**Floaters: Poems** Martín Espada.2021-01-19 Winner of the 2021 National Book Award for Poetry From the winner of the Ruth Lilly Poetry Prize come masterfully crafted narratives of protest, grief and love. Martín Espada is a poet who stirs in us an undeniable social consciousness, says Richard Blanco. *Floaters* offers exuberant odes and defiant elegies, songs of protest and songs of love from one of the essential voices in American poetry. *Floaters* takes its title from a term used by certain Border Patrol agents to describe migrants who drown trying to cross over. The title poem responds to the viral photograph of Óscar and Valeria, a Salvadoran father and daughter who drowned in the Río Grande, and allegations posted in the I'm 10-15 Border Patrol Facebook group that the photo was faked. Espada bears eloquent witness to confrontations with anti-immigrant bigotry as a tenant lawyer years ago, and now sings the praises of Central American adolescents kicking soccer balls over a barbed wire fence in an internment camp founded on that same bigotry. He also knows that times of hate call for poems of love—even in the voice of a cantankerous Galápagos tortoise. The collection ranges from historical epic to achingly personal lyrics about growing up, the baseball that drops from the sky and smacks Espada in the eye as he contemplates a girl's gently racist question. Whether celebrating the visionaries—the fallen dreamers, rebels and poets—or condemning the outrageous governmental neglect of his father's Puerto Rico in the wake of Hurricane María, Espada invokes ferocious, incandescent spirits.

*Foods of Association* Nina Lilian Etkin.2009 ÒWe should look for someone to eat and drink with before looking for something to eat and drink.Ó ÑEpicurus This fascinating book examines the biology and culture of foods and beverages that are consumed in communal settings, with special attention to their health implications. Nina Etkin covers a wealth of topics, exploring human evolutionary history, the Slow Food movement, ritual and ceremonial foods, caffeinated beverages, spices, the street foods of Hawaii and northern Nigeria, and even bottled water. Her work is framed by a biocultural perspective that considers both the physiological implications of consumption and the cultural construction and circulation of foods. For Etkin, the foods and beverages we consume are simultaneously Òbiodynamic substances and cultural objects.Ó The book begins with a look at the social eating habits of our primate relatives and discusses our evolutionary adaptations. It then offers a history of social foods in the era of European expansion, with a focus on spices and Òcaffeinated cordials.Ó (Of course, there were some powerful physiological consequences of eating foods brought home by returning explorers, and those are considered tooÑAlong with consequences for native peoples.) From there, the book describes Òstreet food,Ó which is always served in communal settings. Etkin then scrutinizes ceremonial foods and beverages, and considers their pharmacological effects as well. Her extensive examination concludes by assessing the biological and cultural implications of bottled water. While intended primarily for scholars, this enticing book serves up a tantalizing smorgasbord of food for thought.

Baking Powder Wars Linda Civitello.2017-05-22 First patented in 1856, baking powder sparked a classic American struggle for business supremacy. For nearly a century, brands battled to win loyal consumers for the new leavening miracle, transforming American commerce and advertising even as

they touched off a chemical revolution in the world's kitchens. Linda Civitello chronicles the titanic struggle that reshaped America's diet and rewrote its recipes. Presidents and robber barons, bare-knuckle litigation and bold-faced bribery, competing formulas and ruthless pricing--Civitello shows how hundreds of companies sought market control, focusing on the big four of Rumford, Calumet, Clabber Girl, and the once-popular brand Royal. She also tells the war's untold stories, from Royal's claims that its competitors sold poison, to the Ku Klux Klan's campaign against Clabber Girl and its German Catholic owners. Exhaustively researched and rich with detail, *Baking Powder Wars* is the forgotten story of how a dawning industry raised Cain--and cakes, cookies, muffins, pancakes, donuts, and biscuits.

