The Best American Poetry 2015 David Lehman,Sherman Alexie.2015-09-08 The premier anthology of contemporary American poetry continues with an exceptional volume edited by award-winning novelist and poet Sherman Alexie, now with a new essay by Alexie on reactions to the 2015 publication. Since its debut in 1988, The Best American Poetry has become a mainstay for the direction and spirit of American poetry. Each volume in the series presents the year's most extraordinary new poems and writers. Guest editor Sherman Alexie's picks for The Best American Poetry 2015 highlight the depth and breadth of the American experience. Culled from electronic and print journals, the poems showcase some of our leading luminaries—Amy Gerstler, Terrance Hayes, Ron Padgett, Jane Hirshfield—and introduce a number of outstanding younger poets taking their place in the limelight. A leading figure since his breakout poetry collection *The Business of Fancydancing* in 1992, Sherman Alexie won the National Book Award for his novel *The Absolutely True Diary of a Part-Time Indian*. He describes himself as “lucky enough to be a full-time writer” and has written short stories, novels, screenplays, and essays—but he is at his core a poet. As always, series editor David Lehman's foreword assessing the state of the art kicks off the book, followed by an introductory essay in which Alexie discusses his selections. The Best American Poetry 2015 is a guide to who's who and what's happening in American poetry today.

Blood Pages George Bilgere.2018-05-11 In *Blood Pages* George Bilgere continues his exploration of the joys and absurdities of being middle-aged and middle-class in the Midwest. OK, maybe he's a bit beyond middle-aged at this point, and his rueful awareness of this makes these poems even more darkly hilarious, more deeply aware of the feckless and baffling times our nation has stumbled into. And the fact that Bilgere, relatively late in life, is now the father of two young boys brings a fresh sense of urgency to his work. *Blood Pages* is a guidebook to the fears, foibles, and beauties of our lovely old country as it makes its blundering, tentative way into the new century.

Jesus Christ, Sun of God David Fideler.1993-10-01 The early Christian Gnosis did not spring up in isolation, but drew upon earlier sources. In this book, many of these sources are revealed for the first time. Special emphasis is placed on the Hellenistic doctrine of the Solar Logos and the early Christian symbolism which depicted Christ as the Spiritual Sun, the illumination source of order, harmony, and spiritual insight. Based on 15 years of research, this is a unique book which throws a penetrating light on the secret traditions of early Christianity. It clearly demonstrates that number is at the heart of being. *Jesus Christ, Sun of God*, illustrates how the Christian symbolism of the Spiritual Sun is derived from numerical symbolism of the ancient divinities.

Decoding Astronomy in Art and Architecture Marion Dolan.2021-09-17 For centuries, our ancestors carefully observed the movements of the heavens and wove that astronomical knowledge into their city planning, architecture, mythology, paintings, sculpture, and poetry. This book uncovers the hidden messages and advanced science encoded within these sacred spaces, showing how the rhythmic motions of the night sky played a central role across many different cultures. Our astronomical tour transports readers through time and space, from prehistoric megaliths to Renaissance paintings, Greco-Roman temples to Inca architecture. Along the way, you will investigate unexpected findings at Lascaux, Delphi, Petra, Angkor Wat, Borobudur, and many more archaeological sites both famous and little known. Through these vivid examples, you will come to appreciate the masterful ways that astronomical knowledge was incorporated into each society's religion and mythology, then translated into their physical surroundings. The latest archaeoastronomical studies and discoveries are recounted through a poetic and nontechnical narrative, revealing how many longstanding beliefs about our ancestors are being overturned. Through this celestial journey, readers of all backgrounds will learn the basics about this exciting field and share in the wonders of cultural astronomy.

The Russian Cosmists George M. Young.2012-08-01 In the nineteenth and early twentieth century, a controversial school of Russian religious and scientific thinkers emerged, united in the conviction that humanity was entering a new stage of evolution and must assume a new, active, managerial role in the cosmos. The ideas of the Cosmists have in recent decades been rediscovered and embraced by many Russian intellectuals. In the first account in English of this fascinating tradition, George M. Young offers a dynamic and wide-ranging examination of the lives and ideas of the Russian Cosmists.

