Shakespeare and War R. King, P. Franssen. 2008-10-14 A lively collection of essays from scholars from across Europe, North America and Australia. The book ranges from Shakespeare's use of manuals on war written for the sixteenth-century English public by an English mercenary, to reflections on the ways in which Shakespeare has been represented in Nazi Germany, wartime Denmark, or cold war Romania.

Wittgenstein: Mind and Language R. Egidi. 2013-03-09 Wittgenstein: Mind and Language brings together a collection of previously unpublished essays which offer a systematic account of Wittgenstein's philosophy of mind and contribute in an absolutely new and original way to illuminating his later conception of human perceptive, emotional and cognitive language from both a theoretical and an historical point of view. The focus is on the fundamental categories of philosophical grammar, on the analysis of intentionality, of belief and Moore's paradox, on certainty and doubt, on will, memory, sensations and emotions, as well as on the theory of aspects and private language and the relationship with relativism and psychologism. In the recent literature there are undoubtedly numerous qualified publications dedicated to the themes of philosophical psychology as they emerge from Wittgenstein's Nachlaß and from his writings on this subject published in the last decade. This book, however, provides the essential points of reference of Wittgenstein's late treatment of psychological concepts in the context of the general features of his early philosophy of science and language and in the framework of the trends of his time. The book is of special interest to scholars and students, philosophers, linguists, psychologists, sociologists, cognitive scientists, logicians, historians of contemporary philosophy and science.

The Cambridge Book of Magic Paul Foreman. 2015 The Cambridge Book of Magic is an edition of a hitherto unpublished sixteenth-century manuscript of necromancy (ritual magic), now in Cambridge University Library. Written in England between 1532 and 1558, the manuscript consists of 91 'experiments', most of them involving the conjuration of angels and demons, for purposes as diverse as knowing the future, inflicting bodily harm, and recovering stolen property. However, the author's interests went beyond spirit conjuration to include a variety of forms of natural magic. The treatise drew on astrological image magic and magico-medical texts, and the author had a particular fascination with the properties of plants and herbs. The Cambridge Book of Magic gives an insight into the practice and thought of one sixteenth-century magician, who may have been acting on behalf of clients as well as working for his own benefit.

Devotional Cross-Roads Hedwig Röckelein, Galit Noga-Banai, Lotem Pinchover. 2019 The collection of essays presented in "Devotional Cross-Roads: Practicing Love of God in Medieval Gaul, Jerusalem, and Saxony" investigates test case witnesses of Christian devotion and patronage from Late Antiquity to the Late Middle Ages, set in and between the Eastern and Western Mediterranean, as well as Gaul and the regions north of the Alps. Devotional practice and love of God refer to people – mostly from the lay and religious elite –, ideas, copies of texts, images, and material objects, such as relics and reliquaries. The wide geographic borders and time span are used here to illustrate a broad picture composed around questions of worship, identity, religious affiliation and gender. Among the diversity of cases, the studies presented in this volume exemplify recurring themes, which occupied the Christian believer, such as the veneration of the Cross, translation of architecture, pilgrimage and patronage, emergence of iconography and devotional patterns. These essays are representing the research results of the project "Practicing Love of God: Comparing Women's and Men's Practice in Medieval Saxony" guided by the art historian Galit Noga-Banai, The Hebrew University of Jerusalem, and the historian Hedwig Röckelein, Georg-August-Universität Göttingen. This project was running from 2013 to 2018 within the Niedersachsen-Israeli Program and financed by the State of Lower Saxony.

Defence of the Catholic Priesthood John Fisher. 2017-04-09 St. John Fisher is perhaps the forgotten saint. While his times are remembered, he is not. The 20th century saw a rebirth in interest in Fisher, the only Bishop to not bend the knee to Henry VIII. His work, the Defence of the Priesthood, was written in refutation of Martin Luther's work On the Abolition of Private Mass. It relies principally on the witness of the New Testament, then the Church Fathers to prove with certainty that the Catholic priesthood was introduced by Jesus Christ. Luther regularly responded to anyone who criticized him with abuse, but to Fisher he never made any response, not only because the treatise was unanswerable, but also because Fisher was the holiest Bishop in Christendom. This treatise, being thoroughly grounded in Holy Scripture, reveals Fisher as the true witness to the Gospel.

