Patterns of Local Autonomy in Europe Andreas Ladner, Nicolas Keuffer, Harald Baldersheim, Nikos Hlepas, Pawel Swianiewicz, Kristof Steyvers, Carmen Navarro. 2018-10-26 This book considers local autonomy, measured as a multidimensional concept, from a cross-country comparative perspective, and examines how variations can be explained and what their consequences are. It fills a gap in the literature by providing a comprehensive study of the different components of local autonomy across a large number of countries, over time. It offers a theoretically saturated concept to measure local autonomy and applies it to 39 countries, including all 28 EU member states together with Albania, Georgia, Iceland, Liechtenstein, Macedonia, Moldova, Norway, Serbia, Switzerland Turkey and Ukraine, over a period of 25 years (1990-2014).

The Image before the Weapon Helen M. Kinsella. 2011-05-02 Since at least the Middle Ages, the laws of war have distinguished between combatants and civilians under an injunction now formally known as the principle of distinction. The principle of distinction is invoked in contemporary conflicts as if there were an unmistakable and sure distinction to be made between combatant and civilian. As is so brutally evident in armed conflicts, it is precisely the distinction between civilian and combatant, upon which the protection of civilians is founded, cannot be taken as self-evident or stable. Helen M. Kinsella documents that the history of international humanitarian law itself admits the difficulty of such a distinction. In *The Image before the Weapon*, Kinsella explores the evolution of the concept of the civilian and how it has been applied in warfare. A series of discourses—including gender, innocence, and civilization—have shaped the legal, military, and historical understandings of the civilian and she documents how these discourses converge at particular junctures to demarcate the difference between civilian and combatant. Engaging with works on the law of war from the earliest thinkers in the Western tradition, including St. Thomas Aquinas and Christine de Pisan, to contemporary figures such as James Turner Johnson and Michael Walzer, Kinsella identifies the foundational ambiguities and inconsistencies in the principle of distinction, as well as the significant role played by Christian concepts of mercy and charity. She then turns to the definition and treatment of civilians in specific armed conflicts: the American Civil War and the U.S.-Indian wars of the nineteenth century, and the civil wars of Guatemala and El Salvador in the 1980s. Finally, she analyzes the two modern treaties most influential for the principle of distinction: the 1949 IV Geneva Convention Relative to the Protection of Civilian Persons in Times of War and the 1977 Protocols Additional to the 1949 Conventions, which for the first time formally defined the civilian within international law. She shows how the experiences of the two world wars, but particularly World War II, and the Algerian war of independence affected these subsequent codifications of the laws of war. As recognition grows that compliance with the principle of distinction to limit violence against civilians depends on a firmer grasp of its legal, political, and historical evolution, *The Image before the Weapon* is a timely intervention in debates about how best to protect civilian populations.

A Commentary on the United Nations Convention on the Rights of the Child Sharon Detrick. 2023-12-18 This book provides a commentary on the United Nations Convention on the Rights of the Child, which was adopted by the General Assembly of the United Nations on 20 November 1989. Part One contains a general introduction to the Convention on the Rights of the Child, and deals with matters such as the drafting history, the contents, direct application, horizontal effects, limitations, the Committee on the Rights of the Child, and the Convention's final provisions. Part Two contains an article-by-article commentary, the aim of which is not to give an interpretation of the precise nature and scope of States parties' obligations but, rather, to identify the materials, or sources, which provide guidance in that regard. In the identification of such materials, attention has been paid to the general rules of treaty interpretation, as set forth in the Vienna Convention on the Law of Treaties.

Australasia and Pacific Ombudsman Institutions International Ombudsman Institute. 2013-01-09 Commissioned by the International Ombudsman Institute (IOI), the Ludwig Boltzmann Institute of Human Rights (BIM) in Vienna conducted a comparative analytical study on Ombudsman Institutions in the Australasia and Pacific region between January 2011 and April 2012. In Part 1, this book provides an analytical comparison of the public sector Ombudsman Institutions in Australia (the Commonwealth Ombudsman and the state/territory Ombudsmen of all Australian states as well as of the Northern Territory and the ACT), the Cook Islands, Hong Kong, New Zealand, Papua New Guinea, Samoa, Taiwan, Tonga and Vanuatu. In addition to a comparative analysis showing the partial heterogeneity of the Institutions, a comprehensive overview of common features, and explorations of the specifics and peculiarities of the Institutions, Part 2 presents separate reports on the 16 different jurisdictions featuring their main functions as follows: - Legal basis, legal status and organisation, - Mandate, object of control and standard of control, - Powers, including legal quality and impact of the outcomes of investigative procedures, - Relationship to the administration, the judiciary and the legislator, and - Special characteristics. Part 2 is based on information provided by the Institutions themselves in questionnaires sent out at the outset of the study, an analysis of the respective establishing acts and other relevant laws, and on relevant scientific publications and the Institutions' Annual Reports. Structure and Synthesis of PID Controllers Aniruddha Datta, Ming-Tzu Ho, Shankar P. Bhattacharyya. 2013-03-14 In many industrial applications, the existing constraints mandate the use of controllers of low and fixed order while typically, modern methods of optimal control produce high-order controllers. The authors seek to start to bridge the resultant gap and present a novel methodology for the design of low-order controllers such as those of the P, PI and PID types. Written in a self-contained and tutorial fashion, this book first develops a fundamental result, generalizing a classical stability theorem - the Hermite-Biehler Theorem - and then applies it to designing controllers that are widely used in industry. It contains material on: • current techniques for PID controller design; • stabilization of linear time-invariant plants using PID controllers; •

optimal design with PID controllers; • robust and non-fragile PID controller design; • stabilization of first-order systems with time delay; • constant-gain stabilization with desired damping • constant-gain stabilization of discrete-time plants.

