Arts of the City Victorious Jonathan M. Bloom.2007 Fatimid art and architecture has always been somewhat anomalous in the history of islamic art because of the direction it grew (west to east), subject matter (figural at a time when geometry and the arabesque were developing elsewhere), and unusually rich and precise documentation in royal and popular accounts. Whereas earlier studies treated the two and a half centuries of Fatimid art and architecture as a single category, this book is the first to show how they grew and evolved over time.--BOOK JACKET.

The Art and Material Culture of Iranian Shi'ism Pedram Khosronejad.2011-11-30 Shi'i Islam has been the official religion of Iran from the Safavids (1501-1732) to the present day. The Shi'i world experience has provided a rich artistic tradition, encompassing painting, sculpture and the production of artefacts and performance, which has helped to embed Shi'i identity in Iran as part of its national narrative. In what areas of material culture has Iranian Shi'ism manifested itself through objects or buildings that are unique within the overall culture of Islam? To what extent is the art and architecture of Iran from the Safavid period onwards identifiably Shi'i? What does this say about the relationship of nation, state and faith in Iran? Here, leading experts trace the material heritage of Iranian Shi'ism within each of its political, religious and cultural dimensions.

A Companion to Islamic Art and Architecture Finbarr Barry Flood,Gulru Necipoglu.2017-06-16 The two-volume Companion to Islamic Art and Architecture bridges the gap between monograph and survey text by providing a new level of access and interpretation to Islamic art. The more than 50 newly commissioned essays revisit canonical topics, and include original approaches and scholarship on neglected aspects of the field. This two-volume Companion showcases more than 50 specially commissioned essays and an introduction that survey Islamic art and architecture in all its traditional grandeur Essays are organized according to a new chronological-geographical paradigm that remaps the unprecedented expansion of the field and reflects the nuances of major artistic and political developments during the 1400-year span The Companion represents recent developments in the field, and encourages future horizons by commissioning innovative essays that provide fresh perspectives on canonical subjects, such as early Islamic art, sacred spaces, palaces, urbanism, ornament, arts of the book, and the portable arts while introducing others that have been previously neglected, including unexplored geographies and periods, transregional connectivities, talismans and magic, consumption and networks of portability, museums and collecting, and contemporary art worlds; the essays entail strong comparative and historiographic dimensions The volumes are accompanied by a map, and each subsection is preceded by a brief outline of the main cultural and historical developments during the period in question The volumes include periods and regions typically excluded from survey books including modern and contemporary art-architecture; China, Indonesia, Sub-Saharan Africa, Sicily, the New World (Americas)

Metalwork and Material Culture in the Islamic World Venetia Porter,Mariam Rosser-Owen.2012-06-29 The material and visual culture of the Islamic World casts vast arcs through space and time, and encompasses a huge range of artefacts and monuments from the minute to the grandiose, from ceramic pots to the great mosques. Here, Venetia Porter and Mariam Rosser-Owen assemble leading experts in the field to examine both the objects themselves and the ways in which they reflect their historical, cultural and economic contexts. With a focus on metalwork, this volume includes an important new study of Mosul metalwork and presents recent discoveries in the fields of Fatimid, Mamluk and Qajar metalwork. By examining architecture, ceramics, ivories and textiles, seventeenth-century Iranian painting and contemporary art, the book explores a wide range of artistic production and historical periods from the Umayyad caliphate to the modern Middle East. This rich and detailed volume makes a significant contribution to the fields of Art History, Architecture and Islamic Studies, bringing new objects to light, and shedding new light on old objects.

The Glory of Byzantium Metropolitan Museum of Art (New York, N.Y.).1997 Serves as both visual and textual record of the exhibition of the same name, surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261. Conceived as a sequel to the 1976 exhibition Age of Spirituality, which focused on the first centuries of Byzantium. Preceding the catalogue, 17 essays treat the historical context, religious sphere, and secular courtly realm of the empire, and the interactions between Byzantium and other medieval cultures. Frederic Remington Art Museum Collection Brian W. Dippie.2001-04-01 Few American artists are as enduringly popular as Frederic Remington (1861-1909). His bronzes and paintings of the American West have become iconic images, shaping the way Americans view the history of the West. This generously illustrated volume is the first to examine the exceptional collection of his works housed at the Frederic Remington Art Museum in Ogdensburg, New York. In his richly detailed portrait of the artist, Western art scholar Brian W. Dippie traces Remington's life and artistic development. Drawing extensively on Remington's letters, diaries, and other archival materials, Dippie explores some 100 of the most important works in the collection in the context of prevailing social, cultural, and political attitudes -- including the ethnic and racial stereotypes for which Remington's work is sometimes criticized today. An important addition to the Remington literature, this handsome volume highlights Remington's impressive range and underscores his achievements as an illustrator, sculptor, and painter.

Ceramics of Iran Oliver Watson.2020-11-24 A beautifully illustrated showcase of the rich and varied ceramic tradition of Iran Featuring a broad selection of objects from one of the most distinguished collections of Iranian art, this volume brings together over 1,000 years of Persian Islamic pottery. With more than 500 illustrations, authoritative technical treatises, and insightful commentary, Ceramics of Iran assembles a collection of rarely seen treasures from the Persian world and presents a collective history of its renowned ceramic tradition. Included among its comprehensive catalogue entries are numerous translations of the object's inscriptions, providing readers with a richer and more detailed understanding of the cultural heritage from which these items are derived. In addition, the book contains new research and material from previously unknown sites. Featuring all new photography of nearly 250 objects, Ceramics of Iran brings the extraordinary contributions of Persian art into a wider historical context, along with a wealth of images to demonstrate the full scope of its intricate beauty.

Before the Museums Came Leo J. Harris.2013 Before the Museums Came: A Social History of the Fine Arts in the Twin Cities gives an engaging portrayal of the fine arts scene of Minneapolis and St. Paul, Minnesota in the United States, spanning from the appearance of the earliest artists in 1835 to the opening of the first permanent museum, the Minneapolis Institute of Arts in 1915. Readers will learn about the institutions and organizations that were created in support of the fine arts, the early art exhibitions and events, and the collectors, dealers and artists whose efforts made all of that come to fruition. The text -- enriched and supplemented by reproductions of artworks, photographs of various personages, exhibition venues, studios, art galleries, catalogues, and ephemera -- presents a clear understanding of the period and breaks new ground for future scholars to research--Page 4 of cover.
