Missions, Nationalism and the End of Empire Stanley,Alaine M. Low.2003 Christian missions have often been seen as the religious arm of Western imperialism. What is rarely appreciated is the role they played in bringing about an end to the Western colonial empires after the Second World War. Missions, Nationalism, and the End of Empire explores this neglected subject. Respected authorities on the history of missions explore new territory in these chapters, examining from diverse angles the linkages between Christianity, nationalism, and the dissolution of the colonial empires in Asia and Africa. This work not only sheds light on the relation of religion and politics but also uncovers the sometimes paradoxical implications of the church's call to bring the gospel to all the world. The Accidental Ambassador Tony Leon.2013 The accidental ambassador follows on from the successful Tony Leon autobiography, *On the Contrary: Leading the opposition in a democratic South Africa* (2008) to showcase Leon's wit and sense of humour as he takes the reader on the journey of his retirement from active political life and into public service.

The Church in Response to Human Need Vinay Samuel,Chris Sugden.2003-02-04 An important contribution to the ongoing discussion of the church's relationship to social development, this book contains the revised conference proceedings from the consultation *The Church in Response to Human Need*, held in Wheaton, Illinois, in June of 1983. In the papers collected here writers from five continents consider whether the Bible indicates any method for ministry among the poor; the place of the poor in God's plan; God's purpose and the movement of human history; the nature of the gospel of the kingdom; and the interrelation of the gospel and human culture. In addition to the individual papers, the book includes the statement *Transformation*, which was produced by the consultation as a whole.

Clan and Tribal Perspectives on Social, Economic and Environmental Sustainability James C. Spee,Adela J. McMurray,Mark D. McMillan.2021-03-01 In a climate of in-migration, clan and tribal communities have been forced to build sustainable solutions together. Breaking fresh ground by shining a

light on sustainability journeys from outside the global mainstream, this book demonstrates how sustainable development occurs in respectful collaboration between equals.

Longitudinal Integrated Clerkships Alliance for Clinical Education. 2016-10-06 Dr. Poncelet and Dr. Hirsh eagerly developed an encyclopedic chapter for the 4th edition of the Guidebook for Clerkship Directors, and it seemed logical and proper to grow that chapter, which had been truncated for the Guidebook, into this book. They have assembled the leading international experts in the field of the medical school longitudinal integrated curriculum, who in turn have generated what we are sure will be considered the ultimate resource for these experiences. This book fills a significant void in the medical education literature.

Outside the Gate Rebecca De Saintonge. 2016-03-09 A new edition of an inspirational story. Nico Smith was once regarded as a traitor to the Afrikaner people, a thorn in the flesh, now he is lauded as a hero by those struggling to come to terms with their recent history. At the request of a leading intellectual in the Afrikaner community OUTSIDE THE GATE has been republished with a new introduction in the hope that it will inspire and encourage all those engaged with the painful task of re-evaluating their past. Nico Smith shocked many people when, as a white man with an impeccable Afrikaner pedigree, a prestigious university post and a comfortable home, he moved house with his wife Ellen to the deprived South African township of Mamelodi. The move cost him friends, status and very nearly, his life, but it was to trigger a movement of reconciliation that had a profound effect on the dismantling of apartheid and inspired the international community. Born into a staunchly Afrikaner family, Nico Smith had been taught to regard black people as an inferior race. But at the height of his career his doubts began. How could he, as a Christian theologian, reconcile the policies of apartheid with the Gospel's command to 'love your neighbour as yourself? He could not. This vivid biography charts the struggle of a man who has to re-think all he once held to be true and who ultimately risks everything for what he believes. It throws light on the historical abuse of the Afrikaner people at the hands of the British that contributed to their sense of alienation, the systematic establishment of apartheid and the relationship between church and state that led to the belief that such inhumanity was spiritually justified. Since the dismantling of apartheid the Dutch Reformed Churches, who were committed to its cause, have lost many members, disillusioned by the way their church has misled them. Nico Smith was among the very few Afrikaner churchmen who had the courage to stand out against the system, and his story is an inspiration to his countrymen today who are still struggling to come to terms with their past and the role they were encouraged to play in it. I would argue that Nico Smith should be ranked among the most courageous of the heroes in Afrikaner history, Douglas S. Bax, Past Moderator of the Presbyterian Church of Southern Africa.

The Afrikaners Hermann Giliomee. 2003 This work is a biography of the Afrikaner people by historian and journalist Herman Giliomee, one of the earliest and staunchest Afrikaner opponents of apartheid. Weaving together life stories and historical interpretation, he creates a narrative history of

the Afrikaners from their beginnings with the colonisation of the Cape of Good Hope by the Dutch East India Company to the dismantling of apartheid and beyond.

