Why Do I Keep Doing This!?!? Judith Pearson.2012-01-31 What prevents people from doing what they sincerely want to do?You can come up with all sorts of explanations ranging from childhood trauma to geneti, to personality types, but what it really boils down to is the fact that most people simply aren't skilled in managing their minds.When we try to break a habit our brain sends out signals of alarm and discomfort. To get past this, we must put our logical brain in charge. Using self-hypnosis and Neuro-Linguistic Programming (NLP) is one of the easiest ways to achieve this.Hypnosis relaxes and quietens the mind's chatter and can provide strategies to manage the mind and to access the

qualities and strengths that we already possess. NLP is the one psychological approach that spells out those strategies step-by-step. This book explains how the concepts and mechanisms of hypnosis and the principles of NLP make for effective approaches to self-hypnosis.

Glenn. 2017-05-05 THOSE STUDENTS THAT HAVE READ MY BOOK: Beginner to Advanced Practitioner Training Course & Self Development in Psychotherapy - Hypnotherapy - Neuro-Linguistic Programming (NLP) - Cognitive Behavioural Therapy (CBT) Clinical Psychology Vol: One, will not need to read this book. The information within this book has already been covered in the book

just mentioned. Even so, I have also published this script, and three others, as a separate book for those people that requested me to do so. This book is more than just a stop smoking script. I will also give many examples of real clients that I treated in therapy. I will show you how I structure a set plan for a stop smoking therapy session, and of what needs to be done to help the client overcome their problem. Also I will explain to you the knowledge that the client needs to be educated on, in order to help them further. The script in this book has been written in a way, not intended to be read out to your clients word for word. I simply want to show you different beginners and advanced ways of conducting therapy, in a structured session that you can personalise to each client. This script can be adapted and used for any stop smoking session. I have written both the pre-talk and what is said under hypnosis to the client far longer than it need be. I have done this purposely, to give you more examples of what can be said, so that you can pick and choose what you feel fits that particular client best. So, once again, please note that this script is not intended to be read word for word to the client. It can even be used in a number of sessions, if needed, to make each session different from the previous. I am David Glenn, a Professional Psychotherapist, Hypnotherapist, NLP Practitioner and Trainer with over twenty year's experience in this profession. I have written this book to pass on my knowledge for those:

- 1)Interested in the psychology of oneself as a self-development help guide in understanding and utilising the power of your own mind to overcome: smoking, in order to get the best out of your life.
- 2)Wanting to have a successful career in Hypnotherapy, Neuro-Linguistic Programming (NLP), Cognitive Behavioural Therapy (CBT), Life Coaching and Psychotherapy as a whole. Developing or enhancing your therapy skills in dealing with weightloss clients, to help them recover their cognitive health and wellbeing. Everybody can study this stop smoking script course book as home study training. It is laid out in layman's terms, so

those with no previous knowledge of the subject, can still learn how to use the power of your own mind to enrich your life. Even if you do not want to be a Professional Therapist, you can still study this course to understand yourself more, for self-help and personal development. This will enable you to break negative habits, and have unlimited confidence with the techniques that you can learn and use in your life, or therapy practice to improve your psyche, or that of a client's cognitive health (psychological health) and wellbeing. You will also learn how to hypnotise your clients, friends and family, and find the beneficial power of self-hypnosis. Enrich your knowledge and skills with what I am going to teach you, which can be used in general life, for yourself and others, or by those wishing a new profession in Hypnotherapy, CBT, NLP Practitioner or Psychotherapist. Keep an open mind to new possibilities. How you have thought, communicated, and acted throughout life, may need to change, or be adapted for positive effect. I will teach you the tools of how this can be done to enable you or others to move on positively in life. Once you have read and fully understood this book, for many people it is a life changing experience.

comprehensive and detailed revelation of the ancient art of hypnotherapy in two volumes. Whether you are currently learning it, practicing it, a hypnotherapy professional, or just plain interested in the amazing art of hypnotherapy, this book will be your most valuable resource. Hypnotherapy is not the only discipline covered in this huge store of knowledge: among many other things, you will learn about health from a holistic point of view, benefits of nutrition, meditation, about relationships, sexuality and more. Steve Webster brilliantly explains: ? Simple, complex and metaphysical hypnotherapy. ? The differences between hypnosis and hypnotherapy. ? Approaches and amazing new techniques to use on different personality types. ? How to use 18 Laws of Suggestibility to rid clients of illness, disease and behavioral disorder, and how to reprogram your mind. ? Mechanics of hypnosis, the scientific intricacies, and 27 diagnostic tools to help you.... ? How to treat the top 35 afflictions like weight loss, anxiety, pain, sleep disorders, and social phobias. ? Guided imagery, neuroplasticity, epigenetics, neuro-linguistic programming, ideomotor responses and the power of dream venting. ? Your clients coping, blocking, release, and defense mechanisms. ? Body syndromes, how emotions affect us, and the subconscious mind. ? How one health disorder, HHS, might be responsible for 85% of afflictions. ? The real Law of Attraction, and how to make it work for you. Steve has coined a new description for hypnotherapists Consciousness Engineers because thats what they are! The clients consciousness creates their reality, and the hypnotherapist adjusts that consciousness. The subconscious mind vibrates at a level where it does not know illness, disease and behavioral disorder; but the conscious mind vibrates at a lower level and attracts these negative energies. After reading the Consciousness Engineering section (Volume 2), you will understand: ? Your 3 minds, their vibrational levels, and how to increase your power of creation. ? How to manifest anything, and how to become an ascended master. ? Learn what

the subconscious mind is, and how to guide your client to engage with it, and harness its amazing powers. The two volumes explain how you create your whole world, and how to create a world that brings you (and your clients!) joy and peace. It explains levels of consciousness, how to increase yours, and how you are immortal in your quantum world. With over 100 inductions, deepeners and convincers, with over 100 original diagrams and images, and with over 100 informative tables and quotes. This book really is your hypnotherapy Bible!
