**Country Dark** Chris Offutt.2018-04-10 “A smart, rich country noir” from the acclaimed author Kentucky Straight and The Good Brother (Stewart O’Nan, bestselling author of Henry, Himself). Chris Offutt is an outstanding literary talent, whose work has been called “lean and brilliant” (The New York Times Book Review) and compared by reviewers to Tobias Wolff, Ernest Hemingway, and Raymond Carver. He’s been awarded the Whiting Writers Award for Fiction/Nonfiction and the American Academy of Arts and Letters Fiction Award, among numerous other honors. His first work of fiction in nearly two decades, Country Dark is a taut, compelling novel set in rural Kentucky from the Korean War to 1970. Tucker, a young veteran, returns from war to work for a bootlegger. He falls in love and starts a family, and while the Tuckers don’t have much, they have the love of their home and each other. But when his family is threatened, Tucker is pushed into violence, which changes everything. The story of people living off the land and by their wits in a backwoods Kentucky world of shine-runners and laborers whose social codes are every bit as nuanced as the British aristocracy, Country Dark is a novel that blends the best of Larry Brown and James M. Cain, with a noose tightening evermore around a man who just wants to protect those he loves. It reintroduces the vital and absolutely distinct voice of Chris Offutt, a voice we’ve been missing for years. “[A] fine homage to a pocket of the country that’s as beautiful as it is prone to tragedy.”—The Wall Street Journal “A pleasure all around.”—Daniel Woodrell, author of Winter’s Bone

**Eltonsbrody** Edgar Mittelholzer.2017-02-07 When Woodsley, a young English painter, arrives in Barbados and finds no lodging available, he thinks himself fortunate to be invited to stay at Eltonsbrody, a mansion belonging to the eccentric widow Mrs Scaife. But behind the locked doors of the house’s disused rooms lurk terrible secrets, and soon strange and blood-curdling events begin to unfold. The tension builds towards a shocking and unforgettable conclusion, when the full horror of Eltonsbrody will be revealed. One of the most prolific and important of 20th-century Caribbean writers, Edgar Mittelholzer (1909-1965) was at his best in Gothic novels like My Bones and My Flute (1955) and Eltonsbrody (1960). This first-ever reissue of Mittelholzer’s weird and chilling tale reproduces the original dust jacket art and includes a new introduction by John Thieme.

Delacroix Sébastien Allard,Côme Fabre,Dominique de Font-Réaulx,Michèle Hannoosh,Mehdi Korchane,Asher Miller.2018-09-12 p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana} Eugène Delacroix (1798–1863) was one of the towering figures to emerge in France in the wake of Napoleon. No other artist of the nineteenth century balanced a reverence for the past with such a strong ambition and spirit of innovation. Distinguishing himself from many other talented young artists in Paris, he gained renown in the 1820s for his novel subject matter, theatrical sense of composition, vibrant palette, and vigorous painterly technique. His vast production—including some eight hundred paintings, prints in a variety of media, and thousands of drawings and pages of writing—won the admiration of countless writers and artists, including Charles Baudelaire, Paul Cézanne, and Pablo Picasso. This comprehensive monograph closely examines the full breadth of Delacroix’s career, including his engagement with the work of his predecessors, his fascination with the natural world, his interest in Lord Byron and the Greek War of Independence, and the profound influence of his voyage to North Africa in 1832. It brings to life his relationships with his contemporaries, ranging from the painters Pierre Narcisse Guérin and Antoine Jean Gros to Gustave Courbet, as well as his exploration of literary, historical, and biblical themes, his writing in personal journals, and his triumphant exhibition at the Exposition Universelle of 1855. Richly illustrated and encompassing the entire range and diversity of his art, from grand paintings to intimate drawings, Delacroix illuminates how this intrepid figure changed the course of European painting by heeding “a call for the liberty of art.”

*Mamaskatch* Darrel J. McLeod.2019-06-11 As a small boy in remote Alberta, Darrel J. McLeod is immersed in his Cree family’s history, passed down in the stories of his mother, Bertha. There he is surrounded by her tales of joy and horror—of the strong men in their family, of her love for Darrel, and of the cruelty she and her sisters endured in residential school—as well as his many siblings and cousins, and the smells of moose stew and wild peppermint tea. And there young Darrel learns to be fiercely proud of his heritage and to listen to the birds that will guide him throughout his life. But after a series of tragic losses, Bertha turns wild and unstable, and their home life becomes chaotic. Sweet and eager to please, Darrel struggles to maintain his grades and pursue interests in music and science while changing homes, witnessing domestic violence, caring for his younger siblings, and suffering abuse at the hands of his brother-in-law. Meanwhile, he begins to question and grapple with his sexual identity—a reckoning complicated by the repercussions of his abuse and his sibling’s own gender transition. Thrillingly written in a series of fractured vignettes, and unflinchingly honest, Mamaskatch—“It’s a wonder!” in Cree—is a heartbreaking account of how traumas are passed down from one generation to the next, and an uplifting story of one individual who overcame enormous obstacles in pursuit of a fulfilling and adventurous life.

