No Prison Massimo Pavarini.2018-08-15 This book is different from most of the academic and non-academic literature on prisons. It does not advocate prison reform. Instead, it makes the case for the prisons' abolition. According to the authors, prison amelioration is an illusion, but abolition is an option - a real possibility, and certainly an issue worth of public discussion and political action - urgently.

Who Can Speak and Who Is Heard/Hurt? Mahmoud Arghavan,Luvena Kopp,Katharina Motyl,Nicole Hirschfelder.2019-01-15 Ethnic diversity, race, and racism have been subject to discussion in American studies departments at German universities for many years. It appears that especially in the past few decades, ethnic minorities and new immigrants have increasingly become objects of scholarly inquiry. Such research questions focus on the U.S. and other traditionally multicultural societies that have emerged out of historical situations shaped by (settler) colonialism, slavery, and/or large-scale immigration. Paradoxically, these studies have overwhelmingly been conducted by white scholars born in Germany and holding German citizenship. Scholars with actual experience of racial discrimination have remained largely unheard. Departing from a critique of practices employed by the German branch of the American studies, the volume offers (self-)reflective approaches by scholars from different fields in the German humanities. It thereby seeks to provide a solid basis for thorough and candid discussions of the mechanisms behind and the implications of racialized power relations in the German humanities and German society at large.

The Growth of Incarceration in the United States Committee on Causes and Consequences of High Rates of Incarceration,Committee on Law and Justice,Division of Behavioral and Social Sciences and Education,National Research Council.2014-12-31 After decades of stability from the 1920s to the early 1970s, the rate of imprisonment in the United States has increased fivefold during the last four decades. The U.S. penal population of 2.2 million adults is by far the largest in the world. Just under one-quarter of the world's prisoners are held in American prisons. The U.S. rate of incarceration, with nearly 1 out of every 100 adults in prison or jail, is 5 to 10 times higher than the rates in Western Europe and other democracies. The U.S. prison population is largely drawn from the most disadvantaged part of the nation's population: mostly men under age 40, disproportionately minority, and poorly educated. Prisoners often carry additional deficits of drug and alcohol addictions, mental and physical illnesses, and lack of work preparation or experience. The growth of incarceration in the United States during four decades has prompted numerous critiques and a growing body of scientific knowledge about what prompted the rise and what its consequences have been for the people imprisoned, their families and communities, and for U.S. society. The Growth of Incarceration in the United States examines research and analysis of the dramatic rise of incarceration rates and its affects. This study makes the case that the United States has gone far past the point where the numbers of people in prison can be justified by social benefits and has reached a level where these high rates of incarceration themselves constitute a source of injustice and social harm. The Growth of Incarceration in the United States examines policy changes that created an increasingly punitive political climate and offers specific policy advice in sentencing policy, prison policy, and social policy. The report also identifies important research questions that must be answered to provide a firmer basis for policy. This report is a call for change in the way society views criminals, punishment, and prison. This landmark study assesses the evidence and its implications for public policy to inform an extensive and thoughtful public debate about and reconsideration of policies.

The Three Worlds of Welfare Capitalism Gosta Esping-Andersen.2013-05-29 Few discussions in modern social science have occupied as much

attention as the changing nature of welfare states in western societies. Gosta Esping-Andersen, one of the most distinguished contributors to current debates on this issue, here provides a new analysis of the character and role of welfare states in the functioning of contemporary advanced western societies. Esping-Andersen distinguishes several major types of welfare state, connecting these with variations in the historical development of different western countries. Current economic processes, the author argues, such as those moving towards a post-industrial order, are not shaped by autonomous market forces but by the nature of states and state differences. Fully informed by comparative materials, this book will have great appeal to everyone working on issues of economic development and post-industrialism. Its audience will include students and academics in sociology, economics and politics.

Misguided Virtue David Henderson.2001 The author argues that the doctrine of corporate social responsibility will damage prosperity in poor countries as well as rich.

