Pedagogical Norms for Second and Foreign Language Learning and Teaching Susan M. Gass, Kathleen Bardovi-Harlig, Sally Sieloff Magnan, Joel Walz. 2002-09-03 The concept of Pedagogical Norm is grounded in both sociolinguistic and psycholinguistic principles. Pedagogical norms guide the selection and sequencing of target language features for language teaching and learning. This book both situates and expands on this concept highlighting the interaction of research and pedagogy. The papers collectively illustrate how the concept of pedagogical norm applies to all components of language, including phonology, morphology, syntax, and discourse. The book begins with a discussion of definitions including papers that trace the history of the concept and define what is meant by norms. Also included are papers that apply the concept of pedagogical norms in specific contexts (e.g., intonation, morphology) and to specific languages. Finally, pedagogical norms are extended beyond the more traditional areas of grammatical competence to such disparate areas as listening, discourse, and circumlocution.

The Parrot Guy de Maupassant. 2021-12-02 A drunkard and a brute, Patin's marriage to Désirée is an unhappy one. He leaves to go fishing one night during a terrible storm, and never returns. Désirée is convinced he has somehow managed to cheat death and lives in constant fear of his return. Some years later she buys a parrot, and her nightmare begins anew. Amusing and humorous, *The Parrot* is a short comedy in which Maupassant holds his cards close to his chest, keeping his readers guessing until the final page. Guy de Maupassant (1850-1893) was a French writer. Famed for being a master of the short story, he also wrote travel books and occasionally dabbled in poetry. His stories mainly focus on the relationships between men and women sitting at crossroads in their lives - whether personal or professional. His dramatic flair is largely influenced by French novelist Gustave Flaubert and is perfect for fans of Anton Chekhov's short stories. The most notable of the 300 short stories that he wrote include 'Bel Ami', 'Une Vie', and 'The Dumpling'.

Accents of English: Volume 2 John C. Wells. 1982-04-08 Accents of English is about the way English is pronounced by different people in different places. Volume 1 provides a synthesizing introduction, which shows how accents vary not only geographically, but also with social class, formality, sex and age; and in volumes 2 and 3 the author examines in greater depth the various accents used by people who speak English as their mother tongue: the accents of the regions of England, Wales, Scotland and Ireland (volume 2), and of the USA, Canada, the West Indies, Australia, New Zealand, South Africa, India, Black Africa and the Far East (volume 3). Each volume can be read independently, and together they form a major scholarly survey, of considerable originality, which not only includes descriptions of hitherto neglected accents, but also examines the implications for phonological theory. Readers will find the answers to many questions: Who makes 'good' rhyme with 'mood'? Which accents have no voiced sibilants? How is a Canadian accent different from an American one, a New Zealand one from an Australian one, a Jamaican one from a Barbadian one? What are the historical reasons for British-American pronunciation differences? What sound changes are currently in progress in New York, in London, in Edinburgh? Dr Wells has written principally for students of linguistics, phonetics and English language, but the motivated general reader will also find the study both fascinating and rewarding.

Evaluating Second Language Education J. Charles Alderson, Alan Beretta. 1992-02-27 Counter Responsibility for planning language teaching programs now carries with it a strong element of accountability. Evaluation of the whole process of course design, development, and implementation is therefore a necessary area of activity for course designers, language planners, and researchers. This book brings together accounts of recent work in this increasingly important field and will be a valuable resource both for those already engaged in evaluation and for those in training. Part One presents a review of the literature, covering past developments in the wider field of educational evaluation, as well as specifically in second language education. Part Two contains a series of eight original case-studies, written by scholars involved in evaluations in widely divergent settings. The focus in each case is on how the evaluator addresses the difficulties central to each study, and the findings are also included. The final Part Three provides practical guidance for evaluators, offering suggestions about how to set up and carry out evaluations in any given setting.--Publisher's website.
