The Crusades Nikolas Jaspert.2006-09-27 This German-to-English translation of a highly successful book is a clear, approachable, student-friendly introduction to the history of the Crusades. With a long chronological span, from the eleventh to the late fifteenth century, and with a wide geographical coverage of the whole of Europe and some of the Middle East, The Crusades is clear, concise and more wide-ranging than most single-volume works. Taking recent scholarship into account, and using boxes, case studies, marginal directions and chronologies, the book is well laid out and easy to follow, providing a comprehensive overview of the crusade movement for students at all university levels.

A Companion to Mysticism and Devotion in Northern Germany in the Late Middle Ages

Elizabeth Andersen, Henrike Lähnemann, Anne Simon.2013-11-01 The volume explores the hitherto uncharted late medieval religious landscape of Northern Germany. Through discussion of a rich, varied selection of mystical and devotional texts, also translated into English, a fascinating regional mystical culture with a far-reaching impact is revealed.

Pseudo-Kodinos and the Constantinopolitan Court: Offices and Ceremonies

Ruth Macrides, J.A. Munitiz, Dimitar Angelov.2016-09-17 The work known as Pseudo-Kodinos, the fourteenth-century text which is one of two surviving ceremonial books from the Byzantine empire, is presented here for the first time in English translation. With facing page Greek text and the first in-depth analysis in the form of commentary and individual studies on the hierarchy, the ceremonies, court attire, the Blachernai palace, lighting, music, gestures and postures, this volume makes an important new contribution to the study of the Byzantine court, and to the history and culture of Byzantium more broadly. The unique traits of this ceremony book include the combination of hierarchical lists of court officials with protocols of ceremonies; a detailed description of the clothing used at court, in particular, hats and staffs; an account of the functions of the court title holders, a description of the ceremonies of the year which take place both inside the palace and outside; the service of the megas domestikos in the army, protocols for the coronation of the emperor, the promotions of despot, sebastokrator and caesar, of the patriarch; a description of the mourning attire of the emperor; protocol for the reception of a foreign bride in Constantinople all these are analysed here. Developments in ceremonial since the tenth-century Book of Ceremonies are discussed, as is the space in which ceremonial was performed, along with a new interpretation of the 'other palace', the Blachernai. The text reveals the anonymous authors' interest in the past, in the origins of practices and items of clothing, but it is argued that Pseudo-Kodinos presents descriptions of actual practice at the Byzantine court, rather than prescriptions.

Planting Parliaments in Eurasia, 1850-1950 Ivan Sablin,Egas Moniz Bandeira.2021-05-30 Parliaments are often seen as Western European and North American institutions and their establishment in other parts of the world as a derivative and mostly defective process. This book challenges such Eurocentric visions by retracing the evolution of modern institutions of collective decision-making in Eurasia. Breaching the divide between different area studies, the book provides nine case studies covering the area between the eastern edge of Asia and Eastern Europe, including the former Russian, Ottoman, Qing, and Japanese Empires as well as their successor states. In particular, it explores the appeals to concepts of parliamentarism, deliberative decision-making, and constitutionalism; historical practices related to parliamentarism; and political mythologies across Eurasia. It focuses on the historical and "reestablished" institutions of decision-making, which consciously hark back to indigenous traditions and adapt them to the changing circumstances in imperial and postimperial contexts. Thereby, the book explains how representative institutions were needed for the establishment of modernized empires or postimperial states but at the same time offered a connection to the past. The Oxford Guide to the Historical Reception of Augustine Karla Pollmann,Willemien Otten.2013 This work is a ground-breaking international and interdisciplinary enterprise on the impact of the thought and work of Augustine of Hippo (AD 354 - 430). Arguably the most influential early Christian thinker in the western part of the Roman Empire, Augustine's impact has reached further than the religious domain and he has become a veritable icon of Western culture. The work maps this influence not just in theology, his traditional area of prominence, but far beyond, taking into account fields such as political theory, ethics, music, education, semiotics, literature, philosophy, psychotherapy, religion, and popular culture. Beginning with a detailed introduction, it offers chapter-length discussions and contextualization on the general characteristics of Augustine's reception in various periods, as well as on specific themes as wide-ranging as Islam and gender. The work also surveys the material transmission and intellectual reception of almost all of Augustine's extant works, documented in the light of recent research.--

Experiments in Ethics Kwame Anthony Appiah.2010-03-30 In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In *Experiments in Ethics*, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the burgeoning discipline of experimental philosophy, provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking

about ethics in the classical tradition. Appiah urges that the relation between empirical research and morality, now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.