Integration statt Ausgrenzung Lydia Halbhuber-Gassner,Barbara Kappenberg.2017-11-08 Die Entstehung der organisierten Straffälligenhilfe in Deutschland in der Zeit der Weimarer Republik ist Ausgangspunkt des geschichtlichen Rückblicks. Die Arbeit der Katholischen Arbeitsgemeinschaft Straffälligenhilfe in den vergangenen Jahrzehnten bis zur Gegenwart wird aufgezeigt und beispielhafte Projekte aus der Praxis der beruflichen und freiwilligen/ehrenamtlichen Arbeit vorgestellt. Auch wird ein Überblick über wichtige kriminal- und sozialpolitische Positionierungen gegeben. Mit einem Ausblick in die Zukunft der freien Straffälligenhilfe und über den Tellerrand der nationalen Grenzen schließt dieses Buch ab. Dabei wird die ethische und fachliche Grundposition der Katholischen Bundes-Arbeitsgemeinschaft Straffälligenhilfe – Integration statt Ausgrenzung – Versöhnung statt Strafe – deutlich herausgestellt und an vielen Themenbereichen der Praxis der Straffälligenhilfe diskutiert.

Understanding Human Rights Wolfgang Benedek.2012 This third edition of Understanding Human Rights has been elaborated by the European Training and Research Center for Human Rights and Democracy (ETC) in Graz, originally for the Human Security Network (HSN) at the initiative of the Austrian Ministry for Foreign Affairs. The objective is to assist human rights education efforts worldwide. The book's thematic modules on selected human rights issues cover topics such as: the prohibition of torture, freedom from poverty, human rights of women and children, human rights in armed conflict, freedom of expression, and democracy. New to this updated edition are chapters reflecting current trends in human rights, including new modules on privacy (such as challenges posed by Internet use), minority rights, and the right to asylum. Translations of the earlier editions already exist in 15 languages, among them all the official United Nations languages. Understanding Human Rights has become a basic text for human rights education and training in different countries, on different levels, and for different audiences, from university lectures in China to NGO training in Mali to police training in Kosovo.

Changing Structures of Inequality Yannick Lemel,Heinz-Herbert Noll.2002 The international sociological community has engaged recently in a controversial discussion on social inequality. There is a vigorous debate on whether the traditional concepts of social class and social stratification are still useful. Some researchers argue that social classes still offer a key explanation to social inequalities while others challenge the long-standing tradition of class analysis. New approaches have been proposed to describe recent social changes in the stratification system: vanishing middle class, two-thirds societies, cosmographic inequality, and classless society, among others.

The Andes Axel Borsdorf,Christoph Stadel.2015-03-12 The Andes are attracting global interest again: they hold valuable mineral resources, tourists appreciate their great natural beauty and the diversity of indigenous cultures, climbers scale rock and ice faces, while many others are intrigued by

regional political developments, such as the Bolivarian revolution in Venezuela or the almost unfettered hegemony of the neoliberal economic model in Chile. This volume is the first attempt for decades to present a complete overview of the longest mountain chain on the planet - a region of remarkable climatic, floristic and geologic diversity, where advanced civilization developed well before the arrival of the Spanish. Today the Andes continue to be characterized by their ethnic, demographic, cultural and economic diversity, as well as by the disparity of local socioeconomic groups. The Andean countries pursue a wide range of approaches to tackle the challenges of making the best use of their natural and cultural potential without damaging their ecological basis, as well as to overcome economic disparity and foster social cohesion. This book provides insights into this unique region and its most pressing issues, complemented by a wealth of pictures and comprehensive diagrams, which, in sum, help to better understand these fascinating mountains.

