This is the landscape that Kimi Eisele creates in her surprising and original debut novel. Evoking the spirit of such monumental love stories as *Cold Mountain* and the creative vision of novels like *Station Eleven*, *The Lightest Object in the Universe* imagines what happens after the global economy collapses and the electrical grid goes down. In this new world, Carson, on the East Coast, is desperate to find Beatrix, a woman on the West Coast who holds his heart. Working his way along a cross-country railroad line, he encounters lost souls, clever opportunists, and those who believe they’ll be saved by an evangelical preacher in the middle of the country. While Carson travels west, Beatrix and her neighbors begin to construct the kind of cooperative community that suggests the end could be, in fact, a bright beginning.

Without modern means of communication, will Beatrix and Carson find their way to each other, and what will be left of the old world if they do? The answers may lie with a fifteen-year-old girl who could ultimately decide the fate of the lovers. *The Lightest Object in the Universe* is a moving and hopeful story about resilience and adaptation and a testament to the power of community, where our best traits, born of necessity, can begin to emerge.

In study after study, professors Linda Babcock (bestselling author of *Women Don't Ask*), Brenda Peyser, Lise Vesterlund, and Laurie Weingart—the original "No Club"—document that women are disproportionately asked and expected to do this work. The imbalance leaves women overcommitted and underutilized as companies forfeit revenue, productivity, and top talent. The No Club walks you through how to change your workload, empowering women to make savvy decisions about the work they take on. The authors also illuminate how organizations can reassess how they assign and reward work to level the playing field. The Universe Within Neil Turok.2012-09-05 "With [The Universe Within's] deeply thoughtful reflections on the place of science in society, on the need to educate the underserved, and on plenty of other topics rarely addressed in this sort of book, Turok takes you where no physicist has gone before. It's well worth making the journey with him." — TIME Magazine Winner of the Lane

Anderson Award, longlisted for the Charles Taylor Prize, shortlisted for the Libris Award for Non-Fiction and selected as an Amazon.ca Best Book The most anticipated nonfiction book of the season, this year's Massey Lectures is a visionary look at the way the human mind can shape the future by world-renowned physicist Neil Turok. Every technology we rely on today was created by the human mind, seeking to understand the universe around us. Scientific knowledge is our most precious possession, and our future will be shaped by the breakthroughs to come. In this personal, visionary, and fascinating work, Neil Turok, Director of the Perimeter Institute for Theoretical Physics, explores the transformative scientific discoveries of the past three centuries -- from classical mechanics, to the nature of light, to the bizarre world of the quantum, and the evolution of the cosmos. Each new discovery has, over time, yielded new technologies causing paradigm shifts in the organization of society. Now, he argues, we are on the cusp of another major transformation: the coming quantum revolution that will supplant our current, dissatisfying digital age. Facing this brave new world, Turok calls for creatively re-inventing the way advanced knowledge is developed and shared, and opening access to the vast, untapped pools of intellectual talent in the developing world. Scientific research, training, and outreach are vital to our future economy, as well as powerful forces for peaceful global progress. Elegantly written, deeply provocative, and highly inspirational, *The Universe Within* is, above all, about the future -- of science, of society, of ourselves.

I did everything I was supposed to do to live an amazing life - great education, great career, married, mother, home-owner, nice-car owner, fancy vacation taker - or so I thought. I was just rushing to cross things off my to-do list one after another, never stopping to ask myself if all this doing was making me happy. Before the universe was formed, before time and space existed, there was . . . nothing. But then . . . BANG! Stars caught fire and burned so long that they exploded, flinging stardust everywhere. And the ash of those stars turned into planets. Into our Earth. And into us. In a poetic text, Marion Dane Bauer takes readers from the trillionth of a second when our universe was born to the singularities that became each one of us, while vivid illustrations by Ekua Holmes capture the void before the Big Bang and the ensuing life that burst across galaxies. Banneker Bones and the Giant Robot Bees Robert Kent. 2014-09-18 Publication Date: October 31, 2014 - Age Level: 9 - 12 - Grade Level: 4 - UP Let me say at once that I think this is a most original and amusing piece of work. A reader is arrested at the outset by a paradoxical witticism and he goes on being arrested as the story gets into its stride. Ellicott Skullworth and Banneker Bones appear as characters about whom the reader wants to learn more, and soon he begins to be in no doubt about this. --Richard Adams, author of *WATERSHIP DOWN* Fifth grader Ellicott Skullworth has always felt out of place at public school and now he's tested into the Archimedes Program at Latimer University. While in Latimer City, he'll be living with his world famous and insane(ly) brilliant cousin, Banneker Bones, the eleven-year-old inventor of robots. The only problem: Banneker doesn't want to share his room. And he's got an army of robots to make Ellicott miserable until he

