Decolonizing Education Marie Battiste. 2019-01-31 Drawing on treaties, international law, the work of other Indigenous scholars, and especially personal experiences, Marie Battiste documents the nature of Eurocentric models of education, and their devastating impacts on Indigenous knowledge. Chronicling the negative consequences of forced assimilation, racism inherent to colonial systems of education, and the failure of current educational policies for Aboriginal populations, Battiste proposes a new model of education, arguing the preservation of Aboriginal knowledge is an Aboriginal right. Central to this process is the repositioning of Indigenous humanities, sciences, and languages as vital fields of knowledge, revitalizing a knowledge system which incorporates both Indigenous and Eurocentric thinking.

them both? It will be years before a summons back arrives for Tomás, now living as Thomas Shore in New York. been a few days walk turned into his worst possible nightmare as he stumbled aimlessly through mosquito and crocodile infested swamps. It was almost six days I'd been without sleep, apart from a short period of unconsciousness and those few moments before I fell out of that tree, he said. I became demented by the cavalcade of mosquitoes and hallucinating badly. His experience was only to worsen - he waded halfway across a tidal river to be confronted by a large saltie. Birthing in the Pacific Vicki Lukere, Margaret Jolly.2001-11-30 This collection explores birthing in the Pacific against the background of debates about tradition and modernity. A wide-ranging introduction and conclusion, together with case studies from Papua New Guinea, New Caledonia, Vanuatu, Fiji, and Tonga, show how simple contrasts between traditional and modern practices, technocratic and organic models of childbirth, indigenous and foreign approaches, and notions of before and after can be potent but problematic. The difficulties entailed confront public health programs concerned with practical issues of infant and maternal survival in developing countries as well as scholarly analyses of birthing in cross-cultural contexts. The introduction analyzes central concepts and themes: questions of survival, safety, and well-being; the significance of postures, practices, and sites; the role of midwives, traditional birth

attendants, and nurses; and the role of men in birthing and reproduction. Contributors--four anthropologists, a historian, and a community health worker--offer insights into the ways mothers, midwives, and nurses relate the traditional and the modern, and how ideas of tradition and modernity have shaped representations of Pacific childbirth. The conclusion provides researchers with a guide to relevant literature from several disciplines. As a whole the collection warns against either a celebration of emancipation through biomedicine or a recuperative romance about women's past powers in reproduction. Contributors: Ruta Fiti-Sinclair, Margaret Jolly, Vicki Lukere, Shelley Mallett, Helen Morton, Christine Salomon.

A Brief History of Women in Quebec Denyse

Baillargeon.2014-09-09 *A Brief History of Women in Quebec* examines the historical experience of women of different social classes and origins (geographic, ethnic, and racial) from the period of contact between Europeans and Aborigines to the twenty-first century to give a nuanced and complex account of the main transformations in their lives. Themes explored include demography, such as marriage, fecundity, and immigration; women's work outside and inside the home, including motherhood; education, from elementary school to post-secondary and access to the professions; the impact of religion and government policies; and social and political activism, including feminism and struggles to attain equality with men. Early chapters deal with New France and the first part of the nineteenth century, and the remaining are devoted to the period since 1880, an era in which women's lives changed rapidly and dramatically. The book concludes that transformation in the means of production, women's social and political activism (including feminism), and Quebec nationalism are three main

Broadband Services Imrich Chlamtac,Ashwin Gumaste,Csaba Szabo.2005-06-14 Access to the Internet is an increasing problem in many areas of the world. As the popularity and usefulness of the Internet increases on a daily basis, lack of access to the technology is putting many groups at a disadvantage in terms of better education, better jobs and even in terms of higher levels of civic participation. However, creating a network infrastructure to serve outlying communities and sectors of the population is not straight-forward. This book brings together all the aspects of the problem - technical, regulatory and economic - into one volume to provide a comprehensive resource. It describes the latest technological advances that allow cost-effective network infrastructures to be built, and places them in the context of the applications and services that the infrastructure will deliver. A section on business models and case studies from North American and Europe demonstrate that the solutions are economically and practically viable. This book is essential for anyone looking to gain an understanding of the issues and technology surrounding the access debate. It will be of particular relevance to network engineers/designers/planners at the incumbent operator companies charged with delivering broadband access to as yet unconnected regions. Governments and regulatory bodies will also find this a useful guide to the problems that they may face.

10 Millions Tons for Victory Jean-Pierre Benamou.2007-08 This book presents an impressive inventory of the gigantic efforts employed by the workshops of the Allies to defeat the Germans. Each GI was backed by 12 tons of equipment; for every infantryman, sailor or airman in action in the Battle of Normandy and later in the Battle for France, 10 soldiers were in support behind, to ensure they obtained their objectives with minimum risk, speed and maximum ease. These were the troops of American, British and Canadian War Effort, (behind-the-lines), whose logistics support, made possible the Allied victory of 1945. Not forgotten are the civilians on war-work, 65 million men and women, united in the vast industrial enterprise who together forged the tools of victory.

