*The Devotion and Promotion of Stigmatics in Europe, c. 1800–1950* Tine Van Osselaer, Andrea Graus, Leonardo Rossi, Kristof Smeyers. 2020-10-12 In the nineteenth century a new type of mystic emerged in Catholic Europe. While cases of stigmatisation had been reported since the thirteenth century, this era witnessed the development of the 'stigmatic': young women who attracted widespread interest thanks to the appearance of physical stigmata. To understand the popularity of these stigmatics we need to regard them as the 'saints' and religious 'celebrities' of their time. With their 'miraculous' bodies, they fit contemporary popular ideas (if not necessarily those of the Church) of what sanctity was. As knowledge about them spread via modern media and their fame became marketable, they developed into religious 'celebrities'.

**Reflections on Exile and Other Essays** Edward W. Said. 2000 With their powerful blend of political and aesthetic concerns, Edward W. Said's writings have transformed the field of literary studies. This long-awaited collection of literary and cultural essays offers evidence of how much the fully engaged critical mind can contribute to the reservoir of value, thought, and action essential to our lives and culture.

*Mexico at the World's Fairs* Mauricio Tenorio-Trillo. 2018-06-01 This intriguing study of Mexico's participation in world's fairs from 1889 to 1929 explores Mexico's self-presentation at these fairs as a reflection of the country's drive toward nationalization and a modernized image. Mauricio Tenorio-Trillo contrasts Mexico's presence at the 1889 Paris fair—where its display was the largest and most expensive Mexico has ever mounted—with Mexico's presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929. Rather than seeing the revolution as a sharp break, Tenorio-Trillo points to important continuities between the pre- and post-revolution periods. He also discusses how, internationally, the character of world's fairs was radically transformed during this time, from the Eiffel Tower prototype, encapsulating a wondrous symbolic universe, to the Disneyland model of commodified entertainment. Drawing on cultural, intellectual, urban, literary, social, and art histories, Tenorio-Trillo's thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930, set within the context of the origins of Western

nationalism, cosmopolitanism, and modernism. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1997.

**Modern Peoplehood** John Lie. 2011-04 [A] most impressive achievement by an extraordinarily intelligent, courageous, and—that goes without saying—'well-read' mind. The scope of this work is enormous: it provides no less than a comprehensive, historically grounded theory of 'modern peoplehood,' which is Lie's felicitous umbrella term for everything that goes under the names 'race,' 'ethnicity,' and 'nationality.' Christian Joppke, *American Journal of Sociology* Lie's objective is to treat a series of large topics that he sees as related but that are usually treated separately: the social construction of identities, the origins and nature of modern nationalism, the explanation of genocide, and racism. These multiple themes are for him aspects of something he calls 'modern peoplehood.' His mode of demonstration is to review all the alternative explanations for each phenomenon, and to show why each successively is inadequate. His own theses are controversial but he makes a strong case for them. This book should renew debate. Immanuel Wallerstein, Yale University and author of *The Decline of American Power: The U.S. in a Chaotic World*

*Scientific Babel* Michael D. Gordin. 2015-04-13 English is the language of science today. No matter which languages you know, if you want your work seen, studied, and cited, you need to publish in English. But that hasn't always been the case. Though there was a time when Latin dominated the field, for centuries science has been a polyglot enterprise, conducted in a number of languages whose importance waxed and waned over time—until the rise of English in the twentieth century. So how did we get from there to here? How did French, German, Latin, Russian, and even Esperanto give way to English? And what can we reconstruct of the experience of doing science in the polyglot past? With *Scientific Babel*, Michael D. Gordin resurrects that lost world, in part through an ingenious mechanism: the pages of his highly readable narrative account teem with footnotes—not offering background information, but presenting quoted material in its original language. The result is stunning: as we read about the rise and fall of languages, driven by politics, war, economics, and institutions, we actually see it happen in the ever-changing web of multilingual examples. The history of science, and of English as its dominant language, comes to life, and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices, but also of the possibilities of the polyglot, and the losses that the dominance of English entails. Few historians of science write as well as Gordin, and *Scientific Babel* reveals his incredible command of the literature, language, and intellectual essence of science past and present. No reader who takes this linguistic journey with him will be disappointed.

