Souvenirs de Tanis (I) Patrice Le Guilloux.2019-11-05 Jean-Louis Fougerousse (1879-1953) fut l'architecte de la Mission Montet à Tanis, dans le delta du Nil, entre 1931 et 1939. Il dressa de nombreux plans archéologiques du site et fut l'un des témoins privilégiés des plus importantes découvertes effectuées par Pierre Montet, dont celle de la nécropole des pharaons des XXIe et XXIIe dynasties. Fougerousse possédait en outre un formidable talent d'aquarelliste, qu'il avait développé durant sa jeunesse et pour lequel il fut amené à exposer régulièrement ses oeuvres dans les plus grands salons internationaux, dès 1904. Cet ouvrage retrace sa vie et présente 155 croquis, dessins et aquarelles qu'il réalisa sur le site de Tanis, récemment retrouvés chez certains de ses descendants ou dans des collections privées. Il offre aux archéologues et aux ethnologues la possibilité rare de découvrir les costumes, parures et attributs du personnel égyptien d'un chantier de fouilles, tant masculin que féminin, dans les années 1930 pour cette région de l'Égypte, et aux passionnés d'orientalisme le plaisir d'admirer des documents exceptionnels et inédits.

John Singer Sargent Richard Ormond,Elaine Kilmurray.1998 From 1874 to 1882, John Singer Sargent (1856-1925) produced more than 200 paintings and water-colours aside from portraiture that chart his development as an artist. The breadth of his achievement includes figures in landscape settings, architectural studies, seascapes, subject paintings, and studies after old masters. From his powerful studies of models in Paris in the mid-1870s to his compelling paintings set in Venice in the early 1880s, the works published in this volume of the catalogue raisonné show the variety of his aesthetic responses. Working in the studio and en plein air, Sargent travelled widely during the eight years covered in this volume, painting in Paris, Brittany, Capri, Spain, North Africa and Venice. This is the first time that Sargent's early work has been mapped so comprehensively. With very few exceptions, this book illustrates all the pictures under discussion in colour. Each painting, including several which have never been published before, is documented in depth with full provenance, exhibition history and bibliography. Original research of primary documents and on-site investigations uncovered much new information, presented in critical discussions of subject matter, dating, style, and significance in the artist's career. The volume reproduces a wealth of Sargent's preliminary and related drawings and of comparative works by other artists. --Book Jacket.

John Ruskin, J.M.W. Turner and the Art of Water Carmen Casaliggi.2022-12-20 This book assesses Ruskin's and Turner's mutual interest in the theme of water, with particular reference to The Harbours of England (1856), Ruskin's book on ships and marine art to which are appended Turner's 12 illustrations of the English ports. By considering existing scholarly works on Ruskin and Turner, the book begins by demonstrating that the two, despite their widely acknowledged relations, have rarely been examined in conjunction. It raises the question as to how the subject of water inspired the intellectual, aesthetic, philosophical, and scientific climate of the nineteenth century, both in Britain and abroad, and acknowledges the significance of the relationship between Ruskin and Turner in the context of aquatic studies. Ruskin's childhood fascination with water is examined in detail, while the scientific and spiritual importance of the subject in Modern Painters and The Stones of Venice is also emphasised and read in parallel with The Harbours of England, a detailed account of which is given, referring to both text and illustrations. Turner's role in Ruskin's understanding of specific water-pictures is also reconstructed. The book demonstrates that water is important as a multifaceted compendium of contemporary themes, for tradition, progress, nationalism, and patriotism find their iconography in its depiction. Considering the literary and painterly implications of wateriness, the text concludes with a reflection upon the significance of the study of water for Ruskin and Turner, and for their age.

Venice Sketchbook .2004-11-11 A pictorial tour of the most significant landmarks of Venice's La Serenissima seaport discusses how the city's architecture reflects its history as a center of learning and a regional superpower, providing coverage of such areas as the Basilica di San Marco, the Palazzo Ducale, and the Grand Canal.

Ruskin in Perspective Carmen Casaliggi,Paul March-Russell.2007 Moving laterally across John Ruskin's complete work, this new anthology draws his ideas together around the common theme of perspective. Grouped into three parts (Art and Literature, Aesthetics and Politics, Geography and Landscape), the essays examine Ruskin's critical intervention both within its own period and in relation to its contemporary legacy. Drawing upon literary theory, art criticism, political, social and cultural history and biographical studies, the essays offer a new and exciting interdisciplinary approach to understanding the scale and relevance of Ruskin's thought. Topics include the role of the reader in Ruskin's work, Anglo-European encounters, Ruskin's style and political influence, national and cultural heritage, the aesthetics of painting, perspective and the sublime, and the impact of geology and evolutionary theory upon Ruskin and nineteenth-century culture. Illustrated throughout with examples from Ruskin's own art-work as well as the artists admired by him (such as J.M.W. Turner), the anthology will be invaluable for readers interested not only in Ruskin as writer, critic and commentator but also in his position within the changing currents of nineteenth and twentieth-century intellectual thought. This collection shows how Ruskin can still teach us to read and see. It breathes enthusiasm and scholarly care in a way that will appeal to a wide range of readers. I am very impressed by the wealth of illustration in the book, which seems to me indispensable for an understanding of Ruskin's thought and its relevance to us. The choice of contributors is harmonious and refreshing - established authorities rub shoulders with rising scholars. This really is an unusually vibrant, well thought-through and valuable collection on a key formative figure in the history of literature, art and criticism. Dr. Sarah Wood, University of Kent. Ruskin studies are currently flourishing (...) There is a wide ranging interest, on both sides of the Atlantic, reflected in the essays here by established European names as well as younger scholars. The compilation is well focused, which will give Ruskin in Perspective a distinctive character in its consideration of literature, aesthetics and geography, thereby appealing to a genuinely interdisciplinary

audience. à Stephen Wildman, Director and Curator, The Ruskin Library, Lancaster University

Mastering Color Mixing with Watercolors Isabelle Roelofs, Fabien Petillion.2021-04-01

Learn to create any color from a basic palette of just 11 colors!