Monster Gets a Job Ellen Blance,Ann Cook.1977-01-01
The People of New France Allan Greer.2017-06-22 This book surveys the social history of New France. For more than a century, until the British conquest of 1759-60, France held sway over a major portion of the North American continent. In this vast territory several unique colonial societies emerged, societies which in many respects mirrored ancien regime France, but which also incorporated a major Aboriginal component. Whereas earlier works in this field presented pre-conquest Canada as completely white and Catholic, *The People of New France* looks closely at other members of society as well: black slaves, English captives and Christian Iroquois of the mission villages near Montreal. The artisans and soldiers, the merchants, nobles, and

priests who congregated in the towns of Montreal and Quebec are the subject of one chapter. Another chapter examines the special situation of French regime women under a legal system that recognized wives as equal owners of all family property. The author extends his analysis to French settlements around the Great Lakes and down the Mississippi Valley, and to Acadia and Ile Royale. Greer's book, addressed to undergraduate students and general readers, provides a deeper understanding of how people lived their lives in these vanished Old-Regime societies.

The Kanak Awakening David A. Chappell.2013-10-31 In 1853, France annexed the Melanesian islands of New Caledonia to establish a convict colony and strategic port of call. Unlike other European settler-dominated countries in the Pacific, the territory's indigenous people remained more numerous than immigrants for over a century. Despite military conquest, land dispossession, and epidemics, its thirty language groups survived on tribal reserves and nurtured customary traditions and identities. In addition, colonial segregation into the racial category of canaques helped them to find new unity. When neighboring anglophone colonies began to decolonize in the 1960s, France retained tight control of New Caledonia for its nickel reserves, reversing earlier policies that had granted greater autonomy for the islands. Anticolonial protest movements culminated in the 1980s Kanak revolt, after which two negotiated peace accords resulted in autonomy in a progressive form and officially recognized Kanak identity for the first time. But the near-parity of settlers and Kanak continues to make nation-building a challenging task, despite a 1998 agreement among Kanak and settlers to seek a "common destiny." This study examines the rise in New Caledonia of rival identity formations

that became increasingly polarized in the 1970s and examines in particular the emergence of activist discourses in favor of Kanak cultural nationalism and land reform, multiracial progressive sovereignty, or a combination of both aspirations. Most studies of modern New Caledonia focus on the violent 1980s uprising, which left deep scars on local memories and identities. Yet the genesis of that rebellion began with a handful of university students who painted graffiti on public buildings in 1969, and such activists discussed many of the same issues that face the country's leadership today. After examining the historical, cultural, and intellectual background of that movement, this work draws on new research in public and private archives and interviews with participants to trace the rise of a nationalist movement that ultimately restored self-government and legalized indigenous aspirations for sovereignty in a local citizenship with its own symbols. Kanak now govern two out of three provinces and have an important voice in the Congress of New Caledonia, but they are a slight demographic minority. Their quest for nationhood must achieve consensus with the immigrant communities, much as the founders of the independence movement in the 1970s recommended.

The Man Who Laughs Victor Hugo.2022-01-11 The Man Who Laughs (1869) is a novel by Victor Hugo. Written while Hugo was living in exile on the island of Guernsey, The Man Who Laughs is set between the 17th and 18th centuries in England, a time of political unrest and class conflict in which he identified parallels to France of the 19th century. adaptations in film, theater, and comics, including a 1928 American silent film that served as source material for the Joker in the original 1940 issue of Batman. "Again the child set himself to sweep away the snow. The neck of the dead woman appeared; then her shoulders, clothed in rags. Suddenly he felt something move feebly under his touch. It was something small that was buried, and which stirred. The child swiftly cleared away the snow, discovering a wretched little body—thin, wan with cold, still alive, lying naked on the dead woman's naked breast." Abandoned by a group of Comprachicos, criminals who buy and capture children for the purpose of mutilating them and forcing them to work as beggars or performers, the young Gwynplaine wanders the English coast alone. During a storm, he discovers an infant girl and her dead mother lying in the snow, and endeavors to save the child. Left with no choice but to rely on strangers, Gwynplaine joins a carnival run by the merciful Ursus, a man with a pet wolf. Horrified at first by the boy's disfigurement, which has left a perpetual smile on his face, Ursus agrees to care for the children and soon finds that Gwynplaine is a versatile and lucrative attraction at his shows. When the Duchess Josiana attends the carnival to see Gwynplaine, now a young man, she finds herself strangely attracted to him. With a beautifully designed cover and professionally typeset manuscript, this edition of Victor Hugo's *The Man Who Laughs* is a classic work of French literature reimagined for modern readers.
