Labour Law in Namibia Collins Parker.2012-04-24 Labour Law in Namibia is the first comprehensive and scholarly text to analyse labour law in the country, the Labour Act of 2007, and how it affects the common law principles of employment relations. Concise and extensively researched, it examines the Labour Act in detail in 16 chapters that include the employment relationship; duties of employers and employees; unfair dismissal and other disciplinary actions; the settlement of industrial disputes; and collective bargaining. Over 500 relevant cases are cited, including court rulings in other countries, and comparative references to the labour laws of other Commonwealth countries, notably South Africa, Swaziland, Zambia and the United Kingdom, making it a reference and comparative source book for common law countries in the SADC region and beyond. Written by an authority in the field of labour law, this is a unique reference guide for key players in labour relations, including teachers and students of law, legal researchers and practitioners, human resource and industrial relations practitioners, employers and employers organisations, employees and trade unions, public servants and public policy advisors, and the academic community internationally. In clear and uncomplicated English, the book is accessible to professional and lay people. A comprehensive list of contents, tables of cases and statutes, bibliography and index, assist the reader.

Namibia International Monetary Fund. Fiscal Affairs Dept..2018-08-16 Following a period of strong growth, the Namibian economy is experiencing a slowdown. Despite efforts from the authorities, there is still limited fiscal space to fund through the budget the large capital programs that underpin Namibia's long-term growth strategy. Consequently, the government is turning to public entities (PE) and public private partnerships (PPPs), which is resulting in a build-up of off-budget commitments and fiscal risks. The government is seeking to develop a framework to strengthen the management and reporting of fiscal risks. Like many countries, Namibia is exposed to a variety of fiscal risks, which should be analyzed and reported annually in a Fiscal Risk Statement (FRS). Fiscal risks are factors that may cause fiscal outcomes to deviate from expectations or forecasts. Should such risks materialize, they could undermine ongoing fiscal consolidation, public debt would continue to deviate from a sustainable path and recovery of investment grade level would be very difficult.

From the Depths of the Heart Abraham Terian.2022-01-03 2022 Catholic Media Association honorable mention in prayer: collections of prayers St. Gregory of Narek (ca. 945-1003), Armenian mystic poet and theologian, was named Doctor of the Church by Pope Francis on April 12, 2015. Not so well known in the West, the saint holds a distinctive place in the Armenian Church by virtue of his prayer book and hymnic odes—among other works. His writings are equally prized as literary masterpieces, with the prayer book as the magnum opus. With this meticulous translation of the prayers, St. Gregory of Narek enters another millennium of wonderment, now in a wider circle. The prayers resound from their author's heart—albeit in a different language, rendered by a renowned translator of early Armenian texts and a theologian.

Education in Southern Africa Clive Harber.2013-09-12 Education in Southern Africa is a comprehensive critical reference guide to education in the region. With chapters written by an international team of leading regional education experts, the book explores the education systems of each

country in the region. With chapters covering Botswana, Lesotho, Madagascar, Mozambique, Namibia, South Africa, Swaziland and Zimbabwe, the book critically examines the development of education provision in each country as well as local and global contexts. Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets, this handbook will be an essential reference for researchers, scholars, international agencies and policy-makers at all levels.

Persecuted In Search of Change Joseph Kalimbwe .2016-10-02
Zambian born Joseph Kalimbwe writes about Africa downward spiral political leadership. He tells how the Reagan years in the 1980s must be used by African leaders to solve economic problems. Zambia President Rupiah Banda is condemned for his slow path economic policies and how the continent struggles to live up to the expectations of the 21st century. He also explains emotionally the impact of the loss of his mother on him and his long lost father who died when he was 2. He concludes with the factors affecting the education system including his time at the University of Namibia where he served as President.

Persistence of Race Nina G. Jablonski.2020-02-25
This is the third and final group of essays emerging from the discussions of the Effects of Race Project at the Stellenbosch Institute for Advanced Study (STIAS) that occurred in 2016 and 2017. The authors consider the biological and social understandings of race, and how new information from both the biological and social sciences is changing our perspective on the nature of the human condition, including the association of biological and social phenomena with "race". They also look at global events or movements which influence these processes in South Africa and the costs of a racialised world order to humans and humanity. Phenomena are examined through the lenses of many disciplines: sociology, history, geography, anthropology and writing.

Southern African Development Community Land Issues Ben Chigara.2013-03
This book constitutes Volume I of a set of two Volumes. Volume I attempts a holistic inter-disciplinary evaluation of the legitimacy of colonial and emergent post-colonial rule property rights in affected States of the Southern African Development Community (SADC) in light of intensifying litigation in national courts, the SADC Tribunal, and more recently the Washington based International Centre for the Settlement of Investment Disputes (ICSID) regarding counter claims to title to property. Cultural, economic and political drivers at the core of SADC land issues are examined for their signifi.