Relevance and Irrelevance Jan Strassheim, Hisashi Nasu. 2018-09-24 Relevance drives our actions and channels our attention; it shapes how we make sense of the world and communicate with each other. Irrelevance spreads a twilight which blurs the line between information we do not want to access and information we cannot access. In disciplines as diverse as philosophy, sociology, the information sciences and linguistics, "relevance" has been proposed as a key concept. This book is the first to bring together the often unrelated traditions. Researchers from different fields discuss relevance and relate it to the challenges of "irrelevance", which have so far been neglected despite their significance for our chances of making well-informed decisions and understanding others. The contributions focus on theoretical and conceptual questions, on specific factors and fields, and on practical and political implications of relevance and irrelevance as forces which are even stronger when they remain in the background.

Companion to Historiography Michael Bentley. 2006-02-27 The Companion to Historiography is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed the creation of historical perspectives. Contributed by a distinguished panel of academics, each essay conveys in direct, jargon-free language a genuinely international, wide-angled view of the ideas, traditions and institutions that lie behind the contemporary urgency of world history.

Concord and Reform Morimichi Watanabe, Thomas M. Izbicki. 2023-05-31 Nicholas of Cusa is known as one of the most original philosophers of the 15th century, but by training he was a canon lawyer who received his degree from the University of Padua in 1423. The essays in this book analyse his legal and political ideas against the background of medieval religious, legal and political thought and its development in the Renaissance. The first two pieces deal with the legal ideas and humanism that affected Cusanus and with some of the problems faced by 15th-century lawyers, including his friends. The central section of the book also discusses how he reacted to the religious, legal and political issues of his day; Cusanus as reformer of the Church is a theme that runs through many of the essays. The final studies look at some of Cusanus' contemporaries, with special emphasis on Gregor Heimburg, the sharpest critic of Cusanus.

Plurality and Ambiguity David Tracy. 1994-06-10 In *Plurality and Ambiguity*, David Tracy lays the philosophical groundwork for a practical application of hermeneutics, while constructing an innovative model of theological interpretation developed out of the notions of conversation and argument. He concludes with an appraisal of the religious significance of hope in an age of radically different voices and constantly shifting meanings.

Memories of Glass Melanie Dobson. 2019 Reminiscent of Diane Ackerman's *The Zookeeper's Wife*, this stunning novel draws from true accounts to shine a light on a period of Holland's darkest history and bravest heroes. 1942. As war rips through the heart of Holland, childhood friends Josie van Rees and Eliese Linden partner with a few daring citizens to rescue Eliese's son and hundreds of other Jewish children who await deportation in a converted theater in Amsterdam. But amid their resistance work, Josie and Eliese's dangerous secrets could derail their friendship and their entire

mission. When the enemy finds these women, only one will escape. Seventy-five years later, Ava Drake begins to suspect that her great-grandfather William Kingston was not the World War II hero he claimed to be. Her work as director of the prestigious Kingston Family Foundation leads her to Landon West's Ugandan coffee plantation, and Ava and Landon soon discover a connection between their families. As Landon's great-grandmother shares the broken pieces of her story, Ava must confront the greatest loss in her own life--and powerful members of the Kingston family who will do anything to keep the truth buried. Illuminating the story and strength of these women, award-winning author Melanie Dobson transports readers through time and place, from World War II Holland to contemporary Uganda, in this rich and inspiring novel.

Authority and Trust in US Culture and Society Günter Leypoldt, Manfred Berg. 2021-02-28 In the past two decades, a discourse of crisis has emerged about the democratic institutions and political culture of the US: many structures of authority which people had more or less taken for granted are facing a massive public loss of trust. This volume takes an interdisciplinary and historical look at the transformations of authority and trust in the United States. The contributors examine government institutions, political parties, urban neighborhoods, scientific experts, international leadership, religious communities, and literary production. Exploring the nexus between authority and trust is crucial to understand the loss of legitimacy experienced by political, social, and cultural institutions not only in the United States but in Western democracies at large.

