Faith of the Catholic Church David Konstant.2001-12-31

The True Religion E. Messenger,Brother Hermenegild.2014-11-05 THE object of the following pages is to give in a brief space an outline of the grounds of the Catholic religion. The argument presupposes three things: (1) Belief in the existence of God, the Creator of the universe and of man; (2) the spirituality of the human soul; and (3) the validity of the processes of human reason. The first two can be proved (see Bibliography at the end), although considerations of space forbid their treatment here; the third is not capable of proof, for any proof must assume and involve the conclusion. A word now as to the line followed in our treatment of the subject. The reader will not find in this book any consideration or proof of Catholic doctrines as such: the whole argument is, on the contrary, limited to the establishment, step by step, of the Church's claim to be the Religious Teacher of Mankind. Obviously, if once we prove that she is worthy of our confidence, we shall naturally be prepared to accept the doctrines she teaches. Inquirers very often begin by demanding some sort of demonstrative or intrinsic proof of a particular doctrine which they find difficult to believe; but in many cases it is impossible to give any such proof, and foolish to expect it. These doctrines do not admit of demonstration, because of their subject-matter. They are truths which are clearly seen and understood only by Almighty God and the Blessed in heaven. There these doctrines have their own intrinsic evidence; but here it is not so, for we see now through a glass in a dark manner, but then face to face. So far as the actual proposition goes, such an article of belief is just as obscure to us, and its intrinsic truth just as invisible after our act of faith as before. The difference is this: whereas before we saw no reason for affirming or denying the truth of the proposition in question, now we have the strongest possible grounds for believing it, namely, the fact that God, to whom all truth is evident, affirms that this particular doctrine is true. We assent to it because we know that, in the words of the Catechism, God can neither deceive nor be deceived. Let us make this clear by considering one or two particular doctrines. For instance, the doctrine of priestly absolution tells us that when a priest pronounces the sacramental form, the sins of a penitent properly disposed are immediately washed away. Obviously, since no one can have direct experimental knowledge of another's soul, still less of the presence or absence of sin therein, we can have no intrinsic evidence of the truth or falsity of the doctrine in question. We assent to it as true because God says it is so, not because we see it. The same applies to the doctrine of Transubstantiation. Since substance is altogether beyond the ken of our senses, we have no positive grounds for affirming or denying the change; but when we make our act of faith, we assent to the doctrine because it comes to us on the authority of God. We cannot therefore always furnish intrinsic evidence of a Catholic dogma: what we can do is to show that it has been revealed by Almighty God, or, in other words, that the Catholic Church, our immediate teacher in these matters, is the authorized exponent of God's Revelation. Nor can it be said that assent in such a way is unreasonable. In everyday life we are continually assenting to truths of which we do not see the intrinsic evidence, but which we accept on the word of another. Everybody has heard, on the authority of science, that light travels at the rate of 186,000 miles a second, while comparatively few know the proof of this fact. But this is not necessary for a rational assent: it suffices if one takes reasonable measures to assure oneself of the trustworthiness and authority of the one who makes the statement.

The God of Life Gustavo Guti rrez.1991-01-01 My desire is that this book may help readers to know more fully the God of biblical revelation and, as a result, to proclaim God as the God of life. Who is God? Where is God? How are we to speak of God? Gutierrez looks at these classic questions through a review of the Bible, and his answers challenge all Christians to a deepening of faith.

Patterns of Belief Eric Carlton.2017-01-31 The principle purpose of Religious Education has traditionally been to instruct and inform, with discussion and questioning occupying a secondary position. This traditional approach gives overwhelming emphasis to the historical aspects of religion, and not only fails to put into perspective the issues raised by religion today, but also takes no account of the growing movement in schools towards learning by enquiry and questioning rather than by the accumulation of stated facts. This title, first published in 1973, explores the ways in which religion can be approached from a more sociological standpoint, and aims to encourage the reader to examine religion in a more objective manner. The wide-ranging and exploratory theme of this book makes it ideal for follow-up work and suggestions for further study are provided after each chapter. This title will be of interest to teachers and students of Religious Studies.