Useful Enemies Noel Malcolm.2019-05-02 From the fall of Constantinople in 1453 until the eighteenth century, many Western European writers viewed the Ottoman Empire with almost obsessive interest. Typically they reacted to it with fear and distrust; and such feelings were reinforced by the deep hostility of Western Christendom towards Islam. Yet there was also much curiosity about the social and political system on which the huge power of the sultans was based. In the sixteenth century, especially, when Ottoman territorial expansion was rapid and Ottoman institutions seemed particularly robust, there was even open admiration. In this path-breaking book Noel Malcolm ranges through these vital centuries of East-West interaction, studying all the ways in which thinkers in the West interpreted the Ottoman Empire as a political phenomenon - and Islam as a political religion. *Useful Enemies* shows how the concept of 'oriental despotism' began as an attempt to turn the tables on a very positive analysis of Ottoman state power, and how, as it developed, it interacted with Western debates about monarchy and government. Noel Malcolm also shows how a negative portrayal of Islam as a religion devised for political purposes was assimilated by radical writers, who extended the criticism to all religions, including Christianity itself. Examining the works of many famous thinkers (including Machiavelli, Bodin, and Montesquieu) and many less well-known ones, *Useful Enemies* illuminates the long-term development of Western ideas about the Ottomans, and about Islam. Noel Malcolm shows how these ideas became intertwined with internal Western debates about power, religion, society, and war. Discussions of Islam and the Ottoman Empire were thus bound up with mainstream thinking in the West on a wide range of important topics. These Eastern enemies were not just there to be denounced. They were there to be made use of, in arguments which contributed significantly to the development of Western political thought.

Compulsory Arbitration Richard A. Bales.2019-06-07 This is the first book on a crucial issue in human resource management. In recent years, employers have begun to require, as a condition of employment, that their nonunion employees agree to arbitrate rather than litigate any employment disputes, including claims of discrimination. As the number of employers considering such a requirement soars, so does the fear that compulsory arbitration may eviscerate the statutory rights of employees. Richard A. Bales explains that the advantages of arbitration are clear. Much faster and less expensive than litigation, arbitration provides a forum for the many employees who are shut out of the current litigative system by the cost and by the tremendous backlog of cases. On the other hand, employers could use arbitration abusively. Bales views the current situation as an ongoing experiment. As long as the courts continue to enforce agreements that are fundamentally fair to employees, the experiment will continue. After tracing the history of employment arbitration in the nonunion sector, Bales explains how employment arbitration has actually worked in the securities industry and at Brown & Root, a company with a comprehensive dispute resolution process. He concludes by summarizing the advantages, disadvantages, and policy implications of adopting arbitration as the preeminent method of resolving disputes in the American workforce.

Brexit Harold D. Clarke, Matthew Goodwin, Paul Whiteley.2017-04-20 In June 2016, the United Kingdom shocked the world by voting to leave the European Union. As this book reveals, the historic vote for Brexit marked the culmination of trends in domestic politics and in the UK's relationship with the EU that have been building over many years. Drawing on a wealth of survey evidence collected over more than ten years, this book explains why most people decided to ignore much of the national and international community and vote for Brexit. Drawing on past research on voting in major referendums in Europe and elsewhere, a team of leading academic experts analyse changes in the UK's party system that were catalysts for the referendum vote, including the rise of the UK Independence Party (UKIP), the dynamics of public opinion during an unforgettable and divisive referendum campaign, the factors that influenced how people voted and the likely economic and political impact of this historic decision.

Do the Geneva Conventions Matter? Matthew Evangelista, Nina Tannenwald.2017 The Geneva Conventions are the best-known and longest-established laws governing warfare, but what difference do they make to how states engage in armed conflict? Since the start of the War on Terror with 9/11, these protocols have increasingly been incorporated into public discussion. We have entered an era where contemporary wars often involve terrorism and guerrilla tactics, but how have the rules that were designed for more conventional forms of interstate violence adjusted? *Do the Geneva Conventions Matter?* provides a rich, comparative analysis of the laws that govern warfare and a more specific investigation relating to state practice. Matthew Evangelista and Nina Tannenwald convey the extent and conditions that symbolic or ritual compliance translates into actual compliance on the battlefield by looking at important studies across history. To name a few, they navigate through the Algerian War for independence from France in the 1950s and 1960s; the US wars in Korea, Vietnam, Iraq, and Afghanistan; Iranian and Israeli approaches to the laws of war; and the legal obligations of private security firms and peacekeeping forces. Thoroughly researched, this work adds to the law and society literature in sociology, the constructivist literature in international relations, and legal scholarship on internalization. *Do the Geneva Conventions Matter?* gives insight into how the Geneva regime has constrained guerrilla warfare and terrorism and the factors that affect protect human rights in wartime.

