Oriental Networks Bärbel Czennia, Greg Clingham. 2020-12-18  
Oriental Networks explores forms of interconnectedness between Western and Eastern hemispheres during the long eighteenth century, a period of improving transportation technology, expansion of intercultural contacts, and the emergence of a global economy. In eight case studies and a substantial introduction, the volume examines relationships between individuals and institutions, precursors to modern networks that engaged in forms of intercultural exchange. Addressing the exchange of cultural commodities (plants, animals, and artifacts), cultural practices and ideas, the roles of ambassadors and interlopers, and the literary and artistic representation of networks, networkers, and networking, contributors discuss the effects on people previously separated by vast geographical and cultural distance. Rather than idealizing networks as inherently superior to other forms of organization, *Oriental Networks* also considers Enlightenment expressions of resistance to networking that inform modern skepticism toward the concept of the global network and its politics. In doing so the volume contributes to the increasingly global understanding of culture and communication. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press.

*The Anthropology of Landscape* Eric Hirsch, Michael O'Hanlon. 1995-06-29 Landscape has long had a submerged presence within anthropology, both as a framing device which informs the way the anthropologist brings his or her study into view, and as the meaning imputed by local people to their cultural and physical surroundings. A principal aim of this volume follows

from these interconnected ways of considering landscape: the conventional, Western notion of landscape may be used as a productive point of departure from which to explore analogous ideas; local ideas can in turn reflexively be used to interrogate the Western construct. The Introduction argues that landscape should be conceptualized as a cultural process: a process located between place and space, foreground actuality and background potentiality, image and representation. In the chapters that follow, nine noted anthropologists and an art historian exemplify this approach, drawing on a diverse set of case studies. These range from an analysis of Indian calendar art to an account of Israeli nature tourism, and from the creation of a metropolitan gaze in nineteenth-century Paris to the soundscapes particular to the Papua New Guinean rainforests. The anthropological perspectives developed here are of cross-disciplinary relevance; geographers, art historians, and archaeologists will be no less interested than anthropologists in this re-envisioning of the notion of landscape.

Gods in the Time of Democracy Kajri Jain. 2021-01-08 In 2018 India's prime minister, Narendra Modi, inaugurated the world's tallest statue: a 597-foot figure of nationalist leader Sardar Patel. Twice the height of the Statue of Liberty, it is but one of many massive statues built following India's economic reforms of the 1990s. In *Gods in the Time of Democracy* Kajri Jain examines how monumental icons emerged as a religious and political form in contemporary India, mobilizing the concept of emergence toward a radical treatment of art historical objects as dynamic assemblages. Drawing on a decade of fieldwork at giant statue sites in India and its diaspora and interviews with sculptors, patrons, and visitors, Jain masterfully describes how public icons materialize the intersections between new image technologies, neospiritual religious movements, Hindu nationalist politics, globalization, and Dalit-Bahujan verifications of equality and presence. Centering the ex-colony in rethinking key concepts of

the image, Jain demonstrates how these new aesthetic forms entail a simultaneously religious and political retooling of the “infrastructures of the sensible.”

*Historical Archaeology and Indigenous Collaboration* D. Rae Gould,Holly Herbster,Heather Law Pezzarossi,Stephen A. Mrozowski.2019-12-09 Society for American Archaeology Scholarly Book Award Highlighting the strong relationship between New England’s Nipmuc people and their land from the pre-contact period to the present day, this book helps demonstrate that the history of Native Americans did not end with the arrival of Europeans. This is the rich result of a twenty-year collaboration between indigenous and nonindigenous authors, who use their own example to argue that Native peoples need to be integral to any research project focused on indigenous history and culture. The stories traced in this book center around

three Nipmuc archaeological sites in Massachusetts—the seventeenth century town of Magunkaquog, the Sarah Boston Farmstead in Hassanamesit Woods, and the Cisco Homestead on the Hassanamisco Reservation. The authors bring together indigenous oral histories, historical documents, and archaeological evidence to show how the Nipmuc people outlasted armed conflict and Christianization efforts instigated by European colonists. Exploring key issues of continuity, authenticity, and identity, *Historical Archaeology and Indigenous Collaboration* provides a model for research projects that seek to incorporate indigenous knowledge and scholarship.