goes home. When the boys are ambushed by robot bees as big as cars, Ellicott's only friend is carried off and held for ransom. To rescue him, Ellicott has no choice but to partner with his maniacal cousin. Ellicott doesn't know what's worse: facing a hive of giant robot bees or spending more time with Banneker Bones. *BANNEKER BONES AND THE GIANT ROBOT BEES* features original illustrations by Adam Smith. It's a humorous, science fiction adventure for readers of all ages written in the spirit of a comic book. Ellicott Skullworth turned back to Banneker Bones. Well, anyway, thanks for letting me stay here. Not my idea, Banneker said. You have my mother to thank for that. But she's been wrong before. She adopted a stray puppy once and put it in my room to, he made a face to show his disgust, keep me company. The puppy survived two days. Banneker looked Ellicott up and down as though he were appraising something for purchase and deciding against it. And now she's adopted another stray, hasn't she? We'll just see how long you survive.

My Jasper June Laurel Snyder. 2019-09-03 "This book is a treasure—a touching story of friendship, loss, and finding beauty in the everyday, with characters who stay with you long after you've turned the final page. I absolutely loved it."—R. J. Palacio, New York Times bestselling author of *Wonder* Laurel Snyder, author of *Orphan Island*, returns with another unforgettable story of the moments in which we find out who we are, and the life-altering friendships that show us what we can be. The school year is over, and it is summer in Atlanta. The sky is blue, the sun is blazing, and the days brim with possibility. But Leah feels. . . lost. She has been this way since one terrible afternoon a year ago, when everything changed. Since that day, her parents have become distant, her friends have fallen away, and Leah's been adrift and alone. Then she meets Jasper, a girl unlike anyone she has ever known. There's something mysterious about Jasper, almost magical. And Jasper, Leah discovers, is also lost. Together, the two girls carve out a place for themselves, a hideaway in the

overgrown spaces of Atlanta, away from their parents and their hardships, somewhere only they can find. But as the days of this magical June start to draw to a close, and the darker realities of their lives intrude once more, Leah and Jasper have to decide how real their friendship is, and whether it can be enough to save them both.

Hello, Universe Erin Entrada Kelly. 2017-03-14 Winner of the Newbery Medal “A charming, intriguingly plotted novel.”—Washington Post Newbery Medalist Erin Entrada Kelly’s *Hello, Universe* is a funny and poignant neighborhood story about unexpected friendships. Told from four intertwining points of view—two boys and two girls—the novel celebrates bravery, being different, and finding your inner bayani (hero). “Readers will be instantly engrossed in this relatable neighborhood adventure and its eclectic cast of misfits.”—Booklist In one day, four lives weave together in unexpected ways. Virgil Salinas is shy and kindhearted and feels out of place in his crazy-about-sports family. Valencia Somerset, who is deaf, is smart, brave, and secretly lonely, and she loves everything about nature. Kaori Tanaka is a self-proclaimed psychic, whose little sister,

Gen, is always following her around. And Chet Bullens wishes the weird kids would just stop being so different so he can concentrate on basketball. They aren't friends, at least not until Chet pulls a prank that traps Virgil and his pet guinea pig at the bottom of a well. This disaster leads Kaori, Gen, and Valencia on an epic quest to find missing Virgil. Through luck, smarts, bravery, and a little help from the universe, a rescue is performed, a bully is put in his place, and friendship blooms. The acclaimed and award-winning author of *Blackbird Fly* and *The Land of Forgotten Girls* writes with an authentic, humorous, and irresistible tween voice that will appeal to fans of Thanhha Lai and Rita Williams-Garcia. "Readers across the board will flock to this book that has something for nearly everyone—humor, bullying, self-acceptance, cross-generational relationships, and a smartly fateful ending."—School Library Journal

