A History of Reading in the West Guglielmo Cavallo, Roger Chartier. 1999 Literature has not always been written in the same ways, nor has it been received or read in the same ways over the course of Western civilization. Cavallo (Greek palaeography, U. of Rome La Sapienza), Chartier (Ecole des Hautes Etudes en Sciences Sociales, Paris) and a number of other international contributors, address themes that highlight the transformation of reading methods and materials over the ages, such as the way texts in the Middle Ages were often written with the voice in mind, as they would have been read aloud, or even sung. Articles explore the innovations in the physical evolution of the book, as well as the growth and development of a broad-based reading public.

Literature in Exile Wheatland Foundation. 1990 In December 1987 a group of published novelists, poets, and journalists met in Vienna to participate in the Wheatland Conference on Literature. The writers presented papers addressing their common experience--that of being exiled. Each explored different facets of the condition of exile, providing answers to questions such as: What do exiled writers have in common? What is the exile's obligation to colleagues and readers in the country of origin? Is the effect of changing languages one of enrichment or impoverishment? How does the new society treat the emigre? Following each essay is a peer discussion of the topic addressed. The volume includes writers whose origins lie in Central Europe, South Africa, Israel, Cuba, Chile, Somalia, and Turkey. Through their testimony of the creative process in exile, we gain insight into the forces which affect the creative process as a whole. Contributors. Learned Love Els Stronks, Peter Boot, Dagmar Stiebral, Emblem Project Utrecht.2007 Emblem books, which feature combinations of images and text with a moral lesson for the reader, grew out of the Renaissance and were most popular in the Netherlands. Enigmatic, erudite, and often pious, Dutch love emblems synthesized the traditions of European visual and literary arts--and in turn influenced architecture, painting, poetry, and interior design for centuries to come. *Learned Love* offers an introduction to this enthralling genre and celebrates the completion of Emblem Project Utrecht, an undertaking that digitized twenty-five of the most representative emblem books. This unprecedented volume explores the delicate network of visual motifs and textual mottos that characterize Dutch love emblems. *Learned Love* demonstrates how emblem books form a web of closely interrelated references, which the contributors liken to the Internet, and traces the cutting-edge digitization project from inception to finish. This book will interest anyone intrigued by the fruitful gray areas between image and text, scholarship and technology.

Epigramas: Libros 1-7 Martial.2004 Esta obra en dos volúmenes es una edición de la colección de epigramas de Marcial que se recogen en el *Liber spectaculorum* o *Epigrammaton liber*. Este primer volumen presenta una introducción a la trayectoria vital y a la obra literaria del poeta latino, un índice de ediciones y de comentarios que se citan en el aparato crítico de la obra, una relación de siglas utilizadas, y la edición bilingüe (que presenta a doble página el texto latino y la correspondiente traducción española) de los libros I-VII del *Liber spectaculorum*.

Amorum Emblemata Otto van Veen.1996 The introduction places the collection in the context of Veen's emblematic oeuvre, and considers the book's contribution to the Dutch love-emblem tradition.

Martial William Fitzgerald.2021-07-05 In this age of the sound bite, what sort of author could be more relevant than a master of the epigram? Martial, the most influential epigrammatist of classical antiquity, was just such a virtuoso of the form, but despite his pertinence to today's culture, his work has been largely neglected in contemporary scholarship. Arguing that Martial is a major author who deserves more sustained attention, William Fitzgerald provides an insightful tour of his works, shedding new and much-needed light on the Roman poet's world—and how it might speak to our own. Writing in the late first century CE—when the epigram was firmly embedded in the social life of the Roman elite—Martial published his poems in a series of books that were widely read and enjoyed. Exploring what it means to read such a collection of epigrams, Fitzgerald examines the paradoxical relationship between the self-enclosed epigram and the book of poems that is more than the sum of its parts. And he goes on to show how Martial, by imagining these books being displayed in shops and shipped across the empire to admiring readers, prophetically behaved like a modern author. Chock-full of epigrams itself—in both Latin and English versions—Fitzgerald's study will delight classicists, literary scholars, and anyone who appreciates an ingenious witticism.

