**Critical Thinking** Bruce N. Waller. 2005 The city of Cork experienced a political odyssey between Easter 1916 and the end of 1918. Wartime policies conceived in London manifested themselves unexpectedly in Cork--The Defence of the Realm Act was used to repress political speech; deficit spending generated massive inflation; mandatory arbitration encouraged workers to join trade unions; food rationing panicked a country scarred by the Potato Famine; and military conscription generated virtual rebellion. As a result, the Cork public increasingly turned against the war. The book examines the political situation in Cork prior to the Easter Rising; local reactions to the rebellion; the rapid creation of the Republican mass movement; the dramatic decline of the Irish Party; the explosion of anti-authority street rioting; the mobilization of women in the independence struggle; disturbances against venereal disease treatments and visiting American sailors; the emergence of radical trade unionism; agitation over the retention of local food supplies; the nationalist mobilization during the Conscription Crisis; and Sinn Féin's triumph in the 1918 General Election.

**Giving Hope: The Journey of the For-Purpose Organisation and Its Quest for Success** Robinson Roe, Peter Dalton. 2019-03-29 This book

provides the synthesis and integration of the intellectual and experiential thinking around organisational leadership and development, focusing on three organisations as case studies: Plan International, Mater Foundation, and Oxfam, with the aim of informing For-Purpose, Not-For-Profit organisations about fundraising leadership. Working with the case study organisations, the authors observed a repeated set of six Fundraisers' Dilemmas. Wanting to solve these dilemmas for Fundraising Executives and Teams was the genesis of this book. The book's premise is to point out that fundraising requires more than just coming up with the next "ice-bucket challenge" or having yet another gala ball, and that it requires the combination of the right fundraising activities coupled with the right organisational approach. The book provides, maybe for the first time, a real-world implementation for leaders of organisations in the For-Purpose and For-Profit worlds to create more engaged, collaborative and effective teams, which break down silos and deliver greater outcomes and impact for their organisations' missions. The book combines inductive business research with deductive academic research to present and explain best practices in fundraising, with a focus on the concepts of Emotional Fundraising, Life Time Value, and the Donor Pyramid.

**Hartwood Acres** Lisa Speranza.2022-09-12 Nearly a century ago, the framework was laid for a stately English Tudor-style home that would rise above the rolling hills of both Indiana and Hampton townships to become the site known today as Hartwood Acres. The home resounded with the love and laughter of a prominent Pittsburgh family--Mary Flinn Lawrence; her husband, John; and their two young sons. Richly detailed stables housed the finest horses, which became the centerpiece of numerous equestrian events held on the grounds. Pittsburgh royalty such as the Heinz family visited often, and correspondence from US president Theodore Roosevelt was received on a number of significant occasions. Designed by architect Alfred Hopkins, only the finest appointments would do for the stained glass, gleaming woodwork, and fortified stone that graced the estate. This book

chronicles the history of the house that sits high on the hill and ventures to share the more personal and intimate details of the family who made it a home.

**Vienna and the Fall of the Habsburg Empire** Maureen Healy.2004-05-27 Publisher Description

Donor-centered Fundraising Penelope Burk.2003 Working from research conducted over six years with hundreds of charities and donors, 'Donor-Centered Fundraising' paints a candid picture of why donors stop giving to charities they once supported, and what it will take to preserve their loyalty in the future. In clear language and backed by statistical evidence, Penelope Burk explores the pitfalls of our traditional approaches to donor communication and recognition and articulates what donors want but seldom get from the charities they support. The book features straightforward and accessible calculations that show how much money charities are failing to raise, and offers a step-by-step procedure for testing a donor-centered alternative and gaining its acceptance in any organization.--From publisher description.

Culture of Death Wesley J. Smith.2016-05-17 When his teenage son Christopher, brain-damaged in an auto accident, developed a 105-degree fever following weeks of unconsciousness, John Campbell asked the attending physician for help. The doctor refused. Why bother? The boy's life was effectively over. Campbell refused to accept this verdict. He demanded treatment and threatened legal action. The doctor finally relented. With treatment, Christopher's temperature—which had eventually reached 107.6 degrees—subsided almost immediately. Soon afterward the boy regained consciousness and was learning to walk again. This story is one of many Wesley J. Smith recounts in his award-winning classic critique of the modern bioethics movement, Culture of Death. In this newly updated edition, Smith chronicles how the threats to the equality of human life have accelerated in recent years, from the proliferation of euthanasia and the Brittany Maynard assisted suicide firestorm, to the potential for "death panels" posed by Obamacare and the explosive Terri Schiavo controversy. Culture of Death reveals how more and more doctors have withdrawn from the Hippocratic Oath and how "bioethicists" influence policy by posing questions such as whether organs may be harvested from the terminally ill and disabled. This is a passionate yet coolly reasoned book about the current crisis in medical ethics by an author who has made "the new thanatology" his consuming interest.