Studies of Rare-metal Deposits in the Northwest Territories W. D. Sinclair,D. G. Richardson.1994 This volume contains four papers that report on a wide range of geoscientific activities related to various rare-metal deposits in the Northwest Territories. Two papers represent the results of work carried out on the Blatchford Lake intrusive suite and the associated Thor Lake rare-metal deposits of niobium, tantalum, beryllium, yttrium, rare-earth elements, and gallium. A detailed gravity survey and computer modelling provides an understanding of the three dimensional geometry of the 23 km wide Blatchford Lake. Another paper summarizes some of the extensive pegmatite research done by the University of Manitoba in the Northwest Territories during the 1980s, providing information on the geological setting, geochemistry, and economic potential of four previously undocumented or poorly known rare-element pegmatite occurrences at Ayler Lake, Torp Lake, Chantry Inlet, and the Foxe fields in the Rae Province. Another paper presents a thorough documentation of the geological settings, characteristics, and metallogeny of selected mineral occurrences in the southern part of the Proterozoic Great Bear magnetic zone.

the history of Christianity in China as well as the wider Sino-Western cultural encounter. The guide contains nearly five hundred entries identifying both Roman Catholic and Protestant missionary sending agencies and related religious congregations. Each entry includes the organization's name in English, followed by its Chinese name, country of origin, and denominational affiliation. In addition, a special category of the as yet little-studied indigenous communities of Chinese women has also been included. Multiple indexes enhance the guide's accessibility.

**Integrative Nursing** Mary Jo Kreitzer, Andrew Weil, Mary Koithan. 2018 Fully updated and revised, the second edition of Integrative Nursing is a complete roadmap to integrative patient care, providing a guide to whole person/whole systems assessment and clinical interventions for individuals, families, and communities. Treatment strategies described in this version employ the full complement of evidence-informed methodologies in a tailored, person-centered approach to care. This text explores concepts, skills, and theoretical frameworks that can be used by healthcare leaders interested in creating and implementing an integrative model of care within institutions and systems, featuring exemplar nurse-led initiatives that have transformed healthcare systems. This volume covers the foundations of the field; the most effective ways to optimize wellbeing; principles of symptom management for many common disorders like sleep, anxiety, pain, and cognitive impairment; the application of integrative nursing techniques in a variety of clinical settings and among a diverse patient population; and integrative practices around the world and how it impacts planetary health. The academic rigor of the text is balanced by practical and relevant content that can be readily implemented into practice for both established professionals as well as students enrolled in undergraduate or graduate nursing programs. Integrative medicine is defined as healing-oriented medicine that takes account of the whole person (body, mind, and spirit) as well as all aspects of lifestyle; it emphasizes the therapeutic relationship and makes use of appropriate therapies, both conventional and alternative. Series editor Andrew Weil, MD, is Professor and Director of the Arizona Center for Integrative Medicine at the University of Arizona. Dr. Weil's program was the first such academic program in the U.S., and its stated goal is to combine the best ideas and practices of conventional and alternative medicine into cost effective treatments without embracing alternative practices uncritically.

**Interdisciplinarity and Archaeology** Laura Coltofean-Arizancu, Margarita Díaz-Andreu. 2021-03-15 This book explores the history of interdisciplinary relationships between archaeology and other branches of knowledge in Europe and elsewhere. This is a largely untold history that needs to be unpacked. This book brings to light some of the events leading towards interdisciplinary relations in archaeology from the nineteenth to the twentieth century. It encompasses ten scholarly contributions that offer a critical overview of this complex, dynamic and long-lasting transformative process. This is a pioneering project in the field of the history of archaeology, as it is the first to examine the inclusion into archaeological practice of various disciplines categorized under the umbrella of hard, natural and social sciences, as well as the humanities. The authors of this volume include internationally acknowledged scholars of the history of archaeology, such as Margarita Díaz-Andreu, Nathan Schlanger and Oscar Moro, as well as other well-established authors in the field from Italy, Portugal, Romania, Spain and Switzerland. The chapters cover a wide range of topics. Several of them deal with interdisciplinarity in archaeology on a more general level by analysing its relationship with other sciences in specific countries. Other chapters discuss the incorporation of disciplines such as palynology and zoology into archaeology, either on a wider scale or using certain countries as case studies. Some authors focus on the work of scholars as starting points for examining the intersection between antiquarianism, archaeology, the natural sciences and numismatics, while others theorize on the influence of epistemology and philosophy of science on archaeological theory and practice. Finally, the influence of the army is also discussed in the development of archaeology.