The Discovery and Conquest of Peru Pedro de Cieza de Leon.1999-02-11 Dazzled by the sight of the vast treasure of gold and silver being unloaded at Seville's docks in 1537, a teenaged Pedro de Cieza de León vowed to join the Spanish effort in the New World, become an explorer, and write what would become the earliest historical account of the conquest of Peru. Available for the first time in English, this history of Peru is based largely on interviews with Cieza's conquistador compatriots, as well as with Indian informants knowledgeable of the Incan past. Alexandra Parma Cook and Noble David Cook present this recently discovered third book of a four-part chronicle that provides the most thorough and definitive record of the birth of modern Andean America. It describes with unparalleled detail the exploration of the Pacific coast of South America led by Francisco Pizarro and Diego de Almagro, the imprisonment and death of the Inca Atahualpa, the Indian resistance, and the ultimate Spanish domination. Students and scholars of Latin American history and conquest narratives will welcome the publication of this volume.

Miradas sobre el suicidio Hugo Bauzá.2022-05-30 Desde el análisis sociológico hasta la interpretación psicoanalítica, pasando por los estudios literarios y la explicación biológica, el suicidio es un fenómeno que ha provocado un enorme interés y que genera múltiples interrogantes. En *Miradas sobre el suicidio*, Hugo Bauzá aborda algunos de ellos desde el análisis de diversos casos emblemáticos y su incidencia en la literatura y el arte. A partir de un preciso itinerario por obras clásicas y contemporáneas, Bauzá reconstruye el imaginario suicida desde su origen hasta la actualidad: la muerte voluntaria de las Sirenas, el debate entre estoicos y epicúreos, el suicidio lógico en Fiódor Dostoievski, la oposición en Albert Camus y la valoración del acto en Antonio Di Benedetto, entre otros. Asimismo, el autor se sirve de testimonios escritos para aproximarse a la vida de aquellos que decidieron interrumpirla, como es el caso de las poetas Sylvia Plath y Alejandra Pizarnik, el filósofo Walter Benjamin, la escritora Virginia Woolf, el artista Alberto Greco o el político Leandro N. Alem. ¿Por qué razón hay seres humanos que, en lugar de aguardar la muerte de manera natural, deciden anticiparla provocándosela ellos mismos? ¿Valentía al querer desafiar los designios de la creación? ¿Cobardía al no poder enfrentar sus problemas?. Estos son algunos de los enigmas que atraviesan la obra y sobre los que Hugo Bauzá reflexiona con notable erudición y sensibilidad.

The Latin Sexual Vocabulary J. N. Adams.1990-10 Like other languages, Latin contained certain words its speakers considered obscene as well as a rich stock of sexual euphemism and metaphor. Our sources for this information range from surviving graffiti to literary works with a marked sexual content. Yet despite its manifest literary and linguistic interest, the sexual vocabulary of Latin has remained uninvestigated by scholars. J. A. Adams's pioneering and unique reference work collects for the first time evidence of Latin obscenities and sexual euphemisms drawn from both literary and nonliterary sources from the early Republic to about the fourth century A.D. Separate chapters treat each of the sexual parts of the body and the terminology used to describe sexual acts. General topics include the influence of Greek language on Latin, changes in the Latin vocabulary over time (including the evolution of sexual words into general terms of abuse), and lexical differences among various literary genres.

Literature and Historiography in the Spanish Golden Age Sofie Kluge.2021-09-30 Golden Age departures in historiography and theory of history in some ways prepared the ground for modern historical methods and ideas about historical factuality. At the same time, they fed into the period's own aesthetic-historical culture which amalgamated fact and fiction in ways modern historians would consider counterfactual: a culture where imaginative historical prose, poetry and drama self-consciously rivalled the accounts of royal chroniclers and the dispatches of diplomatic envoys; a culture dominated by a notion of truth in which skilful construction of the argument and exemplarity took precedence over factual accuracy.

Literature and Historiography in the Spanish Golden Age: The Poetics of History investigates this grey area backdrop of modern ideas about history, delving into a variety of Golden Age aesthetic-historical works which cannot be satisfactorily described as either works of literature or works of historiography but which belong in between these later strictly separate categories. Translation and the Classic Alexandra Lianeri,Vanda Zajko.2008-08-21 Contemporary translation studies have explored translation not as a means

of recovering a source text, but as a process of interpretation and production of literary meaning and value. Translation and the Classic uses this idea to discuss the relationship between translation and the classic text. It proposes a framework in which 'the classic' figures less as an autonomous entity than as the result of the interplay between source text and translation practice and examines the consequences of this hypothesis for questioning established definitions of the classic: how does translation mediate the social, political and national uses of 'the classics' in the contemporary global context of changing canons and traditions? The volume contains a total of eighteen original essays, plus an introduction, written by scholars working in classics and classical reception, translation studies, literary theory, comparative literature, theatre and performance studies, history and philosophy and makes a potent contribution to pressing debates in all of these areas.

