Britain, France and the Decolonization of Africa Andrew W.M. Smith,Chris Jeppesen.2017-03-01 Looking at decolonization in the conditional tense, this volume teases out the complex and uncertain ends of British and French empire in Africa during the period of 'late colonial shift' after 1945. Rather than view decolonization as an inevitable process, the contributors together explore the crucial historical moments in which change was negotiated, compromises were made, and debates were staged. Three core themes guide the analysis: development, contingency and entanglement. The chapters consider the ways in which decolonization was governed and moderated by concerns about development and profit. A complementary focus on contingency allows deeper consideration of how colonial powers planned for 'colonial futures', and how divergent voices greeted the end of empire. Thinking about entanglements likewise stresses both the connections that existed between the British and French empires in Africa, and those that endured beyond the formal transfer of power.

The Practice of the Wild Gary Snyder.2020-09-08 A collection of captivatingly meditative essays that display a deep understanding of Buddhist belief, wildness, wildlife, and the world from an American cultural force. With thoughts ranging from political and spiritual matters to those regarding the environment and the art of becoming native to this continent, the nine essays in *The Practice of the Wild* display the deep understanding and wide erudition of Gary Snyder. These essays, first published in 1990, stand as the mature centerpiece of Snyder's work and thought, and this profound collection is widely accepted as one of the central texts on wilderness and the interaction of nature and culture.

Britain's Imperial Administrators, 1858-1966 A. Kirk-Greene.2000-02-24 Britain's famous overseas civil services - the Colonial Administrative Service, the Indian Civil Service and the Sudan Political Service - no longer exist as a major and sought-after career for Britain's graduates. In this detailed study the history of each service is presented within the framework of the need to administer an expanding empire. Close attention is paid to the methods of recruitment and training and to the socio-educational background of the overseas administrators as well as to the nature of their work. The prestigious incumbents of Government House are revealingly examined. The impact of decolonisation on overseas officials and the kinds of 'second careers' which they took up are documented. This authoritative narrative history is enlivened by recourse to Service lore and anecdotes.

The Man Who Would Be King Ben Macintyre.2008-10-28 The Riveting Account of the American Who Inspired Kipling's Classic Tale and the John Huston Movie In the year 1838, a young adventurer, surrounded by his native troops and mounted on an elephant, raised the American flag on the summit of the Hindu Kush in the mountainous wilds of Afghanistan. He declared himself Prince of Ghor, Lord of the Hazarahs, spiritual and military heir to Alexander the Great. The true story of Josiah Harlan, a Pennsylvania Quaker and the first American ever to enter Afghanistan, has never been told before, yet the life and writings of this extraordinary man echo down the centuries, as America finds itself embroiled once more in the land he first explored and described 180 years ago. Soldier, spy, doctor, naturalist, traveler, and writer, Josiah Harlan wanted to be a king, with all the imperialist hubris of his times. In an extraordinary twenty-year journey around Central Asia, he was variously employed as surgeon to the Maharaja of Punjab, revolutionary agent for the exiled Afghan king, and then commander in chief of the Afghan armies. In 1838, he set off in the footsteps of Alexander the Great across the Hindu Kush and forged his own kingdom, only to be ejected from Afghanistan a few months later by the invading British. Using a trove of newly discovered documents and Harlan's own unpublished journals, Ben Macintyre's *The Man Who Would Be King* tells the astonishing true story of the man who would be the first and last American king.