Blackbird Fly Erin Entrada Kelly. 2015-03-24 Future rock star or friendless misfit? That's no choice at all. In this acclaimed novel by Newbery Medalist Erin Entrada Kelly, twelve-year-old Apple grapples with being different; with friends and backstabbers; and with following her dreams. Publishers Weekly called *Blackbird Fly* "a true triumph," and the Los Angeles Times Book Review said, "Apple soars like the eponymous blackbird of her favorite Beatles song." Apple has always felt a little different from her classmates. She and her mother moved to Louisiana from the Philippines when she was little, and her mother still cooks Filipino foods and chastises Apple for becoming "too American." When Apple's friends turn on her and everything about her life starts to seem weird and embarrassing, Apple turns to music. If she can just save enough to buy a guitar and learn to play, maybe she can change herself. It might be the music that saves her . . . or it might be her two new friends, who show her how special she really is. Erin Entrada Kelly deftly brings Apple's conflicted emotions to the page in her debut novel about family, friendship, popularity, and going your own

way. “A must-read for those kids cringing at their own identities.”—Bulletin of the Center for Children’s Books.

Land of the Cranes (Scholastic Gold) Aida Salazar.2020-09-15 From the prolific author of *The Moon Within* comes the heart-wrenchingly beautiful story in verse of a young Latinx girl who learns to hold on to hope and love even in the darkest of places: a family detention center for migrants and refugees. Nine-year-old Betita knows she is a crane. Papi has told her the story, even before her family fled to Los Angeles to seek refuge from cartel wars in Mexico. The Aztecs came from a place called Aztlan, what is now the Southwest US, called the land of the cranes. They left Aztlan to establish their great city in the center of the universe-Tenochtitlan, modern-day Mexico City. It was prophesized that their people would one day return to live among the cranes in their promised land. Papi tells Betita that they are cranes that have come home.Then one day, Betita's beloved father is arrested by Immigration Customs Enforcement (ICE) and deported to Mexico. Betita and her pregnant mother are left behind on their own, but soon they too are detained and must learn to survive in a family detention camp outside of Los Angeles. Even in cruel and inhumane conditions, Betita finds heart in her own poetry and in the community she and her mother find in the camp. The voices of her fellow asylum seekers fly above the hatred keeping them caged, but each day threatens to tear them down lower than they ever thought they could be. Will Betita and her family ever be whole again?

Those Kids from Fawn Creek Erin Entrada Kelly. 2022-03-08 Every day in Fawn Creek, Louisiana, is exactly the same—until Orchid Mason arrives. From Erin Entrada Kelly, the winner of the Newbery Medal for *Hello, Universe* and a Newbery Honor for *We Dream of Space*, this contemporary school story set in small-town Louisiana is about friendship, family, deception, and being true to yourself and your dreams. There are twelve kids in the seventh grade at Fawn Creek Middle School. They've been together all their lives. And in this small factory town where everyone knows everything about everyone, that's not necessarily a great thing. There are thirteen desks in the seventh-grade classroom. That's because Renni Dean's father got a promotion, and the family moved to Grand Saintlodge, the nearest big town. Renni's desk is empty, but Renni still knows their secrets; is still pulling their strings. When Orchid Mason arrives and slips gracefully into Renni's chair, the other seventh graders don't know what to think. Orchid—who was born in New York City but just moved to Fawn Creek from Paris—seems to float. Her dress skims the floor. She's wearing a flower behind her ear. Fawn Creek Middle might be small, but it has its tightly knit groups—the self-proclaimed “God Squad,” the jocks, the outsiders—just like anyplace else. Who will claim Orchid Mason? Who will save Orchid Mason? Or will Orchid Mason save them? Newbery Medal and

Newbery Honor winner Erin Entrada Kelly explores complex themes centered on family, friendships, and staying true to yourself. Those Kids from Fawn Creek will enchant fans of Thanhha Lai's *Inside Out & Back Again* and Rebecca Stead's *The List of Things That Will Not Change*.
