Otoneurosurgery William Pellet,Maurice Cannoni,Andre Pech.2012-12-06 Doctors Pellet, Cannoni and Pech have joined forces to write a masterly work on the subject of otoneurosurgery and tumors of the base of the skull. The anatomic illustrations, derived from their meticulous dissections, are of excellent quality and a credit to the famed tradition of French neuroanatomists of the past. It is evident that the operative techniques described by these surgeons indicate that they have spent a great deal of time in the dissecting-room and that they have completely mastered the temporal bone. A perfect knowledge of the fundamental anatomy of the petrous bone is essential before embarking on the difficult surgical procedures in this region of the brain and base of the skull. Reading this work makes it abundantly clear that the results of this type of surgery are vastly improved when neurosurgeons and otologists combine their skills. Each of these specialists brings his unique experience and entire knowledge to the operation for the greater benefit of the patient. We wish to congratulate Doctors Pellet, Cannoni and Pech on the publication of this excellent work. March 1990 William F. House, MD William E. The Greeks in the East Alexandra Villing.2005 Eight authoritative essays explore the changing relationships between the Greeks and their Eastern neighbours from the Bronze Age to the Classical period, examining archaeological evidence in the shape of pottery, wall-painting, sculpture, architecture, jewellery, seals, and inscriptions. The papers cover a wide range of topics, including trade, settlements, and cultural and artistic interchange. They assess the actual presence of Minoans, Mycenaeans and later Greeks in the East and shed light on the economic and political interaction between Greeks and the peoples of Mesopotamia and Anatolia, the Hittite Empire, Phoenicia, Syria, and Achaemenid Persia. Milestone contributions include the definitive survey and analysis of the recent excavations at the most important Greek Bronze Age site in Asia Minor, Miletus.

Theophilus of Alexandria and the First Origenist Controversy Krastu Banev.2015-02-19 In the age of the Theodosian dynasty and the establishment of Christianity as the only legitimate religion of the Roman Empire, few figures are more pivotal in the power politics of the Christian church than archbishop Theophilus of Alexandria (385-412). This work examines the involvement of archbishop Theophilus in the so-called First Origenist Controversy when the famed third-century Greek theologian Origen received, a century and a half after his death, a formal condemnation for heresy. Modern scholars have been successful in removing the majority of the charges which Theophilus laid on Origen as not giving a fair representation of his thought. Yet no sufficient explanation has been offered as to why what to us appears as an obvious miscarriage of justice came to be accepted, or why it was needed in the first place. Krastu Banev offers a sustained argument for the value of a rhetorically informed methodology with which to analyse Theophilus' anti-Origenist Festal Letters. He highlights that the wide circulation and overt rhetorical composition of these letters allow for a new reading of these key documents as a form of 'mass-media' unique for its time. The discussion is built on a detailed examination of two key ingredients in the pastoral polemic of the archbishop - masterly use of late-antique rhetorical conventions, and in-depth knowledge of monastic spirituality - both of which were vital for securing the eventual acceptance of Origen's condemnation. Dr Banev's fresh approach reveals that Theophilus' campaign formed part of a consistent policy aimed at harnessing the intellectual energy of the ascetic movement to serve the wider needs of the church.

Diaghilev's Ballets Russes Lynn Garafola.1998 In the history of twentieth-century ballet, no company has had so profound and far-reaching an influence as the Ballets Russes. Under the direction of impresario extraordinaire Serge Diaghilev (1872-1929), the Ballets Russes radically transformed the nature of ballet—its subject matter, movement idiom, choreographic style, stage space, music, scenic design, costume, even the dancer's physical appearance. From 1909 to 1929, it nurtured some of the greatest choreographers in dance history—Fokine, Nijinsky, Massine, and Balanchine—and created such classics as *Les Sylphides*, *Firebird*, *Petrouchka*, *L'Après-midi d'un Faune*, *Les Noces*, and *Apollo*. Diaghilev brought together some of the leading artists of his time, including composers Stravinsky, Debussy, and Prokofiev; artists Picasso, Braque, and Matisse, and poets Hoffmansthal and Cocteau. Diaghilev's Ballets Russes is the most authoritative history of the company ever written and the first to examine it as a totality—its art, enterprise, and audience. Combining social and cultural history with illuminating discussions of dance, drama, music, art, economics, and public reception, Lynn Garafola paints an extraordinary portrait of the company that shaped ballet into what it is today.

