Danse a la Gigue Kevin Kaisershot.2010-02-01 This energetic work is dance-like in character with a touch of frivolity. It brings to mind a more contemporary setting of the moresca or Renaissance masque. It is also the third movement of the trumpet suite Suite Divertissement with the other movements being Marche Heroique and Vignette.

Music and its Virtues in Islamic and Judaic Writings Amnon Shiloah.2023-05-31 A fascinating aspect of the study of music in medieval Islamic and Judaic writings is the broad and interdisciplinary nature of the works and treatises in which it is covered. In addition, such works verbalize an art that was transmitted orally and took shape spontaneously, typically with improvisation during performance. As a result of this outlook the musical concept (or science) is often intertwined with practice (or history). This second collection by Amnon Shiloah brings together twenty-two studies exemplifying such multi-faceted viewpoints on the world of sounds and its virtue. The first studies concern the origin and originators of music and to how its essential constituents came into being; included here is the art of dance along with the controversial attitudes towards it. Next comes the symbolic, philosophical and metaphorical interpretation of music; one of the major ideas epitomizing this approach claimed that the pursuit of knowledge is the path to human perfection and happiness. There follow studies on the transmission of knowledge, along with some annotated key works dealing with therapeutic effects. The last articles focus on cultural traditions elaborated on European soil developing a particular style and musical practice,

centred on the Iberian Peninsula, which was the scene of one of the most fascinating examples of cultural interchange.

French Music in Britain 1830–1914 Paul J Rodmell.2020-11-26 French Music in Britain 1830–1914 investigates the presence, reception and influence of French art music in Britain between 1830 (roughly the arrival of ‘grand opera’ and opéra comique in London) and the outbreak of the First World War. Five chronologically ordered chapters investigate key questions such as: * Where and to whom was French music performed in Britain in the nineteenth century? * How was this music received, especially by journal and newspaper critics and other arbiters of taste? * What characteristics and qualities did British audiences associate with French music? * Was the presence and reception of French music in any way influenced by Franco-British political relations, or other aspects of cultural transfer and exchange? * Were British composers influenced by their French contemporaries to any extent and, if so, in what ways? Placed within the wider social and cultural context of Britain’s most ambiguous and beguiling international relationship, this volume demonstrates how French music became an increasingly significant part of the British musician’s repertory and influenced many composers. This is an important resource for musicologists specialising in Nineteenth-Century Music, Music History and European Music. It is also relevant for scholars and researchers of French Studies and Cultural Studies.

Music, Dance and Franco-Italian Cultural Exchange, C.1700 Don Fader.2021 This study stems from discoveries in a trove of documents belonging to Charles-Henri de Lorraine, prince de Vaudâemont, who served as governor of Milan under the Spanish crown from 1698 to 1706. These documents, together with a mass of other sources - letters, diaries, treatises, libretti, scores - offer a vivid new picture of musical life in Paris and Milan as well as exchanges between France and Italy. The book is both a patronage study and an examination of the contributions by - and the difficulties facing - musicians and dancers who worked across national and cultural boundaries. *Music, Dance, and Franco-Italian Cultural Exchange, c.1700* follows the careers of the prince and the French violinist and composer Michel Pignolet de Montâclair. In the context of a renewed fascination with Italian music in the 1690s, Montâclair made a name for himself in Paris as a pedagogue and composer who understood both national styles and blended them in a way that was successful on French terms. Vaudâemont hired Montâclair to direct a French violin band and to compose dance music for a series of new operas that observers declared the best in Italy but are virtually unknown today. These productions involved collaborations among a mixed company of French and Italian musicians, dancers, composers, and librettists modeled on the practice of Turinese court operas. The book is an account of the contributions of these figures to the cultural life of Paris, Milan, and other northern Italian states, and to the creative mixing of musical styles, operatic conventions, and dance technique in France and Italy through the 1720s and beyond.

Buch.1993 David Buch's informative volume is the first modern study edition and commentary dealing with almost all of the surviving French five-part scores of dance music from the ballets de cour 1575-1651. These full scores are especially important since most ballets from this time are preserved only in two-part readings (melody and bass). The exception here is a newly-created five-part score for the Ballet des Nations based on an original two-part setting. Also included are the six Allemandes from 1575 to ca. 1600 a Ballet cheval of 1615 a selection of miscellaneous Entres from several ballets prepared for the Concert Louis XIII par les Violons et le 12 Grands hautbois of 1627 and Philidor's five-part reading of seventeen Entres from the Ballet du Roy des Festes de Baccus of 1651.

Silent Films/Loud Music Phillip Johnston.2021-08-12 Silent Films/Loud Music discusses contemporary scores for silent film as a rich vehicle for experimentation in the relationship between music, image, and narrative. Johnston offers an overview of the early history of music for silent film paired with his own first-hand view of the craft of creating new original scores for historical silent films: a unique form crossing musical boundaries of classical, jazz, rock, electronic, and folk. As the first book completely devoted to the study of contemporary scores for silent film, it tells the story of the historical and creative evolution of this art form and features an extended discussion and analysis of some of the most creative works of contemporary silent film scoring. Johnston draws upon his own career in both contemporary film music (working with directors Paul Mazursky, Henry Bean, Philip Haas and Doris Dörrie, among others) and in creating new scores for silent films by Browning, Méliès, Kinugasa, Murnau & Reiniger. Through this book, Johnston presents a discussion of music for silent films that contradicts long-held assumptions about what silent film music is and must be, with thought-provoking implications for both historical and contemporary film music.

Giacomo Meyerbeer and Music Drama in Nineteenth-Century Paris Mark Everist.2023-04-28 Nineteenth-century Paris attracted foreign musicians like a magnet. The city boasted a range of theatres and of genres represented there, a wealth of libretti and source material for them, vocal, orchestral and choral resources, to say nothing of the set designs, scenery and costumes. All this contributed to an artistic environment that had musicians from Italian- and German-speaking states beating a path to the doors of the Académie Royale de Musique, Opéra-Comique, Théâtre Italien, Théâtre Royal de l'Odéon and Théâtre de la Renaissance. This book both tracks specific aspects of this culture, and examines stage music in Paris through the lens of one of its most important figures: Giacomo Meyerbeer. The early part of the book, which is organised chronologically, examines the institutional background to music drama in Paris in the nineteenth century, and introduces two of Meyerbeer's Italian operas that were of importance for his career in Paris. Meyerbeer's acculturation to Parisian theatrical mores is then examined, especially his moves from the Odéon and Opéra-Comique to the opera house where he eventually made his greatest impact - the Académie Royale de Musique; the shift from Opéra-Comique is then counterpointed by an examination of how an indigenous Parisian composer, Fromental Halévy, made exactly the same leap at more or less the same time. The book continues with the fates of other composers in Paris: Weber, Donizetti, Bellini and Wagner, but concludes with the final Parisian successes that Meyerbeer lived to see - his two opéras comiques.