Language Policy Elana Shohamy.2006-05-02 Policies concerning language use are increasingly tested in an age of frequent migration and cultural synthesis. With conflicting factors and changing political climates influencing the policy-makers, Elana Shohamy considers the effects that these policies have on the real people involved. Using examples from the US and UK, she shows how language policies are promoted and imposed, overtly and covertly, across different countries and in different contexts. Concluding with arguments for a more democratic and open approach to language policy and planning, the final note is one of optimism, suggesting strategies for resistance to language attrition and ways to protect the linguistic rights of groups and individuals.

EBOOK: COMPETENCE-BASED ASSESSMENT Alison Wolf.1995-01-16 Competence-based assessment is the cornerstone of the UK Government's

reforms of vocational training and of non-academic full-time education post-16. Australia has adopted similar policies, and there is considerable interest in the notion of 'competence' in both Europe and North America. Alison Wolf describes the main characteristics of the competence-based approach as it has emerged in the UK, and traces its origins in American experimental programmes of the 1970s. The arguments for the approach are discussed in detail. Many of these arguments derive from the demonstrable limitations of more conventional assessment, especially in predicting work performance. She then analyses the theoretical assumptions which competence-based assessment shares with the criterion-referenced movement as a whole, distinguishing clearly between those claims which can be sustained and those which cannot. She also synthesizes the growing body of evidence on implementation. Many lessons have now been learned about whether and how one can establish a workable, robust and reliable competence-based system. It has become evident both that the preconditions for success are often missing, and that, if they are ignored, competence-based 'reforms' may have largely negative consequences. The final chapter reviews the prospects for competence-based awards, and offers some conclusions on what is essential to a competence-based approach.

Financing Secondary Education in Developing Countries Keith Lewin,Françoise Caillods.2001 This book explores the issues involved in the sustainable financing of secondary education in developing countries, including a number of case studies from Asia, Latin America and Africa. It investigates current cost structures and carries out an analysis for different groups of countries, using data derived from the UNESCO database. It concludes with a discussion of the policy options available to promote improved access at sustainable levels of cost whilst maintaining levels of educational quality.

What I Learned When I Almost Died Chris Licht.2011-05-24 What do you learn when your brain goes pop? Chris Licht had always been ambitious. When he was only nine years old, he tracked down an NBC correspondent while on vacation to solicit advice for a career in television. At eleven, he began filming himself as he delivered the news. And by the time he was thirty-five, he landed his dream job: a fast-paced, demanding spot at the helm of MSNBC's Morning Joe—one of the most popular shows on cable TV. He had become a real-life Jerry Maguire: hard-charging, obsessively competitive, and willing to sacrifice anything to get it done. He felt invincible. Then one day Chris heard a pop in his head, followed by a whoosh of blood and crippling pain. Doctors at the ER said he had suffered a near-deadly brain hemorrhage. Chris's life had almost been cut short, and he had eight long days in a hospital bed to think about it. What I Learned When I Almost Died tells the story of what happened next.

Encyclopedia of International Higher Education Systems and Institutions Jung Cheol Shin,Pedro Teixeira.2018-11-12 This authoritative reference source covers all higher education themes in a comprehensive, accessible and comparative way. It maps the field for the twenty first century reflecting the massive changes that have occurred and the challenges ahead for future research. It provides a rich diversity of scholarly perspectives and covers the entire spectrum of higher education from a geographical, a topical and disciplinary perspective. It is unrivaled in its capacity to go beyond national boundaries and provides indispensable comparative analyses. The major reference works available about higher education have been published more than two decades ago and since then higher education has undergone major changes that have resulted in a much larger, diverse, global, and multidimensional reality. One of the main trends has been relentless expansion on a worldwide scale. This has led to

mass higher education becoming a reality across continents, substantial growth in the number of countries with universal access to higher education, and great diversification of the student body. The tremendous increase in the international links in higher education, through issues such as training, students' mobility, staff mobility, research activities, is another major change. The consequence is a global dimension that is strongly associated with the intensification of international networks in which institutions and researchers explore, create and share knowledge. As a result of the changes and trends, higher education has increasingly become part of debates that highlight its complexity as an institution that combines relevant political, social, economic, and cultural purposes and dimensions. Asked to play important and varied economic and social roles, higher education has had to reshape its priorities, and organizational and decision-making structures. The growth and increased complexity of the field have both led to more attention being paid to all aspects of higher education and to the expansion of research.