A Dictionary of Religion and Ethics Shailer Mathews.2015-06-05 A Dictionary of Religion and Ethics is designed to be the ultimate reference book for religious students and scholars, edited by Shailer Mathews and Gerald Smith. From Ab, Ninth Of to Zwingli, Huldreich, this dictionary contains thousands of terms of importance in religion and ethics. While Biblical terms seem to make up the largest component of this reference guide, Christian words are by no means the sole focus of the dictionary. What the editors refer to as important terms used in primitive and foreign religions are also included in this collection. While the words of non-Christian religions are not as prevalent as Christian words in A Dictionary of Religion and Ethics, the world's religions are still mostly well represented. A Dictionary of Religion and Ethics is a valuable tool for anybody engaged in religious studies. This book makes the perfect companion piece for the study of any religious text. The definitions are clear, well written, and serve to expand the knowledge of the reader. This dictionary is highly recommended for all students and scholars of religion as well as those interested in having a better understanding of the meaning of religious terms from various religions. Project Conversion Scott A. Bowen.2021 How does hatred toward all peoples of all faiths transform into a profound love of Christ and his Church? After a family tragedy propels him into years of hatred toward religion, Scott Bowen realizes that he has a choice, either graduate to a violent, militant form of anti theism, or uncover a path toward peace, reconciliation, and personal conversion. Choosing peace, Bowen embarks on a 12 month journey called Project Conversion that radically transforms him and his family when he immerses himself in 12 faiths and philosophies he once abhorred. Little does he know that each will gradually melt the permafrost of his heart and lead him to Jesus Christ and the Catholic Church.

A Not Impossible Religion Silvanus Thompson,T. Edmund Harvey.2016-07-28 An inspiring book that was in the course of preparation at the time of Professor Thompson's death. He had long wished to write an interpretation of modern Christianity which would meet the needs of others as it had met those of his own life. His death occurred before he had written the last chapter, which was to have been called Finis Coronat. He held that the blind theologian, with his useless, dead theological equipment, made orthodox religion impossible to the man of reason and sane judgment. Also that while false gods must be cast out of the Temple, the Temple must not remain empty; the religious teachings of the future must be equal to the growing spiritual needs of humanity. -The Review of Reviews, Vol. 59

Material Culture and Religion Fátima Matos Silva, Isabel Borges, Helena Albuquerque. 2023-10-11 The materialisation of religiosity has been expressed since prehistoric times through material culture. This material culture serves as a tangible embodiment of faith, communicating the diversity of human spiritual experiences. It encompasses a wide range of objects, structures, symbols, and practices that not only shape religious identities, but also reflect the evolving nature of human society. This interaction between religious beliefs and their material expressions enables an understanding of the role of religion in shaping human culture and identity. Through 13 different approaches, this reprint aims to present a cross-cultural analysis of religiosity. Its main objective is to recognise the importance of this materialisation in the knowledge of different religions, as well as to maintain, preserve, and safeguard this diverse and rich heritage for future generations.

A Not Impossible Religion (Classic Reprint) Silvanus Phillips Thompson. 2018-03-12 Excerpt from A Not Impossible Religion A number of Dr. Silvanus Thompson's friends had, from time to time, expressed the hope that he would give to a wider public some of the results of his thoughts on religion and life, by which not a few had been helped in an age when many find it difficult to reconcile the methods of science with the spirit of Christianity as it is expressed in the accepted views of the Churches. Realising as he did how many men and women, Within and without the various sections of organised Christianity, were longing for an expression of faith which they could whole-heartedly accept as true, knowing, too, that they had failed to obtain in the orthodox creeds and communions the help they were seeking, he was at work at the time of his death, in June, 1916, on a volume in which he wished to set forth his own Vision of a simple spiritual Christianity, in no wise in conflict with the discoveries of research or the attitude of science, a living practical religion which would meet the deepest needs of others, as it had done of his own life. His intention was that the volume should be anonymous, but although he did not live to complete the work, it seems right that now it should be published under his name. He had corrected some of the chapters, others were still unrevised, one was incomplete, and one to be entitled Finis Coronat, remained, alas unwritten. What is Religion? Rubem A. Alves. 1984

The Deposit of Faith Eugene Kevane. 2004-01-01 The Deposit of Faith: What the Catholic Church Really Believes, by Monsignor Eugene Kevane, is a treasure of information for teachers of catechetical instruction. In the wake of the Heresy of Modernism, Catholics everywhere, especially parents of Catholic children, have experienced the proliferation of new opinions, the exclusion of the Deposit of Faith, and the suppression of the Catechism by religious educators. This book portrays what Jesus Christ, as God, wanted the Apostles and through them the future members of His Church to know and teach. He made it very clear: Heaven and earth will pass away, but my words will not pass away (Mk. 13, 31). An earlier volume, Jesus the Divine Teacher, explains how Jesus taught; this second one presents what he taught. This book provides an opportunity for all Catholics and all religious people to review their own convictions and explore the depth of their spiritual lives. In a special way, the author presents in this volume the knowledge and information which can help bishops, priests, religious, catechists, parents and all the laity regain their equilibrium and rebuild their faith and spiritual lives. It is an excellent tool to re-examine one's own posture relative to the Deposit of Faith.