Battle of Ink and Ice Darrell Hartman.2023-06-06 Absolutely gripping... a perfectly splendid read—I highly, highly recommend it” -- Douglas Preston, author of the #1 New York Times bestseller *The Lost City of the Monkey God* A sixty-year saga of frostbite and fake news that follows the no-holds-barred battle between two legendary explorers to reach the North Pole, and the newspapers which stopped at nothing to get-and sell-the story. In the fall of 1909, a pair of bitter contests captured the world's attention. The American explorers Robert Peary and Frederick Cook both claimed to have discovered the North Pole, sparking a vicious feud that was unprecedented in international scientific and geographic circles. At the same time, the rivalry between two powerful New York City newspapers—the storied Herald and the ascendant Times—fanned the flames of the so-called polar controversy, as each paper financially and reputationally committed itself to an opposing explorer and fought desperately to defend him. The Herald was owned and edited by James Gordon Bennett, Jr., an eccentric playboy whose nose for news was matched only by his appetite for debauchery and champagne. The Times was published by Adolph Ochs, son of Jewish immigrants, who'd improbably rescued the paper from extinction and turned it into an emerging powerhouse. The battle between Cook and Peary would have enormous consequences for both newspapers, and help to determine the future of corporate media. *BATTLE OF INK AND ICE* presents a frank portrayal of Arctic explorers, brave men who both inspired and deceived the public. It also sketches a vivid portrait of the newspapers that funded, promoted, narrated, and often distorted their exploits. It recounts a sixty-year saga of frostbite and fake news, one that culminates with an unjustly overlooked chapter in the origin story of the modern New York Times. By turns tragic and absurd, *BATTLE OF INK AND ICE* brims with contemporary relevance, touching as it does on themes of class, celebrity, the ever-quickening news cycle, and the benefits and pitfalls of an increasingly interconnected world. Above all, perhaps, its cast of characters testifies—colorfully and compellingly—to the ongoing role of personality and publicity in American cultural life as the Gilded Age gave way to the twentieth century—the American century.

Of Wizards and Angels Charles Louis Braai.2011-02-16 In the late seventeen hundreds and early eighteen hundreds, I was Beethovens prized pupil, can believe it. Unfortunately I had to quit him for reasons not concerning music. It was really quite silly. I was supposed to be protecting my good name. You see, it was rumored that the maestro, Beethoven, was a womanizer and while conducting orchestras he also conducted many affairs with his young female students. In those times, although mostly behind their backs, some men and even some women were referred to as libertines. Of course any man as emotional as Beethoven had to be romantically exotic but I didnt consider him a libertine; it was just that young women threw themselves at him and he used the opportunities. The saddest part was this remarkable man was almost deaf; in later years he became almost completely and totally deaf. Yet this man was such a genius, just by reading the written notes, he could hear the music inside his head. Often, he laid his hands on the piano as I played. At times, when I played, particularly when we were alone, after hed closed the piano, thus containing the sound, hed than lay his head down on the piano; by doing so, with his temple held tightly on the lid, it enabled him to hear it fully the way it was meant to be heard. This was done only prudently and only witnessed by certain people, as he was embarrassed and at first, not wanting to admit being deaf. No matter how much relief Id get by forgetting the music I never would forget it on purpose. That music is a part of me, more so than my arms and limbs even; the music is more part of me than my perceived beauty or my Immortality.

*The Thorny Path* Jamie Stoops.2018-07-30 Between 1900 and 1945, Britain and its empire experienced significant technological and social changes that altered its media and entertainment landscape. One aspect of British culture that underwent these changes was pornography. While illegal and socially reviled, the pornography trade adapted and flourished during this period. In *The Thorny Path* Jamie Stoops situates changes within the pornography trade in the context of an increasingly transnational world. Those who traded in pornography circled the globe, journeying from Britain to its colonies, from colonial holdings to continental Europe, from Europe to North America. In the process, pornographers and their customers developed new vocabularies and norms with which to negotiate their trade. Based on extensive archival research, this book grounds questions of transnationalism and heteronormativity in the day-to-day lives of low-level pornographers and consumers. Stoops's focus on street-level interactions within the trade is balanced with an analysis of state policies, legal regulations, and debates about obscenity, illustrating the interplay between enforcers of mainstream moral standards and those who represented deviant sexual practices. Raising questions of queerness and sexual normativity, *The Thorny Path* links these issues to contemporary conversations about pornography, obscenity, and sexuality. It offers timely historical context for current and vibrant debates surrounding marginalized sexualities, gender roles, and pornography in a time of rapid technological and social change.