The Waterworks E.L. Doctorow.2010-11-17 "An elegant page-turner of nineteenth-century detective fiction." -The Washington Post Book World One rainy morning in 1871 in lower Manhattan, Martin Pemberton a freelance writer, sees in a passing stagecoach several elderly men, one of whom he recognizes as his supposedly dead and buried father. While trying to unravel the mystery, Pemberton disappears, sending McIlvaine, his employer, the editor of an evening paper, in pursuit of the truth behind his freelancer's fate. Layer by layer, McIlvaine reveals a modern metropolis surging with primordial urges and sins, where the Tweed Ring operates the city for its own profit and a conspicuously self-satisfied nouveau-riche ignores the poverty and squalor that surrounds them. In E. L. Doctorow's skilled hands, *The Waterworks* becomes, in the words of *The New York Times*, "a dark moral tale . . . an eloquently troubling evocation of our past." "Startling and spellbinding . . . The waters that lave the narrative all run to the great confluence, where the deepest issues of life and death are borne along on the swift, sure vessel of [Doctorow's] poetic imagination." -*The New York Times* Book Review "Hypnotic . . . a dazzling romp, an extraordinary read, given strength and grace by the telling, by the poetic voice and controlled cynical lyricism of its streetwise and world-weary narrator." -*The Philadelphia Inquirer* "A gem of a novel, intimate as chamber music . . . a thriller guaranteed to leave readers with residual chills and shudders." -*Boston Sunday Herald* "Enthralling . . . a story of debauchery and redemption that is spellbinding from first page to last." -*Chicago Sun-Times* "An immense, extraordinary achievement." -*San Francisco Chronicle*

Alternative Strafvollzugsmodelle e.V. Seehaus.2022-03-08 *Alternative Strafvollzugsmodelle aus der Vergangenheit, Gegenwart und Zukunft* werden in diesem Band vorgestellt. Anlass ist der Rückblick auf 10 Jahre Strafvollzug in freien Formen in Sachsen. Seehaus e.V. betreibt seit 2011 mit dem Seehaus Leipzig einen Jugendstrafvollzug in freien Formen. Sachsen ist das erste Bundesland in dem nun auch Strafvollzug in freien Formen für Erwachsene möglich sein wird. In Ergänzung dazu zeigen andere Träger mit ihren Konzepten weitere Alternativen zum Strafvollzug auf. Auch der Blick ins Ausland liefert hierzu Anregungen und Ideen. Einen Ausblick geben Wissenschaftler und Politiker zu ihrer Vision eines Justizsystems der Zukunft und von Restorative Justice als Zukunftsperspektive für das Justizsystem.

Island Rivers John R. Wagner, Jerry K. Jacka.2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people. Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning

of rivers to the communities we describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place?

Down on Their Luck David A. Snow, Leon Anderson. 1993-02-12 David Snow and Leon Anderson show us the wretched face of homelessness in late twentieth-century America in countless cities across the nation. Through hundreds of hours of interviews, participant observation, and random tracking of homeless people through social service agencies in Austin, Texas. Snow and Anderson reveal who the homeless are, how they live, and why they have ended up on the streets. Debunking current stereotypes of the homeless. *Down on Their Luck* sketches a portrait of men and women who are highly adaptive, resourceful, and pragmatic. Their survival is a tale of human resilience and determination, not one of frailty and disability.

Cannabis Policy Robin Room, Benedikt Fischer, Wayne Hall, Peter Reuter, Simon Lenton. 2010 It looks at the experience of a number of countries which have tried reforming their regimes and softening prohibition, exploring the kinds of changes or penalties for use for possession: including depenalization, decriminalization, medical control, and different types of legalization. It evaluates such changes and draws on them to assess the effects on levels and patterns of use, on the market, and on adverse consequences of prohibition. For policymakers willing to look outside the box of the global prohibition regime, the book examines the options and possibilities for a country or group of countries to bring about change in, or opt out of, the global control system. Throughout, the book examines cannabis within a global frame, and provides in accessible form information which anyone considering reform will need in order to make decisions on cannabis policy (much of which is new or has not been readily available).

Early Prevention of Adult Antisocial Behaviour David P. Farrington, Jeremy W. Coid. 2003-04-17 This book presents a comprehensive summary of how well adult crime, antisocial behaviour and antisocial personality disorder can be prevented by interventions applied early in life. It reviews important childhood risk and protective factors for these adult outcomes and the alternative strategies of primary prevention (targeting the whole community) and secondary prevention (targeting persons identified as high risk) are discussed. The book also contains extensive information about prevention programmes in pregnancy and infancy, pre-school programmes, parent education and training programmes, and school programmes (including the prevention of bullying). There is special emphasis on preventing the intergenerational transmission of antisocial behaviour by focusing on family violence, and a special review of whether risk factors and prevention programmes have different effects for females compared to males. Cost-benefit analyses of early prevention programmes are also reviewed, leading to the conclusion that adult antisocial behaviour can be prevented both effectively and cost-efficiently.

