*Sustainable healthy diets* Food and Agriculture Organization of the United Nations, World Health Organization. 2019-10-15 Considering the detrimental environmental impact of current food systems, and the concerns raised about their sustainability, there is an urgent need to promote diets that are healthy and have low environmental impacts. These diets also need to be socio-culturally acceptable and economically accessible for all. Acknowledging the existence of diverging views on the concepts of sustainable diets and healthy diets, countries have requested guidance from the Food and Agriculture Organization of the United Nations (FAO) and the World Health Organization (WHO) on what constitutes sustainable healthy diets. These guiding principles take a holistic approach to diets; they consider international nutrition recommendations; the environmental cost of food production and consumption; and the adaptability to local social, cultural and economic contexts. This publication aims to support the efforts of countries as they work to transform food systems to deliver on sustainable healthy diets, contributing to the achievement of the SDGs at country level, especially Goals 1 (No Poverty), 2 (Zero Hunger), 3 (Good Health and Well-Being), 4 (Quality Education), 5 (Gender Equality) and 12 (Responsible Consumption and Production) and 13 (Climate Action).

*In the Shadow of Policy* Paul Hebinck. 2014-09-01 A detailed history of how agrarian reform has manifested in South Africa and how it will progress into the future. In the Shadow of Policy explores the interface between the policy of land and agrarian reform and its implementation and between the decisions of policy experts and actual livelihood experiences in the fields and homesteads of land reform projects. Starting with an overview of the sociohistorical context in which land and agrarian reform policy has evolved in South Africa, the volume presents empirical case studies of land reform projects in the Northern, Western, and Eastern Cape provinces. These draw on multiple voices from various sectors and provide a rich source of material and critical reflections to inform future policy and research agendas. Notions of land and agrarian reform are now well entrenched in postapartheid South Africa. But what this reform actually means for everyday life is not clearly understood, nor the way it will impact the political economy.