**The Oxford Companion to United States History** Paul S. Boyer. 2001-07-04 Here is a volume that is as big and as varied as the nation it portrays. With over 1,400 entries written by some 900 historians and other scholars, it illuminates not only America's political, diplomatic, and military history, but also social, cultural, and intellectual trends; science, technology, and medicine; the arts; and religion. Here are the familiar political heroes, from George Washington and Benjamin Franklin, to Abraham Lincoln, Woodrow Wilson, and Franklin D. Roosevelt. But here, too, are scientists, writers, radicals, sports figures, and religious leaders, with incisive portraits of such varied individuals as Thomas Edison and Eli Whitney, Babe Ruth and Muhammed Ali, Black Elk and Crazy Horse, Margaret Fuller, Emma Goldman, and Marian Anderson, even Al Capone and Jesse James. The Companion illuminates events that have shaped the nation (the Great Awakening, Bunker Hill, Wounded Knee, the Vietnam War); major Supreme Court decisions (*Marbury v. Madison*, *Roe v. Wade*); landmark legislation (the Fugitive Slave Law, the Pure Food and Drug Act); social movements (Suffrage, Civil Rights); influential books (*The Jungle*, *Uncle Tom's Cabin*); ideologies (conservatism, liberalism, Social Darwinism); even natural disasters and iconic sites (the Chicago Fire, the Johnstown Flood, Niagara Falls, the Lincoln Memorial). Here too is the nation's

social and cultural history, from Films, Football, and the 4-H Club, to Immigration, Courtship and Dating, Marriage and Divorce, and Death and Dying. Extensive multi-part entries cover such key topics as the Civil War, Indian History and Culture, Slavery, and the Federal Government. A new volume for a new century, *The Oxford Companion to United States History* covers everything from Jamestown and the Puritans to the Human Genome Project and the Internet--from Columbus to Clinton. Written in clear, graceful prose for researchers, browsers, and general readers alike, this is the volume that addresses the totality of the American experience, its triumphs and heroes as well as its tragedies and darker moments.

*Hidden Hands and Divided Landscapes* Anoma Pieris. 2009-02-28  
During the nineteenth century, the colonial Straits Settlements of Singapore, Penang, and Melaka were established as free ports of British trade in Southeast Asia and proved attractive to large numbers of regional migrants. Following the abolishment of slavery in 1833, the Straits government transported convicts from the East India Company's Indian presidencies to the settlements as a source of inexpensive labor. The prison became the primary experimental site for the colonial plural society and convicts were graduated by race and the labor needed for urban construction. *Hidden Hands and Divided Landscapes* investigates how a political system aimed at managing ethnic communities in the larger material context of the colonial urban project was first imagined and tested through the physical segregation of the colonial prison. It relates the story of a city, Singapore, and a contemporary city-state whose plural society has its origins in these historical divisions. A description of the evolution of the ideal plan for a plural city across the three settlements is followed by a detailed look at Singapore's colonial prison. Chapters trace the prison's development and its dissolution across the urban landscape through the penal labor system. The author demonstrates the way in which racial politics were inscribed

spatially in the division of penal facilities and how the map of the city was reconfigured through convict labor. Later chapters describe penal resistance first through intimate stories of penal life and then through a discussion of organized resistance in festival riots. Eventually, the plural city ideal collapsed into the hegemonic urban form of the citadel, where a quite different military vision of the city became evident. *Hidden Hands and Divided Landscapes* is a fascinating and thoroughly original study in urban history and the making of multiethnic society in Singapore. It will compel readers to rethink the ways in which colonial urban history, postcolonial urbanism, and governance have been theorized by scholars and represented by governments.

*An Entertaining Story* India Hicks. 2020-09-08 Style icon India Hicks's charming take on entertaining, featuring dreamy tablescapes, found centerpieces, and enjoyable family anecdotes. Daughter of the late David Hicks and goddaughter to Prince Charles, India Hicks is known for her irreverent take on style. In her previous books, she invited readers into her homes on Harbour Island and in England. For her third book, India presents her own slightly madcap spin on entertaining. Organized by meal, the book begins marvelously with the most important meal of the day--cocktail hour--and ends with breakfast. In between, there are family suppers and big dinners, birthday cakes and Christmas crackers, great British breakfasts, quick teas and long lunches, mustard pots as vases, and bedcovers for tablecloths. Like India, these stories are full of personality, from the Panic Dinner (or what to do when you suddenly have a crowd descending) to the Naked Cake (cake decorating for the harried or untalented) to a White Christmas in the Bahamas. Each celebration includes clever advice and inspiration for place settings, homemade flower arrangements, table design, and more. These are parties that make use of what is on hand, whether it's beach towels thrown down a long table, children's candy piled in cups on a tray, or

Beautifully photographed and embellished here and there with a bit of Hicks family lore, the book is rounded out with a sprinkling of recipes from India's beloved cook, Claire Williams, fondly known as Top Banana, and other family members, from traditional English fare such as Victoria Sponge to tropical treats such as the Marquess's Banana Daiquiri.