Wildlife Trafficking Gian Ege, Andreas Schloenhardt, Christian Schwarzenegger. 2020-10-09 Wildlife trafficking threatens the existence of many plant and animal species and accelerates the destruction of wildlife, forests, and other natural resources. It contributes to environmental degradation, destroys unique natural habitats, and deprives many countries and their populations of scarce renewable resources. Nevertheless, preventing and suppressing the illegal trade in wildlife, animal parts, and plants is presently not a priority in many countries and it remains overlooked and poorly researched. The chapters included in this volume address causes, characteristics, and actors of wildlife trafficking, analyse detection methods, and explore different international and national legal frameworks. Quest for Identity Randall Bennett Woods.2005-07 Quest for Identity is a survey of the American experience from the close of World War II, through the Cold War and 9/11, to the present. It helps students understand postwar American history through a seamless narrative punctuated with accessible analyses. Randall Woods addresses and explains the major themes that punctuate the period: the Cold War, the Civil Rights and Women's Rights movements, and other great changes that led to major realignments of American life. The pageantry, drama, irony, poignancy, and humor of the American journey since World War II are all here.

Reading Graphic Novels Achim Hescher.2016-02-22 This monograph presents a prototype theory-based approach to the graphic novel as a narrating genre. After a historical contextualization, the graphic novel is defined through the core feature of complexity and seven gradable subcategories. With regard to narration, the author challenges concepts from classical narratology like the 'narrator' and 'focalization' to finally discuss aspects of subjectivity, a focal paradigm in the latest research.

Resozialisierung und Systemischer Wandel Bernd Maelicke,Christopher Wein.2020-06-16 In Folge der weltweiten Corona-Krise gewinnen die Vorschläge zu einem Systemischen Wandel auch in der Kriminal-, Justiz- und Sozialpolitik neue Bedeutung. Dieser Band informiert über Masterpläne und Agenden der strategischen Steuerung von Innovationen in allen Arbeitsfeldern der Resozialisierung in einem Verbund von öffentlichen und privaten Trägern. In Österreich, der Schweiz und in Deutschland gibt es dazu konkrete Vorschläge von Fach- und Führungskräften und Experten der lokalen und nationalen Ebene, dies gilt auch für die internationale und europäische Dimension. Innovative Projekte weisen gesteigerte Wirksamkeit und Nachhaltigkeit von Gesamtkonzepten der ambulanten und stationären Resozialisierung nach. Maelicke und Wein fordern im Übergang in eine Zeitenwende eine Große Transformation und plädieren für einen nachhaltigen und wirkungsorientierten Umgang mit Tätern und Opfern.

The Political Economy of Human Happiness Benjamin Radcliff.2013-03-25 Data, methods and theories of contemporary social science can be applied to resolve how political outcomes in democratic societies determine the quality of life that citizens experience. Radcliff seeks to provide an objective answer to the debate between left and right over what public policies best contribute to people leading positive and rewarding lives. Radcliff offers an empirical answer, relying on the same canons of reason and evidence required of any other issue amenable to study through social-scientific means. The analysis focuses on the consequences of three specific political issues: the welfare state and the general size of government, labor organization, and state efforts to protect workers and consumers through economic regulation. The results indicate that in each instance, the program of the Left best contributes to citizens leading more satisfying lives and, critically, that the benefits of greater happiness accrue to everyone in society, rich and poor alike.

European Rules for Juvenile Offenders Subject to Sanctions Or Measures Council of Europe.2009-01-01 This book deals with the rules that are in force in Europe for juvenile offenders. The aim of the rules is to uphold the rights and safety of juvenile offenders subject to sanctions or measures and to promote their physical, mental and social well-being when subject to community sanctions or measures, or any form of deprivation of liberty. It is based on Recommendation Rec(2008)11 of the Committee of Ministers of the Council of Europe on the European Rules for juvenile offenders subject to sanctions or measures, which was adopted on 5 November 2008. The first part of the book contains the text of the recommendation and is followed by a commentary which explains in finer detail the rules and the points raised by the text. The final section provides an analysis of the national replies to a questionnaire related to the treatment of juvenile offenders. This work will be of interest to human rights scholars, researchers

and students of law, criminology and international relations.