Ulysses James Joyce.2024-02-10 The book consists of 18 chapters, each covering roughly one hour of the day, beginning around 8 a.m. and ending sometime after 2 a.m. the following morning. Each chapter employs its own literary style, and parodies a specific episode in Homer's *Odyssey*. Furthermore, each chapter is associated with a specific colour, art or science, and bodily organ. This combination of kaleidoscopic writing with an extreme formal schematic structure renders the book a major contribution to the development of 20th-century modernist literature. The use of classical mythology as an organising framework, the near-obsessive focus on external detail, and the occurrence of significant action within the minds of characters have also contributed to the development of literary modernism. Nevertheless, Joyce complained that, I may have oversystematised *Ulysses*, and played down the mythic correspondences by eliminating the chapter titles that had been taken from Homer. As he was completing work on *Dubliners* in 1906, Joyce considered adding another story featuring a Jewish advertising canvasser called Leopold Bloom under the title *Ulysses*. Although he did not pursue the idea further at the time, he eventually commenced work on a novel using both the title and basic premise in 1914. The writing was completed in October 1921. Three more months were devoted to working on the proofs of the book before Joyce halted work shortly before his self-imposed deadline, his 40th birthday (2 February 1922). This publication encountered censorship problems in the United States; serialisation was halted in 1920 when the editors were convicted of publishing obscenity. Although the conviction was based on the *Nausicaä* episode of *Ulysses*, *The Little Review* had fuelled the fires of controversy with dada poet Elsa von Freytag-Loringhoven's defence of *Ulysses* in an essay *The Modest Woman*. Joyce's novel was not published in the United States until 1933. With the appearance of both *Ulysses* and T. S. Eliot's poem, *The Waste Land*, 1922 was a key year in the history of English-language literary modernism. In *Ulysses*, Joyce employs stream of consciousness, parody, jokes, and virtually every other established literary technique to present his characters. The action of the novel, which takes place in a single day, 16 June 1904, sets the characters and incidents of the *Odyssey* of Homer in modern Dublin and represents Odysseus (*Ulysses*), Penelope and Telemachus in the characters of Leopold Bloom, his wife Molly Bloom and Stephen Dedalus, parodically contrasted with their lofty models. The book explores various areas of Dublin life, dwelling on its squalor and monotony. Nevertheless, the book is also an affectionately detailed study of the city, and Joyce

claimed that if Dublin were to be destroyed in some catastrophe it could be rebuilt, brick by brick, using his work as a model. To achieve this level of accuracy, Joyce used the 1904 edition of Thom's Directory—a work that listed the owners and/or tenants of every residential and commercial property in the city. He also bombarded friends still living there with requests for information and clarification.

The Cormorant Hunter's Wife Joan Kane.2012-02-15 This collection of poetry is inspired by the author's lineage as an Iñupiaq Eskimo woman with family from King Island and Mary's Igloo, Alaska. The poems' syncopated cadences and evocative images bring to life the exceptional physical and cultural conditions of the Arctic and sub-Arctic that have been home to her ancestors for tens of thousands of years, while the poems' speakers refer to an indigenous identity that has become increasingly plural. The author's perspective as a Native person affords her unique insight into the relationship with place and self, which she applies in her consideration of the arctic landscape and to questions of adaptation and resilience. Kane's work refers to the Inupiaq oral tradition, and while in some poems she continues to revisit, rewrite, and revise traditional narratives that are suited to the lyric form, she moves beyond narrative retelling, honoring the legacy of imagination that has sustained Inupiaq people for millennia.

Witnesses to History Lyndel V. Prott.2009-01-01 This Compendium gives an outline of the historical, philosophical and ethical aspects of the return of cultural objects (e.g. cultural objects displaced during war or in colonial contexts), cites past and present cases (Maya Temple Facade, Nigerian Bronzes, United States of America v. Schultz, Parthenon Marbles and many more) and analyses legal issues (bona fide, relevant UNESCO and UNIDROIT Conventions, Supreme Court Decisions, procedure for requests etc.). It is a landmark publication that bears testament to the ways in which peoples have lost their entire cultural heritage and analyses the issue of its return and restitution by providing a wide range of perspectives on this subject. Essential reading for students, specialists, scholars and decision-makers as well as those interested in these topics.

Milk Black Carbon Joan Naviyuk Kane.2017-03-30 Milk Black Carbon works against the narratives of dispossession and survival that mark the contemporary experience of many indigenous people, and Inuit in particular. In this collection, autobiographical details - motherhood, marriage, extended family and its geographical context in the rapidly changing arctic - negotiate arbitrary landscapes of our perplexing frontiers through fragmentation and interpretation of conventional lyric expectations.