Can the European Union Force its Member States to Introduce the Euro? Markus D.W. Stoffels.2019-08-20 Der Verfasser untersucht die - im Verhältnis zu Aktualität und Praxisrelevanz - wenig erforschte Frage, ob die Euroeinführung für alte und neue Mitgliedstaaten mit dem EU-Beitritt verpflichtend wird. Er analysiert hierzu zunächst, ob die Euroeinführung im Prinzip - zunächst unter bewusster Ausblendung des problematischen Wechselkurskonvergenzkriteriums - einen verpflichtenden Charakter hat. Nach Bejahung dieser Frage wendet er sich dem Wechselkurskonvergenzkriterium zu und stellt fest, dass die formelle WKM II-Teilnahme ein notwendiges, aber nicht hinreichendes Kriterium zur Erfüllung dieses Konvergenzkriteriums ist. Da die WKM II-Teilnahme aber ihrerseits freiwillig ausgestaltet ist, macht dies im Ergebnis auch die Euroeinführung insgesamt freiwillig. Ein Mitgliedstaat kann die Euroeinführung daher wie Schweden einfach umgehen, indem er dem WKM II nicht beiträgt. Der Autor zeigt immer wieder auf, wie verschiedene Gruppen von EU-Mitgliedstaaten hinsichtlich der Euro-Einführung in der Vergangenheit behandelt wurden.

Commentary on the Second Geneva Convention .2017-12-21 The application and interpretation of the four Geneva Conventions of 1949 have developed significantly in the sixty years since the International Committee of the Red Cross (ICRC) first published its Commentaries on these important humanitarian treaties. To promote a better understanding of, and respect for, this body of law, the ICRC commissioned a comprehensive update of its original Commentaries, of which this is the second volume. Its preparation was coordinated by Jean-Marie Henckaerts, ICRC legal adviser and head of the project to update the Commentaries. The Second Convention is a key text of international humanitarian law. It contains the essential rules on the protection of the wounded, sick and shipwrecked at sea, those assigned to their care, and the vessels used for their

treatment and evacuation. This article-by-article Commentary takes into account developments in the law and practice to provide up-to-date interpretations of the Convention. The new Commentary has been reviewed by humanitarian-law practitioners and academics from around the world, including naval experts. It is an essential tool for anyone working or studying within this field.

Medieval Worlds Arno Borst.1996-06-22 In *Medieval Worlds: Barbarians, Heretics, and Artists*, medieval historian Arno Borst offers at once an imaginatively narrated tour of medieval society. Issues of language, power, and cultural change come to life as he examines how knights, witches and heretics, monks and kings, women poets, and disputatious university professors existed in the medieval world. Clearly interested in the forms of medieval behavior which gave rise to the seeds of modern society, Borst focuses on three in particular that gave momentum to medieval religious, social, and intellectual movements: the barbaric, heretical, and artistic. Borst concludes by reflecting on his own life as a scholar and draws out lessons for us from the turbulence of the Middle Ages.

Being Fair, Faring Better Roberta Gatti,Sandor Karacsony,Kosuke Anan,Celine Ferré,Carmen de Paz Nieves,Valerie Morrica,Carmen de Paz,Abla Safir.2016-02-05 In Central and Eastern European countries, inequalities for Roma families living in marginalized communities start early and are striking. Some of these inequalities reflect hard-wired family circumstances such as being born in poverty. Others reflect lack of opportunities such as limited access to those basic goods and services that are necessary not only for realizing one's potential in life, but also for living with dignity. Gaps between Roma and non-Roma widen over the lifecycle in a way that reinforces and perpetuates disadvantage and translates into significantly unequal outcomes, despite the fact that Roma report having similar aspirations to those of their non-Roma neighbors. Promoting equal opportunities for disadvantaged Roma is not only an imperative for societies that want to call themselves fair, but it is also a smart economic choice, especially in those countries where populations are aging rapidly. Investing early, with a particular emphasis on supporting healthy and cognitive development for disadvantaged Roma children, is likely to go a long way in promoting fair chances. However, leveling the playing field in childhood is likely not enough: disadvantaged Roma continue being exposed to unequal opportunities at key nodes in their lives, such as when pursuing education or when looking for a job. Therefore, it is as important that a broader set of policies address some of the circumstances in which a large share of Roma children grow up, including access to employment and decent living conditions for their families. Implementing interventions that help overcome these interrelated barriers will require strong ownership at the national level, coordinated policies across different ministries and government levels, and an integrated delivery system that is grounded in approaches that are customized to local conditions and implemented in a participatory manner. Good practices in Europe and elsewhere show that inclusion of the most disadvantaged - including many Roma - is possible and the current programming cycle for European Funds represents a unique opportunity to fund such interventions.