**The History of Mathematical Proof in Ancient Traditions** Karine Chemla. 2012-07-05 This radical, profoundly scholarly book explores the purposes and nature of proof in a range of historical settings. It overturns the view that the first mathematical proofs were in Greek geometry and rested on the logical insights of Aristotle by showing how much of that view is an artefact of nineteenth-century historical scholarship. It documents the existence of proofs in ancient mathematical writings about numbers and shows that practitioners of mathematics in Mesopotamian, Chinese and Indian cultures knew how to prove the correctness of algorithms, which are much more prominent outside the limited range of surviving classical Greek texts that historians have taken as the paradigm of ancient mathematics. It opens the way to providing the first comprehensive, textually based history of proof.

*Colonising Egypt* Timothy Mitchell. 1991-10-11 Extending deconstructive theory to historical and political analysis, Timothy Mitchell examines the peculiarity of Western conceptions of order and truth through a re-reading of Europe's colonial encounter with nineteenth-century Egypt.

**Arturus Rex: Catalogus** Museum Vander Kelen-Mertens. 1987 Koning Arthur (ook Artur of Artus) is een figuur uit de Keltische legenden en de middeleeuwse hoofse literatuur, wiens historiciteit niet vaststaat. Hij is de centrale figuur in de Arthur-legenden. In vroege Welshe teksten wordt hij

nergens koning genoemd, maar dux bellorum (leider van de strijd), en middeleeuwse teksten noemen hem vaak amerauder (heerser).

**The Shaping of Jewish Identity in Nineteenth-Century France** Jay R. Berkovitz.2018-02-05  
Nineteenth-century French Jewry was a community struggling to meet the challenges of emancipation and modernity. This struggle, with its origins in the founding of the French nation, constitutes the core of modern Jewish identity. With the Revolution of 1789 came the collapse of the social, political, and philosophical foundations of exclusiveness, forcing French society and the Jews to come to terms with the meaning of emancipation. Over time, the enormous challenge that emancipation posed for traditional Jewish beliefs became evident. In the 1830s, a more comprehensive ideology of regeneration emerged through the efforts of younger Jewish scholars and intellectuals. A response to the social and religious implications of emancipation, it was characterized by the demand for the elimination of rituals that violated the French conceptions of civilization and social integration; a drive for greater administrative centralization; and the quest for inter-communal and ethnic unity. In its various elements, regeneration formed a distinct ideology of emancipation that was designed to mediate Jewish interaction with French society and culture. Jay Berkovitz reveals the complexities inherent in the processes of emancipation and modernization, focusing on the efforts of French Jewish leaders to come to terms with the social and religious implications of modernity. All in all, his emphasis on the intellectual history of French Jewry provides a new perspective on a significant chapter of Jewish history.

**Renaissance Averroism and Its Aftermath: Arabic Philosophy in Early Modern Europe** Anna Akasoy, Guido Giglioni.2012-12-13 While the transmission of Greek philosophy and science via the Muslim world to western Europe in the Middle Ages has been closely scrutinized, the fate of the Arabic philosophical and scientific legacy in later centuries has received less attention, a fault this volume aims to correct. The authors in this collection discuss in particular the radical ideas associated with Averroism that are attributed to the Aristotle commentator Ibn Rushd (1126-1198) and challenge key doctrines of the Abrahamic religions. This volume examines what happened to Averroes's philosophy during the sixteenth, seventeenth and eighteenth centuries. Did early modern thinkers really no longer pay any attention to the Commentator? Were there undercurrents of Averroism after the sixteenth century? How did Western authors in this period contextualise Averroes and Arabic philosophy within their own cultural heritage? How different was the Averroes they created as a philosopher in a European tradition from Ibn Rushd, the theologian, jurist and philosopher of the Islamic tradition?

Writers and Revolution Jonathan Beecher.2021-04-01 Focusing on the efforts of nine European intellectuals, including Tocqueville, Flaubert and Marx, to make sense of 1848, Jonathan Beecher casts a fresh and engaging perspective on the experience and impact of the Revolution, and on why, within two generations, a democratic revolution had twice culminated in the dictatorship of a Napoleon.

