being considered are similar to previous efforts to conserve and better manage forests, often with limited success. Taking on board lessons learned from past experience will improve the prospects of REDD+ effectiveness. National circumstances and uncertainty must be factored in. Different country contexts will create a variety of REDD+ models with different institutional and policy mixes.

Uncertainties about the shape of the future global REDD+ system, national readiness and political consensus require flexibility and a phased approach to REDD+ implementation.

**The Leader in Me** Stephen R. Covey.2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

*Integration of the Armed Forces, 1940-1965* Morris J. MacGregor.2020-06-18 In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy. Morris J. MacGregor, Jr., received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

**Albion's Seed** David Hackett Fischer.1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

**Slides for Students** Gary D. Fisk.2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that. Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.
