Paint and Paper in Decoration David Oliver.2007 Paint and wallpaper are usually the least expensive element in any interior design yet also the most difficult to get right. This book simplifies the process, using Oliver's simple, straightforward but extremely stylish approach to color and light. David Oliver's use of color in interior design has brought him both great acclaim and a star-studded roster of private clients. This is his first book, and it functions as a master class in paint, paper, and light. He shows what works and why by demonstrating how the combined influences of light and pigment affect the changing quality of color in a room. In his designs, Oliver seeks to recreate the unique vitality and depth of color found in fine art pigments by using the finest ingredients and technology available today. The book also explores his tonal color-by-number system for ceilings, cornices, walls, and woodwork, creating a harmonious balance of light and color by accentuating various interior elements in a room. It combines an array of practical ideas and planning advice with actual case studies making it an inspirational reconsideration of color for anyone interested in interior design.

Wallpaper Zoë Hendon. 2018-09-20 We agonise and argue when choosing it; we admire, compliment and criticise it (or keep politely quiet about it); and the rest of the time we don't even notice it. Wallpaper has been the backdrop to our homes for hundreds of years. It can make a house feel cosy or trendy, modern or traditional, and it is one of the key elements of home décor through which to express personal taste. Despite the threat from plain-painted minimalism, wallpaper maintains a strong presence in modern domestic decoration. Zoë Hendon traces the history of wallpaper in Britain and its foremost designers, examining how social mobility and new technologies have influenced design trends. From early Chinoiserie, through William Morris and on to the 'feature wall', this book looks at wallpaper's surprisingly controversial place in shaping our sense of home.

The Wallpaper Book Genevieve Brunet. 2012-05-15 A wealth of design inspiration for any home: wallpaper styles to suite every taste, from nostalgic floral prints to playful retro revivals. While it has long been an essential element of interior decor, wallpaper is currently experiencing a creative boom. This everyday material has always reflected social shifts as well as changing fashions, and now designers everywhere are rediscovering its versatility, using it to achieve a variety of imaginative effects. It can add texture, warmth, wit, or personality to any space, becoming a tranquil backdrop or a striking conversation piece. A room may be papered with a profusion of patterns, or a wallpaper mural can make a bold statement, even blurring the boundaries between design and art installation. This book explores the art of wallpaper from its historical beginnings to the present day. Beginning with the handcrafted *papiers peints* of the eighteenth century through the Arts and Crafts movement, modernism, and Pop art, it traces the influences behind today's popular motifs and showcases a dazzling selection of the very best in contemporary wallpaper. Some designers are reviving and reinventing traditional craft techniques while others embrace the latest in digital printing technology, even incorporating glow-in-the-dark effects or LED lights.

Victoria Decorating with Wallpaper Catherine Calvert. 1997 *Decorating with Wallpaper* provides all the guidance and assurance needed to work with wallpaper. Rules do exist, and no one knows them better than the editors of *Victoria*. For ten years, the finest examples of wallpaper design have appeared in the pages of the magazine - cabbage roses from England, the spiritual home of wallpaper; scenic *toile de Jouy* from France; and a parade of teacups from America. And like any good guidebook, *Decorating with Wallpaper* tells when to break all the rules.

Wallpaper Carolle Thibaut-Pomerantz. 2009-10-13 Wallpaper was initially used as an affordable substitute for lavish coverings, such as frescoes, tapestries, leathers, or hangings. Its current form debuted in sixteenth-century England, and its popularity took off at the end of the eighteenth century following advances in reproduction techniques. Wallpaper transformed the world of interiors, offering depth and perspective, creating the illusion of panoramic vistas, and incorporating narrative sequences, collections of engravings, or brief morality or history lessons. It eventually developed into the wide range of styles that have marked four centuries of decorative art, from Raphael to conceptual art, and from frescoes to photography. This stunning contribution to wallpaper's current revival offers a comprehensive review of a *savoir faire* that continues to thrive.

Wallpapers in Historic Preservation Catherine Lynn Frangiamore,Park Service National Park Service.2005-01-01 The papered and bordered wall was an important feature of American interiors during the 18th, 19th, and early 20th centuries. Paper hangings, both imported and of domestic manufacture, were more widely used than many of our restored buildings might lead us to believe. In the late 17th and early 18th centuries, not only were American walls whitewashed, painted, and wainscoted, but they were also hung with a variety of materials. An English visitor of 1750, James Birket, commented on the number of rooms in Newport, Rhode Island, that were hung with printed canvas and paper. There is also documentation in the 18th century for the use of leather and textile wall hangings in this country.As early as 1700, wallpapers were recorded among the stock of a Boston merchant, and by the late 18th century, paper hangings were available to the middle class as well as to the rich. American advertisers claimed that the low prices at which they will be sold will make papering cheaper than whitewashing. Easily transported, papers were available at surprisingly early dates not only in the seaboard urban centers, but also in the back country.During the 1840's, industrialization transformed the business of producing wallpapers and made them affordable in the average household. An appetite for papers was stimulated by manufacturers: their advertisements in this period promoted wallpaper for use in churches, banks, and offices, as well as in houses. The resulting popularity of patterned walls is reflected in statistics of soaring production. In 1840, observers of the industry reported that this country produced two million rolls of paper. By the 1880's paper was the standard wall finish and production rose to 100 million rolls in 1890. This wallpaper craze continued until World War I, for almost every imaginable use, from nursery to butcher shops. Architects increasingly specified wallpapers for their designs, and many examples of the late 19th-century period survive both on site and in photographs.Today, wallpaper is rarely given adequate consideration in the restoration of interiors. However, it should be remembered that 18th- and 19th-century owners, architects, and builders may have visualized certain spatial effects of light, warmth, mood, and proportion dependent on the use of wallpaper--effects which are completely distorted when the walls are painted a solid color. Therefore, attempts to create rooms in restored houses require careful consideration of the appropriate interior wall finish. The likelihood that wallpaper may have been used should be recognized and investigated. Whether the objective is to accurately restore an interior to a specific date, or

to convey the feeling of a period, wallpaper can contribute positively to the overall success of a restoration. Striving for an accurate restoration, a high level of objectivity must be maintained and the evidence carefully considered. There are some pitfalls to avoid in choosing the paper. Not just any paper will achieve the proper historical ambience, and finding the proper documented paper is not always easy. Many expensively restored late 19th-century rooms have been unwittingly papered with reproductions of distinctly 18th-century patterns which were readily available. The personal tastes of the board of directors, local decorators, influential donors or volunteer committees can pose great problems. Often, after professional research reveals the actual paper that was used in a room, the results are ignored by members of an influential committee who consider the paper ugly and therefore inappropriate. The impulse to decorate in conformity with 20th-century taste is commonly allowed to prevail, but should be suppressed. If paper is to be hung, patterns consistent with any evidence found in situ, or contemporary to the restoration target date and the type of room, should be carefully chosen.

Chinese Wallpaper in Britain and Ireland Emile de Bruijn. 2019-02-12 Chinese wallpaper has been an important element of western interior decoration for three hundred years. As trade between Europe and China flourished in the seventeenth century, Europeans developed a strong taste for Chinese art and design. The stunningly beautiful wall coverings now known as 'Chinese wallpaper' were developed by Chinese painting workshops in response to western demand. In spite of their spectacular beauty, Chinese wallpapers have not been studied in any depth until relatively recently. This book provides an overview of some of the most significant Chinese wallpapers surviving in the British Isles. Sumptuously illustrated, it shows how these wallpapers became a staple ingredient of high-end interiors while always retaining a touch of the exotic.