Moments of Grace Laurie Blefeld.2018-04-18 Sharing our stories, who we are, what we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in Laurie's stories and reclaim bits and pieces of your own. Our days are a stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure.-Gunilla Norris, author of *Sheltered in the Heart and Companions on the Way: A Little Book of Heart-full Practices* Laurie's transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living history - and through it to our own. She is a natural spiritual teacher. *Moments of Grace* is luminous, warm, comforting and filled with such good practices.-

Opposite Mandela Tony Leon.2014-04-15 Tony Leon has written a book of unique insight into an unexplored aspect of the presidency and leadership of Nelson Mandela. *Opposite Mandela* relates the untold stories of how South Africa's first democratic president related to his political opponents. Leon served as leader of the Democratic Party during Mandela's presidency. Although they clashed, sometimes fiercely, on great issues of the day, Leon enjoyed an unusually warm relationship with Mandela and had direct access to the president's office. In this first-hand account, he relates some of the more consequential moments of those momentous times in South Africa's history-in-the-making through the lens of the opposition. Although this is a personal account, it also explores some of the major themes, from reconciliation to corruption, which not only marked that period but also laid the basis for the current challenges which confront South Africa today, nearly two decades after Mandela assumed the country's highest office, the very moment when Leon's political leadership began. Insightful, and simultaneously serious and amusing, it lifts the veil on many unknown or unexplained benchmarks from that era: the personal animosity between Mandela and FW De Klerk, the decision of the Democratic Party to reject Mandela's offer of a seat in his cabinet and whether the extraordinary outreach of Mandela to the minorities was the shrewd calculation of a latter-day Machiavelli or the genuine impulses of a secular political saint. This highly readable and first-hand account considers in a balanced manner both the golden moments and the blind spots of one of the most consequential presidencies and leaders of the modern democratic age.

America on the Edge H. Giroux.2006-03-31 Henry Giroux's latest work is a compelling collection of new and classic essays. Key topics such as education and democracy, terrorism and security, and media and youth culture are critiqued in Giroux's signature style. This is a fascinating collection for Giroux fans and educators alike.

Being a Nursing Assistant Francine Wolgin.1999-10-01 Now in its ninth edition, this market-leading text continues to aid instructors in preparing the nation's finest nursing assistants to deliver safe, effective care in acute, sub-acute, long-term care, and home health settings by maintaining the time-tested hallmark features students and instructors love while staying current in the dynamic, ever-changing world of healthcare. To enrich

learning, enhance critical thinking skills and improve client care, the guidelines and clearly illustrated procedures that demonstrate the how of what nursing assistants need to do, now include clearly written rationales that help them to understand the why behind their patient care actions. Accompanied by a wide range of new media, this resource is unsurpassed in providing a total package of learning tools that promote individual success in the classroom, on the certifying exam, and in the clinical setting. Profiles in Leadership: Historians on the Elusive Quality of Greatness Walter Isaacson.2010-10-18 “Though we cannot learn leadership, we can learn from leaders, which is why this volume is so engaging and valuable.”—Boston Globe What made FDR a more successful leader during the Depression crisis than Hoover? Why was Eisenhower more effective as supreme commander at war than he was as president? Who was Pauli Murray and why was she a pivotal figure in the civil rights movement? Find the answers to these questions and more in essays by great historians including Sean Wilentz, Alan Brinkley, Annette Gordon-Reed, Jean Strouse, Frances FitzGerald, and others. Entertaining and insightful individually, taken together the essays address the enduring ingredients of leadership, the focus of an introduction by Walter Isaacson.

Battle Scarred Anthony Feinstein.2011 With only a few weeks’ training in this field, Anthony Feinstein is thrust into the army’s psychiatric unit. *Battle Scarred* is his revealing account of his experiences treating bossies soldiers and all manner of war -induced psychosis in a largely hostile environment. He starts out at 1 Military Hospital in Pretoria where his first patients are talking to the stars or claiming to be Jesus. Next, he is dispatched to Oshakati, home to the largest military base in the war zone, to screen troops for post-traumatic stress disorder. He steps into a world of alcoholism, insomnia, family violence and venereal disease. The consequences of war and the idiosyncrasies of army life present themselves in strange ailments. Chilling stories are told not only by the conscripts, but also by the wives of the permanent force soldiers who live on the base. During a stint at an outpost manned by Koevoet, Feinstein experiences the soldiers’ shocking cruelty - and what it does to their psyche. This honest personal account sheds light on the widespread but seldom talked about fall-out from the Border War. It demands to be read, not only by the thousands of ex-soldiers still carrying the invisible scars, but by all South Africans.

