**Waltzing Through Europe: Attitudes towards Couple Dances in the Long Nineteenth-Century** Egil Bakka, Theresa Jill Buckland, Helena Saarikoski, Anne von Bibra Wharton. 2020-09-10 From 'folk devils' to ballroom dancers, *Waltzing Through Europe* explores the changing reception of fashionable couple dances in Europe from the eighteenth century onwards. A refreshing intervention in dance studies, this book brings together elements of historiography, cultural memory, folklore, and dance across comparatively narrow but markedly heterogeneous localities. Rooted in investigations of often newly discovered primary sources, the essays afford many opportunities to compare sociocultural and political reactions to the arrival and practice of popular rotating couple dances, such as the Waltz and the Polka. Leading contributors provide a transnational and affective lens onto strikingly diverse topics, ranging from the evolution of romantic couple dances in Croatia, and Strauss's visits to Hamburg and Altona in the 1830s, to dance as a tool of cultural preservation and expression in twentieth-century Finland. *Waltzing Through Europe* creates openings for fresh collaborations in dance historiography and cultural history across fields and genres. It is essential reading for researchers of dance in central and northern Europe, while also appealing to the general reader who wants to learn more about the vibrant histories of these familiar dance forms. *Trade Marks Journal* .1986

**French: From Dialect to Standard** R. Anthony Lodge.2013-04-08 Written as a text, this book looks at the external history of French from its Latin origins to the present day through some of the analytical frameworks developed by contemporary sociolinguistics. French is one of the most highly standardized of the world's languages and the author invites us to see the language as heterogenous, rather than a monolithic entity, using the model proposed by E. Haugen as a useful comparative grid to plot the development of standardization. After an introductory section which examines the dialectalization of Latin in Gaul, the four central chapters of the book are constructed around the basic processes involved in standardization as identified by Haugen: the selection of norms, the elaboration of function, codification and acceptance. The concluding chapter deals with language variability and the wide gulf that has now developed between French used for formal purposes and that used in everyday speech, with particular reference to Occitan speaking regions. Emphasizing the ordinary speakers of the language, rather than the statesmen or great authors as agents of change, the book combines a traditional history of the language' approach with a sociolinguistic framework to provide a broad and comparative overview of the problem of language standardization.
