**A Dictionary of Syrian Arabic** Karl Stowasser.2004 This dictionary provides Syrian terms for the language needed in everyday life. The Syrian used is that of educated Muslims in Damascus, which would be understood not only elsewhere in Syria but also in the broader linguistic area of Syrian Arabic, which encompasses present-day Syria, Lebanon, Jordan, and the Arab-speaking population of Israel. The book includes examples, idioms, and common phrases using the word in question. The Arabic terms are presented in transcription.

**Syrian Jewry in Transition, 1840-1880** Yaron Harel.2010-02-01 This pioneering study offers a comprehensive account of Syria's key Jewish communities at an important juncture in their history that also throws light on the broader effects of modernization in the Ottoman empire. The Ottoman reforms of the mid-nineteenth century accelerated the process of opening up Syria up to European travellers and traders, and gave Syria's Jews access to European Jewish communities. The resulting influx of Western ideas led to a decline in the traditional economy, with serious consequences for the Jewish occupational structure. It also allowed for the introduction of Western education, through schools run by the Alliance Israélite Universelle, influenced the structure and the administration of Jewish society in Syria, and changed the balance of the relationship between Muslims, Christians, and Jews. Initially Syria's Jewish communities flourished economically and politically in these new circumstances, but there was a developing recognition that their future lay overseas. After the opening of the Suez Canal in 1869, the bankruptcy of the Ottoman empire in 1875, and the suspension of the Ottoman constitution in 1878, this feeling intensified. A process of decline set in that ultimately culminated in large-scale Jewish emigration, first to Egypt and then to the West. From that point on, the future for Syrian Jews lay in the West, not the East. Detailed and compelling, this book covers Jewish community life, the legal status of Jews in Syria, their relationship with their Muslim and Christian neighbours, and their links with the West. It draws on a wide range of archival material in six languages, including Jewish, Christian Arab, and Muslim Arab sources, Ottoman and European documents, consular reports, travel accounts, and reports from the contemporary press and by emissaries to Syria of the Alliance Israélite Universelle. Rabbinic sources, including the archive of the chief rabbinate in Istanbul, are particularly important in opening a window onto Syrian Jewish life and concerns. Together these sources bring to light an enormous amount of material and provide a broad, multifaceted perspective on the Syrian Jewish community. The Hebrew edition of the book was the winner of the Ben Zvi Award for Research in Oriental Jewry in 2004. 'For the first time in the historiography of the Jews of Muslim countries we are presented with a rich picture, well written and riveting, of the history of important Jewish communities in the period of the Tanzimat.' Social Justice in EAP and ELT Contexts Paul Breen,Michèle le Roux.2024-02-22 This book articulates an understanding of what is meant by the term social justice from a global perspective, drawing upon examples of practice from across a range of English for academic purposes (EAP) and English language teaching (ELT) higher education contexts. Presently, within western higher educational systems, there is a drive for greater integration of approaches that lend themselves to social justice. However, questions still remain about what that means in practice. This book seeks to answer that not by telling but by showing. It presents a series of chapters that act as vignettes into a diverse set of classrooms, contexts and countries, offering examples of how and where an epistemology of social justice has been put into practice in teaching and learning situations. Such situations range from cross-continental higher educational partnerships between east and west to instances of EAP practitioners' work with refugees from North Africa and the Middle East. These examples are threaded together by the common goal of understanding what it is that defines an enactment of social justice and what the shared denominators are across these contexts. Through looking at these various examples, the authors produce a set of codes and themes that are common to practice across contexts and discuss how these might help inform practice in other areas of language education, higher education and educational development work in general.

**Children of Palestine** Dawn Chatty,Gillian Lewando Hundt.2005 Although the topic of travel and travel writing by Chinese and Japanese writers has recently begun to attract more interest among scholars in the West, it remains largely virgin terrain with vast tracts awaiting scholarly examination. This book offers insights into how East Asians traveled in the early modern and modern periods, what they looked for, what they felt comfortable finding, and the ways in which they wrote up their impressions of these experiences.--From p. [4] of cover.

Readings in Syrian Prison Literature R. Shareah Taleghani.2021-06-21 The simple act of inscription, both minute and epic, can be a powerful tool to bear witness and give voice to those who are oppressed, silenced, and forgotten. In the eras of Hafiz al-Asad and his son Bashar, Syrian political dissidents have written extensively about their experiences of detention, both while in prison and afterwards. This body of writing, largely untranslated into English, is essential to understanding the oppositional political culture among dissidents since the 1970s—a culture that laid the foundation for the 2011 Syrian Revolution. The emergence of prison literature as a specific genre helped articulate opposition to authoritarian states, including the Asad regime. However, the significance of Syrian prison literature goes beyond a form of witnessing, expressing creative opposition, and illuminating the larger cultural and historical backstory of the Syrian uprising. Prison literature, in all its diversity, challenges the narrative structures and conventional language of human rights. In doing so, prison literature has played an essential role in generating the experimental shift in Arabic literature since the 1960s. Taleghani's groundbreaking work explores prison writing's critical role in resistance movements in Syria, the evolution of Arabic literature, and the development of a global human rights.

**The Alawis of Syria** Michael Kerr,Craig Larkin.2015-01-12 Throughout the turbulent history of the Levant the 'Alawis - a secretive, resilient and ancient Muslim sect - have aroused suspicion and animosity, including accusations of religious heresy. More recently they have been tarred with the brush of political separatism and complicity in the excesses of the Assad regime, claims that have gained greater traction since the onset of the Syrian uprising and subsequent devastating civil war. The contributors to this book provide a complex and nuanced reading of Syria's 'Alawi communities -from loyalist gangs (Shabiha) to outspoken critics of the regime. Drawing upon wide-ranging research that examines the historic, political and social dynamics of the 'Alawi and the Syrian state, the current tensions are scrutinised and fresh insights offered. Among the themes addressed are religious practice, social identities, and relations to the Ba'ath party, the Syrian state and the military apparatus. The analysis also extends to Lebanon with a focus on the embattled 'Alawi community of Jabal Mohsen in Tripoli and state relations with Hizballah amid the current crisis.

The decade was characterized by a high degree of experimentation as young artists began to work with artistic media that were new in Syria, such as video, installation and performance art. They were rethinking the role of artists in society and looking for ways to reach audiences in a more direct manner and address socio-cultural and socio-political issues. The Contemporary Art Scene in Syria will be of interest to scholars of global and Middle Eastern art studies, and also to scholars interested in the recent social and cultural history of Syria and the wider Middle East.