Pythagorean Knowledge from the Ancient to the Modern World Almut-Barbara Renger, Alessandro Stavru. 2016 In both ancient tradition and modern research Pythagoreanism has been understood as a religious sect or as a philosophical and scientific community. Numerous attempts have been made to reconcile these pictures as well as to analyze them separately. The most recent scholarship compartmentalizes different facets of Pythagorean knowledge, but this offers no context for exploring their origins, development, and interdependence. This collection aims to reverse this trend, addressing connections between the different fields of Pythagorean knowledge, such as eschatology, metempsychosis, metaphysics, epistemology, arithmology and numerology, music, dietetics and medicine as well as politics. In particular, the contributions discuss how the Pythagorean way of life related to more doctrinal aspects of knowledge, such as Pythagorean religion and science. The volume explores the effects of this interdependence between different kinds of knowledge both within the Pythagorean corpus and in its later reception. Chapters cover historical periods from the Archaic Period (6th century BC) to Neoplatonism, Early Christianity, the European and Arabic Middle Ages, and the Renaissance through to the Early Modern Period (17th century AD). The Call of Cthulhu H. P. Lovecraft. 2023-08-31 The Call of Cthulhu by H. P. Lovecraft is a short story by American writer H. P. Lovecraft. Written in the summer of 1926, it was first published in the pulp magazine *Weird Tales* in February 1928. Plot: The story consists of three interconnected parts, and is presented as notes belonging to Francis Thurston, a Boston resident investigating the ancient deity Cthulhu. The first part, *The Horror in Clay*, concerns a mysterious clay bas-relief depicting Cthulhu. Thurston finds the bas-relief among the belongings of his great-uncle Professor Angell. The bas-relief was created by sculptor Henry Wilcox in March 1925 while half-asleep. At the time Wilcox was haunted by mysterious visions of Cyclopean cities. Angell also discovered reports of local residents — primarily artists, sculptors, architects, and others of a sensitive psyche — experiencing similar nightmares during that period. The next morning, Wilcox was amazed by his creation and took it to Angell, who noted that the bas-relief was reminiscent of a figurine seized by police from members of a New Orleans religious sect in 1907. In the second chapter, *The Tale of Inspector Legrasse*, police officer John Legrasse reports at an archaeological society's symposium on his participation in a raid of a sect worshipping Cthulhu, from which the figurine was confiscated. The sect's actions were described as depraved and blasphemous. Local residents feared the sect's orgies, and claimed that human sacrifices were made at these orgies. A team of officers led by Legrasse arrived at the scene in search of several missing squatters. The police detained several sect members, but interrogation yielded little result, as the degraded and insane members stubbornly defended the truth of their cult. One sectarian, Old Castro, proclaimed that Cthulhu's time would come when the stars take a certain position. A phrase chanted by the sect turns out to have been previously used by a tribe of Eskimos, as revealed by one of the symposium's participants.

Racism in the 21st Century Ronald E. Hall. 2008-08-06 In the post-Civil Rights era, there is a temptation to assume that racism is no longer the pressing social concern in the United States that it once was. The contributors show that racism has not fallen from the forefront of American society, but is manifest in a different way. According to the authors in this volume, in 21st century, skin color has come to replace race as an important cause of discrimination. This is evidenced in the increasing usage of the term "people of color" to encompass people of a variety of racial and ethnic backgrounds. The editor has compiled a diverse group of contributors to examine racism from an interdisciplinary perspective. Contributions range from the science of racism, from its perceived biological basis at the end of the 19th century, to sociological studies its new forms in the 21st century. The result is a work that will be invaluable to understanding the challenges of confronting Racism in the 21st Century.

The History of Alexander Quintus Curtius Rufus. 2005-04-28 Alexander the Great (356-323 BC), who led the Macedonian army to victory in Egypt, Syria, Persia and India, was perhaps the most successful conqueror the world has ever seen. Yet although no other individual has attracted so much speculation across the centuries, Alexander himself remains an enigma. Curtius' History offers a great deal of information unobtainable from other sources of the time. A compelling narrative of a turbulent era, the work recounts events on a heroic scale, detailing court intrigue, stirring speeches and brutal battles - among them, those of Macedonia's great war with Persia, which was to culminate in Alexander's final triumph over King Darius and the defeat of an ancient and mighty empire. It also provides by far the most plausible and haunting portrait of Alexander we possess: a brilliantly realized image of a man ruined by constant good fortune in his youth.
