In Memory of Bread Paul Graham.2016-06-07 The funny, poignant memoir of one man’s struggle to come to terms with his celiac diagnosis, forcing him to reexamine his relationship with food. When Paul Graham was suddenly diagnosed with celiac disease at the age of thirty-six, he was forced to say goodbye to traditional pasta, pizza, sandwiches, and more. Gone, too, were some of his favorite hobbies, including brewing beer with a buddy and gorging on his wife’s homemade breads. Struggling to understand why he and so many others had become allergic to wheat, barley, rye, oats, and other dietary staples, Graham researched the production of modern wheat and learned that not only has the grain been altered from ancestral varieties but it’s also commonly added to thousands of processed foods. In writing that is effortless and engaging, Paul explores why incidence of the disease is on the rise while also grappling with an identity crisis—given that all his favorite pastimes involved wheat in some form. His honest, unflinching, and at times humorous journey towards health and acceptance makes an inspiring read.

Amusing Ourselves to Death Neil Postman. 2005-12-27 What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the

corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. “A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one.” -Jonathan Yardley, The Washington Post Book World

Confidence built, you can graduate to wood, and work through photographic steps, practising each technique with specific projects, and enjoying the increasingly polished results. You'll learn how to sand, paint and decorate your carvings and the final chapters teach you how to make jointed figures and how to undertake minute groups, from a Noah's Ark to a forest scene.

The Man Who Made Things Out of Trees Robert Penn. 2016-07-25 The story of how one man cut down a single tree to see how many things could be made from it. Out of all the trees in the world, the ash is most closely bound up with who we are: the tree we have made the greatest and most varied use of over the course of human history. One frigid winter morning, Robert Penn lovingly selected an ash tree and cut it down. He wanted to see how many beautiful, handmade objects could be made from it. Thus begins an adventure of craftsmanship and discovery. Penn visits the shops of modern-day woodworkers—whose expertise has been handed down through generations—and finds that ancient woodworking techniques are far from dead. He introduces artisans who create a flawless axe handle, a rugged and true wagon wheel, a deadly bow and arrow, an Olympic-grade toboggan, and many other handmade objects using their knowledge of ash's unique properties. Penn

connects our daily lives back to the natural woodlands that once dominated our landscapes. Throughout his travels—from his home in Wales, across Europe, and America—Penn makes a case for the continued and better use of the ash tree as a sustainable resource and reveals some of the dire threats to our ash trees. The emerald ash borer, a voracious and destructive beetle, has killed tens of millions of ash trees across North America since 2002. Unless we are prepared to act now and better value our trees, Penn argues, the ash tree and its many magnificent contributions to mankind will become a thing of the past. This exuberant tale of nature, human ingenuity, and the pleasure of making things by hand chronicles how the urge to understand and appreciate trees still runs through us all like grain through wood.

French Rococo Ébénisterie in the J. Paul Getty Museum Gillian Wilson, Arlen

Heginbotham. 2021-03-30 The first comprehensive catalogue of the Getty Museum's significant collection of French Rococo ébénisterie furniture. This catalogue focuses on French ébénisterie furniture in the Rococo style dating from 1735 to 1760. These splendid objects directly reflect the tastes of the Museum's founder, J. Paul Getty, who started collecting in this area in 1938 and continued until his death in 1976. The Museum's collection is particularly rich in examples created by the most talented cabinet masters then active in Paris, including Bernard van Risenburgh II (after 1696–ca. 1766), Jacques Dubois (1694–1763), and Jean-François Oeben (1721–1763). Working for members of the French royal family and aristocracy, these craftsmen excelled at producing veneered and marquetry pieces of furniture (tables, cabinets, and chests of drawers) fashionable for their lavish surfaces, refined gilt-bronze mounts, and elaborate design. These objects were renowned throughout Europe at a time when Paris was considered the capital of good taste. The entry on each work comprises both a curatorial section, with description and commentary, and a conservation

report, with construction diagrams. An introduction by Anne-Lise Desmas traces the collection's acquisition history, and two technical essays by Arlen Heginbotham present methodologies and findings on the analysis of gilt-bronze mounts and lacquer. The free online edition of this open-access publication is available at www.getty.edu/publications/rococo/ and includes zoomable, high-resolution photography. Also available are free PDF, EPUB, and Kindle/MOBI downloads of the book, and JPG downloads of the main catalogue images.
