Murder in Montparnasse Kerry Greenwood. 2017-09-01 A most charming, sexy, independent, and candid heroine; clever, literate dialog; and closely woven plotting will win immediate fans for this debut series. —Library Journal Starred review Seven Australian soldiers, carousing in Paris in 1918, unknowingly witness a murder, with devastating consequences. Ten years later, two are dead...under very suspicious circumstances. Phryne (pronounced Fry-Knee, to rhyme with briny) Fisher's friends, Bert and Cec (sometimes cabbies and sometimes men for hire), appeal to her for help. They were part of this group of soldiers in 1918 and they fear for their lives and for those of the other three men. It's only as Phryne delves into the investigation that she, too, remembers being in Montparnasse on that very same, and fatal, day. While Phryne is occupied with memories of Montparnasse past and the race to outpace the murderer, she finds troubles of a different kind at home. Her lover, Lin Chung, is about to be married. And the effect this is having on her own usually peaceful household is disastrous....

The 6:41 to Paris Jean-Philippe Blondel. 2015-11-09 After decades, former lovers come face to face in a novel filled with a "suspenseful dread that makes you want to turn every page at locomotive pace" (St. Louis Post-Dispatch). Cécile, a stylish forty-seven-year-old, has spent the weekend visiting her parents in a provincial town southeast of Paris. By early Monday morning, she's exhausted. These trips back home are always stressful, and she settles into a train compartment with an empty seat beside her. But it's soon occupied by a man she instantly recognizes: Philippe Leduc, with whom she had a passionate affair that ended in her brutal humiliation almost thirty years ago. In the fraught hour and a half that ensues, their express train hurtles toward the French capital. Cécile and Philippe undertake their own face-to-face journey—In silence? What could they possibly say to one another?—with the reader gaining entrée to the most private of thoughts. This intense, intimate novel offers "a taut, suspenseful psychological journey from which there is no escape . . . Gripping" (Kati Marton, author of *Paris: A Love Story*). "Perfectly written and a remarkably suspenseful read . . . Absorbing, intriguing, insightful." —Library Journal (starred review)

Communicative Figurations Andreas Hepp, Andreas Breiter, Uwe Hasebrink. 2017-11-27 This open access volume assesses the influence of our changing media environment. Today, there is not one single medium that is the driving force of change. With the spread of various technical communication media such as mobile phones and internet platforms, we are confronted with a media manifold of deep mediatization. But how can we investigate its transformative capability? This book answers this question by taking a non-media-centric perspective, researching the various figurations of collectivities and organizations humans are involved in. The first part of the book outlines a fundamental understanding of the changing media environment of deep mediatization and its transformative capacity. The second part focuses on collectivities and movements: communities in the city, critical social movements, maker, online gaming groups and networked groups of young people. The third part moves institutions and organizations into the foreground, discussing the transformation of journalism, religion, politics, and education, whilst the fourth and final part is dedicated to methodologies and perspectives.

The Meaning of Particle/prefix Constructions in German Robert B. Dewell. 2011 This is really two books in one: a valuable reference resource, and a groundbreaking case study that represents a new approach to constructional semantics. It presents a detailed descriptive survey, using extensive examples collected from the Internet, of German verb constructions in which the expressions *durch* ('through'), *über* ('over'), *unter* ('under'), and *um* ('around') occur either as inseparable verb prefixes or as separable verb particles. Based on that evidence, the author argues that the prefixed verb constructions and particle verb constructions themselves have meaning, and that this meaning involves subjective construal processes rather than objective information. The constructions prompt us to distribute focal attention according to patterns that can be articulated in terms of Talmy's notion of [perspectival modes]. Among the other topics that play an important role in the analysis are incremental themes, reflexive trajectories, fictive motion, [multi-directional paths], and [accusative landmarks].

While I Am Drawing Breath Rose Ausländer. 2014 The experience of living in the Chernovtsy ghetto under the Nazis remains a dark undertow of all the poetry Ausländer wrote, though she rarely addresses it explicitly. The hardships of a life in hiding, the constant fear of Nazi terror, the horror of the concentration camps are all present in many of the poems.

