reasoning abilities come higher IQ levels and intellectual abilities. According to research; It is critical for children to develop fluency in word recognition. They help to improve and practice spelling rules they have learnt at school, while at the same time reinforcing those rules each time they are used. The more words your child comes across, uses and understands; the broader their vocabulary will become. Word search puzzles can be a great and easy way to increase your child's exposure to new vocabulary. They improve your child's working memory helping both long-term and short-term memory to work together. This can then also have an effect on their learning and achievement. Word search puzzles can help improve your child's processing speed, so that they are able to problem solve and arrive at the correct answer, faster. Word search Crosswords encourage and improve problem-solving skills by asking children to think outside the box, engaging their problem-solving skills and creativity. They foster persistence because they can be challenging, some more than others. At times, they require more than one attempt to reach the correct answer. Word puzzles help to develop the skills your child will need throughout their school career: verbal reasoning, vocabulary, problem-solving, spelling, grammar and memory, the more these skills are practiced, the better your child

becomes at using and accessing them The accomplishment of achieving a goal provides a boost to their self-confidence and self-esteem as this prepares them for other challenges in life.
