*The Age of the Crowd* Serge Moscovici. 1985-09-05 The Age of the Crowd is at one level an historical account of the development of mass psychology, and at another an analysis of its implications for prevalent political and social life. It was the prophecy of Gustave Le Bon in 1895 that the twentieth century would be 'l'âge des foules' that gave Serge Moscovici the title for his book, and it presents a systematic exposition of Le Bon's ideas and those of Gabriel Tarde, demonstrating convincingly their influence on the theories of collective psychology advanced by Sigmund Freud. These theories are re-examined by Professor Moscovici in a fascinating commentary on political life: Hitler, Mussolini, Lenin, Stalin and Trotsky all in some way applied them in their leadership styles with consequences that are all too familiar. The scenario painted by this volume is a disturbing one. Serge Moscovici's acute analyses of mass phenomena raise fundamental questions concerning the foundations of democracy.

*Imagination and Healing* Anees A. Sheikh. 2019-03-28 The volume explores in depth the vast healing potential of a fundamental human gift. In addition to providing a historical perspective of the importance accorded to imagination in the disease and healing processes, the book furnishes theoretical, empirical, and clinical evidence of the efficacy of imagery in the healing of a wide variety of health problems including stress, pain, cancer, depression, phobias, skin disorders, and sexual dysfunctions.

**Man, Play, and Games** Roger Caillois. 2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

**The Play of Animals** Karl Groos. 1898

*Le Tumulte Noir* Jody Blake. 1999-01-01 Jody Blake demonstrates in this book that although the impact of African-American music and dance in France was constant from 1900 to 1930, it was not unchanging. This was due in part to the stylistic development and diversity of African-American music and dance, from the prewar cakewalk and ragtime to the postwar Charleston and jazz. Successive groups of modernists, beginning with the Matisse and Picasso circle in the 1900s and concluding with the Surrealists and Purists in the 1920s, constructed different versions of la musique and la danse negre. Manifested in creative and critical works, these responses to African-American music and dance reflected the modernists' varying artistic agendas and historical climates.

*Leaving the Witness* Amber Scolah. 2020-06-02 A fascinating glimpse into the consciousness of being an outsider in every possible way, and what it takes to find your path into the life you'd like to lead.--Nylon A riveting memoir of losing faith and finding freedom while a covert missionary in one of the world's most restrictive countries. A third-generation Jehovah's Witness, Amber Scolah had devoted her life to sounding God's warning of impending Armageddon. She volunteered to take the message to China, where the preaching she did was illegal and could result in her expulsion or worse. Here, she had some distance from her community for the first time. Immersion in a foreign language and culture--and a whole new way of thinking--turned her world upside down, and eventually led her to lose all that she had been sure was true. As a proselytizer in Shanghai, using fake names and secret codes to evade the authorities' notice, Scolah discreetly looked for targets in public parks and stores. To support herself, she found work at a Chinese language learning podcast, hiding her real purpose from her coworkers. Now with a creative outlet, getting to know worldly people for the first time, she began to understand that there were other ways of seeing the world and living a fulfilling life. When one of these relationships became an escape hatch, Scolah's loss of faith culminated in her own personal apocalypse, the only kind of ending possible for a Jehovah's Witness. Shunned by family and friends as an apostate, Scolah was alone in Shanghai and thrown into a world she had only known from the periphery--with no education or support system. A coming of age story of a woman already in her thirties, this unforgettable memoir examines what it's like to start one's life over again with an entirely new identity. It follows Scolah to New York City, where a personal tragedy forces her to look for new ways to find meaning in the absence of religion. With compelling, spare prose, *Leaving the Witness* traces the bittersweet process of starting over, when everything one's life was built around is gone.

**The Guattari Effect** Eric Alliez, Andrew Goffey. 2011-06-30 The Guattari Effect brings together internationally renowned experts on the work of the French psychoanalyst, philosopher and political activist Félix Guattari with philosophers, psychoanalysts, sociologists, anthropologists and artists who have been influenced by Guattari's thought. Best known for his collaborative work with Gilles Deleuze, Guattari's own writings are still a relatively unmined resource in continental philosophy. Many of his books have not yet been translated into English. Yet his influence has been considerable and far-reaching. This book explores the full spectrum of Guattari's work, reassessing its contemporary significance and giving due weight to his highly innovative contributions to a variety of fields, including linguistics, economics, pragmatics, ecology, aesthetics and media theory. Readers grappling with the ideas of contemporary continental philosophers such as Badiou, Žižek and Rancière will at last be able to see Guattari as the 'extraordinary philosopher' Deleuze claimed him to be, with his distinctive radical ideas about the epoch of global 'deterritorialization' we live in today, forged within the practical contexts of revolutionary politics and the materialist critique of psychoanalysis.