The Baptized Muse Karla Pollmann. 2017 A collection of Pollmann's previously-published essays on early Christian poetry, most newly-translated from German and all updated and corrected. It is a genre that has tended to be overlooked by both Classicists and Patristics scholars and this collection will rectify that.

The History of the Devil Paul Carus. 2021-08-03 The History of the Devil (1900) is a philosophical study by Paul Carus. A lifelong Monist, Carus sought to apply a scientific analysis to the principles of humanity's religions. Credited with bridging the gap between Eastern and Western beliefs, Carus believed that the dualism rampant in the West could be replaced in order to establish a more equitable world where difference and diversity would be accepted and nurtured, rather than suppressed. "This world of ours is a world of opposites. There is light and shade, there is heat and cold, there is good and evil, there is God and the Devil. The dualistic conception of nature has been a necessary phase in the evolution in human thought." Recognizing the need for dualism in the history of humanity, Carus sought to promote the principles of Monism in the West, believing it could lead to a universal worldview capable of uniting East and West. A positivist and pantheist, Carus believed that by pursuing "in religion the same path that science travels, [...] the narrowness of sectarianism [would] develop into a broad cosmical religion which shall be as wide and truly catholic as is science itself." To lay the groundwork for this "cosmical religion," he investigates the figure of the Devil and the historical evolution of the concept of evil, which he saw as predating belief in goodness and God. With a beautifully designed cover and professionally typeset manuscript, this edition of Paul Carus' The History of the Devil is a classic of philosophy reimagined for modern readers.

The Origin of Mountains Cliff Ollier, Colin Pain. 2004-08-02 The Origins of Mountains approaches mountains from facts about mountain landscapes rather than theory. The book illustrates that almost everywhere, mountains arose by vertical uplift of a former plain, and by a mixture of cracking and warping by earth movements, and erosion by rivers and glaciers, the present mountainous landscapes were created. It also gives evidence that this uplift only occurred in the last few million years, a time scale which does not fit the plate tectonics theory. Another fascinating part of the evidence, shows that mountain uplift correlates very well with climatic change. Mountain building could have been responsible for the onset of the ice age. It certainly resulted in the creation of new environments. Fossil plants and animals are used in places to work out the time of mountain uplift, which in turn helps to explain biogeographical distributions.

Twelve Years a Slave Solomon Northup. 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New

Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Monstrous Imagination Marie-Hélène Huet.1993 What woeful maternal fancy produced such a monster? This was once the question asked when a deformed infant was born. From classical antiquity through to the Enlightenment, the monstrous child bore witness to the fearsome power of the mother's imagination. What such a notion meant and how it reappeared, transformed, in the Romantic period are the questions explored in this book, a study of theories linking imagination, art and monstrous progeny.

ULYSSES (Modern Classics Series) James Joyce.2024-01-10 This carefully crafted ebook: ULYSSES (Modern Classics Series) is formatted for your eReader with a functional and detailed table of contents. Ulysses is a modernist novel by Irish writer James Joyce. It is considered to be one of the most important works of modernist literature, and has been called a demonstration and summation of the entire movement. Ulysses chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. Ulysses is the Latinised name of Odysseus, the hero of Homer's epic poem Odyssey, and the novel establishes a series of parallels between its characters and events and those of the poem (the correspondence of Leopold Bloom to Odysseus, Molly Bloom to Penelope, and Stephen Dedalus to Telemachus). Joyce divided Ulysses into 18 chapters or episodes. At first glance much of the book may appear unstructured and chaotic; Joyce once said that he had put in so many enigmas and puzzles that it will keep the professors busy for centuries arguing over what I meant, which would earn the novel immortality. James Joyce (1882-1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for Ulysses, the short-story collection Dubliners, and the novels A Portrait of the Artist as a Young Man and Finnegans Wake.