The Equality of Believers Richard Elphick.2012-10-03 From the beginning of the nineteenth century through to 1960, Protestant missionaries were the most important intermediaries between South Africa’s ruling white minority and its black majority. *The Equality of Believers* reconfigures the narrative of race in South Africa by exploring the pivotal role played by these missionaries and their teachings in shaping that nation’s history. The missionaries articulated a universalist and egalitarian ideology derived from New Testament teachings that rebuked the racial hierarchies endemic to South African society. Yet white settlers, the churches closely tied to them, and even many missionaries evaded or subverted these ideas. In the early years of settlement, the white minority justified its supremacy by equating Christianity with white racial identity. Later, they adopted segregated churches for blacks and whites, followed by segregationist laws blocking blacks’ access to prosperity and citizenship—and, eventually, by the ambitious plan of social engineering that was apartheid. Providing historical context reaching back to 1652, Elphick concentrates on the era of industrialization, segregation, and the beginnings of apartheid in the first half of the twentieth century. The most ambitious work yet from this renowned historian, Elphick’s book reveals the deep religious roots of racial ideas and initiatives that have so profoundly shaped the history of South Africa.

Health Improvement Programmes Salman Rawaf,Peter Orton (MRCGP.).2000 An exploration on the health improvement programme (HIImP)- the cornerstone of the white paper *The New NHS: Modern and Dependable*. These three-year programmes will be subjected to evaluation, particularly of their impact on the local population's health.

Journalists Under Fire Anthony Feinstein.2006-09-08 Outstanding Academic Title for 2007, Choice Magazine As journalists in Iraq and other hot

spots around the world continue to face harrowing dangers and personal threats, neuropsychiatrist Anthony Feinstein offers a timely and important exploration into the psychological damage of those who, armed only with pen, tape recorder, or camera, bear witness to horror. Based on a series of recent studies investigating the emotional impact of war on the profession, *Journalists under Fire* breaks new ground in the study of trauma-related disorders. Feinstein opens with an overview of the life-threatening hazards war reporters face—abductions, mock executions, the deaths of close colleagues—and discusses their psychological consequences: post-traumatic stress disorder, depression, deterioration of personal relationships, and substance abuse. In recounting the experiences of reporters who encounter trauma on the job, Feinstein observes that few adequate support systems are in place for them. He tells the stories of media veterans who have seen it all, only to find themselves and their employers blindsided by psychological aftershocks. The book explores the biological and psychological factors that motivate journalists to take extraordinary risks. Feinstein looks into the psyches of freelancers who waded into war zones with little or no financial backing; he examines the different stresses encountered by women working in a historically male-dominated profession; and he probes the effects of the September 11 attacks on reporters who thought they had sworn off conflict reporting. His interviews with many of this generation's greatest reporters, photographers, and videographers often reveal extraordinary resilience in the face of adversity. *Journalists under Fire* is a look behind the public persona of war journalists at a time when the profession faces unprecedented risk. Plucking common threads from disparate stories, Feinstein weaves a narrative that is as fascinating to read as it is sobering to contemplate. What emerges are unique insights into lives lived dangerously.

The Book of Mirdad Mikhā'il Nu'aymah, Mikhail Naimy. 1993 This masterpiece of spiritual wisdom ranks alongside *The Prophet*--and is written by a close friend and biographer of Kahlil Gibran. Naimy weaves together mystical insights, practical ethics, poetry, philosophy, and ancient legend to create this work of inexhaustible riches that amply justifies its claims to be the lighthouse for troubled souls.

The Jews in South Africa Richard Mendelsohn, Milton Shain. 2008 Spanning the past two centuries, this book explores the fascinating role played by this small but highly significant community in the economic, political, social and cultural life of this country. This richly illustrated story -- the first comprehensive history to appear in over 50 years -- includes a wide range of historically important photographs, many long unseen, and encompasses a broad swathe of Jewish life, from the bimah and the boardroom to the bowling green. Beginning with the first Jewish immigrants to South Africa, and depicting the fragility of the early foundations and the shifting fortunes of this infant community, the book traces its development to robust maturity amidst turbulent social and political currents. These include the strident anti-semitism of the 1930s, the moral dilemmas of the apartheid era, the subsequent turbulent transition towards a non-racial democracy, the birth of the New South Africa and the fresh challenges and promise that have followed in its wake up to the present day. Included are such personalities as Barney Barnato, Helen Suzman, Joe Slovo, Sol Kerzner and Rabbi Cyril Harris, as well as many others who have made an important mark in their fields. This book will be of great interest to every member of the Jewish community living both in South Africa and in their adoptive countries, as well as to all wishing to learn more about this highly energetic and innovative community whose contribution in many spheres of life has so greatly influenced and enriched the history of South Africa.

The In-Between People Girma Bekele. 2011-03-29 In the midst of partial, competing, and often hostile forms of human solidarity, David Bosch challenged the church to be the Alternative Community called to live in the in-between of various opposing socio-political, economic, and ecclesiastical polarities. Girma Bekele explores and renews that call in the context of Ethiopia. Acute poverty and the lingering question of the

balance between ethnic distinctiveness and national unity, together constitute a two-edged challenge to Christian identity. Constructive dialogue that fosters unity is intrinsic to effective response to the plight of the poor. This means a turning away from institutional self-preservation towards a contextually relevant mission that crosses all human-made frontiers. Taking Ethiopia as the immediate context, Dr. Bekele offers important insight to the church in the majority world and beyond.