What I Believe Hans Küng. 2010-09-16 Hans Küng is one of the most celebrated theologians of the present day. His audience, which is strong within his own Roman Catholic Church, is equally solid among Christians of other denominations, among those outside the churches and indeed among those at the frontiers of organised religion. From the start, he has been a rebel, being Swiss and a lover of personal freedom. Many of his books such as *Infallible?* and *On Being a Christian* have rocked the Papal boat. Now after publishing two magnificent and acclaimed volumes of memoirs, Küng has written a much shorter and more personal book to explain his own beliefs. If one sets aside all scientific knowledge and learning, all formal theological language and the skilful construction of theories, what remains as the core of faith? What do we need for our lives? What is indispensable to us? Küng writes of trust in life, joy in life and suffering in life and in so doing gives us a summa of his own faith - and life.

Medieval Politics and Modern Mentalities Timothy Reuter. 2006-11-02 This is a collection of influential and challenging essays by British medievalist Timothy Reuter, a perceptive and original thinker with extraordinary range who was equally at home in the Anglophone or German scholarly worlds. The 2006 book addresses three interconnected themes in the study of the history of the early and high Middle Ages. Firstly, historiography, the development of the modern study of the medieval past. How do our contemporary and inherited preconceptions and pre-occupations determine our view of history? Secondly, the importance of symbolic action and communication in the politics and polities of the Middle Ages. Finally, the need to avoid anachronism in our consideration of medieval politics. Throwing light both on modern mentalities and on the values and conduct of medieval people themselves, and containing articles, at time of publication, never previously been available in English, this book is essential reading for any serious scholar of medieval Europe.

Think! Different Andreas Boskugel. 2015-03-25 Think! Different is a different kind of self-help book:

the author, Andreas Boskugel, is well-known in Europe and appreciated for his clear and direct manner. Boskugel has taken the law of attraction to its systematic and logical conclusion! This book is completely free of otherwise typical references to moral or religious standards because the law of attraction – like all natural laws – isn't based on morality or religion. Consequently the author has a very different take than do others on success; for example, he doesn't idolize hard work, honesty and gratitude ad absurdum, for these are only religious and cultural based opinions and actually contradict the law of attraction. The author also forgoes otherwise typical teachings about what is right or wrong; after all, what is right is individually defined. Feigned pity or morality sermons are also not included in this work. This work is for those who love the integrity of the law of attraction and prefer clarity over political correctness. And it's for those who really want to get somewhere in life and who therefore question existing opinions. It's for people who are able to think on their own instead of going with the flow. For many, it was not until reading this book that they finally understood the law of attraction, for the topics in this book are more logically organized than in other popular works, and insights are offered that can dramatically improve the lives of readers. Completely new insights about the existing laws of life can help readers become invincible masters of their own destiny. Keywords: Law of Attraction, Self-Help, Success, Wealth, Dream, Wish Fulfillment, Love, Relationship, Money

