*Foundations of Microeconomics* Robin Bade, Michael Parkin. 2002 In *Foundations of Microeconomics*, Robin Bade and Michael Parkin provide a serious, yet accessible economics course that is focused on helping students understand the basic principles of economics, connecting these principles to today's economic issues, and developing a lasting interest in economics as a relevant part of their own lives. *Foundations of Microeconomics* features a tightly constructed pedagogical approach that never wavers from its goal to give students an in-depth understanding of important economic principles in a way that is clear, concise, and concerned every step of the way with engaging students' interest and understanding. This text is shorter than most and focused on key concepts but not watered down. The glue that holds together the chapters and the entire teaching/learning package is the Checkpoint feature. *Talk Show Campaigns* Michael Parkin.2014-02-05 Over the past twenty years, presidential candidates have developed an entertainment talk show strategy in which they routinely chat with the likes of Oprah Winfrey, David Letterman, and Jon Stewart. In fact, between 1992 and 2012, there have been more than 200 candidate interviews on daytime and late night talk shows with nearly every presidential candidate—from long shot primary contender to major party nominee—hitting the talk show circuit at some point during the campaign. This book explores the development of the

entertainment talk show strategy and assesses its impact on presidential campaigns. The chapters mix detailed narrative with extensive empirical data on audiences, content, viewer reaction, and press coverage to explain why candidates have embraced this strategy and the conditions under which these interviews are most likely to meet their expectations. The book also explores how these interviews can enhance campaigns by connecting a critical segment of the voting population with candidates who provide useful political information in a casual setting. *Talk Show Campaigns* shows that this is more than a gimmick—it's a key part of how candidates communicate with voters, which reveals a lot about how campaigns have changed over the past two decades.

Foundations of Macroeconomics Robin Bade, Michael Parkin. 2004 Everyone agrees that the only way to learn economics is to do it. Rote memorization does not work. The keys to success in economics are active involvement and working problems. To help students succeed, the Bade/Parkin package is designed to encourage learning by doing. After all, practice makes perfect! Practice is the cornerstone of the innovative Bade/Parkin approach. Each chapter of Foundations of Economics concentrates on a manageable number of core concepts. A full page Checkpoint containing a Practice Problem with solution and a parallel Exercise immediately follows each main idea. Checkpoints serve as stopping points and encourage students to practice using a concept before moving on. Different learning styles need different learning tools, and eFoundations, Bade/Parkin's extensive web environment, puts students in the driver's seat and allows them to use technology in the way that suits them best.

Microeconomics Michael Parkin.2022 To change the way students see the world: this is my goal in teaching economics and in writing this book. Three facts about students are my guiding principles. First, they want to learn, but they are over-whelmed by the volume of claims on their time and energy. So, they must see the relevance to their lives and future careers of what they are being asked to learn. Second, students want to get it, and get it quickly. So, they must be presented with clear and succinct explanations. And third, students want to make sense of today's world and be better prepared for life after school. So, they must be shown how to apply the timeless principles of

economics and its models to illuminate and provide a guide to understanding today's events and issues, and the future challenges they are likely to encounter. The organization of this text arises directly from these guiding principles--