Modern German Grammar Ruth Whittle, John Klapper, Katharina Glöckel, Bill Dodd, Christine Eckhard-Black. 2013-03-01 *Modern German Grammar: A Practical Guide*, Third Edition is an innovative reference guide to German, combining traditional and function-based grammar in a single volume. The Grammar is divided into two parts. Part A covers grammatical categories such as word order, nouns, verbs and adjectives. Part B is organised according to language functions and notions such as: making introductions asking for something to be done delivering a speech possibility satisfaction. The book addresses learners' practical needs and presents grammar in both a traditional and a communicative setting. New to this edition, and building on feedback from the previous edition: The rules of the latest (and so far final) spelling reform have been implemented throughout. Examples of usage have been updated and consideration given to Swiss and Austrian variants. The chapter on register has been expanded and now includes youth language and frequently used Anglicisms in German. The Index now has even more key words; it has also been redesigned to differentiate between German words, grammar terms, and functions, thus making it more user-friendly. The Grammar assumes no previous grammatical training and is intended for all those who have a basic knowledge of German, from intermediate learners in schools and adult education to undergraduates taking German as a major or minor part of their studies. The Grammar is accompanied by a third edition of *Modern German Grammar Workbook* (ISBN 978-0-415-56725-1) which features exercises and activities directly linked to the Grammar. Ruth Whittle is Lecturer, John Klapper is Professor of Foreign Language Pedagogy, Katharina Glöckel is the Austrian Lektorin and Bill Dodd is Professor of Modern German Studies - all at the University of Birmingham. Christine Eckhard-Black is Tutor and Advisor in German at the Oxford University Language Centre.

Compassionate Communities Klaus Wegleitner, Katharina Heimerl, Allan Kellehear. 2015-06-26 Compassionate communities are communities that provide assistance for those in need of end of life care, separate from any official health service provision that may already be available within the community. This idea was developed in 2005 in Allan Kellehear's seminal volume- *Compassionate Cities: Public Health and End of Life Care*. In the ensuing ten years the theoretical aspects of the idea have been continually explored, primarily rehearsing academic concerns rather than practical ones. *Compassionate Communities: Case Studies from Britain and Europe* provides the first major volume describing and examining compassionate community experiments in end of life care from a highly practical perspective. Focusing on community development initiatives and practice challenges, the book offers practitioners and policy makers from the health and social care sectors practical discussions on the strengths and limitations of such initiatives. Furthermore, not limited to providing practice choices the book also offers an important and timely impetus for other

practitioners and policy makers to begin thinking about developing their own possible compassionate communities. An essential read for academic, practitioner, and policy audiences in the fields of public health, community development, health social sciences, aged care, bereavement care, and hospice & palliative care, *Compassionate Communities* is one of only a handful of available books on end of life care that takes a strong health promotion and community development approach.

Social Neuroeconomics Jens Harbecke, Carsten Herrmann-Pillath.2020-09-23 Neuroeconomics has emerged as a paradigmatic field where neuroscience and the social sciences are integrated in one analytical and empirical approach. However, the different disciplines involved often only relate to each other via the shared object of research, and less through the constructing of precise models of integrative mechanisms. Social Neuroeconomics explores the potential of philosophical and methodological reflections in the neurosciences and the social sciences to inform those efforts at cross-disciplinary integration, with a special focus on recent contributions to mechanistic explanations. The collected essays are drawn from the fields of neuroscience, psychology, economics, sociology and philosophy, and examine the ways and methods of constructing unified conceptual frameworks that can guide empirical work and hypothesis building. This is demonstrated in a range of applications, particularly regarding finance and consumer behavior. The concept of the 'social brain' is also explored; a multilevel framework in which complex analytical categories such as emotions or socially mediated cognitive processes connect neuronal and social phenomena in specific mechanisms that generate behavior. This book addresses a wide audience across the various disciplines, reaching from the neurosciences to the social sciences and philosophy.

PolyluxMarx Valeria Bruschi, Antonella Muzzupappa, Sabine Nuss, Anne Steckner, Ingo Stütze.2014-03-01 The Great Recession, triggered by the collapse of financial markets in 2008, struck with such ferocity that millions of people began to question the rationality of our capitalist economic system. And as scholars, journalists, and activists tried to comprehend what was happening, they were forced to look deeply into the nature of capitalism—inevitably leading them to the work of Karl Marx. Now, Marx is enjoying a worldwide rediscovery and resurrection, and his masterwork, *Capital*, has found its way back into college classrooms, labor unions, the Occupy movement, study groups, and into the hands of disillusioned young people. Reading *Capital* can be a daunting endeavor and most readers need guidance when tackling this complex work. PolyluxMarx provides such guidance. Developed by scholars and political activists associated with the Rosa Luxemburg Stiftung (Foundation), one of the leading political education institutions in Germany, this book has been field tested with groups studying Marx's masterpiece over several years. It consists of a large set of PowerPoint presentations, combined with detailed annotations and suggestions for ways to discuss the material. Each page illustrates a central argument from *Capital*, provides helpful introductory texts, and supplies notes on methodology and teaching tips. PolyluxMarx is an ingeniously devised illustrated workbook that will help readers grasp the key arguments of *Capital*. It will prove invaluable to the curious reader of all ages, as well as to students, teachers, workers, activists, and study groups.