Non-Heart-Beating Organ Transplantation John T. Potts, Roger Herdman, Institute of Medicine.1998-01-01 Non-heart-beating donors (individuals whose deaths are determined by cessation of heart and respiratory function rather than loss of whole brain function) could potentially be of major importance in reducing the gap between the demand for and available supply of organs for transplantation. Prompted by questions concerning the medical management of such donors--specifically, whether interventions undertaken to enhance the supply and quality of potentially transplantable organs (i.e. the use of anticoagulants and vasodilators) were in the best interests of the donor patient--the U.S. Department of Health and Human Services asked the Institute of Medicine to examine from scientific and ethical points of view alternative medical approaches that can be used to maximize the availability of organs from [a] donor [in an end-of-life situation] without violating prevailing ethical norms.... This book examines transplantation supply and demand, historical and modern conceptions of non-heart-beating donors, and organ procurement organizations and transplant program policies, and contains recommendations concerning the principles and ethical issues surrounding the topic.

**Pasadena** David Ebershoff.2003-07-08 From the award-winning author of *The Danish Girl* and *The Rose City*, Pasadena tells the story of Linda Stamp, a fishergirl born in 1903 on a coastal onion farm, and the three men who change her life: her jealous brother, Edmund; Bruder, the orphan Linda's father brings home from World War I; and a Pasadena orange rancher named Willis Poore. The novel spans Linda's adventurous and romantic life, weaving the tales of her Mexican mother and her German-born father with those of the rural Pacific Coast of her youth and of the small, affluent city, Pasadena, that becomes her home. Pasadena is a novel of passion and history, about a woman and a place in perpetual transformation.

The book has been significantly changed to include new technology—e-mail, online giving, and blogs—and contains expanded chapters on capital and endowment campaigns, how to feel comfortable asking for money, how to recruit a team of people to help with fundraising, and how to build meaningful relationships with donors. **Post-Intensive Care Syndrome** Jean-Charles Preiser, Margaret Herridge, Elie Azoulay. 2019-08-31 This book, part of the European Society of Intensive Care Medicine textbook series, provides detailed up-to-date information on the physical, cognitive, and psychological impairments that are frequently present following a stay in an intensive care unit and examines in depth the available preventive and therapeutic strategies, including adapted rehabilitation programs. Beyond acquainting readers with the multiple facets of post-intensive care syndrome (PICS), the book aims to promote the effective follow-up of patients, thereby enhancing their ability to work and their functional autonomy, and to identify risk factors for the development of PICS as a stimulus to beneficial organizational changes in intensive care departments. The background to the book is the realization by healthcare providers that the quality of life of patients who have required a stay in an intensive care unit can be severely impaired or even become unacceptable. All too often, the diverse sequelae are overlooked by specialists of other disciplines. Moreover, families and caregivers are also at high risk of post-traumatic stress disorder and depression. The European Society of Intensive Care Medicine has developed the Lessons from the ICU series with the vision of providing focused and state-of-the-art overviews of central topics in Intensive Care and optimal resources for clinicians working in Intensive Care. This book, written by renowned experts in the field, will facilitate the transmission of key knowledge with significant clinical and financial benefits.

*Madam C. J. Walker's Gospel of Giving* Tyrone McKinley Freeman. 2020-10-12 Winner of the AFP/Skystone Partners Prize for Research on Fundraising and Philanthropy, Association of Fundraising Professionals, 2021 Terry McAdam Book Award, given by the Alliance for Nonprofit Management 2023 Peter Dobkin Hall History of Philanthropy Prize from the Association for Research on Nonprofit and Voluntary Action (ARNOVA). Founder of a beauty empire, Madam C. J. Walker was celebrated as America's first self-made female millionaire in the early 1900s. Known as a leading African American entrepreneur, Walker was also devoted to an activist philanthropy aimed at empowering African Americans and challenging the injustices inflicted by Jim Crow. Tyrone McKinley Freeman's biography highlights how giving shaped Walker's life before and after she became wealthy. Poor and widowed when she arrived in St. Louis in her twenties, Walker found mentorship among black churchgoers and working black women. Her adoption of faith, racial uplift, education, and self-help soon informed her dedication to assisting black women's entrepreneurship, financial independence, and activism. Walker embedded her philanthropy in how she grew her business, forged alliances with groups like the National Association of Colored Women, funded schools and social service agencies led by African American women, and enlisted her company's sales agents in local charity and advocacy work. Illuminating and dramatic, *Madam C. J. Walker's Gospel of Giving* broadens our understanding of black women's charitable giving and establishes Walker as a foremother of African American philanthropy.
