Hitler's Commanders James Lucas.2014-01-22 As absolute as Hitler's control over the German war machine was, it depended on the ability, judgment and unquestioning loyalty of the senior officers charged with putting his ideas, however difficult, into effect.Top military historian James Lucas examines the stories of fourteen of these men: all of different rank, from varied backgrounds, and highly awarded, they exemplify German military prowess at its most dangerous. Among his subjects are Eduard Dietl, the commander of German forces in Norway and Eastern Europe; Werner Kampf, one of the most successful Panzer commanders of the war; and Kurt Meyer, commander of the Hitler Youth Division and one of Germany's youngest general officers.The author, one of the leading experts on all aspects of German military conduct of the Second World War, offers the reader a rare look into the nature of the German Army a curious mix of individual strength, petty officialdom and pragmatic action.

Die Ritterkreuzträger, 1939-1945 Gerhard von Seemen.1976

[Sniper on the Eastern Front](#) Albrecht Wacker.2008-06-15 A biography of the second most successful sniper of the German Wehrmacht and one of the few private soldiers to be honored with the Knights Cross award. An Austrian conscript who qualified as a Wehrmacht machine gunner, Josef "Sepp" Allerberger was drafted to the southern sector of the Russian Front in July 1942. Wounded at Voroshilovsk, he experimented with a Russian sniper-rifle while convalescing and so impressed his superiors with his proficiency that he was returned to the front as his regiment's only sniper specialist. This sometimes-harrowing account provides an excellent introduction to the commitment in fieldcraft, discipline and routine required of the sniper, a man apart. There was no place for chivalry on the Russian Front. Away from the film cameras, no prisoner survived long after surrendering. Russian snipers had used the illegal explosive bullet since 1941, and Hitler eventually authorized its issue in 1944. The result was a battlefield of horror. Allerberger was a cold-blooded killer, but few will find a place in their hearts for the soldiers of the Red Army against whom he fought. "It is a great read and covers just about everything you would want to know about Allerberger, the weapons, techniques and employment of German snipers on the Eastern Front in WWII but does it in a manner and narrative that is never boring and is guaranteed to hold your interest." —Argunners Magazine "A very unique story and experience worth telling of an Eastern Front Sniper." —Sniper Central

Blood Red Snow Gunter Koschorrek.2011-04-13 Günter Koschorrek wrote his illicit diary on any

scraps of paper he could lay his hands on, storing them with his mother on infrequent trips home on leave. The diary went missing, and it was not until he was reunited with his daughter in America some forty years later that it came to light and became *Blood Red Snow*. The author's excitement at the first encounter with the enemy in the Russian Steppe is obvious. Later, the horror and confusion of fighting in the streets of Stalingrad are brought to life by his descriptions of the others in his unit — their differing manners and techniques for dealing with the squalor and death. He is also posted to Romania and Italy, assignments he remembers fondly compared to his time on the Eastern Front. This book stands as a memorial to the huge numbers on both sides who did not survive and is, some six decades later, the fulfilment of a responsibility the author feels to honour the memory of those who perished.

German Mountain Troops in World War II Roland Kaltenegger.2005 Under the emblem of the Edelweis, the soldiers of the German mountain corps fought on every front in the Second World War - in the tundra of Lapland, in the gorges of the Balkans, on Crete, in the High Caucasus, at Monte Cassino and finally in Upper Italy and the Western Alps, at the Semmering, in Bavaria and Tyrol. Mountain troops even formed part of Rommel's famed Afrikakorps. During the war, the army alone formed a total of eleven mountain divisions, plus independent battalions and units. The accomplishments of the Men of the Edelweis are still held in high regard by historians and military experts. Armed forces and special units worldwide use their alpine and combat abilities as an example, for in mountain fighting the weather and the terrain often caused more casualties than the enemy. Through impressive photographs and brief, insightful text, this chronicle offers the reader an extraordinary view into the world of these elite troops, who were always committed where the outcome hung in the balance.

Erich von Manstein Benoît Lemay.2010-07-27 A selection of the Military Book Club: An “informative and objective” biography of a genius commander and a study of his loyalty to the Nazi cause (Library Journal). To many close students of World War II, Erich von Manstein is considered the greatest commander of the war, if not the entire twentieth century. He devised the plan that conquered France in 1940 and led an infantry corps in that campaign. At the head of a panzer corps, he reached the gates of Leningrad in 1941, then took command of 11th Army and conquered Sevastopol and the Crimea. After destroying another Soviet army in the north, he was given command of the ad hoc Army Group Don to retrieve the German calamity at Stalingrad, whereupon he launched a counteroffensive that, against all odds, restored the German front. Afterward, he commanded Army Group South, nearly crushing the Soviets at Kursk, and then skillfully resisted their relentless attacks as he traded territory for coherence in the East. Though an undoubtedly brilliant military leader—whose achievements, considering the forces at his disposal, rivaled of Patton, Rommel, MacArthur, and Montgomery—surprisingly little is known about Manstein himself, save for his own memoir and the accolades of his contemporaries. In this book, we finally have a full portrait of the man, including his campaigns, and an analysis of what precisely kept a genius like Manstein harnessed to such a dark cause. A great military figure, but a man who lacked a sharp political sense, Manstein was very much representative of the Germano-Prussian military caste of his time. Though Hitler was uneasy about the influence he'd gained throughout the German Army, Manstein ultimately declined to join any clandestine plots against his Führer, believing they would simply cause chaos, the one thing he abhorred. Though he constantly opposed Hitler on operational details, he considered it a point of loyalty to simply stand with the German state, in whatever form. Though not bereft of personal opinions, his primary allegiances were, first, to Deutschland and, second, to the soldiers under his command, who'd been committed against an enemy many times their strength. It is thus through Manstein that the attitudes of other high-ranking officers who fought during the Second World War, particularly on the Eastern Front, can be illuminated. This book is a “well-researched, convincingly reasoned analysis of a general widely considered one of WWII's great commanders” (Publishers Weekly). Includes photographs.

