Perfectly Legal David Cay Johnston.2005-01-04 Now updated with a new prologue! Since the mid-1970s, there has been a dramatic shift in America's socioeconomic system, one that has gone virtually unnoticed by the general public. Tax policies and their enforcement have become a disaster, and thanks to discreet lobbying by a segment of the top 1 percent, Washington is reluctant or unable to fix them. The corporate income tax, the estate tax, and the gift tax have been largely ignored by the media. But the cumulative results are remarkable: today someone who earns a yearly salary of \$60,000 pays a larger percentage of his income in taxes than the four hundred richest Americans. Pulitzer Prize-winning investigative reporter David Cay Johnston exposes exactly how the middle class is being squeezed to create a widening wealth gap that threatens the stability of the country. By relating the compelling tales of real people across all areas of society, he reveals the truth behind:

- Middle class tax cuts and exactly whom they benefit.
- How workers are being cheated out of their retirement plans while disgraced CEOs walk away with millions.
- How some corporations avoid paying any federal income tax.
- How a law meant to prevent cheating by the top 2 percent of Americans no longer affects most of them, but has morphed into a stealth tax on single mothers making just \$28,000.
- Why the working poor are seven times more likely to

be audited by the IRS than everyone else. • How the IRS became so weak that even when it was handed complete banking records detailing massive cheating by 1,600 people, it prosecuted only 4 percent of them. Johnston has been breaking pieces of this story on the front page of The New York Times for seven years. With *Perfectly Legal*, he puts the whole shocking narrative together in a way that will stir up media attention and make readers angry about the state of our country.

Grit Angela Duckworth.2016-05-03 In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-genius everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and

long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

About the Novel: *The Cay* is a story about a man and a boy who get stranded on an island and struggle to survive with each other. 11-year-old Phillip Enright and his mother board a ship to Virginia in the hopes of escaping the German submarines that are surrounding the area around Curaçao. Along the way, the ship gets torpedoed by one such submarine. Phillip is blinded and stranded out to sea with an old African American man named Timothy and a cat named Stew Cat. The group find themselves on a tiny island, where they survive by fishing and collecting rain water. During their time, Timothy and Phillip struggle to work together, partly due to Phillip's racial prejudices. In the end, the two must learn to work together in the hopes of survival and eventual rescue. *The Cay* is a gripping story of survival and overcoming prejudices.