*Staying with the Trouble* Donna J. Haraway. 2016-08-19 In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls the Chthulucene, as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by

the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—Staying with the Trouble further cements Haraway's reputation as one of the most daring and original thinkers of our time.

*Beyond the Cyborg* Margret Grebowicz, Helen Merrick. 2013-06-25 This long-overdue volume explores Donna Haraway's influence on feminist theory and philosophy, paying particular attention to her more recent work on companion species, rather than her *Manifesto for Cyborgs*.

*Modernism, Medievalism, and Humanism* Earl Jeffrey Richards. 1983 The book series *Beihefte zur Zeitschrift für romanische Philologie*, founded by Gustav Gröber in 1905, is among the most renowned publications in Romance Studies. It covers the entire field of Romance linguistics, including the national languages as well as the lesser studied Romance languages. The editors welcome submissions of high-quality monographs and collected volumes on all areas of linguistic research, on medieval literature and on textual criticism. The publication languages of the series are French, Spanish, Portuguese, Italian and Romanian as well as German and English. Each collected volume should be as uniform as possible in its contents and in the choice of languages.

**Gender and the First World War** Christa Hämmerle, O. Überegger, B. Bader-Zaar. 2014-01-02 The First World War cannot be sufficiently documented and understood without considering the analytical category of gender. This exciting volume examines key issues in this area, including the 'home front' and battlefield, violence, pacifism, citizenship and emphasizes the relevance of gender within the expanding field of First World War Studies.

**The Aesthetics of Movement** Camilla Damkjær. 2005

**Imprison'd Wranglers** Christopher Reid. 2012-11-29 *Imprison'd Wranglers* is the first detailed study of parliamentary speaking in its golden age at the end of the eighteenth century. The book looks closely at the physical and political conditions in which these men spoke, and the techniques they used to discredit the arguments of their opponents and to move and convince their audience in the House.

**The Misfit of the Family** Michael Lucey. 2003-08-25 In more than ninety novels and novellas, Honoré de Balzac (1799–1850) created a universe teeming with over two thousand characters. The *Misfit of the Family* reveals how Balzac, in imagining the dense, vividly rendered social world of his novels, used his writing as a powerful means to understand and analyze—as well as represent—a range of forms of sexuality. Moving away from the many psychoanalytic approaches to the novelist's work, Michael Lucey contends that in order to grasp the full complexity with which sexuality was understood by Balzac, it is necessary to appreciate how he conceived of its relation to family, history, economics, law, and all the many structures within which sexualities take form. The *Misfit of the Family* is a compelling argument that Balzac must be taken seriously as a major inventor and purveyor of new tools for analyzing connections between the sexual and the social. Lucey's account of the novelist's deployment of sexual misfits to impel a wide range of his most canonical works—*Cousin Pons*, *Cousin Bette*, *Eugenie Grandet*, *Lost Illusions*, *The Girl with the Golden Eyes*—demonstrates how even the flexible umbrella term *queer* barely covers the enormous diversity of erotic and social behaviors of his characters. Lucey draws on the thinking of Michel Foucault and Pierre Bourdieu and engages the work of critics of nineteenth-century French fiction, including Naomi Schor, D. A. Miller, Franco Moretti, and others. His reflections on Proust as Balzac's most cannily attentive reader suggest how the lines of social and erotic force he locates in Balzac's work continued to manifest themselves in twentieth-century writing and society.

*Current Thinking and Research in Brief Therapy* William Matthews, John Edgette. 2013-06-20 In Volume 2 of *Current Thinking and Research in Brief Therapy* the author's consideration of Ericksonian-influenced brief therapy continues. Presently, there is a concern among those in the psychotherapy profession who worry that this area of science will become heartless. Others are equally concerned that their hearts not become science-less in the future. In this volume, the authors respect both viewpoints and attempt to weave these notions together. Throughout this book, different types of emotions in psychotherapy unfold. For instance, Harry Aponte presents a thoughtful piece on the issue of client-therapy intimacy, while Doug Flemons and Shelley Green, a married couple, share a humorous yet sensitive article on sexual concerns in couples, and finally, Daniel Handel provides a powerful story of the use of hypnosis with a dying adolescent. In addition to the emotional side of psychotherapy, the authors include the scientific aspects of psychotherapy. A discussion about various models of brief therapy is given, emphasizing that the therapeutic effects of the treatment models are attributable to the non-treatment specifics of the therapeutic interaction. A review of empirical data on the key elements of Ericksonian hypnosis and the social-psychological aspect of Ericksonian hypnosis are discussed as well. Finally, an important, and perhaps controversial, essay on ethics in the general non-therapeutic use of hypnosis by lawyers and its use in recovering memories is presented.