**Souvenirs D'enfance Et De Jeunesse** Ernest Renan.2023-12-27 Souvenirs d'Enfance et de Jeunesse d'Ernest Renan est une œuvre autobiographique dans laquelle l'auteur partage ses souvenirs de jeunesse, décrivant sa vie en Bretagne, ses expériences familiales et éducatives, ainsi que ses questionnements intellectuels et spirituels précoces. Renan, célèbre philosophe, historien et écrivain français, offre un regard rétrospectif sur son enfance et son adolescence, mettant en lumière les événements et les personnes qui ont influencé son développement intellectuel et moral. À travers cette œuvre, Renan révèle sa formation intellectuelle, ses premiers questionnements sur la religion, son attachement à sa terre natale et sa curiosité pour le monde. Ce récit autobiographique, écrit avec une prose riche et réfléchie, permet aux lecteurs de découvrir les origines et les premières impressions de l'un des penseurs les plus influents du XIXe siècle français.

Orientalism Edward W. Said.2014-10-01 More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East

has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of orientalism to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined the orient simply as other than the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

**The Construction of Belief** Aziz Esmail, Abdou Filali-Ansary. 2013-02-01 Mohammed Arkoun was one of the most prominent and influential Arab intellectuals of his day. During a career spanning more than thirty years, he was revered as an outstanding research scholar, a bold critic of the theoretical tensions embedded within Islamic Studies and an outspoken public figure, upholding political, social and cultural modernism. This Festschrift honours Arkoun's scholarship, bringing together the contributions of eleven distinguished scholars of history, religious studies and philosophy. It offers a comprehensive selection of critical engagements with Arkoun's work, reflecting on his considerable influence on contemporary thinking about Islam and its ideological, philosophical and theological dimensions. The authoritative reference study on the work of Mohammed Arkoun, *The Construction of Belief* is essential reading for students and scholars of Islam, Muslim societies and cultures, modernity, religious studies, philosophy and semanti.

**Europe (in Theory)** Roberto M. Dainotto. 2007-01-09 *Europe (in Theory)* is an innovative analysis of eighteenth- and nineteenth-century ideas about Europe that continue to inform thinking about culture, politics, and identity today. Drawing on insights from subaltern and postcolonial studies, Roberto M. Dainotto deconstructs imperialism not from the so-called periphery but from within Europe itself. He proposes a genealogy of Eurocentrism that accounts for the way modern theories of Europe have marginalized the continent's own southern region, portraying countries including Greece, Italy, Spain, and Portugal as irrational, corrupt, and clan-based in comparison to the rational, civic-minded nations of northern Europe. Dainotto argues that beginning with Montesquieu's *The Spirit of Laws* (1748), Europe not only defined itself against an "Oriental" other but also against elements within its own borders: its South. He locates the roots of Eurocentrism in this disavowal; internalizing the other made it possible to understand and explain Europe without reference to anything beyond its boundaries. Dainotto synthesizes a vast array of literary, philosophical, and historical works by authors from different parts of Europe. He scrutinizes theories that came to dominate thinking about the continent, including Montesquieu's invention of Europe's north-south divide, Hegel's "two Europes," and Madame de Staël's idea of opposing European literatures: a modern one from the North, and a pre-modern one from the South. At the same time, Dainotto brings to light counter-narratives written from Europe's margins, such as the Spanish Jesuit Juan Andrés's suggestion that the origins of modern European culture were eastern rather than northern and the Italian Orientalist Michele Amari's assertion that the South was the cradle of a social democracy brought to Europe via Islam.

**Socialism of Fools** Michele Battini. 2016-04-05 In *Socialism of Fools*, Michele Battini focuses on the critical moment during the Enlightenment in which anti-Jewish stereotypes morphed into a sophisticated, modern social anti-Semitism. He recovers the potent anti-Jewish, anticapitalist propaganda that cemented the idea of a Jewish conspiracy in the European mind and connects it to the atrocities that characterized the Jewish experience in the nineteenth and twentieth centuries. Beginning in the eighteenth century, counter-Enlightenment intellectuals and intransigent Catholic writers singled out Jews for conspiring to exploit self-sustaining markets and the liberal state. These ideas spread among socialist and labor movements in the nineteenth century and intensified during the Long Depression of the 1870s. Anti-Jewish anticapitalism then migrated to the Habsburg Empire with the Christian Social Party; to Germany with the Anti-Semitic Leagues; to France with the nationalist movements; and to Italy, where Revolutionary Syndicalists made anti-Jewish

anticapitalism the basis of an alliance with the nationalists. Exemplified best in the Protocols of the Elders of Zion, the infamous document that leaked Jewish plans to conquer the world, the Jewish-conspiracy myth inverts reality and creates a perverse relationship to historical and judicial truth. Isolating the intellectual roots of this phenomenon and its contemporary resonances, Battini shows us why, so many decades after the Holocaust, Jewish people continue to be a powerful political target.