In Praise of Slow Carl Honore.2009-06-12 In the tradition of such trailblazing books as *No Logo* and *The Tipping Point*, *In Praise of Slow* heralds a growing international movement of people dedicated to slowing down the pace of our contemporary times and enjoying a richer, fuller life as a result. These days, almost everyone complains about the hectic pace of their lives. We live in a world where speed rules and everyone is under pressure to go faster. But when speed is king, anyone or anything that gets in our way, that slows us down, becomes an enemy. Thanks to speed, we are living in the age of rage. Carl Honore has discovered a movement that is quickly working its way into the mainstream. Groups of people are developing a recipe for living better in a fast-paced, modern environment by striving for a new balance between fast and slow. In an entertaining and hands-on investigation of this new movement, Honore takes us from a Tantric sex workshop in a trendy neighbourhood in London, England to Bra, Italy, the home of the Slow Food, Slow Cities and Slow Sex movements. He examines how we can continue to live productive lives by embracing the tenets of the slow movement. A challenging take on the cult of speed, as well as a corrective look at how we can approach our lives with new understanding, *In Praise of Slow* uncovers a movement whose time has come.

Viewing the Morea Sharon E. J. Gerstel.2013 *Viewing the Morea* focuses on the late medieval Morea (Peloponnese), beginning with the bold attempt of Western knights to establish a kingdom on its soil. The authors explore how the groups of this contested region--Crusaders, Orthodox villagers, and Venetians--interacted, asserted identity, and recollected the ancient history of the Peloponnese.

Codes and Automata Jean Berstel,Dominique Perrin,Christophe Reutenauer.2010 This major revision of Berstel and Perrin's classic *Theory of Codes* has been rewritten with a more modern focus and a much broader coverage of the subject. The concept of unambiguous automata, which is intimately linked with that of codes, now plays a significant role throughout the book, reflecting developments of the last 20 years. This is complemented by a discussion of the connection between codes and automata, and new material from the field of symbolic dynamics. The authors have also explored links with more practical applications, including data compression and cryptography. The treatment remains self-contained: there is background material on discrete mathematics, algebra and theoretical computer science. The wealth of exercises and examples make it ideal for self-study or courses. In summary, this is a comprehensive reference on the theory of variable-length codes and their relation to automata.

Duty and Desire Book Club Edition Anju Gattani.2021-01-27 To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant

Corporate Decision-Making in the Church of the New Testament Jeff Brown.2014-08-28 Debate about church order has gone on for centuries within Christianity, and an end is nowhere in sight. Perhaps that is good, since the debate shows the weaknesses of many ideas that need correction. Corporate Decision-Making in the Church of the New Testament examines church order from a careful exegetical perspective, with particular attention to the social world of the New Testament. While most works about church government address structure and qualities of leadership, Jeff Brown deals with the interaction of the people of the church, both with their leaders and with one another, in setting policy. In brief, though all believers in the young church of the New Testament revered Christ and his Word as authoritative, not all church decisions were from the top down from earthly leaders. On the contrary, many were from the bottom up. This should come as no surprise to those familiar with Jesus' admonition in the Gospels, You have one teacher, and you are all brothers.

