Dennis Brain Stephen Gamble, William C. Lynch.2011 The British horn player Dennis Brain (1921-1957) is commonly described by such statements as the greatest horn player of the 20th Century, a genius, and a legend. He was both a prodigy and popularizer, famously performing a concerto on a garden hose in perfect pitch. On his usual concert instrument his tone was of unsurpassed beauty and clarity, complemented by a flawless technique. The recordings he made with Herbert von Karajan of Mozart's horn concerti are considered the definitive interpretations. Brain enlisted in the English armed forces during World War II for

seven years, joining the National Symphony Orchestra in wartime in 1942. After the war he filled the principal horn positions in both the Philharmonia and Royal Philharmonic Orchestras. He later formed his own wind quintet and began conducting. Composers including Benjamin Britten and Paul Hindemith lined up to write music for him. Even fifty years after his tragic death at the age of 36 in an auto accident in 1957, Peter Maxwell Davies was commissioned to write a piece in his honor. Stephen Gamble and William Lynch have conducted numerous interviews with family, friends, and colleagues and uncovered information in the BBC archives and other lesser known sources about recordings that were previously unknown. This volume describes Brain's life and analyzes in depth his musical career. Its appendices of information on performances will appeal to music historians, and its details on Brain's instruments and equipment will be useful to horn players.

Dmitri Shostakovich (1906-75) was one of the greatest composers of the 20th century, as well as the first major Soviet composer. In the fourth edition of *Dmitri Shostakovich Catalogue: The First Hundred Years and Beyond*, Derek C. Hulme names and describes all known musical compositions of the Russian composer. More than 175 major works are annotated and discussed, including such comprehensive details as titles and subtitles, dates of composition, instrumentation, and duration; information on dedications and premieres; arrangements by the composer and others; publication details; notes on bibliographical references and the location of the autograph score; and comprehensive chronological lists of vinyl, compact disc, and visual recordings. The entries are presented chronologically and by opus number, while indexes of names and compositions provide full accessibility. Several appendixes supplement the volume, guiding readers to further information in published sources and providing information on the composer's film, radio, television, and theatre productions; his abandoned projects and obscure works; and his recordings, including box sets and special USSR recordings. An appendix also discusses the monogram DSCH, a musical motif based on his name that permeates his compositions. This new edition also includes a comprehensive chronological chart of Shostakovich's works and historical events and several plates of memorabilia.

century. He studied oboe under Gustave Vogt at the Paris Conservatory, ultimately becoming teacher there himself in 1832. He also played second oboe next to Vogt at the Paris Opéra, where Fétis found Brodč's tone sweeter than that of his teacher. Brod became interested in the construction of the oboe and was perhaps the first builder to add octave keys to the instrument. His *Méthode pour le hautbois* (Paris, 1835-36) provides valuable technical information concerning the oboe and remains a useful resource for modern players. Brodč's three woodwind quintets most likely date from the second decade of the nineteenth century and were printed by two separate publishers, Pacini and Schonenberger, both of Paris. All three quintets feature a four-movement format: a longer first movement in sonata form, a slow movement, a minuet, and a quick-tempo finale. As a whole, the quintets form a nice complement to those of Danzi, Reicha, and somewhat later, Franz Lachner. Brod remains the only actual woodwind player among these early composers of wind quintets. While not very well known today, Brodč's contributions to the wind quintet literature are significant and worthy of greater attention; this is particularly true in view of the paucity of wind quintets throughout the nineteenth century. It is to be hoped that through this critical edition, Brodč's importance to the early development of the wind quintet will be recognized and his beautiful works heard more often..