Encyclopedia of the Bible and Its Reception Christine Helmer, Steven L. McKenzie, Constance M. Furey, Jens Schröter, Thomas Römer, Barry Dov Walfish, Eric Ziolkowski. 2019 The Encyclopedia of the Bible and Its Reception (EBR) is a thirty-volume series that renders the current state of knowledge on the origins and development of the Bible in its different canonic forms in Judaism and Christianity. Furthermore, it documents the history of the Bible's reception, not only in the Christian churches and the Jewish Diaspora, but also in literature, art, music, and film, as well as in Islam and other religious traditions and current religious movements. EBR moves into new terrain - the realm of reception history. The encyclopedia acknowledges that biblical texts not only have their own particular genetic background and setting, but also have been received, interpreted, and exerted their influence on countless and diverse religious, theological, and cultural settings. EBR has shaped scholarship on the Bible and its reception. EBR is a resource tool not only for scholars in biblical and religious studies, but in cultural science, the arts, or literary history as well. It is also accessible to general readers interested in the Bible. Edited by an international team of more than thirty-five scholars, all experts in their fields, two volumes are published per year. EBR is also available in an online version. A comprehensive search engine makes EBR Online a very useful tool. EBR is also available online. Further information on The Bible and Its Reception The print edition was launched in Rome on July 1, 2009, with the publication of the first two volumes. Here are a few reactions from experts: This is surely a creative and original project that will fill a need in today's biblical studies, ...] a monumental work which is indeed a treasure trove of information on the Bible and on how it has influenced people over the centuries. (Stephen Pisano, S.J., Pontifical Biblical Institute, Rome) ...] the Bible is not just a 6th-5th century BCE or a 1st-2nd century CE document. It is equally an 8th century, 12th century, 16th century, and 20th century CE document. ...] With the publication of the Encyclopedia of the Bible and Its Reception, it is now possible to respond to the intellectual challenge of that insight. With its unparalleled combination of historical critical and reception historical articles, the EBR reconfigures the very conception of what it means to do biblical studies and invites a veritable paradigm shift in the discipline. (Dr. Carol A. Newsom, Charles Howard Candler Professor of Old Testament, Candler School of Theology, Emory University) So what must one know nowadays in order to be a biblical scholar? That's simple: everything - from the text itself through the Dead Sea Scrolls, Christian Scripture, Origen, Augustine, Rashi, Abarbanel, Calvin, Spinoza, Wellhausen, etc., etc., right up to the contributions of feminist and postcolonial criticism, queer studies, Bible and mass media - whatever happens to be on someone's scholarly agenda. Of course no one can know all of that stuff. More important than knowing it all, however, is recognizing how essential it all is to what we do. I am grateful to the editors and publisher of EBR for sharing that recognition, devoting 30 volumes to this fabulous repository of knowledge, and putting it at our

disposal. (Alan Cooper, Professor of Bible at Union Theological Seminary and at Jewish Theological Seminary)

Beyond Positivism Claire Turenne Sjolander, Wayne S. Cox. 1994 This work adopts the premise that the metatheoretical debates about positivists and post-positivists have reached an impasse; it suggests that an approach driven by theoretical reflexivity offers a basis on which alternative understandings of international relations can be developed.

Cultural History in Europe Jörg Rogge. 2014-04-30 What is the current state of discussion in Cultural History? Which European institutions engage exclusively in Cultural History and which topics do they address? And how will Cultural History develop in the future? These and other questions are raised by European scholars in the discussion of Institutions, Themes and Perspectives of Cultural History in this volume. It provides a profound overview of contemporary developments in Scandinavia, Finland, Great Britain, Latvia, Poland, Hungary, Austria, Switzerland, Germany, Italy and Spain.

The Decline of the West Oswald Spengler, Arthur Helps, Charles Francis Atkinson. 1991 Spengler's work describes how we have entered into a centuries-long world-historical phase comparable to late antiquity, and his controversial ideas spark debate over the meaning of historiography.

The Vox Dei Sophia Menache. 1990 This book examines the development of communication in Western European society between the eleventh and fourteenth centuries, as an integral part of the process of social, economic, and political integration that medieval society was experiencing at the time. The geographical and chronological delimitations of this research reflect a unique historical process through which European society evolved from the universal concepts of early Christianity into an embryonic national consciousness. This process created a fruitful arena for the widespread use of manipulation and propaganda by both supporters and critics who exploited all the means of communication at their disposal: the written word, the oral message, and the pictorial representation. Menache shows how the socio-economic changes characteristic of this period left their marks on the development of communications systems which, from a historical perspective, heralded the forms and methods of modern communication. Offering insight into a rich world that also included symbols, stereotypes, communication habits, and slogans, this intriguing study introduces new perspectives regarding the development of communication, propaganda, and manipulation in contemporary society, and provides the essential features of medieval communication which, though modified, are still in use today.

Love in Action Thich Nhat Hanh. 1993-05-01 Love in Action is a collection of over two decades of Thich Nhat Hanh's writing on nonviolence, peace, and reconciliation. Reflecting on the devastation of war, he makes the strong argument that mindfulness, insight, and altruistic love are the only sustainable bases for political action. This timeless book is an important resource for those interested in social change.