Das Gefängnis auf dem Prüfstand Bernd Maelicke, Stefan Suhling. 2018-03-07 Dieses Buch liefert eine Zwischenbilanz über die Situation des Strafvollzugs. Ziel des Behandlungsvollzugs ist die Befähigung der Gefangenen zu einem straffreien Leben. Die Autoren dieses Sammelbandes beleuchten deshalb unter anderem die Fragen: Wie leistungsfähig ist der Behandlungsvollzug? Welche Sicherheitsrisiken müssen bewältigt werden? Wie gestaltet sich die Zusammenarbeit mit anderen Akteuren der stationären und ambulanten Resozialisierung? Und welche weiteren Reformen sind mittel- und langfristig zu realisieren?

Gezählte Tage (1972) Peter Huchel. 2019-10 With Brecht, Benn, Bobrowski and Celan, Peter Huchel is one of a handful of essential post-war poets in the German language. A precise observer of natural phenomena, Huchel is above all a realist whose metaphors take us deep into the social and historical landscape, into zones of devastation and despair, the zero-hour of isolation. His world is devoid of illusion or sentimentality; there is no redemption, at most an exactitude that is itself a confirmation of what is human and real. Lifted out of the schismatic currents of the Cold War era by Martyn Crucefix's supple and arrestingly sensual translations, Huchel surprises us as a fresh and startling voice for our own numbered days. --Iain Galbraith

Resozialisierung durch Soziale Arbeit Heinz Cornel. 2020-11-18 Resozialisierung ist Ziel und Auftrag der Sozialen Arbeit z.B. im Strafvollzug, in der Bewährungshilfe und in der Freien Straffälligenhilfe. Um dieses Ziel - die Reintegration in die Gesellschaft - zu erreichen, sind spezifische Kenntnisse und Kompetenzen sowie ethische Grundsätze und kriminalpolitische Orientierung notwendig. Das Buch zeigt, wie Fachkräfte der Sozialen Arbeit in enger Zusammenarbeit mit ihren Klientinnen und Klienten erfolgreich resozialisieren können. Neben der Auseinandersetzung mit dem Begriff, den Problemlagen und Handlungsmethoden werden institutionsbezogene Hilfearten vorgestellt. Das Lehr- und Lernbuch bietet dazu ein facettenreiches Fallbeispiel und ermöglicht so den Transfer des Wissens in die Praxis.

Wenn Inhaftierung die Lebenssituation prägt Lydia Halbhuber-Gassner, Barbara Kappenberg, Wolfgang Krell. 2017-09-15 Inhaftierung ist nicht nur ein gravierender Einschnitt in das Leben der verurteilten Person, sondern auch der Angehörigen: PartnerIn, Kinder, Eltern, Großeltern, Geschwister, enge Freunde. Diese werden häufig von der Inhaftierung überrascht. Neben dem Schock müssen sie auftretende psychische, soziale und materielle Probleme lösen und alleine die Erziehungsverantwortung und Alltagsbewältigung tragen. Aus Scham und Angst vor Ablehnung sowie sozialer Isolation wird die Inhaftierung vor der Familie und dem Umfeld häufig geheim gehalten. Das hindert die Betroffenen aber auch daran, sich vor Ort Unterstützung zu holen. Hier bietet die Online-Beratung eine gute Möglichkeit anonym, kostenlos sowie unabhängig von Ort und Zeit Fachleute um Rat zu fragen. Der Reader präsentiert neben Grundlagen zur Problematik der Angehörigen das breite Spektrum an Hilfeangeboten. Diese reichen von persönlicher Unterstützung, Gruppenarbeit in oder außerhalb der Haft bis zur Online-Beratung. Darüber hinaus werden viele Praxisbeispiele vorgestellt, die Orientierung und Anregung für alle in der Arbeit mit Inhaftierten und vor allem deren Angehörigen geben.