The 2017 Griffin Poetry Prize Anthology Sue Goyette,Joan Naviyuk Kane,George Szirtes.2017-06-03 Each year, the best books of poetry published in English internationally and in Canada are honoured with the Griffin Poetry Prize, one of the world's most prestigious and richest literary awards. Plato's Introduction of Forms R. M. Dancy.2004-09-16 Scholars of Plato are divided between those who emphasize the literature of the dialogues and those who emphasize the argument of the dialogues, and between those who see a development in the thought of the dialogues and those who do not. In this important book Russell Dancy focuses on the arguments and defends a developmental picture. He explains the Theory of Forms of the *Phaedo* and *Symposium* as an outgrowth of the quest for definitions canvassed in the Socratic dialogues, by constructing a Theory of Definition for the Socratic dialogues based on the refutations of definitions in those dialogues, and showing how that theory is mirrored in the Theory of Forms. His discussion, notable for both its clarity and its meticulous scholarship, ranges in detail over a number of Plato's early and middle dialogues, and will be of interest to readers in Plato studies and in ancient philosophy more generally.

Fifty Miles from Tomorrow William L. Iggiagruk Hensley.2010-03-02 Nunavut tigummiun! Hold on to the land! It was just fifty years ago that the territory of Alaska officially became the state of Alaska. But no matter who has staked their claim to the land, it has always had a way of enveloping souls in its vast, icy embrace. For William L. Iggiagruk Hensley, Alaska has been his home, his identity, and his cause. Born on the shores of Kotzebue Sound, twenty-nine miles north of the Arctic Circle, he was raised to live the traditional, seminomadic life that his Iñupiaq ancestors had lived for thousands of years. It was a life of cold and of constant effort, but Hensley's people also reaped the bounty that nature provided. In *Fifty Miles from Tomorrow*, Hensley offers us the rare chance to immerse ourselves in a firsthand account of growing up Native Alaskan. There have been books written about Alaska, but they've been written by Outsiders, settlers. Hensley's memoir of life on the tundra offers an entirely new perspective, and his stories are captivating, as is his account of his devotion to the Alaska Native land claims movement. As a young man, Hensley was sent by missionaries to the Lower Forty-eight so he could pursue an education. While studying there, he discovered that the land Native Alaskans had occupied and, to all intents and purposes, owned for millennia was being snatched away from them. Hensley decided to fight back. In 1971, after years of Hensley's tireless lobbying, the United States government set aside 44 million acres and nearly \$1 billion for use by Alaska's native peoples. Unlike their relatives to the south, the Alaskan peoples would be able to take charge of their economic and political destiny. The landmark decision did not come overnight and was certainly not the making of any one person. But it was Hensley who gave voice to the cause and made it real. *Fifty Miles from Tomorrow* is not only the memoir of one man; it is also a fascinating testament to the resilience of the Alaskan ilitqusiit, the Alaskan spirit.

Time's Fancy Ronald Wallace.2014-10-15 Winner of the 1995 Banta Book Prize for a Wisconsin Author Ronald Wallace is best known for his wit and good humor, his synthesis of technical skill and strong emotion, his sensory immediacy, his accessibility, and charm. Now in *Time's Fancy*, his fifth collection, Wallace explores the tragic aspects of life more fully, fashioning a declarative poetry that is darker and deeper, more meditative and complex.

Bone Light Orlando White.2009 Orlando White explores language from a Dine (Navajo) perspective. One idea that interests him, inspires him to think and write, is the idea of the English language as a forgotten language. Imagine if we as a people, all people in the United States, are speaking an Indigenous language rather than English; that the English language exists merely as a language of the colonial past. White explores and experiments with this particular colonizing language, because that language remains a kind of cultural/intellectual/social threat to Indigenous thought, as English was imposed to dehumanize Indigenous peoples from their culture, language, and consciousness. White's Dine perspective poetically reveals audience notion of linguistic dehumanization within the *Bone Light* volume. Non-Natives, throughout American history, have documented the Indigenous Americas using the dominant written word of English. Thus, as an artist, White writes what he writes to document as well, but also to create something a bit more beautiful (intriguing) than harmful (erasing). White is not attempting critique of the English language; he is working with it to gain a better understanding of viewpoints, veritably creating a relationship by way of exploring language.

