**Journey Toward the Cradle of Mankind** Guido Gozzano.1996 Before leaving home he had engaged to send back dispatches to La Stampa; after appearing there, his letters from India were collected and issued posthumously as *Verso la cuna del mondo* (1917), now published in English for the first time. The extent of Gozzano's travels - to Ceylon, Goa, Agra, Jaipur - makes one wonder how the writer was able to visit all or even most of the places he so vividly describes.

**Secret Judgments of God** Noble David Cook,William George Lovell.2001 In the wake of European expansion, disease outbreaks in the New World caused the greatest loss of life known to history. Post-contact Native American inhabitants succumbed in staggering numbers to maladies such as smallpox, measles, influenza, and typhus, against which they had no immunity. A collection of case studies by historians, geographers, and anthropologists, *Secret Judgments of God* discusses how diseases with Old World origins devastated vulnerable native populations throughout Spanish America. In their preface to the paperback edition, the editors discuss the ongoing, often heated debate about contact population history.

**The Discovery and Conquest of Peru** Pedro de Cieza de Leon.1999-02-11 Dazzled by the sight of the vast treasure of gold and silver being unloaded at Seville's docks in 1537, a teenaged Pedro de Cieza de León vowed to join the Spanish effort in the New World, become an explorer, and write what would become the earliest historical account of the conquest of Peru. Available for the first time in English, this history of Peru is based largely on interviews with Cieza's conquistador compatriotes, as well as with Indian informants knowledgeable of the Incan past. Alexandra Parma Cook and Noble David Cook present this recently discovered third book of a four-part chronicle that provides the most thorough and definitive record of the birth of modern Andean America. It describes with unparalleled detail the exploration of the Pacific coast of South America led by Francisco Pizarro and Diego de Almagro, the imprisonment and death of the Inca Atahualpa, the Indian resistance, and the ultimate Spanish domination. Students and scholars of Latin American history and conquest narratives will welcome the publication of this volume.

*Cornelius Nepos, Life of Hannibal* Bret Mulligan.2015-10-05 Trebia. Trasimene. Cannae. With three stunning victories, Hannibal humbled Rome and nearly shattered its empire. Even today Hannibal's brilliant, if ultimately unsuccessful, campaign against Rome during the Second Punic War (218-202 BC) make him one of history's most celebrated military leaders. This biography by Cornelius Nepos (c. 100-27 BC) sketches Hannibal's life from the time he began traveling with his father's army as a young boy, through his sixteen-year invasion of Italy and his tumultuous political career in Carthage, to his perilous exile and eventual suicide in the East. As Rome completed its bloody transition from dysfunctional republic to stable monarchy, Nepos labored to complete an innovative and influential collection of concise biographies. Putting aside the detailed, chronological accounts of military campaigns and political machinations that characterized most writing about history, Nepos surveyed Roman and Greek history for distinguished men who excelled in a range of prestigious occupations. In the exploits and achievements of these illustrious men, Nepos hoped that his readers would find models for the honorable conduct of their own lives. Although most of Nepos' works have been lost, we are fortunate to have his biography of Hannibal. Nepos offers a surprisingly balanced portrayal of a man that most Roman authors vilified as the most monstrous foe that Rome had ever faced. Nepos' straightforward style and his preference for common vocabulary make *Life of Hannibal* accessible for those who are just beginning to read continuous Latin prose, while the historical interest of the subject make it compelling for readers of every ability.

The Historical Archaeology of Buenos Aires Daniel Schávelzon.2005-11-25 A discussion of the historical archaeology of one of the largest cities in the world following four centuries of marginal positioning in regard to empires, trade routes, and the production and accumulation of wealth. The author describes how Buenos Aires came to achieve its current status as a major urban metropolis through an analysis of settlement patterns, architecture, the lifestyle of its residents, and the access to commodities of different social groups.

