Andrea Garbald Stephan Kunz.2021 Der Fotograf und Künstler Andrea Garbald (1877-1958) widmete den Frauen des Bergells einen wichtigen Teil seines Schaffens. Als erster und lange Zeit einziger Fotograf im Tal betrieb er, neben einem Optikergeschäft, ein eigenes Fotostudio. Die in diesem Album versammelten Porträts zeigen Frauen verschiedenen Alters und unterschiedlicher sozialer Schichten und gehen weit über steife offizielle Porträtaufnahmen hinaus. Ihr Habitus, ihre Kleider, ihre Gesichter, ihre Augen erzählen viel - Garbalds Aufnahmen zeugen von einer besonderen Vertrautheit und Empathie den Porträtierten gegenüber. Zugleich lassen sich an den Fotografien die Entwicklung des Mediums und seiner Bildsprache ablesen. Statt die Fotografien öffentlich zu machen, hat Andrea Garbald sie auf dem Dachboden aufbewahrt. Sein Nachlass wurde erst Mitte der 1980er-Jahre entdeckt und 2014 in einer Monografie und einer Ausstellung erstmals vorgestellt. Das vorliegende Buch vermittelt anhand der ausgewählten Frauenbildnisse nun einen vertiefenden Einblick in sein ungewöhnliches Schaffen und gibt Einblick in die subtile Kreativität dieses Lokalpioniers.

Dictatorship and Demand Mark Landsman.2009-07-01 An investigation into the politics of consumerism in East Germany during the years between the Berlin Blockade of 1948-49 and the building of the Berlin Wall in 1961, Dictatorship and Demand shows how the issue of consumption constituted a crucial battleground in the larger Cold War struggle. Based on research in recently opened East German state and party archives, this book depicts a regime caught between competing pressures. While East Germany's leaders followed a Soviet model, which fetishized productivity in heavy industry and prioritized the production of capital goods over consumer goods, they nevertheless had to contend with the growing allure of consumer abundance in West Germany. The usual difficulties associated with satisfying consumer demand in a socialist economy acquired a uniquely heightened political urgency, as millions of East Germans fled across the open border. A new vision of the East-West conflict emerges, one fought as much with washing machines, televisions, and high fashion as with political propaganda, espionage, and nuclear weapons. Dictatorship and Demand deepens our understanding of the Cold War.

The Nature of Man Elie Metchnikoff.1903

Stress and Freedom Peter Sloterdijk.2018-03-15 In this short book Peter Sloterdijk offers a genealogy of the concept of freedom from Ancient Greece to the present day. This genealogy is part of a broader theory of the large political body, according to which Sloterdijk argues that political communities arise in response to a form of anxiety or stress. Through a highly original reading of Rousseaus late Reveries of a Solitary Walker, Sloterdijk shows that, for Rousseau, the modern subject emerges as a subject free of all stress, unburdened by the cares of the world. Most of

modern philosophy, and above all German Idealism, is an attempt to reign back Rousseaus useless and anarchical subject and anchor it in the cares of the world, in the task of having to produce both the world and itself. In the light of this highly original account, Sloterdijk develops his own distinctive account of freedom, where freedom is conceptualized as the availability for the improbable. This important text, in which Sloterdijk develops his account of freedom and the modern subject, will be of great interest to students and scholars in philosophy and the humanities and to anyone interested in contemporary philosophy and critical theory.

Soda - Für besonders hartnäckigen Schmutz in Küche, Bad, Waschmaschine und Haushalt ist Waschsoda die beste Wahl, da seine Reinigungskraft stärker ist als die des Natrons. Es ist nützlich unter anderem für selbst gemachtes Geschirrspülpulver, Waschpulver und Flüssigwaschmittel und als effektiver Reiniger in Bad und WC. Aber auch einfacher Tafelessig eignet sich darüber hinaus für viele Anwendungen im Haushalt -unter anderem für selbst gemachten Abflussreiniger, natürliches Gesichtswasser und Peelings. Zitronensäure - Die milde organische Säure kommt unter anderem in Zitrusfrüchten vor und ist ein hilfreicher Lebensmittelzusatz, ein effektiver Kalklöser und eine nützliche Zutat für viele weitere Haus- und Reinigungsmittel wie etwa Zitrusreiniger, Weichspüler und Badetabs. Kernseife - Diese reine Seife enthält im Gegensatz zu Pflegeseife weder Glycerin noch überschüssiges Fett. Deshalb reinigt sie besonders effektiv und ist eine ideale Grundzutat für viele selbst gemachte Hausmittel, Reiniger und Waschmittel, zum

Beispiel für Anti-Blattläuse-Mittel, Haushaltsreiniger, Flüssigwaschmittel und selbst gemachtes Duschgel.