The Religion of the Future Roberto M. Unger. 2023-08-07 Roberto Mangabeira Unger's The Religion of the Future is a secular project for spiritual and political revolution. It offers a comprehensive vision of humanity and a program for the refashioning of self and society that will enable each man and woman to live a greater life. Unger exhorts us to embrace the life we have now by recognizing what makes us human rather than attempt to suppress or overcome -- as do existing religions -- our existential and spiritual limitations. His program involves both political measures to reform the structure of society and a moral component to engage an individual's conduct of life. Unger's vision of the religion of the future offers us more life here and now so that we can become more human by becoming more godlike. This abridgment represents an edited rendition of the original that, although reduced in size, is complete in argument. It contains an extensive introduction to the argument and the author.

The Substance of Faith Allied With Science Oliver Lodge. 2016-07-23 Excerpt from The Substance of Faith Allied With Science: A Catechism for Parents and Teachers Everyone who has to do with children at the present day, directly or indirectly, must in some form or another have felt the difficulty of instructing them in the details of religious faith, without leaving them open to the assaults of doubt here after, when they encounter the results of scientific inquiry. Sometimes the old truths and the new truths seem to conflict; and though everyone must be aware that such internecine warfare between truths can be an appearance only, the reconciliation is not easily perceived: nor is the task simplified by the hostile attitude adopted towards each other by some of the upholders of orthodox Christianity. It is sometimes said to be impossible for a teacher to educate a class subject to compulsory attendance, in a spirit of wealth, peace, and godliness, without infringing the legitimate demands of somebody; but the difficulty is chiefly caused by sectarian animosity, which may take a variety of forms. The Catechism Explained Francis Spirago, Richard F. Clarke, Rev Richard F Clarke S J. 2011-09-22 The future welfare of both Church and state depends chiefly on the manner in which the rising generation is brought up, for if all parents were to give their children a good religious training, the future prosperity of both Church and state would be assured, because a good religious training will make children good Christians, and, as experience proves, good Christians are always good citizens. In our Popular Instructions on Marriage we have briefly outlined the duties of parents in the bringing up of their children. In this little work we enter more fully into details, and clearly point out, almost step by step, the manner in which Christian parents should bring up their children from birth to the time when they embrace that state of life for which God has destined them may this little book prove useful in directing and assisting parents in the proper performance of the noble but difficult task of making their children exemplary Christians and virtuous citizens!

Credo .2004-12-28 The Old Catholic Church of the United States is a Catholic Family of Faith, based within the United States. As inheritors of Apostolic Succession from the Western Latin (Catholic) Church, the Ancient Oriental Churches and the Eastern Byzantine (Orthodox) Churches, we possess a rich theological heritage. We are a sacramental church, embracing the fullness of Christianity as expressed within Catholic understanding. We stand, holding fast to the teachings of the ancient faith, in a modern society that is often hostile, towards Christians in general and Catholics in particular, and choose to obey the timeless message of Christ rather than yield to the Spirit of the Age. I am very happy with the contents, and feel that yet again it is a wonderful work and look forward to having this in print to use here in the UK. - Most Rev. Religious Conversion Ira Katznelson,Miri Rubin.2016-04-08 Religious conversion - a shift in membership from one community of faith to another - can take diverse forms in radically different circumstances. As the essays in this volume demonstrate, conversion can be protracted or sudden, voluntary or coerced, small-scale or large. It may be the result of active missionary efforts, instrumental decisions, or intellectual or spiritual attraction to a different doctrine and practices. In order to investigate these multiple meanings, and how they may differ across time and space, this collection ranges far and wide across medieval and early modern Europe and beyond. From early Christian pilgrims to fifteenth-century Ethiopia; from the Islamisation of the eastern Mediterranean to Reformation Germany, the volume highlights salient features and key concepts that define religious conversion, particular the Jewish, Muslim and Christian experiences. By probing similarities and variations, continuities and fissures, the volume also extends the range of conversion to focus on matters less commonly examined, such as competition for the meaning of sacred space, changes to bodies, patterns of gender, and the ways conversion has been understood and narrated by actors and observers. In so doing, it promotes a layered approach that deepens inquiry by identifying and suggesting constellations of elements that both compose particular instances of conversion and help make systematic comparisons possible by indicating how to ask comparable questions of often vastly different situations.
