The book reviews competing theories of psychological and social evolution and provides a detailed historical introduction to the subject. A key theoretical concern which emerges in the book includes the psychological significance of the human evolution issue itself. The period of human evolution covered ranges from the demise of the Miocene hominoids, to the emergence of 'civilization'. Topics covered include: functions of 'origin myths', history of the study of human evolution, methods and data-bases, theories of the nature of 'hominisation', origins of bipedalism, language and tool-use, theories of social evolution, theories of cave art and the spread of Homo sapiens to America and Australia.

Wild lands Stacey Marie Brown.2023-11-22 Brexley est une survivante. Elle s'est libérée de la Maison de la Terreur, la prison où les Faés torturent et affament les Humains. Pourtant, elle est loin d'être tirée d'affaire, car elle vient d'être capturée par Killian, le roi des Faés qui l'a emmenée dans son château. Le légendaire Killian est redoutable. Envoûtant et séduisant, il est aussi tellement puissant qu'il pourrait tuer Brexley d'un simple geste de la main. Dans la guerre qui oppose les Humains et les Faés, Killian est sans aucun doute l'ennemi qu'il faut abattre ! Pourtant, au fil du temps, Brexley découvre que Killian n'est pas l'homme malveillant qu'elle imaginait, et leur relation commence à changer. Il pourrait même se révéler un précieux allié pour réussir à ramener la paix dans les royaumes. Mais dans la toile mortelle des jeux de pouvoir et de désir, nouer une alliance avec

The book discusses different issues of theoretical and practical import through various chapters that deal with the general need for study on human and environmental security, its degradation due to a variety of factors like climate change, war, pollution and resource utilisation. Moving from a regional South Asian focus the book narrows down to specific cases within India and the region at large to highlight the widespread effect anthropogenic factors have had on environmental security. A diverse set of articles from many authors has meant a comprehensive perspective on a vital global and national concern.

Bad Land Jonathan Raban.2011-07-20 NATIONAL BESTSELLER

• NATIONAL BOOK CRITICS CIRCLE AWARD WINNER •

Startlingly observed, beautifully written, this book is a contemporary classic of the American West. • As good a book as I have read about rural America in a very long time. —The New York Times Book Review In 1909 maps still identified eastern Montana as the Great American Desert. But in that year Congress, lobbied heavily by railroad companies, offered 320-acre tracts of land to anyone bold or foolish enough to stake a claim to them. Drawn by shamelessly inventive brochures, countless homesteaders—many of them immigrants—went west to make their fortunes. Most failed. In *Bad Land*, Jonathan Raban travels through the unforgiving country that was the scene of their dreams and undoing, and makes their story come miraculously alive. In towns named Terry, Calypso, and Ismay (which changed its name to Joe, Montana, in an effort to attract football fans), and in the landscape in between, Raban unearths a vanished episode of American history, with its own ruins, its own heroes and heroines, its own hopeful myths and bitter memories.

Sound Judgment Richard Leppert.2023-05-31 The essays in *Sound Judgment* span the full career of Richard Leppert, from his earliest to work that appears here for the first time, on subjects drawn from early modernity to the present concerning music both popular and classical, European and North American. Noted for his path-breaking interdisciplinary scholarship on music and visual culture, the collection includes key essays on music's visualization in art practices in virtually all visual media, including film. The fourteen essays comprising this volume demonstrate Leppert's many contributions to critical musicology, particularly in the areas of aesthetics as well as social and intellectual history, all of it grounded in a heterodox body of critical and cultural theory, with the work of Theodor W. Adorno particularly noteworthy. The collection is preceded by an introduction in which Leppert traces his intellectual development, defined in large part by the social, cultural, and political upheavals of the 1960s and their aftermath both in the academy and in society at large.

Stamped from the Beginning Ibram X. Kendi.2016-04-12 The National Book Award winning history of how racist ideas were created, spread, and deeply rooted in American society. Some Americans insist that we're living in a post-racial society. But racist thought is not just alive and well in America -- it is more sophisticated and more insidious than ever. And as award-winning historian Ibram X. Kendi argues, racist ideas have a long and lingering history, one in which nearly every great American thinker is complicit. In this deeply researched and fast-moving narrative, Kendi chronicles the entire story of anti-black racist ideas and their staggering power over the course of American history. He uses the life stories of five major American intellectuals to drive this history: Puritan minister Cotton Mather,

Thomas Jefferson, abolitionist William Lloyd Garrison, W.E.B. Du Bois, and legendary activist Angela Davis. As Kendi shows, racist ideas did not arise from ignorance or hatred. They were created to justify and rationalize deeply entrenched discriminatory policies and the nation's racial inequities. In shedding light on this history, *Stamped from the Beginning* offers us the tools we need to expose racist thinking. In the process, he gives us reason to hope.