**The Right to Be Out** Stuart Biegel.2018-10-23 An updated edition of this measured, practical, and timely guide to LGBT rights and issues for educators and school officials With ongoing battles over transgender rights, bullying cases in the news almost daily, and marriage equality only recently the law of the land, the information in *The Right to Be Out* could not be more timely or welcome. In an updated second edition that explores the altered legal terrain of LGBT rights for students and educators, Stuart Biegel offers expert guidance on the most challenging concerns in this fraught context. Taking up the pertinent questions likely to arise regarding curriculum and pedagogy in the classroom, school sports, and transgender issues, Biegel reviews the dramatic legal developments of the past decades, identifies the principles at work, and analyzes the policy considerations that result from these changes. Central to his work is an understanding of the social, political, and personal tensions regarding the nature and extent of the right to be out, which includes both the First Amendment right to express an identity and the Fourteenth Amendment right to be treated equally. Acknowledging that LGBT issues affect people of every sexual orientation and gender identity, Biegel provides a road map of viable strategies for school officials and educators. *The Right to Be Out*, informed by the latest research-based findings, advances the proposition that a safe and supportive educational environment, built upon shared values and geared toward a greater appreciation of our pluralistic society, can lead to a better world for everyone.

**Decarcerating Disability** Liat Ben-Moshe.2020-05-19 This vital addition to carceral, prison, and disability studies draws important new links between deinstitutionalization and decarceration Prison abolition and decarceration are increasingly debated, but it is often without taking into account the largest exodus of people from carceral facilities in the twentieth century: the closure of disability institutions and psychiatric hospitals. *Decarcerating Disability* provides a much-needed corrective, combining a genealogy of deinstitutionalization with critiques of the current prison system. Liat Ben-Moshe provides groundbreaking case studies that show how abolition is not an unattainable goal but rather a reality, and how it plays out in different arenas of incarceration—antipsychiatry, the field of intellectual disabilities, and the fight against the prison-industrial complex. Ben-Moshe discusses a range of topics, including why deinstitutionalization is often wrongly blamed for the rise in incarceration; who resists decarceration and deinstitutionalization, and the coalitions opposing such resistance; and how understanding deinstitutionalization as a form of residential integration makes visible intersections with racial desegregation. By connecting deinstitutionalization with prison abolition, *Decarcerating Disability* also illuminates some of the limitations of disability rights and inclusion discourses, as well as tactics such as litigation, in securing freedom. *Decarcerating Disability's* rich analysis of lived experience, history, and culture helps to chart a way out of a failing system of incarceration.

**Rancho Costa Nada** Phil Garlington.2003-01-01 Rancho Costa Nada outlines the principles for the dirt cheap desert homestead, including transportation, sanitation, food storage, electricity, and much, much more, plus fascinating portraits of the desert homesteaders who are Phil Garlington's neighbours. This book is an American classic, full of ingenuity and good old Yankee know-how, and making do, and living way off the grid, and getting by on your own without kissing anybody's ass, or being a slave to the consumer economy. This is an amazing tale of what can be done on a low-tech scale with good old American free-thinking in these high-tech times.

**I Will Survive** Gloria Gaynor.2014-03-11 I Will Survive is the story of Gloria Gaynor, America's Queen of Disco. It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including Honey Bee, I Got You Under My Skin, Never Can Say Goodbye, and the song that has immortalized her, I Will Survive, which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

**Hudson Bay Bound** Natalie Warren.2021-02-02 The remarkable eighty-five-day journey of the first two women to canoe the 2,000-mile route from Minneapolis to Hudson Bay Unrelenting winds, carnivorous polar bears, snake nests, sweltering heat, and constant hunger. Paddling from Minneapolis to Hudson Bay, following the 2,000-mile route made famous by Eric Sevareid in his 1935 classic Canoeing with the Cree, Natalie Warren and Ann Raiho faced unexpected trials, some harrowing, some simply odd. But for the two friends—the first women to make this expedition—there was one timeless challenge: the occasional pitfalls that test character and friendship. Warren's spellbinding account retraces the women's journey from inspiration to Arctic waters, giving readers an insider view from the practicalities of planning a three-month canoe expedition to the successful accomplishment of the adventure of a lifetime. Along the route we meet the people who live and work on the waterways, including denizens of a resort who supply much-needed sustenance; a solitary resident in the wilderness who helps plug a leak; and the people of the Cree First Nation at Norway House, where the canoeists acquire a furry companion. Describing the tensions that erupt between the women (who at one point communicate with each other only by note) and the natural and human-made phenomena they encounter—from islands of trash to waterfalls and a wolf pack—Warren brings us into her experience, and we join these modern women (and their dog) as they recreate this historic trip, including the pleasures and perils, the sexism, the social and environmental implications, and the enduring wonder of the wilderness.