Dogmatic Constitution on Divine Revelation Pope Paul VI..1965 This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the word of God. Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

Adolescence and Psychoanalysis Francois Ladame.2018-04-19 This collection of classic and contemporary essays makes a major contribution to the reassessment of psychoanalytic understanding and treatment of adults.Contributors: Peter Blos, Raymond Cahn, Anna Freud, Sigmund Freud, Philippe Gutton, Evelyne Kestemberg, Francois Ladame, Moses Laufer, Jean Lampl-de Groot, Maja Perret-Catipovic

Peter Hujar Paul Kasmin Gallery.2016 It's a vanished world, and Peter Hujar was right there in it. The Lower East Side between 1972 and 1985 - filled with artists, wannabe artists and hangers-on - was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hujar's camera - and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.

Themes in French Culture Rhoda Métraux,Margaret Mead.2001 Margaret Mead collaborated with her long-time colleague Rhoda Métraux in this unique study of French culture. The Hoover Institute at Stanford University originally published this volume, which grew out of the Columbia University project on Research of Contemporary Cultures in 1954. It is one of the few works by American social scientists dealing with broad themes of French life. Mead and Métraux present a vivid picture of the French starting with the organization of the house and its architecture, and drawing original conclusions for the structure of French families and overall cultural values. This work, long out of print, is a fascinating and penetrating portrait of a contemporary European society.

Overlay Lucy R. Lippard.1995 The author reveals a continuum in materials, forms, symbols and imagery artists have employed over 1000s of years. She shows how contemporary art and prehistoric images are linked, with images of past times being 'overlaid' onto works of today's artists.

Attic Script Henry R. Immerwahr.1990 This study places the inscriptions found on Athenian vases in the context of the early development of writing in Athens. Focusing on the period from the invention of the alphabet in the 8th century B.C. to the early 4th century B.C., when the local alphabet had been supplanted by the common Ionic script, the book presents inscriptions on stone, both public and private, scratched inscriptions on pottery, including the political ostraca, and some inscriptions on lead tablets. Although the vase inscriptions are brief, they number in the thousands and give an accurate picture of the art of writing and the state of literacy in the Classical Period.

Between Congregation and Church Barry A. Ensign-George.2017-12-14 Denominations are one of the primary ways in which Christians attempt to live in a community based around God. Yet there is very little careful theological analysis of denomination available today. Between Congregation and Church offers a constructive theological understanding of denomination, showing its role as an intermediary structure between congregation and church. It places denomination and other intermediary structures within the doctrine of the church. Barry Ensign-George reviews work by theologians and church historians that can contribute to a constructive theological understanding of denomination. The book highlights particular developments in the history of the church that established preconditions for the emergence of denomination. Exploration of unity and diversity is central to this analysis, and individual chapters offer theological analyses of the unity and the diversity to which the Christians are called. Finally, denomination has often been a vehicle for sin, and the relationship between denomination and sin is considered. Between Congregation and Church addresses a major gap in contemporary theology: the failure to offer substantive theological analysis of denomination, a major way Christians together live their faith today.

The Rejection of Consequentialism Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from

consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

General Instruction of the Roman Missal Catholic Church.2003 From USCCB Publishing, this revision of the General Instruction of the Roman Missal (GIRM) seeks to promote more conscious, active, and full participation of the faithful in the mystery of the Eucharist. While the Missale Romanum contains the rite and prayers for Mass, the GIRM provides specific detail about each element of the Order of Mass as well as other information related to the Mass.

Thermodynamics Stephen R. Turns.2006-03-06 Although the focus of this textbook is on traditional thermodynamics topics, the book is concerned with introducing the thermal-fluid sciences as well. Marilyn Manson by Perou .2020-05-19 'I often get asked, 'Who was your favorite person to photograph?' or 'Who is the best person you've photographed?'" says photographer Perou. 'It's always 'Marilyn Manson.' Which is just as well, considering how many times I've photographed him.' Perou has been photographing Marilyn Manson since a 1998 magazine cover shoot. Twenty-one years of collaborating have resulted in this unique book, featuring over 350 photographs including previously unpublished work, conceptual portraits, onstage and informal behind-the-scenes images, giving a rare insight into Manson's world.