Ethnopsychiatry Henri F. Ellenberger.2020-12-17 What is the relationship between culture and mental health? Is mental illness universal? Are symptoms of mental disorders different across social groups? In the late 1960s these questions gave rise to a groundbreaking series of articles written by the psychiatrist Henri Ellenberger, who would go on to publish *The Discovery of the Unconscious: The History and Evolution of Dynamic Psychiatry* in 1970. Fifty years later they are presented for the first time in English translation, introduced by historian of science Emmanuel Delille. Ethnopsychiatry explores one of the most controversial subjects in psychiatric research: the role of culture in mental health. In his articles Ellenberger addressed the complex clinical and theoretical problems of cultural specificity in mental illness, collective psychoses, differentiations within cultural groups, and biocultural interactions. He was especially attuned to the correlations between rapid cultural transformations in postwar society, urbanization, and the frequency of mental illness. Ellenberger drew from a vast and varied primary and secondary literature in several languages, as well as from his own findings in clinical practice, which included work with indigenous peoples. In analyzing Ellenberger's contributions Delille unveils the transnational and interdisciplinary origins of transcultural psychiatry, which grew out of knowledge networks that crisscrossed the globe. The book has a rich selection of appendices, including Ellenberger's lecture notes on a case of peyote addiction and his correspondence with anthropologist and psychoanalyst Georges Devereux. These original essays, and their masterful contextualization, provide a compelling introduction to the foundations of transcultural psychiatry and one of its most distinguished and prolific researchers.

With Hearts, Hands and Voices Margot Kässmann.2007 At a time when many people are trying to give depth to their lives and seeking answers for mind, body and spirit, this book by Margot Kässmann from Germany brings to light the wealth of spiritual tradition offered by Christianity. Against the background of the spiritual resources of the Bible, worship, prayer and song, the book explores the diversity of spiritual opportunities open to individuals or groups. Using examples from the past and from the present day, the book is an encouragement to hold together the tension between hope and struggle, prayer and action, the life of faith and responsibility for the world. Though written from a Protestant -- and specifically Lutheran -- perspective, this book is also an invitation to discover the ecumenical opportunities offered by spirituality. Keeping silence with one another, meditating, listening to music or being confronted with art, a spiritual approach to faith cuts across the borders of confession, culture and language.

An Elephant in My Kitchen Françoise Malby-Anthony, Katja Willemsen.2019-11-05 THE INTERNATIONAL BESTSELLER Malby-Anthony offers a book of great inspiration and wide appeal to nature-loving readers. —Publishers Weekly A heart-warming sequel to the international bestseller *The Elephant Whisperer*, by Lawrence Anthony's wife Françoise Malby-Anthony. A chic Parisienne, Françoise never expected to find herself living on a South African game reserve. But then she fell in love with conservationist Lawrence Anthony and everything changed. After Lawrence's death, Françoise faced the daunting responsibility of running Thula Thula without him. Poachers attacked their rhinos, their security team wouldn't take orders from a woman and the authorities were threatening to cull their beloved elephant family. On top of that, the herd's feisty new matriarch Frankie didn't like her. In this heart-warming and moving book, Françoise describes how she fought to protect the herd and to make her dream of building a wildlife rescue center a reality. She found herself caring for a lost baby elephant who turned up at her house, and offering refuge to traumatized orphaned rhinos, and a hippo called Charlie who was scared of water. As she learned to trust herself, she discovered she'd had Frankie wrong all along. Filled with extraordinary animals and the humans who dedicate their lives to saving them, *An Elephant in My Kitchen* is a captivating and gripping read.

Greek Cities and Roman Governors Garrett Ryan.2021-07-29 This volume uses the travels of Roman governors to explore how authority was

defined in and by the public places of Greek cities. By demonstrating that the places where imperial officials and local notables met were integral to the strategies by which they communicated with one another, Greek Cities and Roman Governors sheds new light on the significance of civic space in the Roman provinces. It also presents a fresh perspective on the monumental cityscapes of Roman Asia Minor, epicenter of the greatest building boom in classical history. Though of special interest to scholars and students of Roman Asia Minor, Greek Cities and Roman Governors offers broad insights into Roman imperialism and the ancient city.