To Live as Brothers Barbara Watson Andaya.1993 Andaya (Asian studies, U. of Hawaii) examines how the arrival of the Dutch and English impacted the relationship between two kingdoms in Sumatra, the Jambi and the Palembang, who had a long history of cyclical hostility and reconciliation. She focuses on three themes culled from legends and folklore

Constituting Religion Tamir Moustafa.2018-07-25 Most Muslim-majority countries have legal systems that enshrine both Islam and liberal rights. While not necessarily at odds, these dual commitments nonetheless provide legal and symbolic resources for activists to advance contending visions for their states and societies. Using the case study of Malaysia, *Constituting Religion* examines how these legal arrangements enable litigation and feed the construction of a 'rights-versus-rites binary' in law, politics, and the popular imagination. By drawing on extensive primary source material and tracing controversial cases from the court of law to the court of public opinion, this study theorizes the 'judicialization of religion' and the radiating effects of courts on popular legal and religious consciousness. The book documents how legal institutions catalyze ideological struggles, which stand to redefine the nation and its politics. Probing the links between legal pluralism, social movements, secularism, and political Islamism, *Constituting Religion* sheds new light on the confluence of law, religion, politics, and society. This title is also available as Open Access.

The Art of Not Being Governed James C. Scott.2009-01-01 From the acclaimed author and scholar James C. Scott, the compelling tale of Asian peoples who until recently have stemmed the vast tide of state-making to

live at arm's length from any organized state society For two thousand years the disparate groups that now reside in Zomia (a mountainous region the size of Europe that consists of portions of seven Asian countries) have fled the projects of the organized state societies that surround them—slavery, conscription, taxes, corvée labor, epidemics, and warfare. This book, essentially an “anarchist history,” is the first-ever examination of the huge literature on state-making whose author evaluates why people would deliberately and reactively remain stateless. Among the strategies employed by the people of Zomia to remain stateless are physical dispersion in rugged terrain; agricultural practices that enhance mobility; pliable ethnic identities; devotion to prophetic, millenarian leaders; and maintenance of a largely oral culture that allows them to reinvent their histories and genealogies as they move between and around states. In accessible language, James Scott, recognized worldwide as an eminent authority in Southeast Asian, peasant, and agrarian studies, tells the story of the peoples of Zomia and their unlikely odyssey in search of self-determination. He redefines our views on Asian politics, history, demographics, and even our fundamental ideas about what constitutes civilization, and challenges us with a radically different approach to history that presents events from the perspective of stateless peoples and redefines state-making as a form of “internal colonialism.” This new perspective requires a radical reevaluation of the civilizational narratives of the lowland states. Scott’s work on Zomia represents a new way to think of area studies that will be applicable to other runaway, fugitive, and marooned communities, be they Gypsies, Cossacks, tribes fleeing slave raiders, Marsh Arabs, or San-Bushmen.

Advice and Support Ronald H. Spector. 2015-10-14 *Advice and Support: The Early Years, 1941-1960* describes the activities of the U.S. Army in Vietnam during World War II, military advice and assistance to the French government during the immediate postwar years, and the advisory program that developed after the Geneva Agreements of 1954. Its scope ranges from high-level policy decisions to low-echelon advisory operations in the field, presented against a background of relevant military and political developments. Useful not only as a study of military assistance but as a view of the Army as an agent of national policy, Ronald Spector's interesting book is a fitting introduction to the overall study of the conflict in Vietnam.

Debt and Entanglements Between the Wars Mr. Thomas J Sargent, Mr. George Hall, Mr. Martin Ellison, Mr. Andrew Scott, Mr. Harold James, Ms. Era Dabla-Norris, Mark De Broeck, Mr. Nicolas End, Ms. Marina Marinkov, Vitor Gaspar. 2019-11-08 World War I created a set of forces that affected the political arrangements and economies of all the countries involved. This period in global economic history between World War I and II offers rich material for studying international monetary and sovereign debt policies. *Debt and Entanglements between the Wars* focuses on the experiences of the United States, United Kingdom, four countries in the British Commonwealth (Australia, New Zealand, Canada, Newfoundland), France, Italy, Germany, and Japan, offering unique insights into how political and economic interests influenced alliances, defaults, and the unwinding of debts. The narratives presented show how the absence of effective international collaboration and resolution mechanisms inflicted damage on the global economy, with disastrous consequences.

The Mushroom at the End of the World Anna Lowenhaupt Tsing. 2021-06-08 A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction.--Publisher's description.