The Holy Spirit in the Ancient Church Henry Barclay Swete.1997-01-08 In this volume, the study of the history of the doctrine of the Holy Spirit is carried on from the sub-apostolic writers to the end of the patristic period, which is generally held to terminate with Gregory the Great in the West and John of Damascus in the East. This is an early classic study in doctrinal development by one of the foremost exegetes of the late 19th/early 20th century.

The essays contained in these two volumes are clear evidence that the ancient novel has become a valuable part of the Classics canon and its scholarly attempts to understand the ancient Graeco-Roman world.

Greek and Roman Textiles and Dress Mary Harlow,Marie-Louise Nosch.2014-09-30 Twenty chapters present the range of current research into the study of textiles and dress in classical antiquity, stressing the need for cross and inter-disciplinary study in order to gain the fullest picture of surviving material. Issues addressed include: the importance of studying textiles to understand economy and landscape in the past; different types of embellishments of dress from weaving techniques to the (late introduction) of embroidery; the close links between the language of ancient mathematics and weaving; the relationships of iconography to the realities of clothed bodies including a paper on the ground breaking research on the polychromy of ancient statuary; dye recipes and methods of analysis; case studies of garments in Spanish, Viennese and Greek collections which discuss methods of analysis and conservation; analyses of textile tools from across the Mediterranean; discussions of trade and ethnicity to the workshop relations in Roman fulleries. Multiple aspects of the production of textiles and the social meaning of dress are included here to offer the reader an up-to-date account of the state of current research. The volume opens up the range of questions that can now be answered when looking at fragments of textiles and examining written and iconographic images of dressed individuals in a range of media. The volume is part of a pair together with Prehistoric, Ancient Near Eastern and Aegean Textiles and Dress: an interdisciplinary anthology edited by Mary Harlow, Cécile Michel and Marie-Louise Nosch

Early Christian Poetry J. den Boeft, A. Hilhorst. 2015-12-22 This collection of essays deals with the rise and development of early Christian poetry, discussing its techniques and its theoretical foundation. The individual papers concern specimens of Hebrew, Syriac, Greek and Latin poetry and study the various and partly conflicting traditions from which it originated. The biblical examples, e.g. of the Psalms, held great authority, but on the other hand it was impossible to break away from the models of classical Greco-Roman poetry, although these were deemed dangerous because of the pagan content and excessive cult of literary art. The book shows how the problems involved were solved in different ways, which justified the use of pagan literary accomplishments for singing the praises of the Lord.

Achtung-Panzer! Heinz Guderian. 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Variae Cassiodorus. 2022-01-25 Cassiodorus—famed throughout history as one of the great Christian exegetes of antiquity—spent most of his life as a high-ranking public official under the Ostrogothic King Theoderic and his heirs. He produced the *Variae*, a unique letter collection that gave witness to the sixth-century Mediterranean, as late antiquity gave way to the early middle ages. The *Variae* represents thirty years of Cassiodorus's work in civil, legal, and financial administration, revealing his interactions with emperors and kings, bishops and military commanders, private citizens, and even criminals. Thus, the *Variae* remains among the most important sources for the history of this pivotal period and is an indispensable resource for understanding political and diplomatic culture, economic and legal structure, intellectual heritage, urban landscapes, religious worldview, and the evolution of social relations at all levels of society during the twilight of the late-Roman state. This is the first full translation of this masterwork into English.

Luther and Erasmus Ernest Gordon Rupp, Philip Saville Watson. 1969-01-01 This volume includes the texts of Erasmus's 1524 diatribe against Luther, *De Libero Arbitrio*, and Luther's violent counterattack, *De Servo Arbitrio*. E. Gordon Rupp and Philip Watson offer commentary on these texts as well. Long recognized for the quality of its translations, introductions, explanatory notes, and indexes, the Library of Christian Classics provides scholars and students with modern English translations of some of the most significant Christian theological texts in history. Through these works—each written prior to the end of the sixteenth century—contemporary readers are able to engage the ideas that have shaped Christian theology and the church through the centuries.