Deep Mediatization Andreas Hepp.2019-12-06 Andreas Hepp takes an integrative look at one of the biggest questions in media and communications research: how digital media is changing society. Often, such questions are discussed in isolation, losing sight of the overarching context in which they are situated. Hepp has developed a theory of the re-figuration of society by digital media and their infrastructures, and provides an understanding of how profound today's media-related changes are, not only for institutions, organizations and communities, but for the individual as well. Rooted in the latest research, this book does not stop at a description of media-related change; instead, it raises the normative challenge of what deep mediatization should look like so that it might just stimulate a 'good life' for all. Providing original and critical research, the book introduces deep mediatization to students of media and cultural studies, as well as neighboring disciplines like sociology, political science and other cognate disciplines.

Life Together Dietrich Bonhoeffer.1978-10-25 After his martyrdom at the hands of the Gestapo in 1945, Dietrich Bonhoeffer continued his witness in the hearts of Christians around the world. His Letters and Papers from Prison became a prized testimony to Christian faith and courage, read by thousands. Now in Life Together we have Pastor Bonhoeffer's experience of Christian community. This story of a unique fellowship in an underground seminary during the Nazi years reads like one of Paul's letters. It gives practical advice on how life together in Christ can be sustained in families and groups. The role of personal prayer, worship in common, everyday work, and Christian service is treated in simple, almost biblical, words. Life Together is bread for all who are hungry for the real life of Christian fellowship.

The Patient Ferment of the Early Church Alan Kreider.2016-03-29 How and why did the early church grow in the first four hundred years despite disincentives, harassment, and occasional persecution? In this unique historical study, veteran scholar Alan Kreider delivers the fruit of a lifetime of study as he tells the amazing story of the spread of Christianity in the Roman Empire. Challenging traditional understandings, Kreider contends the church grew because the virtue of patience was of central importance in the life and witness of the early Christians. They wrote about patience, not evangelism, and reflected on prayer, catechesis, and worship, yet the church grew--not by specific strategies but by patient ferment.

The European Union and Border Conflicts Thomas Diez,Mathias Albert,Stephan Stetter.2008-03-27 It is generally assumed that regional integration leads to stability and peace. This book is a systematic study of the impact of European integration on the transformation of border conflicts. It provides a theoretical framework centred on four 'pathways' of impact and applies them to five cases of border conflicts: Cyprus, Ireland,

Greece/Turkey, Israel/Palestine and various conflicts on Russia's border with the EU. The contributors suggest that integration and association provide the EU with potentially powerful means to influence border conflicts, but that the EU must constantly re-adjust its policies depending on the dynamics of each conflict. Their findings reveal the conditions upon which the impact of integration rests and challenge the widespread notion that integration is necessarily good for peace. This book will appeal to scholars and students of international relations, European politics, and security studies studying European integration and conflict analysis.

The Misunderstanding of the Church Emil Brunner. 2002 Brunner sees St Paul's Epistle to the Romans as 'the chapter of destiny of the Christian Church'. Here, in Luther's words, is the 'purest gospel' upon which the very existence of the Christian faith depends and from which it draws its life. Concentrated, decisive and instructive, nothing within the New Testament is more closely argued both theological and personal. Out of his years of scholarly wisdom Brunner meditates on the great Question: What is wrong with the Churches? Brunner finds an answer in the contrast between the virile Spirit-filled fellowship of the New Testament and the institutions which are now called 'churches'. He writes in his preface: 'The title of the book, The Misunderstanding of the Church, is equivocal. Is it a question of a misunderstanding of which the Church is guilty, or of a misunderstanding of which it is the victim? Or is it that the Church itself, as such, is perhaps the product of a misunderstanding? The author is not responsible for this ambiguity; it is intrinsic in the theme itself.'

Repainting the Little Red Schoolhouse John Rodden. 2002 This is the first English-language study of GDR education and the first book, in any language, to trace the history of Eastern German education from 1945 through the 1990s. Rodden fully relates the GDR's attempt to create a new Marxist nation by means of educational reform, and looks not only at the changing institution of education but at something the Germans call Bildung--the formation of character and the cultivation of body and spirit. The sociology of nation-building is also addressed.
