Educating for Peace and Human Rights Maria Hantzopoulos, Monisha Bajaj.2021-04-08 Over the past five decades, both peace education and human rights education have emerged distinctly and separately as global fields of scholarship and practice. Promoted through multiple efforts (the United Nations, civil society, grassroots educators), both of these fields consider content, processes, and educational structures that seek to dismantle various forms of violence, as well as move towards cultures of peace, justice and human rights. *Educating for Peace and Human Rights Education* introduces students and educators to the challenges and possibilities of implementing peace and human rights education in diverse global sites. The book untangles the core concepts that define both fields, unpacking their histories and conceptual foundations, and presents models and key research findings to help consider their intersections, convergences, and divergences. Including an annotated bibliography, the book sets forth a comprehensive research agenda, allowing emerging and seasoned scholars the opportunity to situate their research in conversation with the global fields

of peace and human rights education.

The Academy of Management Annals James P. Walsh, Arthur P. Brief.2007 The Academy of Management is proud to announce the inaugural volume of The Academy of Management Annals. This exciting new series follows one guiding principle: The advancement of knowledge is possible only by conducting a thorough examination of what is known and unknown in a given field. Such assessments can be accomplished through comprehensive, critical reviews of the literature--crafted by informed scholars who determine when a line of inquiry has gone astray, and how to steer the research back onto the proper path. The Academy of Management Annals provide just such essential reviews. Written by leading management scholars, the reviews are invaluable for ensuring the timeliness of advanced courses, for designing new investigative approaches, and for identifying faulty methodological or conceptual assumptions. The Annals strive each year to synthesize a vast array of primary research, recognizing past principal contributions while illuminating potential future avenues of inquiry. Volume 1 of the Annals explores a wide spectrum of research: corporate control; nonstandard employment; critical management; physical work environments; public administration team learning; emotions in organizations; leadership and health care; creativity at work; business and the environment; and bias in performance appraisals. Ultimately, academic scholars in management and allied fields (e.g., sociology of organizations and organizational psychology) will see The Academy of Management Annals as a valuable resource to turn to for comprehensive, up-to-date information--published in a single volume every year by the preeminent association for management research.

People are seriously discussing whether the medieval ideal of the university as being excellent in all areas makes sense today, given the number of universities that

we have in the world. Student fees are changing the orientation of students to the system. The high rate of non repayment of fees in the UK is provoking difficult questions about whether the current system of funding makes sense. The Bullet Journal Method Ryder Carroll.2021-12 THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of *The Miracle Morning* In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and

long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls intentional living: making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***

On Revision William Germano.2021-11-05 A trusted editor turns his attention to the most important part of writing: revision. So you've just finished writing something? Congratulations! Now revise it. Because revision is about getting from good to better, and it's only finished when you decide to stop. But where to begin? In *On Revision*, William Germano shows authors how to take on the most critical stage of writing anything: rewriting it. For more than twenty years, thousands of writers have turned to Germano for his insider's take on navigating the world of publishing. A professor, author, and veteran of the book industry, Germano knows what editors want and what writers need

to know: Revising is not just correcting typos. Revising is about listening and seeing again. Revising is a rethinking of the principles from the ground up to understand why the writer is doing something, why they're going somewhere, and why they're taking the reader along with them. On Revision steps back to take in the big picture, showing authors how to hear their own writing voice and how to reread their work as if they didn't write it. On Revision will show you how to know when your writing is actually done—and, until it is, what you need to do to get it there.

Tattooed Bodies James Martell, Erik Larsen. 2022-01-20 The essays collected in *Tattooed Bodies* draw on a range of theoretical paradigms and empirical knowledge to investigate tattoos, tattooing, and our complex relations with marks on skin. Engaging with diverse disciplinary perspectives in art history, continental philosophy, media studies, psychoanalysis, critical theory, literary studies, biopolitics, and cultural anthropology, the volume reflects the sheer diversity of meanings attributed to tattoos throughout history and across cultures. Essays explore conceptualizations of tattoos and tattooing in Derrida, Deleuze and Guattari, Lacan, Agamben, and Jean-Luc Nancy, while utilizing theoretical perspectives to interpret tattoos in literary works by Melville, Beckett, Kafka, Genet, and Jeff VanderMeer, among others. *Tattooed Bodies* prompts readers to explore a few significant

questions: Are tattoos unique phenomena or an art medium in need of special theoretical exploration? If so, what conceptual paradigms and theories might best shape our understanding of tattoos and their complex ubiquity in world cultures and histories?