What is Nietzsche's Zarathustra? Heinrich Meier.2021-03-02 In this book Heinrich Meier takes on the question of the meaning of Nietzsche's Thus Spoke Zarathustra, which has long proven controversial among readers. Meier closely examines the work to find a coherent structure and uncover the meanings in the figure of Zarathustra. By showing the unity in Zarathustra's life and teaching, Meier argues that the hidden architecture of the work reveals the development of self-knowledge for the philosopher. *What Is Nietzsche's Zarathustra? A Philosophical Confrontation* makes clear in its careful attention to the text that Nietzsche's deepest concern is with understanding himself and the world, rather than with a view of himself as a prophet--

The Consuming Temple Paul Lerner.2015-05-05 Department stores in Germany, like their predecessors in France, Britain, and the United States, generated great excitement when they appeared at the end of the nineteenth century. Their sumptuous displays, abundant products, architectural innovations, and prodigious scale inspired widespread fascination and even awe; at the same time, however, many Germans also greeted the rise of the department store with considerable unease. In *The Consuming Temple*, Paul Lerner explores the complex German reaction to department stores and the widespread belief that they posed hidden dangers both to the individuals, especially women, who frequented them and to the nation as a whole. Drawing on fiction, political propaganda, commercial archives, visual culture, and economic writings, Lerner provides multiple perspectives on the department store, placing it in architectural, gender-historical, commercial, and psychiatric contexts. Noting that Jewish entrepreneurs founded most German department stores, he argues that Jews and Jewishness stood at the center of the consumer culture debate from the 1880s, when the stores first appeared, through the latter 1930s, when they were Aryanized by the Nazis.

German responses to consumer culture and the Jewish question were deeply interwoven, and the Jewish department store, framed as an alternative and threatening secular temple, a shrine to commerce and greed, was held responsible for fundamental changes that transformed urban experience and challenged national traditions in Germany's turbulent twentieth century.

The Impact of the Law John Witte, Michael Welker. 2022-07-28 This volume addresses whether, how, and where laws (variously defined) teach values and shape moral character in late modern liberal societies. Each author recognizes the essential value of state law in fostering peace, security, health, education, charity, trade, democracy, constitutionalism, justice, and human rights, among many other moral goods. Each author also recognizes, however, the grave betrayals of law in supporting fascism, slavery, apartheid, genocide, persecution, violence, racism, and other forms of immorality and injustice. They thus call for state laws that set a basic civil morality of duty for society and for robust freedoms that protect private individuals and private groups to cultivate a higher morality of aspiration. With contributions by Rüdiger Bittner, Brian Bix, Frank Brennan, Allen Calhoun, Robert F. Cochran, Jr., Kenneth John Crispin, Jean Bethke Elshtain, E. Allan Farnsworth, James E. Fleming, M. Cathleen Kaveny, Ute Mager, Linda C. McClain, Reid Mortensen, Patrick Parkinson, Thomas Pfeiffer, Robert Vosloo, Michael Welker, and John Witte, Jr.

Advertising and the European City Clemens Wischermann, Elliott Shore. 2018-12-12 First published in 2000, this volume responds to the rise and spread of advertising throughout Europe and the world in the past one and a half centuries which is breathtaking in its scope and influence, now part of the way we think and live. Historians are only just beginning to understand this process, replacing outmoded theories of manipulation which focused on the advertiser with more sophisticated cultural explanations that centre on the way consumers filter and select messages creating new worlds of perception. The authors of this work find the origins and trace the development of this new world or perception in the modern city: London and Paris, the forerunners, and the cities and larger towns of France, Germany, Belgium and the Netherlands, where advertising created new urban perceptions, leading to new avenues of consumption and altered lifestyles. Advertising is viewed in this work as a new way of perceiving and organising the world of the city-dweller, a visual culture, a way of attaching meaning to things and to words, or rearranging the mental map of modern life.

The Digital Social Alpha Possamai-Inesedy, Alan Nixon. 2019-12-02 The edited volume aims to present a critical analysis of the current state of research on religion and belief systems in the realm of the 'Digital Social'. The rapid expansion and democratization of digital technologies in conjunction with the significant shifts taking place within the practices of religion and belief through digital technology demand a critical examination across the social sciences and humanities. These changes call for an overview of not only our current methodological tool box but also the epistemological and ethical considerations that researchers must contend with. The proposed volume provides a critical framework that recognizes that the social, and therefore the religious, cannot be fully understood without recognizing how the digital world actively constitutes notions such as identity, social networks, embodiment, and social institutions. While some specific methods will be discussed, the volume's emphasis remains on the critical epistemological and logistical considerations that are needed when undertaking this form of research.
