questions. Instead, our Q&A tests one thing at once and therefore allows you to learn an issue properly before moving on. All questions are designed to split topics into smaller parts, allowing you to study one thing at once and gradually build up knowledge. Analysis of distribution of marks in past papers covering the 2009 to September 2018 period to help you focus your revision on key areas (December 2018 markscheme not available at the time of writing). Contains all relevant Financial Accounting and Financial Reporting questions from our previous FA and FR Q&A books for the old syllabus, updated where necessary. We have also added many new questions for FAR. This means that our Q&A continues to cover the traditional, staple areas and provides much more practice than the Study Manual in key areas such as cashflow statements, earnings per share, related parties and other areas. We also include a detailed introduction explaining some key revision and answering techniques for the 2 different types of FAR question (narrative or financial reporting style and numerical or financial accounting style). Provides a firm basis for Advanced Level questions involving financial reporting in the Corporate Reporting paper: Q&A can be reused at later stages of the ACA to revise the key areas which the examiner will assume as brought forward knowledge. See www.acasimplified.com for more information on our Q&A technique.