The Secret History of the Jesuits Edmond Paris.2011 Secrets the Jesuits don't want Christians to know Out of Europe, a voice is heard from the secular world that documents historically the same information told by ex-priests. The author exposes the Vatican's involvement in world politics, intrigues, and the fomenting of wars throughout history. It appears, beyond any doubt, that the Roman Catholic institution is not a Christian church and never was. The poor Roman Catholic people have been betrayed by her and are facing spiritual disaster. Paris shows that Rome is responsible for the two great world wars. Author Edmond Paris explains why he wrote this book... The public is practically unaware of the overwhelming responsibility carried by the Vatican and its Jesuits in the start of the two world wars -- a situation which may be explained in part by the gigantic finances at the disposition of the Vatican and its Jesuits, giving them power in so many spheres, especially since the last conflict. In fact, the part they took in those tragic events has hardly been mentioned until the present time, except by apologists eager to disguise it. It is with the aim of rectifying this and establishing the true facts that we present in this and other books the political activity of the Vatican during the contemporary -- activity which mutually concerns the Jesuits. This study is based on irrefutable archive documents, publications from well-known political personalities, diplomats, ambassadors and eminent writers, most of whom are Catholics, even attested by the imprimatur.

Exotic Nations Renata Wasserman.2018-03-15 In this highly original and critically informed book, Renata R. Mautner Wasserman looks at how, during the first decades following political independence, writers in the United States and Brazil assimilated and subverted European images of an exotic New World to create new literatures that asserted cultural independence and defined national identity. Exotic Nations demonstrates that the language of exoticism thus became part of the New World's interpretation of its own history and natural environment.

A History of the French in London Debra Kelly, Martyn Cornick.2013 This book examines, for the first time, the history of the social, cultural, political and economic presence of the French in London, and explores the multiple ways in which this presence has contributed to the life of the city. The capital has often provided a place of refuge, from the Huguenots in the 17th century, through the period of the French Revolution, to various exile communities during the 19th century, and on to the Free French in the Second World War. It also considers the generation of French citizens who settled in post-war London, and goes on to provide insights into the contemporary French presence by assessing the motives and lives of French people seeking new opportunities in the late 20th and early 21st centuries. It analyses the impact that the French have had historically, and continue to have, on London life in the arts, gastronomy, business, industry and education, manifest in diverse places and institutions from the religious to the political via the educational, to the commercial and creative industries.

Exploits & Opinions of Doctor Faustroll, Pataphysician Alfred Jarry.1996 The singular novel by the legendary author of the play, UBU ROI, is a book that can only be compared to Rabelais or Sterne. FAUSTROLL recounts the adventures of the inventor of PATAPHYSIC, the 'science of imaginary solutions.' Jarry would have found an audience more readily if he had simply written a work of science fiction, a symbolist narrative, a bawdy tale or a spriritual allegory. As it is, FAUSTROLL is all of these at the same time.' - Roger Shattuk'

**The Art of Biblical Poetry** Robert Alter.2011-09-06 Three decades ago, renowned literary expert Robert Alter radically expanded the horizons of biblical scholarship by recasting the Bible as not only a human creation but a work of literary art deserving studied criticism. In *The Art of Biblical Poetry*, his companion to the seminal *The Art of Biblical Narrative*, Alter takes his analysis beyond narrative craft to investigate the use of Hebrew poetry in the Bible. Updated with a new preface, myriad revisions, and passages from Alter's own critically acclaimed biblical translations, *The Art of Biblical Poetry* is an indispensable tool for understanding the Bible and its poetry.

Culture and Imperialism Edward W. Said.2012-10-24 A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.
