**Parity of the Sexes** Sylviane Agacinski. 2001 Agacinski's articulation of the theory of parity helped inspire a law that went into effect in May 2000 requiring France's political parties to fill 50 percent of the candidacies in every race with women. Agacinski's model of parity does not strive for the nebulous ideal of equality between the sexes; instead, it demands a concrete formula for political contests: an equal number of female and male candidates in every election. This theory that has sparked impassioned debate across France and around the globe.

Can Somebody Please Scratch My Back? Jory John. 2018-03-20 A hilarious take on helping others and self awareness from New York Times bestselling author Jory John and comic artist sensation Liz Climo Persnickety Elephant has an itch--a big one--and he can't reach it! Passenger Rail Franchising Great Britain. Parliament. House of Commons. Transport Committee. 2006 It is thirteen years since the Railways Act 1993 started the process of privatising British Rail, replacing it with one company owning and managing the infrastructure, an open-access system for freight services and a series of twenty-five passenger franchises let to private companies for a specified period of time. This period has seen almost continuous change, and there is now a new 'triumvirate' framework with the Department for Transport, the Office of Rail Regulation and Network Rail in place, with the third generation of franchises in the process of being let and the number being reduced to nineteen. The Committee's report examines the current franchising system, focusing on the coherence of its objectives, the effectiveness of the process for awarding franchises and the management of franchise agreements, and whether more competition and vertical integration is needed. Findings include that the current system represents a policy muddle which lacks a coherent framework for the development of good services and delivery of value for money for passengers and taxpayers. The only way the Government can increase capacity and improve services for the long-term is to drop the dogmatic pursuit of competition in its decision-making as to what the private and public sectors can and should do in future. The Government's forthcoming long-term strategy for the railways will need to address these issues, and to set out a structure and a strategy capable of securing quality passenger rail services to meet demand over the next half a century.

Leo and His Circle Annie Cohen-Solal. 2010-05-18 Leo Castelli reigned for decades as America's most influential art dealer. Now Annie Cohen-Solal, author of the hugely acclaimed Sartre: A Life ("an intimate portrait of the man that possesses all the detail and resonance of fiction"—Michiko

Kakutani, *The New York Times*), recounts his incalculably influential and astonishing life in *Leo and His Circle*. After emigrating to New York in 1941, Castelli would not open a gallery for sixteen years, when he had reached the age of fifty. But as the first to exhibit the then-unknown Jasper Johns, Castelli emerged as a tastemaker overnight and fast came to champion a virtual Who's Who of twentieth-century masters: Rauschenberg, Lichtenstein, Warhol, and Twombly, to name a few. The secret of Leo's success? Personal devotion to the artists, his "heroes": by putting young talents on stipend and seeking placement in the ideal collection rather than with the top bidder, he transformed the way business was done, multiplying the capital, both cultural and financial, of those he represented. His enterprise, which by 1980 had expanded to an impressive network of satellite galleries in Europe and three locations in New York, thus became the unrivaled commercial institution in American art, producing a generation of acolytes, among them Mary Boone, Jeffrey Deitch, Larry Gagosian, and Tony Shafrazi. *Leo and His Circle* brilliantly narrates the course of one man's power and influence. But Castelli had another secret, too: his life as an Italian Jew. Annie Cohen-Solal traces a family whose fortunes rose and fell for centuries before the Castellis fled European fascism. Never hidden but also never discussed, this experience would form the core of a guarded but magnetic character possessed of unfailing old-world charm and a refusal to look backward—traits that ensured Castelli's visionary precedence in every major new movement from Pop to Conceptual and by which he fostered the worldwide enthusiasm for American contemporary art that is his greatest legacy. Drawing on her friendship with the subject, as well as an uncanny knack for archival excavation, Annie Cohen-Solal gives us in full the elegant, shrewd, irresistible, and enigmatic figure at the very center of postwar American art, bringing an utterly new understanding of its evolution.

Linguist Yaron Matras, who has spent years working with the Roma, gives the first comprehensive account of their culture, language and history, shattering the myths that surround them. 'Absorbing . . . almost everything we imagine we know about Gypsies is wrong.' Margarette Driscoll, *Sunday Times* 'Fascinating, compassionate and knowledgeable . . . Yaron Matras is an authority.' Melanie McDonagh, *Evening Standard* 'An ancient and rich culture, immaculately researched.' Peter Stanford, *Observer* 'Romani history is unseen and unrecognised. Matras synthesises what facts we have to create a visible, compelling record.' David Morley, *Independent*

**Les intraduisibles du patrimoine en Afrique subsaharienne** Barbara Cassin, Danièle Wozny. 2016 Le patrimoine se décline en objets, en monuments, en forêts, en traditions et récits, mais il se dit toujours en « mots ». C'est en mots que se définissent les critères (exceptionnel, universel,

symbolique, immatériel, intégrité, authenticité, identité, nature, culture,...) qui conditionnent, en particulier, la reconnaissance internationale d'un bien patrimonial par l'Unesco. Comment s'opère donc le passage des langues « internationales » aux langues d'Afrique ? À travers la constellation des mots « musée » et « patrimoine » et leurs « équivalents » travaillés en sept langues - ici : en français, anglais, fulfulde et bamanakan, bientôt en swahili, sukuma et tsonga pour la seconde livraison - Les intraduisibles du patrimoine proposent quelques pistes pour alimenter la réflexion sur les enjeux, y compris politiques, du patrimoine dans un contexte mondialisé.

**The Rejection of Consequentialism** Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

**Eating in the city** Audrey Soula,Chelsie Yount-André,Olivier Lepiller,Nicolas Bricas.2020-12-22 This book explores changes in eating habits in African, Latin American and Asian cities. It reveals—through studies on city dwellers’ food practices and representations—the inadequacy of an analytical approach to these changes in terms of Westernization, standardization, transition or convergence towards a widely applicable model. Surveys conducted in cities of the Global South revealed that city dwellers are inventing new forms of eating based on a multitude of local and/or exogenous sources.

Information Highlighting in Advanced Learner English Marcus Callies.2009 This book presents the first detailed and comprehensive study of information highlighting in advanced learner language, echoing the increasing interest in questions of near-native competence in SLA research and contributing to the description of advanced interlanguages. It examines the production and comprehension of specific means of information

highlighting in English by native speakers and German learners of English as a foreign language, presenting triangulated experimental and learner corpus data as corroborating evidence. The study focuses on learners' use of discourse-pragmatically motivated variations of the basic word order such as inversion, preposing, and it- and wh-clefts, an underexplored field in SLA research to date. The book also provides a critical re-assessment of the study of pragmatics within SLA. It has largely been neglected to date that L2 pragmatic knowledge includes more than the sociopragmatic and pragmalinguistic abilities for understanding and performing speech acts. Thus, the book argues for an extension of the scope of inquiry in interlanguage pragmatics beyond the cross-cultural investigation of speech acts. It also discusses pedagogical implications for foreign language teaching and will be of interest to applied linguists and SLA researchers, language teachers and curriculum designers.

**Primitive Polynesian Economy** Raymond Firth. 1975 Primitive Polynesian Economy is one of the first serious attempts to apply the concepts of modern economic theory to the institutions of a primitive community, studied by anthropological field methods. In the small Polynesian island of Tikopia, Raymond Firth was able in the course of a year to observe and analyze in remarkable detail the economic transactions of the thirteen hundred inhabitants of a primitive peasant economy of agriculturalists and fishermen. For the second edition, he has written a new chapter discussing the changes that have taken place since the book was first published.
