**Kinship at the Core** Marilyn Strathern.2009-03-19 In the village of Elmdon in north-west Essex, members of certain families are distinguished from other residents as being 'real Elmdon'. Through a detailed ethnography of the structure of the village, and the interrelationships between its various families, work patterns and community activities, Marilyn Strathern provides an understanding of the characteristics of those who most vehemently claim to be 'real' village people. Yet this account goes far beyond ethnographic description. Its inspiration lies with Dr Audrey Richards, a distinguished anthropologist whose most substantial contribution has been in Africa, while Dr Strathern herself has had many years' field experience in Papua New Guinea. As 'outsiders' they bring a fresh approach to English village studies. The book takes the idea of 'village' not for granted, but as a dogma to be accounted for. Dr Strathern argues that in order to appreciate why the village should be so salient a reference point in people's self-classifications, it is necessary to understand what the village stands for in their ideas of the world.

Women and Space Shirley Ardener.1993-04-22 Second, Revised EditionThe relationship between women and space has now been recognized as an important issue for feminist discussion. Developments in psychology and geography have encouraged the use of 'social maps' to explore the way in which space is perceived. This book presents fascinating ethnographic evidence collected by the authors from actresses, politicians, farmers and housewives in England, Africa, Iran, Peru, Greece and the former Soviet Union. This evidence illustrates how space must be considered both in its physical dimensions and in its social and symbolic aspects, as experienced by women.

Elementary Treatise on Practical Magic (Gérard Encausse) Papus.2017-12-12 Papus' 1893 book on Magic was the first to bring together all the Grimoires into one book, and provide a clear path of study to perform the Solomonic Rites. He brings his scientific mind to argue that experimentation in the astral is just as important as scientific inquiry, as he takes us on a fascinating journey through late 19th Century France.

**The Rejection of Consequentialism** Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

**The History of the Normans** Amato (di Montecassino).2004 The Norman conquest of southern Italy and Sicily was one of the most dramatic events of the eleventh century. To understand the magnitude of the Normans' achievement, and especially those of Robert Guiscard and Richard of Aversa, it is essential to know something of the world in which they lived and the manner in which they were able to create a Norman state in territories with a very different cultural tradition.

Solution Chemistry of Surfactants K.L. Mittal.2012-12-06 The 52nd Colloid and Surface Science Symposium of the Division of Colloid and Surface Chemistry of the American Chemical Society was held in Knoxville, TN, June 12-14, 1978, and one of its Sections was devoted to the topic of Solution Chemistry of Surfactants. Although it was billed as the Section on Solution Chemistry of Surfactants, but it was indeed a veritable international

symposium on this topic as 51 papers by about 100 contributors from 12 countries were listed in the program. The present volume and its companion volume 2 document the proceedings of the above-mentioned Section on Solution Chemistry of Surfactants. In 1976 there was held an international symposium on Micellization, Solubilization and Microemulsions in Albany, the proceedings of which have been chronicled in two volumes. A great deal of material dealing with micelles contributed by a legion of prominent researchers constitutes these volumes but a few subtopics were not adequately covered; so it was deemed appropriate to cover these topics as well as the recent progress in the general area of aggregation of surfactants in this Section. Also as it is the amphiphilicity or amphipathicity\* of a surfactant molecule which is responsible for both adsorption at interfaces and aggregation in solution, so it was considered quite apropos to include the topic of adsorption at interfaces in this Section. Concomitantly, the present volumes not only cover the aggregation phenomena but also the adsorption at interfaces.

Oral Literature in Africa Ruth Finnegan.2012-09 Ruth Finnegan's Oral Literature in Africa was first published in 1970, and since then has been widely praised as one of the most important books in its field. Based on years of fieldwork, the study traces the history of storytelling across the continent of Africa. This revised edition makes Finnegan's ground-breaking research available to the next generation of scholars. It includes a new introduction, additional images and an updated bibliography, as well as its original chapters on poetry, prose, drum language and drama, and an overview of the social, linguistic and historical background of oral literature in Africa. This book is the first volume in the World Oral Literature Series, an ongoing collaboration between OBP and World Oral Literature Project. A free online archive of recordings and photographs that Finnegan made during her fieldwork in the late 1960s is hosted by the World Oral Literature Project (<http://www.oralliterature.org/collections/rfinnegan001.html>) and can also be accessed from publisher's website.

Six French suites and two suites in A minor and E<sup>b</sup> major Johann Sebastian Bach.1985-03 Each of Bach's six French suites is written in a different key with no harmonic relationship to one another, unlike most of his other works. Within each suite, all of the movements are in the same key and follow standard binary form. In the traditional Baroque suite, there are four movements: Allemande, Courante, Sarabande, and Gigue. However, Bach also includes lesser-used dances such as the Polonaise, Bourée, and Air. Noted Bach expert Dr. Hans Bischoff edited this collection.