*The Divided City* Singh Binti,Sethi Mahendra.1999-10-20 The Divided City contributes to the growing body of scholarly work on cities of the global South. Cities in developing countries, particularly emerging economies, are undergoing rapid urbanization and social transition. Empirically grounded to the contemporary urban situation in India, The Divided City is set in an opportune moment to assess how cities fare up to the challenge of inclusive urbanization. It highlights how the urban pathway of contemporary India departs from the goal of inclusion in multiple ways -- access to energy, public services, architecture,

land, infrastructure, commons, and cultural and civic spaces. It simultaneously interrogates both policy and theory with intermingling issues like informality, privatization, political economy and gender divide in the contemporary Indian city. The book argues for greater urban inclusion (social, economic and environmental) acknowledged in principle, in national and international urban policy frameworks.

**The Making of a Modern Indian Artist-Craftsman** Naman Ahuja.2022-01-26 The Making of the Modern Indian Artist-Craftsman is intended to be a biographical and critical insight into the work of the potter, painter and photographer Devi Prasad. Apart from the making of his personal history and his times, it leads us to why the act of making (art) itself takes on such a fundamental philosophical significance in his life. This, the author explains, derives directly from his absorption of Gandhi's philosophy that looked at the act of making or doing as an ethical ideal, and further back to the impact of the Arts and Crafts Movement on the ideology of 'Swadeshi' and on the milieu of Santiniketan. This book examines his art along with his role in political activism which, although garnered on Indian soil made

him crisscross national borders and assume an important role in the international arena of war resistance. Devi Prasad graduated from Tagore's Santiniketan in 1944 when he joined the Hindustani Talimi Sangh (which promulgated Nayee Taleem) at Gandhi's ashram Sevagram as Art 'Teacher'. His political consciousness saw him participate actively in the Quit India Movement in 1942, in Vinoba Bhave's Bhoodan and later from 1962 onward as Secretary General (later Chairman) of the War Resisters' International, the oldest world pacifist organisation based in London. From there he was able to extend his Gandhian values internationally. All of this, while continuing with his life as a prolific artist. Rather than view them as separate worlds or professions, Devi harmonises them within an ethical and conscionable whole. He has written widely on the inextricable link between peace and creativity, on child /basic education, Gandhi and Tagore, on politics and art, in English, Hindi and Bangla. In 2007 he was awarded the Lalit Kala Akademi Ratna and in 2008, the Desikottama by Visva Bharati University, Santiniketan.

The Hovey Murals at Dartmouth College Brian P.

Kennedy.2015-10-06 Dartmouth College is in the unique position of having a magnificent large fresco by the Mexican muralist Jos  Clemente Orozco (1883-1949) adorning the campus library. Completed by the artist in 1934 and titled The Epic of American Civilization, this work was promptly condemned by many alumni as being too critical of the college and academia. In response to Orozco's work, the illustrator and Dartmouth alumnus Walter Beach Humphrey (1892-1966) persuaded President Ernest Martin Hopkins to allow him to create another mural that would be more Dartmouth in character. Humphrey painted his mural four years after the completion of Orozco's frescoes on the walls of a faculty dining hall or grill at the college. Based on a drinking song by Richard Hovey, Dartmouth Class of 1885, it depicts a mythical founding of the college by Eleazar Wheelock. In the first panel, Wheelock, pulling along a five-hundred-gallon barrel of rum, is happily greeted by young American Indian men, whom he introduces to drunken revelry. The encounter, which takes place as the mural circles the grill room, also features many half-naked Indian women, one of whom reads Eleazer's copy of Gradus ad Parnassum upside down. Fast-forward to the early 1970s and the introduction of the Native American Program and co-education at Dartmouth College: the Hovey Murals, as the work was known, became so controversial that they were covered over, and the room itself closed. This book aims to provide not only the history (and art history) of this mural but also its wider cultural and

historical contexts. The existence of both Orozco's fresco and Humphrey's mural on a college campus provides a unique juxtaposition of certain extremes of 1930s mural art. As such, their creation represents an important and fascinating historical moment while bringing into sharper focus some of the issues surrounding the politics of art and images. This book is intended as a textbook for those studying these murals and also as a guide to understanding how they fit into a troubling and difficult history of envisioning Native Americans by non-natives in American literature and popular art.

