free eBook? While there thousands of eBooks available to download online including the ones that you to purchase, there are many websites that offer free eBooks to download. Browsing books at eReaderIQ is a breeze because you can look through categories and sort the results by newest, rating, and minimum length. You can even set it to show only new books that have been added since you last visited. Scribd offers a fascinating collection of all kinds of reading materials: presentations, textbooks, popular reading, and much more, all organized by topic. Scribd is one of the web's largest sources of published content, with literally millions of documents published every month. Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the

bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). LibriVox is a unique platform, where you can rather download free audiobooks. The audiobooks are read by volunteers from all over the world and are free to listen on your mobile device, iPods, computers and can be even burnt into a CD.