The Iron Cross of 1939 Gordon Williamson.2002 This extensive study, the result of many years of painstaking research, provides the collector and historian with an in-depth analysis of all grades of the 1939 issue of the most famous military decoration of all time. As well as covering all major variants of the Iron Cross itself, miniatures, presentation cases and award documents with many of their variants are also included. Special emphasis has been placed on the various manufacturers, to include their markings and the minuscule but unique die characteristics of their products

German Northern Theater of Operations 1940-1945 [Illustrated Edition] Earl Ziemke.2015-11-06 [Includes 23 maps and 31 illustrations] This volume describes two campaigns that the Germans conducted in their Northern Theater of Operations. The first they launched, on 9 April 1940, against Denmark and Norway. The second they conducted out of Finland in partnership with the Finns against the Soviet Union. The latter campaign began on 22 June 1941 and ended in the winter of 1944-45 after the Finnish Government had sued for peace. The scene of these campaigns by the end of 1941 stretched from the North Sea to the Arctic Ocean and from Bergen on the west coast of Norway, to Petrozavodsk, the former capital of the Karelo-Finnish Soviet Socialist Republic. It faced east into the Soviet Union on a 700-mile-long front, and west on a 1,300-mile sea frontier. Hitler regarded this theater as the keystone of his empire, and, after 1941, maintained in it two armies totaling over a half million men. In spite of its vast area and the effort and worry which Hitler lavished on it, the Northern Theater throughout most of the war constituted something of a military backwater. The major operations which took place in the theater were overshadowed by events on other fronts, and public attention focused on the theaters in which the strategically decisive operations were expected to take place. Remoteness, German security measures, and the Russians' well-known penchant for secrecy combined to keep information concerning the Northern Theater down to a mere trickle, much of that inaccurate. Since the war, through official and private publications, a great deal more has become known. The present volume is based in the main on the greatest remaining source of unexploited information, the captured German military and naval records. In addition a number of the participants on the German side have very generously contributed from their personal knowledge and experience.

From the Don to the Dnepr David M. Glantz.2014-02-04 This book provides an in-depth study of the Soviet Army during the offensive operations that started with Battle of Stalingrad in December 1942 and went until Spring 1943. The lessons learned by the Soviet Army from these experiences helped design the military steamroller that decimated the German panzer divisions at Kursk in the Summer of 1943.

Ostfront 1944 Alex Buchner.1991 OSTFRONT 1944: The German Defensive Battles on the Russian Front in 1944 Alex Buchner. In 1944, when the entire Russo-German front was ablaze under continual Soviet attacks, wrong estimations by the highest German command led to critical decisions with grave consequences. The Red Army was growing increasingly stronger, and launched a major

offensive. They engaged the Germans in a series of battles - Cherkassy, Tarnopol, Crimea, Vetevsk, Brody, Jassy - That ended in the collapse of Army Group Center, and catastrophic German losses. These battles cost the German army in the east well over a half-million casualties. The entire story is set forth in this new book by Alex Buchner. This in-depth study uses presently available sources and the reports of still-living participants, to document the events on the Eastern Front of 1944. It tells the story from the German point of view, reflecting on what is considered the most barbarous fighting of World War II. Alex Buchner is the author of several World War II studies, including *The German Infantry Handbook 1939-1945*, available from Schiffer Military History.

Knight's Cross and Oak-Leaves Recipients 1939-40 Gordon Williamson.2012-05-20 In 1939 a new grade in the Iron Cross series was introduced, the Knight's Cross of the Iron Cross (Ritterkreuz des Eisernen Kreuzes). It was awarded for a variety of reasons, from skilled leadership to a single act of extreme gallantry, and was bestowed across all ranks, grades, and branches of service. As the war progressed, further distinctions were created for bestowal on existing winners, namely Oak-Leaves (Eichenlaub); Oak-Leaves with Swords (Eichenlaub und Schwertern); and Oak-Leaves with Swords and Diamonds (Eichenlaub, Schwerter und Brillanten). This book, the first in a sequence of four, covers winners of the Knights Cross and the Oak-Leaves distinction in the period 1939-40.