Slavery and the Culture of Taste Simon Gikandi. 2014-04-27 It would be easy to assume that, in the eighteenth century, slavery and the culture of taste--the world of politeness, manners, and aesthetics--existed as separate and unequal domains, unrelated in the spheres of social life. But to the contrary, *Slavery and the Culture of Taste* demonstrates that these two areas of modernity were surprisingly entwined. Ranging across Britain, the antebellum South, and the West Indies, and examining vast archives, including portraits, period paintings, personal narratives, and diaries, Simon Gikandi illustrates how the violence and ugliness of enslavement actually shaped theories of taste, notions of beauty, and practices of high culture, and how slavery's impurity informed and haunted the rarified customs of the time. Gikandi focuses on the ways that the enslavement of Africans and the profits derived from this exploitation enabled the moment of taste in European--mainly British--life, leading to a transformation of bourgeois ideas regarding freedom and selfhood. He explores how these connections played out in the immense fortunes made in the West Indies sugar colonies, supporting the lavish lives of English barons and altering the ideals that defined middle-class subjects. Discussing how the

ownership of slaves turned the American planter class into a new aristocracy, Gikandi engages with the slaves' own response to the strange interplay of modern notions of freedom and the realities of bondage, and he emphasizes the aesthetic and cultural processes developed by slaves to create spaces of freedom outside the regimen of enforced labor and truncated leisure. Through a close look at the eighteenth century's many remarkable documents and artworks, *Slavery and the Culture of Taste* sets forth the tensions and contradictions entangling a brutal practice and the distinctions of civility.

Mapping the Pāśupata Landscape Elizabeth A. Cecil.2020-03-09

In *Mapping the Pāśupata Landscape: Narrative, Place, and the Śaiva Imaginary in Early Medieval North India*, Elizabeth A. Cecil explores the sacred geography of the earliest community of Śiva devotees called the Pāśupatas. This book brings the narrative cartography of the Skandapurāṇa into conversation with physical landscapes, inscriptions, monuments, and icons in order to examine the ways in which Pāśupatas were emplaced in regional landscapes and to emphasize the use of material culture as media through which notions of belonging and identity were expressed. By exploring the ties between the formation of early Pāśupata communities and the locales in which they were embedded, this study reflects critically upon the ways in which community building was coincident with place-making in Early Medieval India.

**Ethno-Architecture and the Politics of Migration** Mirjana Lozanovska.2015-12-22 Ethno-Architecture and the Politics of Migration explores the interface between migration and architecture. Cities have been substantially affected by transnational migration but the physical manifestations of migration in architecture - and its effect on streetscape, neighbourhood and city - have so far been understudied. This contributed volume examines how migrants interact with, adapt, and construct new architecture. Looking at the physical, urban and cultural impact of these changes on a variety of sites, the authors explore architecture as an identity category and investigate what buildings and places associated with migration tell us about central questions of belonging, culture, community, and home in regions such as North America, Australia and the UK. An important contribution to debates on place identity and the transformation of places as a result of mobility and globalised economies in the 21st century.

## **New Mythologies in Design and Culture** Rebecca

Houze.2016-05-19 Taking as its point of departure Roland Barthes' classic series of essays, *Mythologies*, Rebecca Houze presents an exploration of signs and symbols in the visual landscape of postmodernity. In nine chapters Houze considers a range of contemporary phenomena, from the history of sustainability to the meaning of sports and children's building toys. Among the ubiquitous global trademarks she examines are BP, McDonald's, and Nike. What do these icons say to us today? What political and ideological messages are hidden beneath their surfaces? Taking the idea of myth in its broadest sense, the individual case studies employ a variety of analytic methods derived from linguistics, psychoanalysis, anthropology, sociology, and art history. In their eclecticism of approach they demonstrate the interdisciplinarity of design history and design studies. Just as Barthes' meditations on culture concentrated on his native France, *New Mythologies* is rooted in the author's experience of living and teaching in the United States. Houze's reflections encompass both contemporary American popular culture and the history of American industry, with reference to such foundational figures as Thomas Jefferson and Walt Disney. The collection provides a point of entry into today's complex postmodern or post-postmodern world, and suggests some ways of thinking about its meanings, and the lessons we might learn from it.

*Paradise Planned* Robert A.M. Stern, David Fishman, Jacob Tilove. 2013-12-03 *Paradise Planned* is the definitive history of the development of the garden suburb, a phenomenon that originated in England in the late eighteenth century, was quickly adopted in the United States and northern Europe, and gradually proliferated throughout the world. These bucolic settings offered an ideal lifestyle typically outside the city but accessible by streetcar, train, and automobile. Today, the principles of the garden city movement are once again in play, as retrofitting the suburbs has become a central issue in planning. Strategies are emerging that reflect the goals of garden suburbs in creating metropolitan communities that embrace both the intensity of the city and the tranquility of nature. *Paradise Planned* is the comprehensive, encyclopedic record of this movement, a vital contribution to architectural and planning history and an essential recourse for guiding the repair of the American townscape.