**Off the Network** Ulises Ali Mejias.2013-06-01 The digital world profoundly shapes how we work and consume and also how we play, socialize, create identities, and engage in politics and civic life. Indeed, we are so enmeshed in digital networks—from social media to cell phones—that it is hard to conceive of them from the outside or to imagine an alternative, let alone defy their seemingly inescapable power and logic. Yes, it is (sort of) possible to quit Facebook. But is it possible to disconnect from the digital network—and why might we want to? Off the Network is a fresh and authoritative examination of how the hidden logic of the Internet, social media, and the digital network is changing users' understanding of the world—and why that should worry us. Ulises Ali Mejias also suggests how we might begin to rethink the logic of the network and question its ascendancy. Touted as consensual, inclusive, and pleasurable, the digital network is also, Mejias says, monopolizing and threatening in its capacity to determine, commodify, and commercialize so many aspects of our lives. He shows how the network broadens participation yet also exacerbates

disparity—and how it excludes more of society than it includes. Uniquely, Mejias makes the case that it is not only necessary to challenge the privatized and commercialized modes of social and civic life offered by corporate-controlled spaces such as Facebook and Twitter, but that such confrontations can be mounted from both within and outside the network. The result is an uncompromising, sophisticated, and accessible critique of the digital world that increasingly dominates our lives.

In *Medicine and Slavery*, Todd L. Savitt evaluates the diet, hygiene, clothing, and living and working conditions of antebellum African Americans, slave and free, and analyzes the diseases and health conditions that afflicted them in urban areas, at industrial sites, and on plantations.

**Mind in a Physical World** Jaegwon Kim.2000 This book, based on Jaegwon Kim's 1996 Townsend Lectures, presents the philosopher's current views on a variety of issues in the metaphysics of the mind—in particular, the mind-body problem, mental causation, and reductionism. This book, based on Jaegwon Kim's 1996 Townsend Lectures, presents the philosopher's current views on a variety of issues in the metaphysics of the mind—in particular, the mind-body problem, mental causation, and reductionism. Kim construes the mind-body problem as that of finding a place for the mind in a world that is fundamentally physical. Among other points, he redefines the roles of supervenience and emergence in the discussion of the mind-body problem. Arguing that various contemporary accounts of mental causation are inadequate, he offers his own partially reductionist solution on the basis of a novel model of reduction. Retaining the informal tone of the lecture format, the book is clear yet sophisticated.

**Keeping the Republic** Christine Barbour,Gerald C. Wright.2018-11-23 Keeping the Republic gives students the power to examine the narrative of what's going on in American politics, distinguish fact from fiction and balance from bias, and influence the message through informed citizenship. Keeping the Republic draws students into the study of American politics, showing them how to think critically about who gets what, and how while exploring the twin themes of power and citizenship. Students are pushed to consider how and why institutions and rules determine who wins and who loses in American politics, and to be savvy consumers of political information. The thoroughly updated Eighth Edition considers how a major component of power is who controls the information, how it is assembled into narratives, and whether we come to recognize fact from fiction. Citizens now have unprecedented access to power - the ability to create and share their own narratives - while simultaneously being even more vulnerable to those trying to shape their views. The political landscape of today gives us new ways to keep the republic, and some high-tech ways to lose it. Throughout the text and its features, authors Christine Barbour and Gerald Wright show students