The Archaeology of Ethnicity Siân Jones.2002-11-01 The question of ethnicity is highly controversial in contemporary archaeology. Indigenous and nationalist claims to territory, often rely on reconstructions of the past based on the traditional identification of 'cultures' from archaeological remains. Sian Jones responds to the need for a reassessment of the ways in which social groups are identified in the archaeological record, with a comprehensive and critical synthesis of recent theories of ethnicity in the human sciences. In doing so, she argues for a fundamentally different view of ethnicity, as a complex dynamic form of identification, requiring radical changes in archaeological analysis and interpretation.

Thames: Sacred River Peter Ackroyd.2008-11-04 Just as Peter Ackroyd's bestselling London is the biography of the city, Thames: Sacred River is the biography of the river, from sea to source. Exploring its history from prehistoric times to the present day, the reader is drawn into an extraordinary world, learning about the fishes that swim in the river and the boats that ply its surface; about floods and tides; hauntings and suicides; miasmas and malaria; locks, weirs and embankments; bridges, docks and palaces. Peter Ackroyd has a genius for digging out the most surprising and entertaining details, and for writing about them in the most magisterial prose; the result is a wonderfully readable and captivating guide to this extraordinary river and the towns and villages which line it.

**The River Thames Book** Chris Cove-Smith.2016-06-17 The River Thames Book, now in its seventh edition, is the best-selling guide to the non-tidal Thames from Teddington to its source in Gloucestershire. Shamans of Prehistory Jean Clottes,David Lewis-Williams.1998-10 The universality of shamanistic power and practice among today's hunter-gatherers - along with the similarity of rock art found in varied sites around the world - has led Jean Clottes and David Lewis-Williams to suggest in this new book that the great art of paleolithic caves can be best understood through the lens of shamanism. Indeed, this is not a monograph on a particular site, but a general discussion of the art of painted caves and their shamanistic meaning. Through the authors' revealing words and the abundant full-color illustrations, we follow shamans into their trance states, and we watch as they carefully paint and engrave on rock surfaces the shapes of animals whose power they seek. As we learn how drawings and rituals were likely modes of shamanistic contact, we understand best the actions, accomplishments, and traces left behind by prehistoric shamans.

**The Other/Argentina** Amy K. Kaminsky.2021-04-01 The Other/Argentina looks at literature, film, and the visual arts to examine the threads of Jewishness that create patterns of meaning within the fabric of Argentine self-representation. A multiethnic yet deeply Roman Catholic country, Argentina has worked mightily to fashion itself as a modern nation. In so doing, it has grappled with the paradox of Jewishness, emblematic both of modernity and of the lingering traces of the premodern. By the same token, Jewishness is woven into, but also other to, Argentineity. Consequently, books, movies, and art that reflect on Jewishness play a significant role in shaping Argentina's cultural landscape. In the process they necessarily inscribe, and sometimes confound, norms of gender and sexuality. Just as Jewishness seeps into Argentina, Argentina's history, politics, and culture mark Jewishness and alter its meaning. The feminized body of the Jewish male, for example, is deeply rooted in Western tradition; but the stigmatized

body of the Jewish prostitute and the lacerated body of the Jewish torture victim acquire particular significance in Argentina. Furthermore, Argentina's iconic Jewish figures include not only the peddler and the scholar, but also the Jewish gaucho and the urban mobster, troubling conventional readings of Jewish masculinity. As it searches for threads of Jewishness, richly imbued with the complexities of gender and sexuality, *The Other/Argentina* explores the patterns those threads weave, however overtly or subtly, into the fabric of Argentine national meaning, especially at such critical moments in Argentine history as the period of massive state-sponsored immigration, the rise of labor and anarchist movements, the Perón era, and the 1976–83 dictatorship. In arguing that Jewishness is an essential element of Argentina's self-fashioning as a modern nation, the book shifts the focus in Latin American Jewish studies from Jewish identity to the meaning of Jewishness for the nation. **Gender, Geography and Empire** Cheryl McEwan.2019-06-03 This title was first published 2000: This text is intended to draw together two important developments in contemporary geography: firstly, the recognition of the need to write critical histories of geographical thought and, particularly, the relationship between modern geography and European imperialism; and secondly, the attempt by feminist geographers to countervail the absence of women in the histories. The author focuses on the narratives of British women travellers in West Africa between 1840 and 1915, exploring their contributions to British imperial culture, the ways in which they were empowered in the imperial context by virtue of both race and class, and their various representations of West African landscapes and peoples. The book argues for the inclusion of women and their experiences in histories of geographical thought and explores the possibilities and problems of combining feminist and post-colonial approaches to these histories.