What if you could create any color you wanted, from a basic palette of just 11 colors? That is what the art of color mixing is all about. And once you master it, you will be able to create a broad range of all the colors you might need. Your options will be limited only by your imagination.

In this color mixing book, Isabelle Roelofs and Fabien Petillion first walk you step by step through the basics of watercolor pigments, paper, and color mixing techniques. Using just 11 colors, you'll learn to bring more variety to your primary colors, create basic colors (such as Payne's Gray and Van Dyke Brown), and create your own secondary colors. This approach works no matter what brand of paints you use, as each of the 11 colors is identified by its universal pigment color (such as PY154).

Once you're underway color mixing, you'll see how four artists interpret that basic palette to create thematic color palettes tailored to different subject matter, such as flowers, landscapes, portraits, and animals. Finally, you'll solidify your understanding of color mixing by analyzing five watercolor paintings to see how the color was achieved and how the painting was developed, layer by layer, to achieve the final result.

Maîtriser le mélange des couleurs à l'aquarelle Isabelle Roelofs, Fabien Petillion.2021-01-21 Maîtriser le mélange des couleurs à l'aquarelle Et si vous pouviez réaliser n'importe quelle oeuvre à l'aquarelle avec seulement onze couleurs ? C'est là tout l'art du mélange : le maîtriser vous permettra de reproduire la couleur que vous voulez et d'étendre votre gamme chromatique au-delà de votre imagination. En croisant certaines notions fondamentales sur la composition d'une couleur aquarelle, le papier ou les techniques picturales avec celles du mélange des couleurs, cet ouvrage offre davantage de possibilités qu'un simple nuancier. Par le prisme de la palette de base de onze nuances, vous apprendrez à créer à la fois vos propres couleurs secondaires et des couleurs essentielles (comme le gris de Payne ou le brun Van Dyck), tout en apportant plus de variations à vos primaires. Pour entrer dans le vif du sujet, quatre artistes interprètent pour vous la palette de base avec leur thème de prédilection : composition florale, paysage, portrait humain et animalier. Afin d'approfondir encore votre pratique, l'analyse des étapes de mise en couleurs de cinq aquarelles clôture ce guide, le nouvel ouvrage indispensable de votre bibliothèque pour créer plus avec moins. Attention : La version ePub de ce livre numérique est en fixed-layout. Pour des conditions de lecture optimales, veillez à ce que votre tablette ou ordinateur supporte ce type de format.

Canaletto: Paintings (Colour Plates) Blagoy Kiroff.2015-07-07 Giovanni Antonio Canal (1697 - 1768) better known as Canaletto, was an Italian painter of landscapes of Venice. He was also an important printmaker

in etching. He was born in Venice as the son of the painter Bernardo Canal, hence his mononym Canaletto (little Canal), and Artemisia Barbieri. Bernardo Bellotto was his nephew and pupil. Canaletto served his apprenticeship with his father and his brother. He began in his father's occupation, that of a theatrical scene painter. Canaletto was inspired by the Roman vedutista Giovanni Paolo Pannini, and started painting the daily life of the city and its people. After returning from Rome in 1719, he began painting in his topographical style. His first known signed and dated work is Architectural Capriccio (1723). Studying with the older Luca Carlevarijs, a moderately-talented painter of urban cityscapes, he rapidly became his master's equal. Much of Canaletto's early artwork was painted from nature, differing from the then customary practice of completing paintings in the studio. Some of his later works do revert to this custom, as suggested by the tendency for distant figures to be painted as blobs of colour – an effect produced by using a camera obscura, which blurs farther-away objects. However, his paintings are always notable for their accuracy: he recorded the seasonal submerging of Venice in water and ice. In this painting, the high viewpoint gives the illusion of looking out of a window, but there is no building in the position where the artist would have had to stand to use the camera. Canaletto's early works remain his most coveted and, according to many authorities, his best. One of his early pieces is The Stonemason's Yard (1729) which depicts a humble working area of the city. Later Canaletto painted grand scenes of the canals of Venice and the Doge's Palace. His large-scale landscapes portrayed the city's pageantry and waning traditions, making innovative use of atmospheric effects and strong local colors. For these qualities, his works may be said to have anticipated Impressionism. Many of his pictures were sold to Englishmen on their Grand Tour, often through the agency of the merchant Joseph Smith, who was later appointed British Consul in Venice in 1744. It was Smith who acted as an agent for Canaletto, first in requesting paintings of Venice from the painter in the early 1720s and helping him to sell his paintings to other Englishmen.