how to effectively apply the critical thinking skills they develop to the political information they encounter every day. Students are challenged to deconstruct prevailing narratives and effectively harness the political power of the information age for themselves. Up-to-date with 2018 election results and analysis, as well as the impact of recent Supreme Court rulings, shifting demographics, and emerging and continuing social movements, *Keeping the Republic*, Eighth Edition is a much-needed resource to help students make sense of politics in America today. *A Love Affair with Birds* Sue Leaf.2013-05-01 The father of Minnesota ornithology, whose life story opens a window on a lost world of nature and conservation in the state's early days Imagine a Minneapolis so small that, on calm days, the roar of St. Anthony Falls could be heard in town, a time when passenger pigeons roosted in neighborhood oak trees. Now picture a dapper professor conducting his ornithology class (the university's first) by streetcar to Lake Harriet for a morning of bird-watching. The students were mostly young women—in sunhats, sailor tops, and long skirts, with binoculars strung around their necks. The professor was Thomas Sadler Roberts (1858–1946), a doctor for three decades, a bird lover virtually from birth, the father of Minnesota ornithology, and the man who, perhaps more than any other, promoted the study of the state's natural history. *A Love Affair with Birds* is the first full biography of this key figure in Minnesota's past. Roberts came to Minnesota as a boy and began keeping detailed accounts of Minneapolis's birds. These journals, which became the basis for his landmark work *The Birds of Minnesota*, also inform this book, affording a view of the state's rich avian life in its early days—and of a young man whose passion for birds and practice of medicine in a young Minneapolis eventually dovetailed in his launching of the beloved Bell Museum of Natural History. Bird enthusiast, doctor, author, curator, educator, conservationist: every chapter in Roberts's life is also a chapter in the state's history, and in his story acclaimed author Sue Leaf—an avid bird enthusiast and nature lover herself—captures a true Minnesota character and his time.

People of the Seventh Fire Dagmar Thorpe.1996

*For the Love of Cod* Eric Dregni.2023-04-04 A journey to find Norway's supposed bliss makes for a comic travelogue that asks, seriously, what makes Norwegians so damn happy—and does it translate? Norway is usually near or at the top of the World Happiness Report. But is it really one of the happiest countries on Earth? Eric Dregni had his doubts. Years ago he and his wife had lived in this country his great-great-grandfather once fled. When their son Eilif was born there, the Norwegian government paid for the birth, gave them \$5,000, and deposited \$150 into their bank account every month, but surely happiness was more than a generous health care system. What about all those grim months without sun? When Eilif turned fifteen, father and son decided to go back together and investigate. *For the Love of Cod* is their droll report on the state of purported Norwegian bliss. Arriving in May, a month of festivals and eternal sun, the Dregnis are thrust into Norway at its merriest—and into the reality of the astronomical cost of living, which forces them to find lodging with friends and relatives. But this gives them an inside look at the secrets to a better life. It's not the massive amounts of money flowing from the North Sea oil fields but how these funds are distributed that fuels the Norwegian version of democratic socialism—resulting in miniscule differences between rich and poor. Locals introduce them to the principles underlying their avowed contentment, from an active environmentalism that translates into flyskam (flight shame), which keeps Norwegians in the family cabin for the long vacations prescribed by law and charges a 150 percent tax on gas guzzlers (which, Eilif observes, means more Teslas seen in one hour than in a year in Minnesota!). From a passion for dugnad or community volunteerism and sakte or “slow,” a rejection of the mad pace of modernity, to the commodification of Viking history and the dark side of Black Metal music that turns the idea of quaint, traditional Norway upside down, this idiosyncratic father and son tour lets readers, free of flyskam, see how, or whether, Norwegian happiness translates.

*The Life and Death of Sophie Stark* Anna North.2015-05-19 Winner of the 2016 Lambda Literary Award for Bisexual Fiction “I read *The Life and Death of Sophie Stark* with my heart in my mouth. Not only a dissection of genius and the havoc it can wreak, but also a thunderously good story.”—Emma Donoghue, New York Times bestselling author of *Room* “This novel is perceptive, subtle, funny and lingers in unexpected ways. The analysis of a woman who puts her art above all else is equal parts inspiration and warning story. Anna North makes prose look easy.”—Lena Dunham Gripping and provocative, *The Life and Death of Sophie Stark* is a haunting story of fame, love, and legacy told through the propulsive rise of an iconoclastic artist. Sophie Stark begins her filmmaking career by creating a documentary about her obsession, Daniel, a college basketball star. But when she becomes too invasive, she finds herself the victim of a cruel retribution. The humiliation doesn't stop her. Visionary and unapologetic, Sophie begins to use stories from the lives of those around her to create movies, and as she gains critical recognition and acclaim, she risks betraying the one she loves most. Told in a chorus of voices belonging to those who knew Sophie best, *The Life and Death of Sophie Stark* is an intimate portrait of an elusive woman whose monumental talent and relentless pursuit of truth reveal the cost of producing great art. It is “not only a dissection of genius and the havoc it can wreak, but also a thunderously good story” (Emma Donoghue).