*Innovation and Transition in Law: Experiences and Theoretical Settings* . This book features a discussion on the modernisation of law and legal change, focusing on the key concepts of innovation and transition. These concepts both appear to be relevant and poorly defined in contemporary legal science. A critical reflection on the heuristic value of these categories seems appropriate, particularly considering their dyadic value. While innovation is increasingly appearing in the present day as being the category in which one looks at the modernisation of law, the concept of transition also seems to be the privileged place of occurrence for such dynamics. This group of Italian and Brazilian scholars contributing to this volume intends to investigate such problems through an interdisciplinary prism. It includes points of view both internal to legal studies - such as the history of law, theory of law, constitutional law, private law and commercial law - and external, such as political philosophy and history of justice and political institutions.

**Studies on the Text of Macrobius' Saturnalia** Robert Kaster.2010-10-29 Studies on the Text of Macrobius' Saturnalia is a companion to new editions of Macrobius' encyclopedic dialogue that are to appear in the Loeb Classical Library and the Oxford Classical Texts series. The first chapter reports the results of a new survey of all the extant manuscripts of the work written before the 13th century and provides the first detailed stemma, which allows the early medieval archetype to be reconstructed more reliably than previously. Chapter 2 discusses some of the nearly 300 passages in which the new text differs from the standard edition of James Willis (Teubner 1963); the critical discussions then continue in Chapter 3, which considers some questions of editorial practice posed by a text whose author was not just the author but also, to a very extensive degree, a copyist

himself. Three appendixes supplement the arguments in the body of the monograph.

**Sustainable Poetry** Leonard M. Scigaj.2014-07-11 Focusing on the work of A.R. Ammons, Wendell Berry, W.S. Merwin, and Gary Snyder, author Leonard Scigaj shows that just as a sustainable society does not depreciate its resource base, so a sustainable poetry does not restrict interest to language. Over the past thirty years many poets have shown an increasing sensitivity to ecological thinking. But critics trained in poststructuralist language theory often fail to explore the substance of ecopoetry. Scigaj is the first to define ecopoetry as separate and distinct from nature or environmental poetry, marked by its concern with balancing the interests of human beings with the needs of nature. Just as science learned that the earth was not the center of the universe, ecopoetry insists on the recognition that humans are not at the center of the natural world.

**Writing for an Endangered World** Lawrence Buell.2009-07-01 The environmental imagination does not stop short at the edge of the woods. Nor should our understanding of it, as Lawrence Buell makes powerfully clear in his new book that aims to reshape the field of literature and environmental studies. Emphasizing the influence of the physical environment on individual and collective perception, his book thus provides the theoretical underpinnings for an ecocriticism now reaching full power, and does so in remarkably clear and concrete ways. Writing for an Endangered World offers a conception of the physical environment--whether built or natural--as simultaneously found and constructed, and treats imaginative representations of it as acts of both discovery and invention. A number of the chapters develop this idea through parallel studies of figures identified with either natural or urban settings: John Muir and Jane Addams; Aldo Leopold and William Faulkner; Robinson Jeffers and Theodore Dreiser; Wendell Berry and Gwendolyn Brooks. Focusing on nineteenth- and twentieth-century writers, but ranging freely across national borders, his book reimagines city and country as a single complex landscape.

**Hispaniae** J. S. Richardson,John Richardson.2004-07-08 This book traces the beginnings and the first 140 years of the Roman presence in Spain, showing how what began as a purely military commitment developed in addition into a range of civilian activities including taxation, jurisdiction and the founding of both Roman and native settlements. The author uses literary sources, the results of recent and earlier archaeology, numismatics, and epigraphic material to reveal the way in which patterns of administration were created, especially under the direction of the military commanders sent from Rome to the two Spanish provinciae. This is of major importance for understanding the way in which Roman power spread during this period, not only in Spain, but throughout the Mediterranean world.