Chaga Childhood Otto Friedrich Raum. 1996 This account of traditional education among the Chaga, a Bantu-speaking people of Tanzania, was one of

the earliest studies of indigenous education. The first part of the book is an historical survey of existing literature on the subject in English, French and German; the second and main part of the book is a description of the informal education of the Chaga child in the family; the self-educative process in play group and age class; the formal training received during the rites leading up to circumcision, initiation and the preparation for marriage; and the changes in relationship between parents and children as they grow older, from the infant stage of biological dependence to the point at which the child fills the place occupied by the parent through descent, inheritance and succession. Psychological, anthropological, linguistic and pedagogical problems are discussed, including the development of speech during infancy, the extension of classificatory terms in the kinship group, the significance of the rites of development, and the differentiation of behaviour according to age, sex and rank of the children by means of taboos, punishments, songs and proverbs. The third part of the book offers practical conclusions from this study of indigenous education, in particular with regard to education policy, teaching methods and school organisation in Tropical Africa.

The Greater German Reich and the Jews Wolf Gruner, Jörg Osterloh. 2015-01-01 Between 1935 and 1940, the Nazis incorporated large portions of Europe into the German Reich. The contributors to this volume analyze the evolving anti-Jewish policies in the annexed territories and their impact on the Jewish population, as well as the attitudes and actions of non-Jews, Germans, and indigenous populations. They demonstrate that diverse anti-Jewish policies developed in the different territories, which in turn affected practices in other regions and even influenced Berlin's decisions. Having these systematic studies together in one volume enables a comparison - based on the most recent research - between anti-Jewish policies in the areas annexed by the Nazi state. The results of this prizewinning book call into question the common assumption that one central plan for persecution extended across Nazi-occupied Europe, shifting the focus onto differing regional German initiatives and illuminating the cooperation of indigenous institutions.

Electronically Monitored Punishment Mike Nellis, Kristel Beyens, Dan Kaminski. 2013-05-07 Electronic monitoring (EM) is a way of supervising offenders in the community whilst they are on bail, serving a community sentence or after release from prison. Various technologies can be used, including voice verification, GPS satellite tracking and - most commonly - the use of radio frequency to monitor house arrest. It originated in the USA in the 1980s and has spread to over 30 countries since then. This book explores the development of EM in a number of countries to give some indication of the diverse ways it has been utilized and of the complex politics which surrounds its use. A techno-utopian impulse underpins the origins of EM and has remained latent in its subsequent development elsewhere in the world, despite recognition that it is less capable of effecting penal transformations than its champions have hoped. This book devotes substantive chapters to the issues of privatisation, evaluation, offender perspectives and ethics. Whilst normatively more committed to the Swedish model, the book acknowledges that this may not represent the future of EM, whose untrammelled, commercially-driven development could have very alarming consequences for criminal justice. Both utopian and dystopian hopes have been invested in EM, but research on its impact is ambivalent and fragmented, and EM remains undertheorised, empirically and ethically. This book seeks to redress this by providing academics, policy audiences and practitioners with the intellectual resources to understand and address the challenges which EM poses.

Offender Supervision in Europe F. McNeill, K. Beyens. 2013-11-25 Offender supervision in Europe has developed rapidly in scale, distribution and intensity in recent years. However, the emergence of mass supervision in the community has largely escaped the attention of legal scholars and social scientists more concerned with the mass incarceration reflected in prison growth. As well as representing an important analytical lacuna for penology in general and comparative criminal justice in particular, the neglect of supervision means that research has not delivered the knowledge

that is urgently required to engage with political, policy and practice communities grappling with delivering justice efficiently and effectively in fiscally straitened times, and with the challenges of communicating the meaning, legitimacy and utility of supervision to an insecure public. This book reports the findings from a survey of European research on this topic, undertaken during the first year of a European research network that spans twenty countries. As such, it provides the first comprehensive review of research on offender supervision in Europe, opening up an important new field of enquiry for comparative social science, and offering the prospects of better informed democratic deliberation about key challenges facing contemporary justice systems, policymakers and practitioners, and the societies they seek to serve.

The Extreme Right in Western Europe Elisabeth Carter.2005-10-07 This book examines the reasons behind the variation in the electoral fortunes of the West European parties of the extreme Right in the period since the late 1970s. It proposes a number of different explanations as to why certain parties of the extreme Right have performed better than others at the polls and it investigates each of these different explanations systematically and in depth.