On Heroes, Hero-worship, and the Heroic in History Thomas Carlyle.1852

The Lives of the Chief Justices of England John Campbell Baron Campbell, Sir Joseph Arnould.1873

Hyperboreal Joan Naviyuk Kane.2013-10-21 Winner of the 2012 Donald Hall Prize in Poetry Selected by Arthur Sze Hyperboreal originates from diasporas. It attempts to make sense of change and to prepare for cultural, climate, and political turns that are sure to continue. The poems originate from the hope that our lives may be enriched by the expression of and reflection on the cultural strengths inherent to indigenous culture. It concerns King Island, the ancestral home of the author's family until the federal government's Bureau of Indian Affairs forcibly and permanently relocated its residents. The poems work towards the assembly of an identity, both collective and singular, that is capable of looking forward from the recollection and impact of an entire community's relocation to distant and arbitrary urban centers. Through language, Hyperboreal grants forum to issues of displacement, lack of access to traditional lands and resources and loss of family that King Island people—and all Inuit—are contending with.

The Animals All Are Gathering Bradley Paul.2010-09-10 In this original and wonderfully energetic book, Bradley Paul moves from humor to mockery to play to anger to grief, and sometimes all at once. This poetry shifts, it slams, it hammers, it thinks; it corrodes our sorrow and foolishness; it captures our national haplessness, sad and firing and still. --Jean Valentine This is a book of 'Instructions,' a 'How To' book, a 'Guide' to the anarchic carnival of everyday life. It is a wicked book smelling of 'scrapple' and the 'puke of poetry.' And yet rising out of the bile is something else--call it a love for words and poetry--that can gleefully announce that 'a monkey could write this poem.' Read this book and you will lean 'how to stop your doppelganger from plagiarizing you,' which is exactly what you need to know to live in the twenty-first century. --John Yau Bradley Paul's work has appeared in American Poetry Review, Pleiades, Smartish Pace, Boston Review, and other journals. His first book of poetry, *The Obvious*, was selected by Brenda Hillman for the 2004 New Issues Poetry Prize. A native of Baltimore, he now lives in Los Angeles.

Plasma Bradley Paul.2018-10-16 The poems in *Plasma*, Bradley Paul's third book, use common objects, animals, people, and experiences as starting points to consider one's connectivity to the world. Riddles and obituaries alternate with rants and memories of things that never existed or that the speaker has never seen - or that he has, and struggles to remember. The title is inspired by all our conceptions of plasma: an infinitely conductive state of matter in which the many disparate parts act collectively to create a single, ever-shifting whole. The part of the blood that communicates and provides. The ethereal medium by which we watch thousands of electronic images, sounds, and stories.

The Improbable Swervings of Atoms Christopher Bursk.2005 Winner of 2004 Donald Hall Prize in Poetry given out by AWP. This collection follows the physical and emotional struggles of a young boy growing up in 1950s America as he attempts to understand himself and the world around him.

American Poetry Now Ed Ochester.2007-03-08 American Poetry Now is a comprehensive collection of the best work from the renowned Pitt Poetry Series. Since its inception in 1967, the series has been a vehicle for America's finest contemporary poets. The series list includes Poet Laureate Billy Collins, Toi Derricotte, Denise Duhamel, Lynn Emanuel, Bob Hicok, Poet Laureate and Pulitzer Prize winner Ted Kooser, Larry Levis, Sharon Olds, Alicia Suskin Ostriker, Virgil Suárez, Afaa Michael Weaver, David Wojahn, Dean Young, and many others. Throughout its forty-year history, the Pitt Poetry Series has provided a voice for the diversity that is American poetry, representing poets from many backgrounds without allegiance to any one school or style. American Poetry Now is a true representation of contemporary American poetry. Ed Ochester, series editor for nearly thirty years, has assembled a quintessential selection-along with biographies and photos, an enlightening introduction, and a suggested list for further reading, all in a highly accessible format. American Poetry Now is a sweeping anthology that will delight poetry fans, students, teachers, and general readers alike.

Dark Traffic Joan Naviyuk Kane.2021-09-14 Finalist, 2023 Kingsley Tufts Poetry Award *Dark Traffic* creates landmarks through language, by which its speakers begin to describe traumas in order to survive and move through them. With fine detail and observation, these poems work in some way like poetic weirs: readers of Kane's work will see the arctic and subarctic, but also, more broadly, America, and the exigencies of motherhood, indigenous experience, feminism, and climate crises alongside the near-necropastoral of misogyny, violence, and systemic failures. These contexts catch the voice of the poems' speakers, and we perceive the currents they create.
