Contesting Colonial Authority Poonam Bala.2012 Poonam Bala's *Contesting Colonial Authority* explores the interplay of conformity and defiance amongst the plural medical tradition in colonial India. The contributors reveal how Indian elites, nationalists, and the rest of the Indian population participated in the move to revisit and frame a new social character of Indian Medicine. Viewed in the light of the cultural, nationalistic, social, literary and scientific essentials, *Contesting Colonial Authority* highlights various indigenous interpretations and mechanisms through which Indian sciences and medicine were projected against the cultural background of a rich medical tradition. *Current Catalog* National Library of Medicine (U.S.). First multi-year cumulation covers six years: 1965-70.

Anticancer Plants: Clinical Trials and Nanotechnology Mohd Sayeed Akhtar,Mallappa Kumara Swamy.2018-07-03 Cancer is one of the leading causes of death in human beings. Though several

synthetic medicines are used to treat cancer, they are largely inefficient and unsafe. In contrast, plants, which have been used for medicinal purposes since time immemorial, have proved to be useful in fighting cancer, with natural compounds from plants and their derivatives offering safe and effective treatment and management for several types of cancer. Plants such as *Catharanthus roseus*, *Podophyllum peltatum*, *Taxus brevifolia*, *Camptotheca acuminata*, *Andrographis paniculata*, *Crateva nurvala*, *Croton tonkinensis*, *Oplopanax horridus* etc., are important source of chemotherapeutic compounds. These plants have proven their value in the treatment of cancer and various other infectious diseases, and several common anticancer compounds such as taxol, podophyllotoxins, camptothecin, vinblastine, vincristine, homoharringtonine etc. have been isolated and purified from these medicinal plants. Unfortunately, many of these anticancer plants have become endangered due to ruthless and irresponsible harvesting practices. Hence, there is a need to conserve these species and to propagate them on a large scale using plant tissue culture. Alternatively, plant cell tissue and organ culture biotechnology could be adopted to produce these anticancer compounds without the need for cultivation. A better grasp and continuing exploration of these isolated molecules and products could provide a powerful alternative means of reducing cancer risk. "Anticancer Plants: Volume 3, Clinical Trials and Nanotechnology" provides a timely review of concepts and experimental data on the application of anticancer plants and their compounds in clinical trials, and on the use of nanotechnology in cancer therapy.

Psychological Perspectives on Childcare in Indian Indigenous Health Systems Malavika Kapur.2015-06-22 This book examines childcare in ancient Indian health systems from the perspective of developmental psychology. The author extensively studies ancient texts and charts from Ayurveda, Unani, Siddha and Tibetan medicines and analyses how gleanings from these systems can be useful in creating preferred practices for modern childcare systems. Though the four systems originated in different geographical regions, they share many common core constructs of a holistic approach consisting of mind-body unity. The core of psychological healing in these systems rests on bringing about harmony and balance of disturbed functions through diet, daily regimen and drugs. However, despite commonalities, understanding of childcare in the four systems varies a great deal. The differences seem to be rooted in local sociocultural, religious and folk healing practices. Remarkably, in all of them, prescriptions of drugs and behaviour are psychologically grounded and uncannily modern from the perspective of developmental psychology. The book raises the following questions as important for further research: whether holistic approaches be adopted for the empirical study of indigenous health systems, where their strength lies; whether personality

frameworks identified in the four systems can be incorporated into contemporary medical practice to its advantage; whether preferred childcare practices among the four systems can be studied empirically in current paediatric, psychological and parenting research; and whether faith, if it is of importance to the patient, can be incorporated as an element into contemporary medical practice.

Sufis in Western Society Markus Dressler,Ron Geaves,Gritt Klinkhammer.2009-06-02 In recent years Sufism has undergone something of a revival as a spiritual alternative to other manifestations of Islam. This book investigates the development of Sufism in Western societies, with a regional focus on North America and Europe. Exploring a number of issues relating to the dynamic tensions between religious globalization processes and specific sacred localities, this book looks at the formation of Sufi movements that have migrated from their place of origin to become global religious networks. Sufi groups are highly differentiated and often inaccessible, so the origins and development of Sufism in the West have not been widely studied. Employing a comparative approach based on regional fieldwork and case studies, this book addresses theoretical issues and gives a comprehensive analysis of distinct communities and the development of regional branches of Sufi orders, providing an international perspective on Sufism in the West. With contributions from well-known international experts on the topic, the book addresses Sufi orders in the context of the transnational networks in which they are operating and the constraints of the localities in which they live. This book will be of interest to scholars and students of religion, Islam and Sufism in particular.

Umrao Jan Ada Mirza Muhammad Hadi Ruswa.2018-12-03 Translated from the Urdu by Khushwant Singh. Umrao Jan Ada is perhaps one of the most enigmatic and forgotten female figures in South Asian Literature. The question of her existence, her beauty, her scholarly abilities and her poetic gift remain a mystery. The book is an account of Umrao's life as a Lucknawi courtesan, a nautch girl, delivered in first person by Umrao herself, and documented by a close friend. Written more than a hundred years ago, the novel recreates the gracious ambience of old Lucknow and takes the reader on a fascinating journey through the palaces of wealthy nawabs, the hideouts of the colorful vagabonds and the luxurious abodes of the city's courtesans.

The Weary Generations Abdullah Hussein.2014-10-01 Published ahead of Paul Scott's Raj Quartet and long before Midnight's Children, Abdullah Hussein's ambitious saga of social struggle The Weary Generations was a bestseller in Urdu. Published in 1963 and now beyond its 40th edition, it has never been out of print. A vivid depiction of the widespread disillusionment and seismic upheavals of the Partition era that lead to the creation of Pakistan and Bangladesh, there has never been a more opportune time to discover one of the most important writings about the post-colonial trauma in the region. Naim, son of a peasant, marries Azra, the daughter of a rich landowner. Fighting for the British during World War I he loses an arm. Invalided home, he becomes angered at the subjugation of his countrymen under the Raj and aligns himself with the opposition. His ideals

are swept away after Independence in 1947 when he realizes that, as Muslims, his family is no longer safe in their Indian home and that they must migrate to the newly created Pakistan. Regarded as one of the half-dozen most influential novels dealing with Partition or post-colonial malaise, this is an immensely powerful novel in its own right and is essential reading for English language readers seeking to comprehend the historical origins of the tensions in the Indian subcontinent.