Indigenous Miracles Edward W. Osowski. 2010-09-15 Edward Osowski focuses on a regional set of Nahua Constantines, who, with their conversionary moments generations behind them, sought to lead by example---through patronage, public demonstrations of devotion around chosen holy images, ritual good works and almscollection schemes, and a jealous guardianship of indigenous roles in the pious parading of Christian membership and privilege. Osowski's study banishes older views of a uniformly disoriented native society, trudging drunk and leaderless into the colonial new order, duped into demeaning collaboration and the limits of social climbing. His stress upon a selflegitimizing indigenous nobility, and upon the calculated and instrumental aims of these protagonists, raises vital questions that ought to stimulate new lines of research into Nahua Christian expression, not least those exploring what such vibrant religious membership and shared devotions included, and what they felt like to a widening and multi-ethnic body of participants. ---Kenneth Mills, University of Toronto, co-editor of *Colonial Latin America: A Documentary History* A highly significant work of religious and urban history, Osowski's book has much to teach us about Nahua life, Culture, and religious practice in eighteenth-century New Spain. ---Susan Kellogg, author of *Law and the Transformation of Aztec Culture, 1500-1700* While King Carlos I of Spain struggled to suppress the Protestant Reformation in the Old World, the Spanish turned to New Spain to promote the Catholic cause, unimpeded by the

presence of the false Old World religions. To this end, Osowski writes, the Spanish saw indigenous people as necessary protagonists in the anticipated triumph of the faith. As the conversion of the indigenous people of Mexico proceeded in earnest, Catholic ritual became the medium through which indigenous leaders and Spaniards negotiated colonial hegemony. *Indigenous Miracles* is about how the Nahua elite of central Mexico secured political legitimacy through the administration of public rituals centered on miraculous images of Christ the King. Osowski argues that these images were adopted as community symbols and furthermore allowed Nahua leaders to represent their own kingship, protecting their claims to legitimacy. This legitimacy allowed them to act collectively to prevent the loss of many aspects of their culture. Osowski demonstrates how a shared religion admitted the possibility of indigenous agency and new ethnic identities. Consulting both Nahuatl and Spanish sources, Osowski strives to fill a gap in the history of the Nahuas from 1760 to 1810, a momentous time when previously sanctioned religious practices were condemned by the viceroys and archbishops of the Bourbon royal dynasty. His approach synthesizes ethnohistory and institutional history to create a fascinating account of how and why the Nahuas protected the practices and symbols they had appropriated under Hapsburg rule. Ultimately, Osowski's account contributes to our understanding of the ways in which indigenous agency was negotiated in colonial Mexico.

Dead Lands Stacey Marie Brown. 2021-06-15 Kidnapped by the notorious rebel group, Provstat, Brexley finds her connection goes deeper than she ever imagined. Reunited with old acquaintances and an uncle she never knew, Brexley is thrown into the vicious world of politics, where human and fae leaders will do anything to come out on top. Here dangerous associations and meticulous plots are far more dangerous and cutthroat than any game she survived in Halálház. If her life wasn't complicated enough, her relationship with the infamous legend is growing stronger. The more she tries to untangle the link between Warwick and her, the thicker it wraps around them both, entwining them in a world between life and death, where brutal passion and fury collide. When whispers of a coveted magical substance, called the nectar, start buzzing louder, Brexley's strange bond to the fae book leads her on an unexpected journey. One that brings her closer to the answers she seeks. But once she opens the door, all the secrets and lies of her past come flooding out. Truths she's not ready to face. And betrayals that cut bone deep.

Silver Treasures from the Land of Sheba Marjorie

Ransom.2014-07-12 The first illustrated study of ethnic silver jewelry in Yemen, by an expert researcher and collector Silver Treasures from the Land of Sheba documents a disappearing artistic and cultural tradition with over three hundred photographs showing individual pieces, rare images of women wearing their jewelry with traditional dress, and the various regions in Yemen where the author did her field research.

Ransom's descriptions of the people she met and befriended, and her exploration of the significance of a woman's handmade jewelry with its attributes of power, protection, beauty, and personal identity, will appeal to ethnic jewelry fans, ethnographers, jewelry designers, and art historians. Amulet cases, hair ornaments, bridal headdresses, earrings, necklaces, ankle and wrist bracelets are all beautifully photographed in intricate detail, interspersed with the author's own photographs of the women who shared their stories and their hospitality with her. A chapter on the history of silversmithing in Yemen tells the surprising story of the famed Jewish Yemeni silversmiths, many of whom left Yemen in the late 1940s. This is the first in-depth study of Yemeni silver, uniquely illustrated with photographs of a world that is transforming before our eyes, and animated with the portraits of a precious legacy.