*The Mechanical Bride* Marshall McLuhan (Théoricien de la communication, Canada, Etats-Unis). 1967

**A Year to Live** Stephen Levine. 2009-10-07 In his new book, Stephen Levine, author of the perennial best-seller *Who Dies?*, teaches us how to live each moment, each hour, each day mindfully--as if it were all that was left. On his deathbed, Socrates exhorted his followers to practice dying as the highest form of wisdom. Levine decided to live this way himself for a whole year, and now he shares with us how such immediacy radically changes our view of the world and forces us to examine our priorities. Most of us go to extraordinary lengths to ignore, laugh off, or deny the fact that we are going to die, but preparing for death is one of the most rational and rewarding acts of a lifetime. It is an exercise that gives us the opportunity to deal with unfinished business and enter into a new and vibrant relationship with life. Levine provides us with a year-long program of intensely practical strategies and powerful guided meditations to help with this work, so that whenever the ultimate moment does arrive for each of us, we will not feel that it has come too soon.

**The Explicitation Interview** Pierre Vermersch. 2007-07 This book was first published in French in 1994. It has been a training support to numerous researchers as well as practitioners, such as teachers, health workers, personal or sport trainers. Since then, it has constantly been republished and a glossary has been added in 1998. This version is the first complete edition of the book in English. The main idea of this new interview technique is to help a teacher, a supervisor or a researcher to guide the student, the practitioner or the subject to give a fine retrospective description of an action. As it is only the subject that has access to

this mental or physical action, the goal is to help the subject with the verbalization, putting the implicit knowledge of this action in words. Yet, to achieve this verbalization, we need guidance, because we don't know how to give such a description ourselves. If we leave the interviewee without guidance, he risks remaining in the implicit, speaking in a general way, or in an incomplete or imprecise way, commenting instead of describing. The explicit and precise description we aim is the opposite of the implicit, meaning a fine, detailed and complete way of putting the action in words. The final aim is to elucidate what the subject did to seek his goal

*Homo Ludens* Johan Huizinga.1971-06-01 An essential reference for all game designers, this 1938 classic is "a fascinating account of 'man the player' and the contribution of play to civilization" (Harper's). In this classic evaluation of play that has become a "must-read" for those in game design, Dutch philosopher Johan Huizinga defines play as the central activity in flourishing societies. Like civilization, play requires structure and participants willing to create within limits. Starting with Plato, Huizinga traces the contribution of *Homo Ludens*, or "man the player" through Medieval Times, the Renaissance, and into our modern civilization. Huizinga defines play against a rich theoretical background, using cross-cultural examples from the humanities, business, and politics. *Homo Ludens* defines play for generations to come.

**Musical Exoticism** Ralph P. Locke.2011-11-24 A Japanese geisha, a Middle Eastern caravan, a Hungarian-'Gypsy' fiddler, Carmen flinging a rose at Don José - portrayals of people and places that are considered somehow 'exotic' have been ubiquitous from 1700 to today, whether in opera, Broadway musicals, instrumental music, film scores, or in jazz and popular song. Often these portrayals are highly stereotypical but also powerful, indelible and touching - or troubling. *Musical Exoticism* surveys the vast and varied repertoire of Western musical works that evoke exotic locales. It relates trends in musical exoticism to other trends in music, such as programme music and avant-garde experimentation, as well as to broader historical developments such as nationalism and empire. Ralph P. Locke outlines major trends in exotic depiction from the Baroque era onward, and illustrates these trends through close study of numerous exotic works, including operas by Handel and Rameau, Mozart's 'Rondo alla turca', 'Madame Butterfly' and 'West Side Story'.

**Institutionalizing Gender** Jessie Hewitt.2020-06-15 *Institutionalizing Gender* analyzes the relationship between class, gender, and psychiatry in France from 1789 to 1900, an era noteworthy for the creation of the psychiatric profession, the development of a national asylum system, and the spread of bourgeois gender values. Asylum doctors in nineteenth-century France promoted the notion that manliness was synonymous with rationality, using this fact to pathologize non-normative behaviors and confine people who did not embody mainstream gender expectations to asylums. And yet, this gendering of rationality also had the power to upset prevailing dynamics between men and women. Jessie Hewitt argues that the ways that doctors used dominant gender values to find cures for madness inadvertently undermined both medical and masculine power—in large part because the performance of gender, as a pathway to health, had to be taught; it was not inherent. *Institutionalizing Gender* examines a series of controversies and clinical contexts where doctors' ideas about gender and class simultaneously legitimated authority and revealed unexpected opportunities for resistance. Thanks to generous funding from the Andrew W. Mellon Foundation, through *The Sustainable History Monograph Pilot*, the ebook editions of this book are available as Open Access volumes from Cornell Open ([cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open)) and other repositories.
