My Life on a Plate Kelis.2015-09-28 My Life on a Plate tells Kelis' personal story through the food she creates. Her style has been molded by her culture, her travels, and all the people she met along the way. This book is a collection of her favorite recipes. Kelis' love affair with food started as a child. A native New Yorker, her mother worked as a chef in her own catering business, run out of their home in Harlem. Driven by the speed and the intensity in the kitchen, Kelis' passion behind watching her mother cook inspired her to roll up her sleeves. Every detail was clear and defined: Red lips, red nails, perfume, earrings and a military demeanour she felt in the presence of a master while watching her mother work. At age 17, Kelis signed her first recording contract and began to travel the world. She discovered local outdoor markets and tiny hole-in-the-wall restaurants and considered them the hidden treasures of her journeys. After 10 years in the music business, Kelis decided to attend Le Cordon Bleu. Attending the famous cooking school gave Kelis the confidence to call herself a chef and to write her first cookbook. My Life on a Plate tells Kelis' personal story through the food she creates. Her style has been moulded by her culture, her travels, and all the people she met along the way. This book is a collection of her favourite recipes. It features a mix of foods from her Puerto Rican heritage, such as Pernil (Puerto Rican Pork Shoulder), Arroz con Gandules, and Shrimp Alcapurias along with dishes she created after discovering them on her travels around the world such as Malay Curry Chicken and Swedish Meatballs.

Borders Annette Weissenrieder.2016 What are the relevant conceptualities and terminologies marking political, cultural, cultic, or religious borders

and border zones? What terms represent border or border zones and what did they signify in antiquity? In this volume, an international group of archaeologists, classicists, historians, and biblical scholars investigates various terms, performances, and qualities of borders, and ideologies of boundaries in antiquity. Their primary focus is on physical borders and border zones of political organizations as well as of sanctuaries and houses, and on borderlines which can be experienced in demarcations and their relevance for religious life. The contributions also discuss instances where definitions of external borders are renounced altogether and states are organized from the center toward the outer margins, for example, with the sub-divisions of a given territory remaining undefined. And they look into trans-boundary social relationships, investigated on the basis of archaeological finds and textual sources, and their significance for the transfer of knowledge.--

1 Esdras Dieter Böhler.2016 1 Esdras is an alternative version of the book of Ezra-Nehemiah in the Septuagint. Most Eastern Orthodox churches accord the book canonical status. This is the first commentary on 1 Esdras based on the critical text of the Göttingen Septuagint edition. It understands 1 Esdras not simply as a fragment of the Chronistic history or as merely a compilation, but rather as a coherent narrative. Its interpretation as a literary work and the reconstruction of its composition take into account both the historical backgrounds of the narrative setting of the Persian period and the historical location of the composition in the Hasmonaean period. 1 Esdras is currently enjoying a period of renewed attention in scholarship. Its relationship to Ezra-Nehemiah is seen as a prime example of literary-historical developments in Israel.

The Birth of Theater from the Spirit of Philosophy David Kornhaber.2016-05-31 Nietzsche's love affair with the theater was among the most profound and prolonged intellectual engagements of his life, but his transformational role in the history of the modern stage has yet to be explored. In this pathbreaking account, David Kornhaber vividly shows how Nietzsche reimagined the theatrical event as a site of philosophical invention that is at once ancestor, antagonist, and handmaiden to the discipline of philosophy itself. August Strindberg, George Bernard Shaw, and Eugene O'Neill— seminal figures in the modern drama's evolution and avowed Nietzscheans all—came away from their encounters with Nietzsche's writings with an impassioned belief in the philosophical potential of the live theatrical event, coupled with a reestimation of the dramatist's power to shape that event in collaboration with the actor. In these playwrights' reactions to and adaptations of Nietzsche's radical rethinking of the stage lay the beginnings of a new direction in modern theater and dramatic literature.
